NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation

The consolidated financial statements of the Company as of June 30, 2026, include the consolidated operations of the Company, Yodole LLC and Frequency Technologies, LLC of which the Company holds an interest of approximately 94% which was acquired in January 2025.

Going Concern

As of June 30, 2026 the Company had \$18,584 in cash, working capital of \$63,252 and an accumulated deficit of \$916,696. Until the working capital needed to fund its operations can be raised, or the Company's business becomes profitable, there can be no assurance that the Company will be able to maintain operations or continue as a going concern. Until the Company secures capital, the Company will rely on funds provided by insider shareholders to fund its operations.

Unaudited Financial Statements

The financial statements filed with this report include the results of operations of the Company and its wholly-owned subsidiary Yodole LLC and its recent acquisition of Frequency Technologies, for the six months ended June 30, 2026. The financial statements are not audited and have been prepared by management.

Cash and Cash Equivalents

For the purposes of the Statement of Cash Flows, the Company considered all highly liquid instruments purchased with a maturity of three months or less to be cash equivalents to the extent the funds are not being held for investment purposes. As of June 30, 2026 and December 31, 2025 the Company had \$18,584 and \$39,326 in cash on hand, respectively.

Basic Income (Loss) Per Share

The Company computed loss per share in accordance with "ASC-260," "Earnings per Share" which requires presentation of both basic and diluted earnings per share on the face of the statement of operations. Basic loss per share is computed by dividing the net loss available to common shareholders by the weighted average number of outstanding common shares during the period. Diluted loss per share gives effect to all dilutive potential common shares outstanding during the period. Dilutive loss per share excludes all potential common shares if their effect is anti-dilutive; accordingly, the accompanying financial statements present only basic loss per share.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amount of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Fair value of financial instruments

The estimated fair values of financial instruments were determined by management using available market information and appropriate valuation methodologies. The carrying amounts of financial instruments including cash approximate their fair value because of their short maturities.

The Company has evaluated recent accounting pronouncements and believes that none of them will have a material effect on the Company's financial statements.
