4) Issuer's Business, Products and Services

The purpose of this section is to provide a clear description of the issuer's current operations.

(Please ensure that these descriptions are updated on the Company's Profile on www.otcmarkest.com).

A. Summarize the issuer's business operations (If the issuer does not have current operations, state "no operations")

NuVim, Inc. (the Company) founded in 1999, specializes in producing, marketing, and distributing with limited sales of powder mix dietary supplements under the NuVim brand. The Company provides consumers with products that help bring an overall better quality of life and help address specific health concerns. Specifically, the current NuVim products help strengthen the immune

system, enhance muscle, and bone health and aid in consistent digestion while delivering 100% of the daily requirement of vitamins C, E, B12, and zinc. There are 3 varieties of the powder mix products, Chocolate, Vanilla, and Strawberry, sold from the NuVim web site at www.nuvim.online. Each box contains 30 individually foil lined packets which is a one-month supply. The consumer adds the NuVim powder mix to yogurt, cereal, water juice and other beverages and foods. All product health benefit claims are based on the date of manufacture.

In past years NuVim has also marketed NuVim in ready-to-drink bottles sold from the refrigerated juice section of supermarkets, military commissaries, and Wal-Mart. Distribution was from Maine to Florida and as far west as Michigan. Due to lack of funding from the key investor group at the time the Company had to redesign their business model. A longer-term goal is to again market ready to drink products and develop a venture with a business to incorporate the NuVim health ingredients into their products.

A new improved formula of 5 varieties of the powder mix product line has been developed, taste tested and tested for extended shelf life. These products have been developed with the assistance of dieticians, Doctor John St. Cyr, and other resource groups including professional product development specialists. Doctor St. Cyr has been retained as a consultant going forward and will endorse the reformulated products when they are introduced to the market.

These new products incorporate a unique combination of compounds in the right amounts to provide a level of antioxidants designed to help neutralize free radicals, thus maintaining healthy functioning body cells and enhancing immune health and cardiovascular health, muscle and bone strength and mental acuity. There is also a prebiotic included to increase beneficial bacteria in the gut, indigenous to the digestive system. The new NuVim has compounds that promote healthy skin and a much shorter recovery time when feeling fatigued and run down. All compounds are considered by the FDA as Generally Recognized as Safe (GRAS).

The all-natural product line does not contain caffeine, fat, cholesterol, gluten, lactose, or a high caloric level. There are less than 20 calories per serving. The products deliver a good source of fiber, prebiotics for beneficial bacterial growth, vitamins C, E, B12, D3, and L-Citrulline.

The reformulated product is excellent for professional and amateur athletes, the weekend warrior and busy everyday consumers who want to live a healthier, more energetic quality of life.

In addition to the new product line growth initiative, the Company has evaluated several potential partnerships in the form of joint ventures, technology license agreements, or mergers. Ongoing discussions continue with one potentially interested private entities. The Company has approximately \$33000 in short-term debt. This is a significant improvement of the balance sheet from 2015 when the debt load was \$1.2 million. This task was accomplished without a significant dilution of the shareholders. Total shares outstanding is approximately 119 million. There are 120 million common shares authorized and 65 million preferred authorized. No preferred shares are outstanding. Annual and Quarterly filings with the Over-the-Counter Markets have been complete and on schedule for several years.

Company revenue has been limited due to the anticipation of the new product launch and potential agreement with private entities.

B. List any subsidiaries, parent company, or affiliated companies.

None

C. Describe the issuers' principal products or services.

The NuVim dietary supplement products are marketed to both men and women in all stages of life and to help professional athletes, weekend warriors, and those incurring immune dysfunction or lack of energy and mental alertness.

5) Issuer's Facilities

The goal of this section is to provide a potential investor with a clear understanding of all assets, properties or facilities owned, used or leased by the issuer and the extent in which the facilities are utilized.

In responding to this item, please clearly describe the assets, properties or facilities of the issuer. Describe the location of office space, data centers, principal plants, and other property of the issuer and describe the condition of the properties. Specify if the assets, properties, or facilities are owned or leased and the terms of their leases. If the issuer does not have complete ownership or control of the property, describe the limitations on the ownership.

NuVim's headquarters is located in Lewes, Delaware . No manufacturing facilities are owned by NuVim. The products are co-packed under NuVim quality control supervision. No offices or distribution facilities are owned by NuVim. To control administrative costs, future sales of the new products will be generated through broker networks on a commission basis, through direct sales, through e-commerce and through prearranged contractual agreements. The Company is in process of moving its offices to either South Carolina or Florida.

