FORWARD-LOOKING STATEMENTS

This Report on Form 10-Q contains forward-looking statements within the meaning of the “safe harbor” provisions of the Private Securities Litigation Reform Act of 1995. Reference is made in particular to the description of our plans and objectives for future operations, assumptions underlying such plans and objectives, and other forward-looking statements included in this report. Such statements may be identified by the use of forward-looking terminology such as “may,” “will,” “expect,” “believe,” “estimate,” “anticipate,” “intend,” “continue,” or similar terms, variations of such terms or the negative of such terms. Such statements are based on management’s current expectations and are subject to a number of factors and uncertainties, which could cause actual results to differ materially from those described in the forward-looking statements. Such statements address future events and conditions concerning, among others, capital expenditures, earnings, litigation, regulatory matters, liquidity and capital resources, and accounting matters. Actual results in each case could differ materially from those anticipated in such statements by reason of factors such as future economic conditions, changes in consumer demand, legislative, regulatory and competitive developments in markets in which we operate, results of litigation, and other circumstances affecting anticipated revenues and costs, and the risk factors set forth in our Annual Report on Form 10-K filed on July 31, 2017.

As used in this Form 10-Q, “we,” “us,” and “our” refer to Homie Recipes, Inc., which is also sometimes referred to as the “Company” or “Homie.”

YOU SHOULD NOT PLACE UNDUE RELIANCE ON THESE FORWARD-LOOKING STATEMENTS

The forward-looking statements made in this report on Form 10-Q relate only to events or information as of the date on which the statements are made in this report on Form 10-Q. Except as required by law, we undertake no obligation to update or revise publicly any forward-looking statements, whether as a result of new information, future events, or otherwise, after the date on which the statements are made or to reflect the occurrence of unanticipated events. You should read this report and the documents that we reference in this report, including documents referenced by incorporation, completely and with the understanding that our actual future results may be materially different from what we expect or hope.

Notes to the Financial Statements
(Unaudited)

Organization and Nature of Operations

Homie Recipes, Inc. (the "Company") was incorporated in the State of Nevada on June 22, 2012 and established a fiscal year-end of June 30. It is a start-up company that intends to stream videos and written recipes through a yet-to-be developed website. Our goal is to stream free recipes for 'special' homemade food. The Company intends to have recipes with a special personal meaning on our website.

The Company has not yet commenced any significant operations.

Summary of Significant Accounting Policies

Basic of Presentation

The financial statements of the Company have been prepared in accordance with accounting principles generally accepted in the United States ("US GAAP") and are expressed in U.S. dollars. The Company's fiscal year end is June 30.

Interim Financial Statements

The accompanying unaudited financial statements of the Company have been prepared in accordance with generally accepted accounting principles for interim financial information and with the instructions to Form 10-Q and Article 10 of Regulation S-X. Accordingly, they do not include all of the information and footnotes required by generally accepted accounting principles for complete financial statements. In management's opinion, the financial statements include all adjustments (consisting of normal recurring accruals) necessary in order to make the financial statements not misleading. Operating results for the three and nine months ended March 31, 2017 are not necessarily indicative of the results that may be expected for the year ended June 30, 2017. For more complete financial information, these unaudited financial statements should be read in conjunction with the audited financial statements for the year ended June 30, 2016 included in our Form 10-K filed with the SEC.

Use of Estimates

The preparation of financial statements in conformity with US GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. The Company regularly evaluates estimates and assumptions related to the deferred income tax asset valuation allowances. The Company bases its estimates and assumptions on current facts, historical experience and various other factors that it believes to be reasonable under the circumstances, the results of which form the basis for making judgments about the carrying values of assets and liabilities and the accrual of costs and expenses that are not readily apparent from other sources. The actual results experienced by the Company may differ materially and adversely from the Company's estimates. To the extent there are material differences between the estimates and the actual results, future results of operations will be affected.

