### **EXPLANATORY NOTE**

This report combines the quarterly reports on Form 10-Q of Host Hotels & Resorts, Inc. and Host Hotels & Resorts, L.P. Unless stated otherwise or the context requires otherwise, references to “Host Inc.” mean Host Hotels & Resorts, Inc., a Maryland corporation, and references to “Host L.P.” mean Host Hotels & Resorts, L.P., a Delaware limited partnership, and its consolidated subsidiaries, in cases where it is important to distinguish between Host Inc. and Host L.P. We use the terms “we,” “our” or “the company” to refer to Host Inc. and Host L.P. together, unless the context indicates otherwise.

Host Inc. operates as a self-managed and self-administered real estate investment trust (“REIT”). Host Inc. owns properties and conducts operations through Host L.P., of which Host Inc. is the sole general partner and of which it holds approximately 99% of the partnership interests (“OP units”). The remaining OP units are owned by various unaffiliated limited partners. As the sole general partner of Host L.P., Host Inc. has the exclusive and complete responsibility for Host L.P.’s day-to-day management and control. Management operates Host Inc. and Host L.P. as one enterprise. The management of Host Inc. consists of the same persons who direct the management of Host L.P. As general partner with control of Host L.P., Host Inc. consolidates Host L.P. for financial reporting purposes, and Host Inc. does not have significant assets other than its investment in Host L.P. Therefore, the assets and liabilities of Host Inc. and Host L.P. are substantially the same on their respective condensed consolidated financial statements and the disclosures of Host Inc. and Host L.P. also are substantially similar. For these reasons, we believe that the combination into a single report of the quarterly reports on Form 10-Q of Host Inc. and Host L.P. results in benefits to management and investors.

The substantive difference between the filings of Host Inc. and Host L.P. is that Host Inc. is a REIT with public stock, while Host L.P. is a partnership with no publicly traded equity. In the condensed consolidated financial statements, this difference primarily is reflected in the equity (or partners’ capital for Host L.P.) section of the consolidated balance sheets and in the consolidated statements of equity (or partners’ capital for Host L.P.). Apart from the different equity treatment, the condensed consolidated financial statements of Host Inc. and Host L.P. are nearly identical.

This combined Form 10-Q for Host Inc. and Host L.P. includes, for each entity, separate interim financial statements (but combined footnotes), separate reports on disclosure controls and procedures and internal control over financial reporting and separate CEO/CFO certifications. In addition, with respect to any other financial and non-financial disclosure items required by Form 10-Q, any material differences between Host Inc. and Host L.P. are discussed separately herein. For a more detailed discussion of the substantive differences between Host Inc. and Host L.P. and why we believe the combined filing results in benefits to investors, see the discussion in the combined Annual Report on Form 10-K for the year ended December 31, 2024 under the heading “Explanatory Note.”

**2. Summary of Significant Accounting Policies**

We have condensed or omitted certain information and footnote disclosures normally included in financial statements presented in accordance with U.S. generally accepted accounting principles, or GAAP, in the accompanying unaudited condensed consolidated financial statements. We believe the disclosures made herein are adequate to prevent the information presented from being misleading. However, the financial statements should be read in conjunction with the consolidated financial statements and notes thereto included in our Annual Report on Form 10-K for the year ended December 31, 2024.

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

In our opinion, the accompanying unaudited condensed consolidated financial statements reflect all adjustments necessary to present fairly our financial position as of March 31, 2025, the results of our operations for the quarter ended March 31, 2025 and 2024, respectively, and cash flows for the quarter ended March 31, 2025 and 2024, respectively. Interim results are not necessarily indicative of full year performance because of the effect of seasonal variations.

Five of the partnerships in which we own an interest are considered variable interest entities ("VIEs"), as the general partner of these partnerships maintains control over the decisions that most significantly impact such partnerships. These VIEs include the operating partnership, Host L.P., which is consolidated by Host Inc., of which Host Inc. is the sole general partner and holds approximately 99% of the limited partner interests; the consolidated partnership that owns the Houston Airport Marriott at George Bush Intercontinental; and three unconsolidated partnerships that own hotel properties, of which we hold limited partner interests ranging from 11% - 30%. Host Inc.'s sole significant asset is its investment in Host L.P. and, consequently, substantially all of Host Inc.'s assets and liabilities consists of the assets and liabilities of Host L.P. All of Host Inc.'s debt is an obligation of Host L.P. and may be settled only with assets of Host L.P.