6) Officers, Directors, and Control Persons

Using the table below, please provide information, as of the period end date of this report, regarding any officers, or directors of the company, individuals or entities controlling more than 5% of any class of the issuers' securities, or any person that performs a similar function, regardless of the number of shares they own. **If any insiders listed are corporate shareholders or entities, provide the name and address of the person(s) beneficially owning or controlling such corporate shareholders, or the name and contact information (City, State) of an individual representing the corporation or entity in the note section.**

Include Company Insiders who own any outstanding units or shares of any class of any equity security of the issuer.

The goal of this section is to provide an investor with a clear understanding of the identity of all the persons or entities that are involved in managing, controlling or advising the operations, business development and disclosure of the issuer, as well as the identity of any significant or beneficial shareholders.

NuVim, Inc.

Management's Discussion and Analysis of Financial Condition and Results of Operations during the Quarter ended June 30, 2026

A) Results of Operations

Results of operations for the Quarter ended June 30, 2026, compared to the Quarter ended June 30 2025

Sales For the Quarter ended June 30, 2026, there were gross sales of \$520, an increase of \$520, from no gross sales for the Quarter ended June 30, 2025. This increase for the Quarter is the result of efforts to sell the remaining inventory of current products. The plan is to replace the currently formulated products with a new improved powder mix product line. The second initiative the Company has been pursuing is a potential collaboration with another company that would improve both companies' revenue and profits. The Company is diligently working to achieve a potential collaboration with another company. The Company has for the past several months been in discussions with other candidates that have both significant revenues and profits and fit more closely with the NuVim product line of increasing consumer health benefits.

Cost of Sales NuVim was required to periodically assess the value of its inventory for impairment. Several years ago, the value of the inventory was reduced to zero. Therefore, NuVim's books reflect no cost for the inventory now being sold. The Company has eliminated most of the inventory.

Gross Profit There was a gross profit of \$520 for the Quarter ended June 30, 2026, an increase of \$520 from none for the Quarter ended June 30, 2025, the same as the increase in Net Sales. As explained above, Gross profit as a percentage of gross sales was 100% during this Quarter, the same as in 2025.

Selling, General and Administrative Expenses Selling, general and administrative expenses were \$3,714 for the Quarter ended June 30, 2026, down 28% from the \$5,188 for the Quarter ended March 31, 2025. This reduction is due to management's continuing efforts to control expenses.

Loss from Operations Loss from operations was \$3,194 for the Quarter ended June 30, 2026, compared to \$5,188 for the Quarter ended June 30, 2025. The decrease of \$1,994 is a result of the management's expense discipline.

Interest Expense Interest expense was \$149 for the Quarter ended June 30, 2026, almost identical to the interest expense of \$148 for the Quarter ended March 31, 2025. This reflects the stability of the Company's debt.

Net Loss Net loss was \$3,343 for the Quarter ended June 30, 2026, compared to \$5,336 for the Quarter ended June 30, 2025. The decrease in the loss of \$2,023 is primarily due to the impact of the factors described above.

B. Liquidity and Capital Resources

Our operations to date have generated significant operating losses that have been funded through the issuance of common stock and external borrowings. We will require additional sources of outside capital to continue our current operations and to fund a collaboration with another company.

If we are not able to identify additional sources of financing, we may not be able to continue operations beyond December 2026.

NuVim's Shareholders' Deficit was \$33,082 on June 30, 2026, as compared with \$31,147 at the end of 2025, reflecting new capital raised of \$1,408 offset by the \$3,343 net loss during the first Quarter. The Working Capital deficit at the end of this Quarter was \$33,082, compared to the Working Capital deficit of \$31,147 at the end of 2025 reflecting an increase in current assets.

Net cash used in operating activities for the Quarter ended June 30, 2026, was \$1,077 compared to cash used in operating activities of \$12,620 during the First Quarter of 2025.

\$1,408 was provided by financing activities during the First Quarter of 2026; compared to \$15,000 provided for the Quarter ended March 31, 2025.

As a result, there was \$331 of cash on hand as of June 30, 2026, as compared with none at the end of December 2025.

D. Off-Balance Sheet Arrangements

NuVim does not have any relationships with unconsolidated entities or financial partnerships, such as entities often referred to as structured finance or special purpose entities, which would have been established for the purpose of facilitating off-balance sheet arrangements or other contractually narrow or limited purposes.

10) Issuer Certification

Principal Executive Officer:
