4. Describe any provision in issuer's charter or by-laws that would delay, defer or prevent a change in control of the issuer.

Our board of directors, without shareholder approval, has the authority under our articles of incorporation, to issue additional shares of our common stock. As a result, common stock could be issued quickly and easily to delay or prevent a change of control or make removal of management more difficult. This provision may significantly affect another person or entity's interest in acquiring a substantial or controlling position in shares of our common stock and enhance the ability of our board of directors to take action in light of such an acquisition by a third party.

Our board of directors, without shareholder approval, has the authority under our articles of incorporation, as amended, to issue preferred stock with rights superior to the rights of the holders of common stock. As a result, preferred stock could be issued quickly and easily, could impair the rights of holders of common stock and could be issued with terms calculated to delay or prevent a change of control or make removal of management more difficult.

Our bylaws provide that a shareholder seeking to bring business before an annual or special meeting of shareholders, or to nominate candidates for election as directors at an annual or special meeting of shareholders, must provide timely notice of this intention in writing. To be timely, a shareholder must deliver or mail the notice and we must receive the notice according to the timetables provided in our bylaws. Our bylaws also specify requirements as to the form and content of the shareholder's notice. These provisions could delay shareholder actions that are favored by the holders of a majority of our outstanding stock until the next shareholders' meeting.

We are subject to the State of Nevada's business combination statute. In general, the statute prohibits a publicly held Nevada corporation from engaging in a business combination with a person who is an interested shareholder for a period of three years after the date of the transaction in which that person became an interested shareholder, unless the business combination is approved in a prescribed manner. A business combination includes a merger, asset sale or other transaction resulting in a financial benefit to the

interested shareholder. An interested shareholder is a person who, together with affiliates, owns, or, within three years prior to the proposed business combination, did own 15% or more of our voting stock. The statute could prohibit or delay mergers or other takeovers or change in control attempts and accordingly, may discourage attempts to acquire our Company.

(C) Assets consisting of any amount of cash and cash equivalents and nominal other assets.

8. the number of total employees and number of full-time employees.

employee and two part time employees.

B. Distribution methods of the products or services;

We already have three kinds of interest for our PVA Film:

Pharmaceutical Industry (gowns, gloves, etc.): A China based packaging factory presently handles 30,000 metric tons per month, totaling 792,000,000 lbs. of plastics per year. They are limited by their production capacity and not by what they can sell. They are prepared to give us a contract in which they are willing to pay \$4.50 per lb. to provide them enough PVA Film to replace their present plastics. This would total an annual \$3.564 billion per year, resulting in a projected \$2.77 billion in Net Profit, when only fixed annual expenses are computed. This would require 1,584 PVA Film Machines to supply this one order!

The strawberry Industry of California, USA: packages strawberries in 3,000,000,000 plastic clamshells annually. 80% of these clamshells hold one pound of strawberries, 20% hold two pounds. They offer \$0.09 per 1 lbs clamshell, \$0.23 per 2 lbs clamshell. That totals 2.4 billion 1 lbs clam shells and 600M 2 lb clamshells, totaling an annual a projected revenue of \$354,000,000. For a 5-year contract, that totals a projected \$1.77B, with \$1.2B Net Profit.

Nobility Fruit Co. has given us a letter of interest for an initial order for 1,000,000,000 clamshells, to be expanded as our production can handle the order. This totals \$118,000,000 annually, with a projected \$95M in Net Profits, where only fixed annual expenses are computed. That's a projected \$475M Net Profit for a 5-year contract. It takes 63 PVA Film Machines to fill this order. If we expand in order to fill their entire 3 billion clamshell needs, we would need 189 machines. This order represents a \$2.56 per lbs and \$6.24 per lbs. price for our plastic, as compared to the \$4.50 per lbs price for the pharmaceutical application.

Stephen Gould Corporation is the largest privately owned packaging sales organization in the United States. It transacts over \$500M in annual sales. Stephen Gould services over 1,000 current customers like (McDonalds). Stephen Gould has tested our PVA Film and believes that it is "... game changing on a global level." They wish to set up the exclusive rights to use our PVA Film for several of their customers, including McDonalds (for the fast food industry). We wish to establish a diverse portfolio of buyers, but the plastic bag industry doesn't provide as high a per-pound price as the above two options. Nevertheless, when we have developed enough PVA Film Machines, this is a very attractive contract to fulfill.
