4) Issuer's Business, Products and Services

The purpose of this section is to provide a clear description of the issuer's current operations. Ensure that these descriptions are updated on the Company's Profile on www.OTCMarkets.com.

A. Summarize the issuer's business operations (If the issuer does not have current operations, state "no operations")

The Company was incorporated on September 21, 2017, in the state of Colorado. Omega focuses primarily on the real estate sector and the oil and gas marketplace by making cash investments within these two investment sectors. We plan to acquire assets on an all-cash basis but may elect to use some low levels of leverage on

⁶ The total number of shares that can be issued upon full conversion of the Outstanding Balance. The number should not factor any "blockers" or limitations on the percentage of outstanding shares that can be owned by the Noteholder at a particular time. For purposes of this calculation, please use the current market pricing (e.g. most recent closing price, bid, etc.) of the security if conversion is based on a variable market rate.

short-term loans, primarily in the form of notes due to sellers which we plan to quickly repay. The Company's plans include making investments within these sectors for cash and, after paying expenses of operations and management, distributing a portion of the cash flow back to its investors, reinvesting a portion of the cash flow back into more cash-flowing investments, and setting aside some cash in operating reserves.

B. List any subsidiaries, parent company, or affiliated companies.

C. Describe the issuers' principal products or services.

We currently own 2 parcels in Johnstown, CO (1 is called The Landings, which is an apartment complex that has been through entitlements and is ready for construction; 1 is a commercial building called Trappers Rendezvous going through design and entitlements currently; and 1 Joint Venture parcel in Platteville, CO called Trappers Point, which has 179 acres currently being designed to have 39 estate-style acreages.)

5) Issuer's Facilities

The goal of this section is to provide investors with a clear understanding of all assets, properties or facilities owned, used or leased by the issuer and the extent in which the facilities are utilized.

In responding to this item, please clearly describe the assets, properties or facilities of the issuer. Describe the location of office space, data centers, principal plants, and other property of the issuer and describe the condition of the properties. Specify if the assets, properties, or facilities are owned or leased and the terms of their leases. If the issuer does not have complete ownership or control of the property, describe the limitations on the ownership.

Our office is 1,500 sq ft with a conference room located just above the First Nation Bank building in Fort Collins, CO.

6) All Officers, Directors, and 5% Beneficial Owners of the Company

Using the table below, please provide information, as of the period end date of this report, regarding all officers and directors of the company, or any person that performs a similar function, regardless of the number of shares they own.

In addition, list all individuals or entities controlling 5% or more of any class of the issuer's securities.

If any insiders listed are corporate shareholders or entities, provide the name and address of the person(s) beneficially owning or controlling such corporate shareholders, or the name and contact information (City, State) of an individual representing the corporation or entity. Include Company Insiders who own any outstanding units or shares of any class of any equity security of the issuer.

The goal of this section is to provide investors with a clear understanding of the identity of all the persons or entities that are involved in managing, controlling or advising the operations, business development and disclosure of the issuer, as well as the identity of any significant or beneficial owners.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Board of Directors and Stockholders of Omega Resources, Inc. and Subsidiary

Opinion on the Financial Statements

We have audited the accompanying consolidated balance sheet of Omega Resources, Inc. and Subsidiary (the "Company") as of December 31, 2025, and the related consolidated statements of operations, changes in stockholders' equity, and cash flows for the year then ended, including the related notes (collectively referred to as the "consolidated financial statements").

In our opinion, the consolidated financial statements present fairly, in all material respects, the financial position of the Company as of December 31, 2025, and the results of its consolidated operations and its consolidated cash flows for the year then ended, in conformity with accounting principles generally accepted in the United States of America.

Basis for Opinion

These consolidated financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on the Company's consolidated financial statements based on our audit. We are a public accounting firm registered with the Public Company Accounting Oversight Board (United States) (PCAOB) and are required to be independent with respect to the Company in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audit in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement, whether due to error or fraud. The Company is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. As part of our audits, we are required to obtain an understanding of internal control over financial reporting, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control over financial reporting. Accordingly, we express no such opinion.

Our audits included performing procedures to assess the risks of material misstatement of the financial statements, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements. Our audits also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the financial statements. We believe that our audits provide a reasonable basis for our opinion.