Cash and Cash Equivalents

The Company considers all highly liquid instruments with a maturity of three months or less at the time of issuance to be cash equivalents.

Income Taxes

The Company follows the liability method of accounting for income taxes. Deferred tax assets and liabilities are recognized for the future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax balances. Deferred tax assets and liabilities are measured using enacted or substantially enacted tax rates expected to apply to the taxable income in the years in which those differences are expected to be recovered or settled. Deferred tax assets are reduced by a valuation allowance when, in the opinion of management, it is more likely than not that some portion or all of the deferred tax assets will not be realized. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in income in the period that includes the date of enactment or substantive enactment.

Net Loss per Share

Basic earnings per share ("EPS") is computed by dividing net income (loss) available to common shareholders (numerator) by the weighted average number of shares outstanding (denominator) during the period. Diluted EPS gives effect to all dilutive potential common shares outstanding during the period using the treasury stock method and convertible preferred stock using the if-converted method. In computing diluted EPS, the average stock price for the period is used in determining the number of shares assumed to be purchased from the exercise of stock options or warrants. Diluted EPS excludes all dilutive potential shares if their effect is anti-dilutive.

Subsequent Events

The Company evaluated subsequent events through the date when financial statements were issued for disclosure consideration.

Recently Issued Accounting Pronouncements

The Company's management does not believe that any recently issued effective pronouncements, or pronouncements issued but not yet effective, if adopted, would have a material effect on the accompanying financial statements.

Going Concern

These Company's financial statements are prepared in accordance with generally accepted accounting principles applicable to a going concern. This contemplates the realization of assets and the liquidation of liabilities in the normal course of business. Currently, the Company does not have material assets, nor does it have operations or a source of revenue sufficient to cover its operating costs and allow it to continue as a going concern. The Company also has suffered recurring losses from operations and has a working capital deficit. The Company has an accumulated deficit of \$205,778 at March 31, 2017. The Company will be dependent upon raising additional capital through placement of our common stock in order to implement its business plan, additional borrowings from related parties, or merge with an operating company. There can be no assurance that the Company will be successful in either situation in order to continue as a going concern. The Company is funding its current operations from advances from related parties. There is no assurance that these related parties will continue to fund the Company's operating requirements. Currently, the Company has no arrangements for other sources of funds. These financial statements do not include any adjustments relating to the recoverability and classification of recorded assets or the amounts of and classification of liabilities that might be necessary in the event the Company cannot continue in existence. Accordingly, these factors raise substantial doubt as to the Company's ability to continue as a going concern.

The Company is currently seeking additional funding through equity offerings or debt financing to support the Company's business.

Related Party Transactions

As at March 31, 2017 and June 30, 2016, the Company owed \$180,335 and \$169,507, respectively, to the Chief Executive Officer of the Company for advances. The advances are unsecured, non-interest bearing, and due on demand.

Income Taxes

As of March 31, 2017 and June 30, 2016, the Company has a net deferred tax asset comprised primarily of net operating loss carry forwards of \$72,022 and \$68,155, respectively. The Company provided a full valuation allowance on the net deferred tax asset because management has determined that it is more likely than not that the Company will not earn income sufficient to realize the deferred tax assets during the carryforward period. The net federal operating loss carryforward will expire between 2032 and 2037.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations.

The following discussion should be read in conjunction with our consolidated financial statements and notes thereto included elsewhere in this Quarterly Report on Form 10-Q. Forward-looking statements are statements not based on historical information and which relate to future operations, strategies, financial results or other developments. Forward-looking statements are based upon estimates, forecasts, and assumptions that are inherently subject to significant business, economic and competitive uncertainties and contingencies, many of which are beyond our control and many of which, with respect to future business decisions, are subject to change. These uncertainties and contingencies can affect actual results and could cause actual results to differ materially from those expressed in any forward-looking statements made by us, or on our behalf. We disclaim any obligation to update forward-looking statements.

