NNRF, INC.
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
FOR THE 6 MONTHS ENDED JUNE 30, 2026
(Unaudited)

NOTE 1 - GENERAL ORGANIZATION AND BUSINESS

NNRF, Inc. (the “Company” or “NNRF”) seeks to invest in, or merge with, businesses that offer attractive earnings and growth potential, particularly in innovative and cutting-edge technology, engineering, health and green environmental solutions. More recently its focus is becoming a forward-thinking investor dedicated to spearheading positive change in the green circular economy. Through strategic acquisitions, joint ventures, and innovative initiatives, NNRF envisions a world where sustainable technologies and solutions thrive, fostering a harmonious balance between economic prosperity and environmental stewardship. Committed to sustainability, NNRF's is working on creating a diversified portfolio, which will bring together a team of visionary leaders, driving a renewable future that benefits both humanity and the planet.

The Company was incorporated on February 16, 1999 in the state of Nevada.

Since 2007, the Company has invested and/or has attempted to actively acquire or merge with businesses that are

On September 30, 2024 the Company formed Elevate Biologix, LLC in New Jersey as a wholly-owned subsidiary to launch a line of online skin care and wellness products sold through its website, elevatebiologix.com, including eye cream, moisturizer and hydration cream.

To provide financing for the Company's continued business development, on November 26, 2024 the Company entered into a Stock Purchase Agreement with Earth Sciences/Darel Tiegs (“ES”) whereby ES agreed to acquire 100,000,000 of the Company's restricted common shares for the aggregate sum of \$1,000,000 (or \$0.01 per share). This transaction however has not been fulfilled. To date and separately, on a cumulative basis, ES paid a combined total of \$180,000 to acquire 18,000,000 restricted common shares.

On August 6, 2026 the Company announced that it has entered into an Exclusive Option and Strategic Partnership Agreement with Zeolite Australia Pty Ltd., providing NNRF with the exclusive option to acquire commercialization rights for Zeolite Australia's proprietary environmental technologies throughout the United States, definitive Exclusive License Agreement which would grant NNRF exclusive North American rights to import materials, manufacture products relating to Zeolite utilizing the licensed technology, distribute products, and grant sublicenses throughout the territory, coupled with a long-term Master Supply Agreement to provide a reliable supply of premium Australian zeolite supporting future manufacturing and commercialization activities.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Principles of and Basis of Presentation - The Company's financial statements have been prepared in accordance with accounting principles generally accepted in the United States (GAAP) and include the balance sheet and results of operations of its wholly-owned subsidiary, Elevate Biologix, LLC, formed on September 30, 2024.

Use of estimates - The preparation of financial statements in conformity U.S. GAAP requires the Company to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting period. Ultimate realization of assets and settlement of liabilities in the future could materially differ from those estimates. Significant estimates include the valuation of common and preferred stock issued for services rendered, amortization of fixed assets and the valuation of deferred taxes.

Long-Lived Assets – The Company evaluates long-lived assets for impairment whenever events or changes in circumstances indicate the carrying amount of an asset may not be recoverable. When indicators of impairment are present and the undiscounted cash flows estimated to be generated by those assets is less than the assets' carrying amount. The Company measures the amount of such impairment by comparing the assets' carrying value to the assets' present value of the expected future discounted cash flows. Impairment charges, if any, are recorded in the period realized.

Intellectual property and related technology represent assets derived from the acquisition of Elevate Nutraceuticals, LLC which was acquired effective December 31, 2022 through the issuance of 75 million of the Company's restricted common stock (Elevate Nutraceuticals, LLC was subsequently administratively dissolved on September 23, 2023).. These assets included customers lists and commercial relationships, together with certain production and distribution processes and systems, for a combined cost of \$285,000. The asset has been amortized on a straight-line basis over 36 months, reported as an operating expense at the rate of \$95,000 per year (\$ 23,750 per quarter). As of June 30 2026 and as of December 31, 2025 cumulative amortization on this intellectual property totals \$285,000, leaving no remaining balance at June 30, 2026 and at December 31, 2025.

Earnings (Loss) per Share - Basic earnings (loss) per share is calculated by dividing the Company's net income (loss) available to common shareholders by the weighted average number of common shares during the year or period presented. The diluted earnings (loss) per share is calculated by dividing the Company's net income (loss) available to common shareholders by the diluted weighted average number of shares outstanding during the year or period presented. The diluted weighted average number of shares outstanding is the basic weighted number of shares adjusted for any potentially dilutive debt or equity. Diluted earnings (loss) per share are the same as basic earnings (loss) per share when the Company has a loss.

Income Taxes- Income taxes are provided in accordance with ASC 740, *Income Taxes*. A deferred tax asset or liability is recorded for all temporary differences between financial and tax reporting and net operating loss carry forwards. Deferred tax expense (benefit) results from the net change during the year for deferred tax assets and liabilities.