Substantial Doubt about the Company's Ability to Continue as a Going Concern

The accompanying consolidated financial statements have been prepared assuming that the Company will continue as a going concern. As discussed in Note 15, the Company has incurred recurring losses and has a working capital deficit, as current liabilities exceeded current assets by \$1,389,990 and \$740,445 as of December 31, 2025 and 2024, respectively. These conditions raise substantial doubt about the Company's ability to continue as a going concern. Management plans to address these conditions through additional financing, support from principals, and anticipated revenues from development projects; however, the successful implementation of these plans is subject to various factors and uncertainties. The consolidated financial statements do not include any adjustments that might result from this uncertainty. Our opinion is not modified with respect to this matter.

Other Matter – Prior Year Financial Statements

The consolidated financial statements of the Company as of and for the year ended December 31, 2024 were audited by another independent auditor who expressed an unmodified opinion on those financial statements in their report dated August 4, 2025.

Critical Audit Matters

Critical audit matters are matters arising from the current period audit of the financial statements that were communicated or required to be communicated to the audit committee and that (1) relate to accounts or disclosures that are material to the financial statements and (2) involved our especially challenging, subjective, or complex judgments. We determined that there were no critical audit matters.

Notes to Consolidating and Consolidated Financial Statements For Years Ending December 31, 2025 and 2024

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Nature of Business - The Company is an investment company. The Company is pursuing commercial real estate developments and acquisitions. The Company is also engaged in oil and gas extraction and is currently producing and selling oil and natural gas.

Basis of Presentation - The accompanying financial statements have been prepared in conformity with accounting principles generally accepted in the U.S. ("GAAP").

Cash and Cash Equivalents - The Company considers all highly liquid investments with a maturity of three months or less, when purchased, to be cash equivalents and classifies such amounts as cash.

Oil & Gas Properties – Costs of oil and gas properties are capitalized at cost and depleted based on extraction using the cost depletion method.

Estimates - The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect certain amounts and disclosures. Actual results could differ from those estimates.

Income Taxes - Under ASC 740, "Income Taxes," deferred tax assets and liabilities are recognized for future tax consequences attributable to temporary differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax basis. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. Valuation allowances are provided when it is more likely than not that some or all of the deferred tax assets will not be realized.

Fair Value Measurements - The Company adopted the provisions of ASC Topic 820, "Fair Value Measurements and Disclosures", which defines fair value as used in numerous accounting pronouncements, establishes a framework for measuring fair value and expands disclosure of fair value measurements.

The estimated fair value of certain financial instruments, including payables to related parties, and accounts payable and accrued expenses are carried at historical cost basis, which approximates their fair values because of the short-term nature of these instruments.

ASC 820 defines fair value as the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date. ASC 820 also establishes a fair value hierarchy, which requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. ASC 820 describes three levels of inputs that be used to measure fair value:

Level 1 - quoted prices in active markets for identical assets or

Level 2 - quoted prices for similar assets and liabilities in active markets or inputs that are observable

Level 3 - inputs that are unobservable (for example cash flow modeling inputs based on assumptions)

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Fair Value Measurements - The Company's financial liabilities are measured at fair value and include its notes payable. These liabilities are subject to the measurement and disclosure requirements of ASC 820 and are considered to be Level 3 inputs.

Related Parties - The Company follows ASC 850, Related Party Disclosures, for the identification of related parties and disclosure of related party transactions.

Share-based Expense - ASC 718, "Compensation – Stock Compensation", prescribes accounting and reporting standards for all share-based payment transactions in which employee services are acquired. Transactions include incurring liabilities, or issuing or offering to issue shares, options, and other equity instruments such as employee stock ownership plans and stock appreciation rights. Share-based payments to employees, including grants of employee stock options, are recognized as compensation expense in the financial statements based on their fair values. That expense is recognized over the period during which an employee is required to provide services in exchange for the award, known as the requisite service period (usually the vesting period).

The Company accounts for stock-based compensation issued to non-employees and consultants in accordance with the provisions of ASC 505-50, "Equity – Based Payments to Non-Employees." Measurement of share-based payment transactions with non-employees is based on the fair value of whichever is more reliably measurable: (a) the goods or services received; or (b) the equity instruments issued. The fair value of the share-based payment transaction is determined at the earlier of performance commitment date or performance completion date.

The Company had no employee stock-based compensation plans as of December 31, 2025 and December 31, 2024.