Overview

Homie Recipes, Inc. was incorporated in the State of Nevada on June 22, 2012 and established June 30 as its fiscal year end.

Homie is a start-up company that intends to stream videos and written recipes through a website. Our goal is to stream free recipes for 'special' homemade cuisines and food items. We intend to have recipes that are personal and have special meaning on our website. What makes a recipe 'special' is the personal history or tradition behind it, for example, cookies made by someone's mother on Christmas Eve, or a special pasta sauce prepared by their Grandmother made every Sunday when they were growing up, etc.

We plan on having an introductory segment for our videos, where a person will tell their story behind the recipe, explaining why they love it so much. After the introduction, we will have the 'mothers', 'grandmothers' or whomever the cook is, to prepare the recipe and food presentation. The last part of our videos will show the cook eating and enjoying the food.

We intend to allow users to upload their own videos, following our program format (introduction, recipe preparation, food presentation and tasting). All videos will be edited for time and content and will be subject to approval before it goes public on our website. We intend to generate revenue through the sale of advertisement to be placed throughout our website and in the videos.

We have been unable to raise additional funds to implement our operations, and we do not believe that we currently have sufficient resources to do so without additional funding. As a result of the current difficult economic environment and our lack of funding to implement our business plan, our Board of Directors has begun to analyze strategic alternatives available to our Company to continue as a going concern. Such alternatives include raising additional debt or equity financing or consummating a merger or acquisition with a partner that may involve a change in our business plan.

Although our Board of Directors' preference would be to obtain additional funding to implement our business plan, the Board believes that it must consider all viable strategic alternatives that are in the best interests of our shareholders. Such strategic alternatives include a merger, acquisition, share exchange, asset purchase, or similar transaction in which our present management will no longer be in control of our Company and our business operations will be replaced by that of our transaction partner. We believe we would be an attractive candidate for such a business combination due to the perceived benefits of being a publicly registered company, thereby providing a transaction partner access to the public marketplace to raise capital.

We have had preliminary discussions with other potential business combination partners, but have not signed a definitive agreement to engage in a strategic transaction. Any such business combination and the selection of a partner for such a business combination involves certain risks, including analyzing and selecting a business partner that is compatible to engage in a transaction with us or has business operations that are or will prove to be profitable. In the event we select a partner for a strategic transaction and sign a definitive agreement to consummate such a transaction, we will report this event on a Form 8-K to be filed with the Securities and Exchange Commission. If we are unable to locate a suitable business combination partner and are otherwise unable to raise additional funding, we will likely be forced to cease business operations.

Our business office is located at 112 North Curry Street, Carson City, Nevada, 89703; our telephone number is (775) 321-8225 and our fax number is (775) 546-9905.

Results of Operations

For the three and nine months ended March 31, 2017, we had no revenues and had operating expenses of \$6,450 and \$11,050, respectively. For the three and nine months ended March 31, 2016, we had no revenues and had operating expenses of \$25 and \$18,079, respectively. All of our operating expenses were related to professional fees. The decrease of operating expenses was mainly due to less attorney fees.

Liquidity and Capital Resources

As of March 31, 2017, we had current assets of \$0 and current liabilities of \$193,038. Our net working capital deficit as of March 31, 2017 was \$193,038.

Net cash used in operating activities for the nine months ended March 31, 2017 was \$10,828 as compared to \$14,823 for the nine months ended March 31, 2016. Net cash provided by financing activities for the nine months ended March 31, 2017 was \$10,828 as compared to \$14,823 for the nine months ended March 31, 2016. These amounts were additional advances from the Chief Executive Officer of the Company.

We continue to evaluate business opportunities and have access to sufficient funds to complete these evaluations and will announce funding requirements if we decide to pursue a particular opportunity. These funding requirements will include funds required to execute on our business strategy, including additional working capital commensurate with the operational needs of planned marketing, development and production efforts. We anticipate that we will be able to raise sufficient amounts of working capital through debt or equity offerings as may be required to meet our short-term and long-term obligations. However, changes in operating plans, increased expenses, acquisitions, or other events, may cause us to seek additional equity or debt financing in the future.