Deferred tax assets are reduced by a valuation allowance when, in the opinion of management, it is more likely than not that some portion or all of the deferred tax assets may not be realized. Deferred tax assets and liabilities are adjusted for the effects of changes in tax laws and rates on the date of enactment.

NOTE 3 - GOING CONCERN

The Company has recurring losses from operations, has a substantial working capital deficit and as of June 30 , 2026 and has no cash balances. The Company may continue to incur losses and will require cash flow until it achieves market stability through the success in operations of newly acquired subsidiaries and/or through additional equity sales, other alternative financing arrangements, and/or a merger with a profitable business, and until its investments yield revenue and cash flow. There is no guarantee that the Company will be successful in raising the necessary capital needed, or if operations will be sustained to achieve profitability. These conditions raise substantial doubt about the Company's ability to continue as a going concern. As at June 30, 2026 and as at December 31, 2025 no loss or expense has been accrued should the Company not be able to continue operations.

NOTE 4- INVESTMENT

The Company owns the following investment:

Zao Electro Machinery Building Plant ATOLL

Towards the end of 2006 the Company acquired 13.25% of the equity interests of Zao Electro Machinery Building Plant Atoll ("ATOLL"), a Russian corporation, for \$1,166,250. In March 2007, the Company acquired an additional 36.75% interest for \$1,000,000 in cash payments and the issuance of 4,000,000 shares of the Company's common stock valued at \$2,400,000 or \$0.60 per share, which was equal to the closing price of the common stock on the date of the transaction, for a total investment cost of \$4,566,250.

The remaining 50% ownership of ATOLL is concentrated among a very small group of shareholders. Due to this concentration and the nature of the industry that ATOLL operates in, the Company, at this time is unable to influence

significant control. The Company has evaluated its investment in ATOLL and concluded that the investment in ATOLL will be recognized at the lower of cost in accordance with Financial Accounting Standards Board ("FASB") Interpretation 35 "*Criteria for Applying the Equity Method of Accounting for Investments in Common Stock.*" ATOLL is a manufacturing and research facility established to develop, manufacture and sell products designated for nuclear facilities such as nuclear power plants.

ASC 350-20-35-3C provides guidance and examples of the qualitative tests that should be considered and performed to determine if impairment of the fair value of any asset has occurred since its creation. Management has performed its qualitative test on the Company's investment in ATOLL and has determined that an impairment reserve is required against the full amount of its investment. Accordingly, Management established an impairment reserve for the full amount of the cumulative investment of \$4,566,250.

NOTE 5 – ACCRUED EXECUTIVE COMPENSATION WAIVED

The Company's Board of Directors unanimously agreed that all accrued and unpaid executive compensation effective July 1, 2024 is to be waived and will not apply until substantial new financing, on favorable terms, is obtained by the Company. At that point, the Directors intend to revisit executive compensation and will determine an appropriate level of such compensation which can be reasonably sustained by the Company going forward. Accordingly, the Consolidated Statements of Income for the Year Ended December 31, 2025 do not reflect any management compensation.

NOTE 6 – CURRENT LIABILITIES

The Company's current liabilities as of June 30, 2026 and at December 31, 2025 include the following:

	June 30, <u>2026</u>	December 31, <u>2025</u>
Trade accounts payable for inventory	\$ 47,840	\$ 47,840

NOTE 7- SUBSEQUENT EVENTS

- (a) On August 6, 2026 the Company announced that it has entered into an **Exclusive Option and Strategic Partnership Agreement** with Zeolite Australia Pty Ltd., providing NNRF with the exclusive option to acquire commercialization rights for Zeolite Australia's proprietary environmental technologies throughout the United States, Canada, and Mexico. The agreement provides NNRF with an initial **90-day exclusive option period**, with the opportunity for an additional 90-day extension upon achieving defined commercialization milestones. During this period, the Company intends to advance technical evaluations, strategic partnerships, manufacturing planning, pilot projects, and funding initiatives supporting commercialization. A primary objective during the option period is identifying a strategic manufacturing and distribution location within California's agricultural corridor. To support that effort, NNRF has initiated discussions with county and municipal economic development organizations regarding potential sites, infrastructure, and available economic development incentives.

Upon securing qualifying commercialization funding, the parties intend to execute a definitive Exclusive License Agreement. Upon execution, NNRF would issue 100,000,000 restricted shares of common stock to Zeolite Australia, and Zeolite Australia would designate a representative for appointment to NNRF's Board of Directors, subject to applicable legal requirements and Board approval.

The contemplated license would grant NNRF exclusive North American rights to import raw materials, manufacture products utilizing the licensed technology, distribute products, and grant sublicenses throughout the territory. The parties also intend to negotiate a long-term Master Supply Agreement to provide a reliable supply of premium Australian zeolite supporting future manufacturing and commercialization activities.

- (b) On August 3, 2026 the Company issued 1,000,000 restricted common shares in total in settlement of a previously provided demand loan of \$10,000.
