[25] The total number of shares that can be issued upon full conversion of the Outstanding Balance. The number should not factor any "blockers" or limitations on the percentage of outstanding shares that can be owned by the Noteholder at a particular time. For purposes of this calculation, please use the current market pricing (e.g. most recent closing price, bid, etc.) of the security if conversion is based on a variable market rate.

4) Issuer's Business, Products and Services

The purpose of this section is to provide a clear description of the issuer's current operations.
Ensure that these descriptions are updated on the Company's Profile on www.OTCMarkets.com.

A. Summarize the issuer's business operations (If the issuer does not have current operations, state "no operations")

GreetEat is a technology company that was created to connect colleagues, business partners, customers and prospects to food services during virtual meetings or conferences. GreetEat provides a simple to use proprietary platform to host a video conference and send the guests a food delivery voucher at the same time. The goal is to create an efficient bridge to both a business meal, and a secure video conference accessible to anyone in a remote environment. This process allows the host to avoid expensive catering and venue costs while allowing the guests to order a meal from their favorite participating local provider. The Company has ceased operating as a debt recovery service to concentrate on engineering its platform and gaining market share. Steps have been taken to develop strategic relationships with global participants in this market segment. The Company is also developing other custom host capabilities and options that it intends to implement in the near future.

B. List any subsidiaries, parent company, or affiliated companies.

None

C. Describe the issuers' principal products or services.

See above.

5) Issuer's Facilities

The goal of this section is to provide investors with a clear understanding of all assets, properties or facilities owned, used or leased by the issuer and the extent in which the facilities are utilized.

In responding to this item, please clearly describe the assets, properties or facilities of the issuer. Describe the location of office space, data centers, principal plants, and other property of the issuer and describe the condition of the properties. Specify if the assets, properties, or facilities are owned or leased and the terms of their leases. If the issuer does not have complete ownership or control of the property, describe the limitations on the ownership.

GREETEAT CORPORATION
NOTES TO UNAUDITED FINANCIAL STATEMENTS
JUNE 30, 2026

NOTE 1 - ORGANIZATION AND DESCRIPTION OF BUSINESS

GreetEat Corporation, (formerly National Asset Recovery Corporation) ("the Company"), formerly known as Nasus Consulting, Inc. is a Nevada corporation incorporated in February 2009 and the successor by merger to a Massachusetts corporation incorporated on August 1, 2000.

Nasus Consulting, Inc. was incorporated in the Commonwealth of Massachusetts on August 1, 2000.

On August 27, 2010, the Company changed its business model to be a repossession company of motor vehicles, luxury assets and heavy equipment. The Company's intended clients were proposed to be banks and lenders that have loaned money to consumers who purchased autos/trucks, airplanes, boats/yachts and construction equipment.

On March 5, 2019, the eighth judicial District Court of Nevada appointed Custodian Ventures, LLC as custodian for National Asset Recovery Corporation, proper notice having been given to the officers and directors of National Asset Recovery Corporation. There was no opposition.

On March 6, 2019, the Company filed a certificate of revival with the state of Nevada, appointing David Lazar as President, Secretary, Treasurer and Director.

On March 18, 2019, the Company issued 5,000,000 shares of series B Preferred stock to Custodian Ventures, LLC at par for shares valued at $5,000 in exchange for settlement of a portion of a related party loan for amounts advanced to the Company in the amount of $5,000.

These shares were transferred to Randall Lanham on September 10, 2019, for the purchase price of $75,000 USD.

On June 8, 2023 the Company executed the merger agreement with GreetEat LLC ("GreetEat"). The merger was approved by FINRA January 6, 2025. Per the terms of the agreement the Company issued 26,000,000 shares of common stock for the purchase of the GreetEat.com web application. The shares were valued at $0.021, the closing price on the date of grant, for an intangible asset value of $546,000. The $546,000 has been disclosed as an intangible asset on the balance sheet.

On June 26, 2025, the Company acquired all rights, title, and interest in WallStreetStats.io from Victory Applications LLC in exchange for 1,000,000 shares of common stock. WallStreetStats.io is a platform designed to utilize artificial intelligence and machine learning to analyze social sentiment, market trends, and trading signals in real time. The shares issued in connection with this acquisition were valued at $0.1275 per share, resulting in an intangible asset value of $127,500. The Company recorded WallStreetStats.io as an intangible asset on its balance sheet.