We have generated no revenue and therefore we may not be able to produce adequate cash flows to support our existing operations. Moreover, the historical and existing capital structure is not adequate to fund our planned growth. We intend to finance our operations in part by issuing additional common stock and obtaining bridge financing. There can be no assurance that we will be successful in procuring the financing we are seeking. Future cash flows are subject to a number of variables, including the level of production, economic conditions and maintaining cost controls. There can be no assurance that operations and other capital resources will provide cash in sufficient amounts to maintain planned or future levels of capital expenditures. To meet future objectives, we will need to meet revenue targets and sell additional equity and debt securities, which most likely will result in dilution to current stockholders. We may also seek additional loans where the incurrence of indebtedness would result in increased debt service obligations and could require the Company to agree to operating and financial covenants that would restrict our operations.

Financing may not be available in amounts or on terms acceptable to us, if at all. Any failure by us to raise additional funds on terms favorable to us, or at all, could limit our ability to expand business operations and could harm our overall business prospects. In addition, we cannot be assured of profitability in the future.

Off-Balance Sheet Arrangements

We have not entered into any other financial guarantees or other commitments to guarantee the payment obligations of any third parties. We have not entered into any derivative contracts that are indexed to our shares and classified as shareholder's equity or that are not reflected in our consolidated financial statements. Furthermore, we do not have any retained or contingent interest in assets transferred to an unconsolidated entity that serves as credit, liquidity or market risk support to such entity. We do not have any variable interest in any unconsolidated entity that provides financing, liquidity, market risk or credit support to us or engages in leasing, hedging or research and development services with us.

Critical Accounting Policies and Estimates

Use of Estimates and Assumptions

Preparation of the financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Recently Issued Accounting Pronouncements

We do not believe that any recently issued effective pronouncements, or pronouncements issued but not yet effective, if adopted, would have a material effect on the accompanying financial statements.

Item 3. Quantitative and Qualitative Disclosures About Market Risk.

Not applicable.

Item 4. Controls and Procedures.

Evaluation of Disclosure Controls and Procedures

Disclosure controls and procedures are designed to ensure that information required to be disclosed in the reports filed or submitted under the Securities Exchange Act of 1934, as amended, is recorded, processed, summarized and reported, within the time period specified in the Securities and Exchange Commission's rules and forms. Disclosure controls and procedures include, without limitation, controls and procedures designed to ensure that information required to be disclosed in the reports filed under the Exchange Act is accumulated and communicated to our management, including our Chief Executive Officer (our principal executive officer) and our Chief Financial Officer (our principal financial officer and principal accounting officer) to allow for timely decisions regarding required disclosure.

As of the quarterly period ended March 31, 2017, we carried out an evaluation, under the supervision and with the participation of our principal executive officer and principal financial officer, of the effectiveness of the design and operation of our disclosure controls and procedures. Based on the foregoing, our principal executive officer and principal financial officer concluded that our disclosure controls and procedures were not effective as of the quarterly period ended March 31, 2017 in ensuring that information required to be disclosed by us in reports that we file or submit under the Exchange Act is recorded, processed, summarized, and reported within the time periods specified in the Securities and Exchange Commission's (the "SEC") rules and forms. This conclusion is based on findings that constituted material weaknesses. A material weakness is a deficiency, or a combination of control deficiencies, in internal control over financial reporting such that there is a reasonable possibility that a material misstatement of the Company's interim financial statements will not be prevented or detected on a timely basis.