Earnings Per Share - FASB ASC 260, "Earnings Per Share" provides for calculation of "basic" and "diluted" earnings per share. Basic earnings per share include no dilution and are computed by dividing net income (loss) available to common shareholders by the weighted average common shares outstanding for the period. Diluted earnings per share reflect the potential dilution of securities that could share in the earnings of an entity similar to fully diluted earnings per share. Basic and diluted loss per share were the same, at the reporting dates, as there were no common stock equivalents outstanding.

Revenue Recognition - Revenue is recognized when persuasive evidence of an arrangement exists, delivery has occurred, the fee is fixed or determinable, and collectability is probable. Revenue generally is recognized net of allowances for returns and any taxes collected from customers and subsequently remitted to governmental authorities.

Notes to Consolidating and Consolidated Financial Statements For Years Ending December 31, 2025 and 2024

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Revenue Recognition - In May 2014, the FASB issued ASU No. 2014-09, Revenue from Contracts with Customers (Topic 606), specifically ASC 606-10-50-12. This standard provides a single set of guidelines for revenue recognition to be used across all industries and requires additional disclosures. The updated guidance introduces a five-step model to achieve its core principle of the entity recognizing revenue to depict the transfer of goods or services to customers at an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. The Company adopted the updated guidance effective January 1, 2019, using the full retrospective method, however the new standard did not have a material impact on its consolidated financial position and consolidated results of operations, as it did not change the manner or timing of recognizing revenue.

Reclassification – Certain amounts in the prior year financial statements have been reclassified to conform to the current year presentation.

2. REVENUE RECOGNITION

The Company recognizes revenue as gas is produced and distributed. The Company recognized revenues of \$13,129 and \$14,652, for the years ending December 31, 2025 and December 31, 2024, respectively.

3. RECENTLY ISSUED ACCOUNTING PRONOUNCEMENTS

In February 2016, the FASB issued ASU 2016-00, Leases. The ASU introduces a lessee model that brings most leases on the balance sheet. The new standard also aligns many of the underlying principles of the new lessor model with those in the current accounting guidance as well as the FASB's new revenue recognition standard. However, the ASU eliminates the use of bright-line tests in determining lease classification as required in the current guidance. The ASU also requires additional qualitative disclosures along with specific quantitative disclosures to better enable users of financial statements to assess the amount, timing, and uncertainty of cash flows arising from leases. The Company has adopted ASU No. 2016-02, Leases (Topic 842), as of January 1, 2019, and will account for their lease in terms of the right of use assets and offsetting lease liability obligations for this new lease under this pronouncement. The adoption of this guidance had no material impact on the financial statements.

In December 2019, the FASB issued ASU- 2019-12, Income Taxes. The new standard was issued to simplify the accounting for income taxes. The guidance eliminates certain exceptions related to the approach for intra period tax allocation, the methodology for calculating income taxes in an interim period, and the recognition of deferred tax liabilities for outside basis differences related to changes in ownership of equity method investments and foreign subsidiaries. The guidance also simplifies aspects of accounting for franchise taxes and enacted changes in tax laws or rates and clarifies the accounting for transactions that result in a step-up in the tax basis of goodwill. The standard will be effective for us beginning July 1, 2021, with early adoption permitted. We are currently evaluating the impact of this standard in the financial statements, including accounting policies, processes, and systems. There were other updates recently issued, most of which represent technical corrections to the accounting literature or application to specific industries or transactions that are not expected to have a material impact on the Company's financial position, results of operations or cash flows.

The financials have been consolidated for the year ending December 31, 2025 and December 31, 2024.

5. FIXED ASSETS & OIL AND GAS PROPERTIES

Fixed assets are stated at cost and depreciated over their estimate useful lives of the assets. Depreciation is computer using the straight-line method for financial reporting purposes. Additions and betterments are capitalized, whereas costs of maintenance and repairs are charged to expense as incurred.

Costs of oil and gas properties are capitalized using the full cost method and are then written off through depletion based on actual production compared to estimated reserves.

See Note #12 for more information on return of common stock that was originally issued for oil and gas properties.

For the years ending December 31, 2025 and December 31, 2024, there was depletion recorded for oil and gas wells that did have oil production during the period. For the years ending December 31, 2025 and December 31, 2024, the company has depletion expense of \$0 and \$1,103, respectively.