GreetEat is a technology company that was created to connect colleagues, business partners, customers, and prospects to food services during virtual meetings or conferences. GreetEat provides a simple to use proprietary platform to host a video conference and send the guests a food delivery voucher at the same time. The goal is to create an efficient bridge to both a business meal, and a secure video conference accessible to anyone in a remote environment. This process allows the host to avoid expensive catering and venue costs while allowing the guests to order a meal from their favorite participating local provider.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation
The Company's unaudited condensed financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP"). The accompanying unaudited financial statements reflect all adjustments,

consisting of only normal recurring items, which, in the opinion of management, are necessary for a fair statement of the results of operations for the periods shown and are not necessarily indicative of the results to be expected for the full year ending December 31, 2026.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Concentration of credit risk

Financial instruments which potentially subject the Company to concentration of credit risk consist of cash deposits and customer receivables. The Company maintains cash with various major financial institutions. The Company performs periodic evaluations of the relative credit standing of these institutions.

Cash Equivalents

The Company considers all highly liquid investments with a maturity of three months or less when purchased to be cash equivalents. The Company has no cash equivalents.

Intangible Asset

The Company's intangible assets consist primarily of acquired software and technology platforms. Intangible assets acquired in exchange for equity instruments are initially recorded at cost based on the fair value of the consideration transferred on the acquisition date. Intangible assets determined to have finite useful lives are amortized on a straight-line basis over their estimated useful lives, which are generally three years.

The Company reviews its finite-lived intangible assets for impairment whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable. If the carrying amount is not recoverable based on estimated undiscounted future cash flows, an impairment loss is recognized to the extent the carrying amount exceeds the asset's estimated fair value.

The Company's intangible assets had a net carrying amount of $561,250 and $673,500 at June 30, 2026 and December 31, 2025, respectively. During the six months ended June 30, 2026, the Company recorded amortization expense of $112,250.

Revenue Recognition

The Company recognizes revenue under ASC 606, "Revenue from Contracts with Customers" ("ASC 606"). The Company determines revenue recognition through the following steps:

- Identification of a contract with a customer;
- Identification of the performance obligations in the contract;
- Determination of the transaction price;
- Allocation of the transaction price to the performance obligations in the contract; and
- Recognition of revenue when or as the performance obligations are satisfied.

Revenue is recognized when control of the promised goods or services is transferred to customers, in an amount that reflects the consideration the Company expects to be entitled to in exchange for those goods or services. As a practical expedient, the Company does not adjust the transaction price for the effects of a significant financing component if, at contract inception, the period between customer payment and the transfer of goods or services is expected to be one year or less.

Operating Segments

The Company determines its operating and reportable segments in accordance with ASC Topic 280, *Segment Reporting*. Operating segments are components of an entity for which discrete financial information is available and is regularly reviewed by the chief operating decision maker ("CODM") in assessing performance and determining how resources are allocated.

The Company's Chief Executive Officer has been identified as the CODM. The CODM reviews the Company's operations on a consolidated basis and primarily evaluates financial performance using consolidated revenues, operating expenses and net income or loss. Based on the manner in which the CODM manages the business, allocates resources and assesses performance, the Company has one operating and reportable segment as of and for the six months ended June 30, 2026.

Stock-based Compensation

We account for equity-based transactions with employees and non-employees under the provisions Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") of *ASC Topic 718, "Compensation – Stock Compensation" (*"Topic 718"*)*, which establishes that equity-based payments to employees and non-employees are recorded at the grant date the fair value of the equity instruments the entity is obligated to issue when the employees and non-employees have rendered the requisite service and satisfied any other conditions necessary to earn the right to benefit from the instruments. Topic 718 also states that observable market prices of identical or similar equity or liability instruments in active markets are the best evidence of fair value and, if available, should be used as the basis for the measurement for equity and liability instruments awarded in these share-based payment transactions. However, if observable market prices of identical or similar equity or liability instruments are not available, the fair value shall be estimated by using a valuation technique or model that complies with the measurement objective, as described in Topic 718.

Net Loss per Share

Basic net loss per common share is computed by dividing net loss attributable to common stockholders by the weighted-average number of common shares outstanding during the period. Diluted net loss per common share is computed by dividing net loss attributable to common stockholders by the weighted-average number of common shares outstanding during the period, adjusted for the effect of potentially dilutive securities, when such effect is dilutive.