In performing the above-referenced assessment, our management identified the following material weaknesses:

- (i) *Lack of formal policies and procedures necessary to adequately review significant accounting transactions.* The Company utilizes a third party independent contractor for the preparation of its financial statements. Although the financial statements and footnotes are reviewed by our management, we do not have a formal policy to review significant accounting transactions and the accounting treatment of such transactions. The third party independent contractor is not involved in the day to day operations of the Company and may not be provided information from management on a timely basis to allow for adequate reporting/consideration of certain transactions.
- (ii) *Audit Committee and Financial Expert.* The Company does not have a formal audit committee with a financial expert, and thus the Company lacks the board oversight role within the financial reporting process.

Limitations on the Effectiveness of Controls

Our management, including our Chief Executive Officer and our Chief Financial Officer, does not expect that our disclosure controls and internal controls will prevent all errors and all fraud. A control system, no matter how well conceived and operated, can provide only reasonable, not absolute, assurance that the objectives of the control system are met. Further, the design of a control system must reflect the fact that there are resource constraints, and the benefits of controls must be considered relative to their costs. Because of the inherent limitations in all control systems, no evaluation of controls can provide absolute assurance that all control issues and instances of fraud, if any, within the Company have been detected. These inherent limitations include the realities that judgments in decision-making can be faulty, and that breakdowns can occur because of a simple error or mistake. Additionally, controls can be circumvented by the individual acts of some persons, by collusion of two or more people, or by management or board override of the control.

The design of any system of controls also is based in part upon certain assumptions about the likelihood of future events, and there can be no assurance that any design will succeed in achieving its stated goals under all potential future conditions; over time, controls may become inadequate because of changes in conditions, or the degree of compliance with the policies or procedures may deteriorate. Because of the inherent limitations in a cost-effective control system, misstatements due to error or fraud may occur and not be detected.

Changes in Internal Controls Over Financial Reporting

There were no changes in our internal controls over financial reporting that occurred during the quarterly period ended March 31, 2017 that have materially affected, or are reasonably likely to materially affect, our internal controls over financial reporting.

HOMIE RECIPES, INC.

Date: July 31, 2017

By: */s/ Jose Mari C. Chin*

Name: Jose Mari C. Chin

Title: President, Chief Executive Officer, Chief
Financial Officer, Secretary, Treasurer and
Director (Principal Executive Officer, Principal
Financial Officer and Principal Accounting Officer)

CERTIFICATIONS

I, Jose Mari C. Chin, certify that:

I have reviewed this Report on Form 10-Q of Homie Recipes, Inc. (the "Company") for the period ended March 31, 2017.

Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;

Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the Company as of, and for, the periods presented in this report;

I am responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:

designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the Company, including its subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;

designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;

evaluated the effectiveness of the Company's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and

disclosed in this report any change in the Company's internal control over financial reporting that occurred during the Company's most recent fiscal quarter (the Company's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the Company's internal control over financial reporting.

I have disclosed, based on my most recent evaluation of internal control over financial reporting, to the Company's auditors and the audit committee of the Company's Board of Directors (or persons performing the equivalent functions):

all significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the Company's ability to record, process, summarize and report financial information; and

any fraud, whether or not material, that involves management or other employees who have a significant role in the Company's internal control over financial reporting.

**CERTIFICATION PURSUANT TO
SECTION 906 OF THE SARBANES-OXLEY ACT OF 2002
(18 U.S.C. 1350)**

In connection with the quarterly report of Homie Recipes, Inc. (the "Company") on Form 10-Q for the quarter ended March 31, 2017, as filed with the Securities and Exchange Commission on the date hereof (the "Report"), I, Jose Mari C. Chin, Chief Executive Officer, Chief Financial Officer, Principal Financial Officer and Principal Executive Officer of the Company, certify, pursuant to Section 906 of the Sarbanes-Oxley Act of 2002 (18 U.S.C. 1350), that to my knowledge:

the Report fully complies with the requirements of Section 13(a) or 15(d) of the Securities Exchange Act of 1934; and

the information contained in the Report fairly presents, in all material respects, the financial condition and results of operations of the Company.