Potential common shares related to convertible debt are excluded from the calculation of diluted net loss per common share for periods in which their inclusion would be anti-dilutive. Accordingly, basic and diluted net loss per common share are the same for the three and six months ended June 30, 2026 and 2025.

Fair value of financial instruments

The Company follows paragraph 825-10-50-10 of the FASB Accounting Standards Codification for disclosures about fair value of its financial instruments and paragraph 820-10-35-37 of the FASB Accounting Standards Codification ("Paragraph 820-10-35-37") to measure the fair value of its financial instruments. Paragraph 820-10-35-37 establishes a framework for measuring fair value in accounting principles generally accepted in the United States of America (U.S. GAAP), and expands disclosures about fair value measurements. To increase consistency and comparability in fair value measurements and related disclosures, Paragraph 820-10-35-37 establishes a fair value hierarchy which prioritizes the inputs to valuation techniques used to measure fair value into three (3) broad levels. The fair value hierarchy gives the highest priority to quoted prices (unadjusted) in active markets for identical assets or liabilities and the lowest priority to unobservable inputs. The three (3) levels of fair value hierarchy defined by Paragraph 820-10-35-37 are described below.

Level 1: Quoted market prices available in active markets for identical assets or liabilities as of the reporting date.

Level 2: Pricing inputs other than quoted prices in active markets included in Level 1, which are either directly or indirectly observable as of the reporting date.

Level 3: Pricing inputs that are generally unobservable inputs and not corroborated by market data.

The carrying amount of the Company's financial assets and liabilities, such as cash and accrued expenses approximate their fair value because of the short maturity of those instruments.

Income Taxes

Income taxes are provided for the tax effects of the transactions reported in the financial statements and consist of taxes currently due plus deferred taxes related primarily to tax net operating loss carryforwards. The deferred tax assets and liabilities represent the future tax return consequences of these differences, which will either be taxable or deductible when assets and liabilities are recovered or settled, as well as operating loss carryforwards. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in income in the period that includes the enactment date. A valuation allowance is established against deferred tax assets when in the judgment of management, it is more likely than not that such deferred tax assets will not become available. Because the judgment about the level of future taxable income is dependent to a great extent on matters that may, at least in part, be beyond the Company's control, it is at least reasonably possible that management's judgment about the need for a valuation allowance for deferred taxes could change in the near term.

Tax benefits are recognized only for tax positions that are more likely than not to be sustained upon examination by tax authorities. The amount recognized is measured as the largest amount of benefit that is greater than 50 percent likely to be realized upon settlement. A liability for "unrecognized tax benefits" is recorded for any tax benefits claimed in the Company's tax returns that do not meet these recognition and measurement standards. As of June 30, 2026 and December 31, 2025, no liability for unrecognized tax benefits was required to be reported.

Recent Accounting Pronouncements
The Company has implemented all applicable accounting pronouncements that are in effect. These pronouncements did not have any material impact on the unaudited financial statements unless otherwise disclosed, and the Company does not believe that there are any other new accounting pronouncements that have been issued that might have a material impact on its unaudited financial position or results of operations.

NOTE 3 - GOING CONCERN

The accompanying unaudited condensed financial statements have been prepared assuming that the Company will continue as a going concern, which contemplates the realization of assets and satisfaction of liabilities in the normal course of business. As of June 30, 2026, the Company had no cash or other current assets, current liabilities of $373,832, and an accumulated deficit of $1,510,461. For the six months ended June 30, 2026, the Company incurred a net loss of $178,194 and used $58,317 of cash in operating activities. These conditions raise substantial doubt about the Company's ability to continue as a going concern.

Management's plans to address these conditions include seeking additional funding through advances from related parties, additional debt or equity financing, and the continued development and commercialization of the Company's technology platforms and related business operations. During the six months ended June 30, 2026, the Company funded a significant portion of its cash requirements through related-party advances and convertible notes. There can be no assurance that the Company will be successful in obtaining sufficient financing or generating revenues and positive cash flows from operations.

The accompanying unaudited condensed financial statements do not include any adjustments relating to the recoverability and classification of recorded assets or the amounts and classification of liabilities that might be necessary should the Company be unable to continue as a going concern.