**3. Earnings Per Common Share (Unit)**

Basic earnings per common share (unit) is computed by dividing net income attributable to common stockholders (unitholders) by the weighted average number of shares of Host Inc. common stock or Host L.P. common units outstanding. Diluted earnings per common share (unit) is computed by dividing net income attributable to common stockholders (unitholders), as adjusted for potentially dilutive securities, by the weighted average number of shares of Host Inc. common stock or Host L.P. common units outstanding plus other potentially dilutive securities. Dilutive securities may include shares granted under comprehensive stock plans or the Host L.P. common units distributed to Host Inc. to support such shares granted, and other non-controlling interests that have the option to convert their limited partner interests to Host L.P. common units. No effect is shown for any securities that are anti-dilutive. There are 9.2 million Host L.P. common units, which are convertible into 9.4 million Host Inc. common shares, that are not included in Host Inc.'s calculation of earnings per share as their effect is not dilutive. The calculation of Host Inc. basic and diluted earnings per common share is shown below (in millions, except per share amounts):

**4. Revenue**

Substantially all our operating results represent revenues and expenses generated by property-level operations. Payments are due from customers when services are provided to them. Due to the short-term nature of our contracts and the almost concurrent receipt of payment, we have no material unearned revenue at quarter end. We collect sales, use, occupancy and similar taxes from our customers, which we present on a net basis (excluded from revenues) on our statements of operations.

**Disaggregation of Revenues.** While we do not consider the following disclosure of hotel revenues by location to consist of reportable segments, we have disaggregated hotel revenues by market location. Our revenues also are presented by country in Note 8 – Geographic and Business Segment Information.

*By Location.* The following table presents hotel revenues for each of the geographic locations in our consolidated hotel portfolio (in millions):

**Capital of Host L.P.**

As of March 31, 2025, Host Inc. is the owner of approximately 99% of Host L.P.'s common OP units. The remaining common OP units are owned by unaffiliated limited partners. Each common OP unit may be redeemed for cash or, at the election of Host Inc., Host Inc. common stock, based on the conversion ratio of 1.021494 shares of Host Inc. common stock for each common OP unit.

In exchange for any shares issued by Host Inc., Host L.P. will issue common OP units to Host Inc. based on the applicable conversion ratio. Additionally, funds used by Host Inc. to pay dividends on its common stock are provided by distributions from Host L.P.

The components of the Capital of Host L.P. are as follows (in millions):

### Share Repurchases

During the first quarter of 2025, we repurchased 6.3 million shares of Host Inc. common stock at an average price of \$15.79 per share, exclusive of commissions, through our common share repurchase program for a total of \$100 million. As of March 31, 2025, there was \$585 million available for repurchase under our common share repurchase program.

### Issuance of Common Stock

As of March 31, 2025, there was \$600 million of remaining capacity to issue common shares of Host Inc. under our "at the market" distribution agreement. There were no shares issued during the first quarter of 2025.

### Dividends/Distributions

On February 19, 2025, Host Inc.'s Board of Directors announced a regular quarterly cash dividend of \$0.20 per share on its common stock. The dividend was paid on April 15, 2025 to stockholders of record as of March 31, 2025. Accordingly, Host L.P. made a distribution of \$0.2042988 per unit on its common OP units based on the current conversion ratio.

## 7. Fair Value Measurements

We did not elect the fair value measurement option for any of our financial assets or liabilities. The fair values of notes receivable, secured debt and our credit facility are determined based on the expected future payments discounted at risk-adjusted rates. Our senior notes are valued based on quoted market prices. The fair values of financial instruments not included in this table are estimated to be equal to their carrying amounts.

The fair value of certain financial assets and financial liabilities is shown below (in millions):

Credit facility (Level 2)	993	1,000	992	1,000
Mortgage debt (Level 2)	97	89	98	91

In February 2025, the \$79 million loan to the buyer of The Camby, Autograph Collection, was repaid in full.

## 8. Geographic and Business Segment Information

Our chief operating decision maker ("CODM") is our chief executive officer. We consider each one of our hotels to be an operating segment, as we allocate resources and assess operating performance based on individual hotels. All of our hotels meet the aggregation criteria for segment reporting and our other real estate investment activities (primarily our equity method investments, retail spaces and office buildings) are immaterial. As such, we report one segment: hotel ownership. Our consolidated foreign operations consist of hotels in two countries as of March 31, 2025. There were no intersegment sales during the periods presented.

The following table presents total revenues and property and equipment, net, for each of the geographical areas in which we operate (in millions):

	Total Revenues		Property and Equipment, net	
	Quarter ended March 31,		March 31,	December 31,
	2025	2024	2025	2024
United States	\$ 1,576	\$ 1,452	\$ 10,804	\$ 10,852
Brazil	7	6	29	27
Canada	11	13	29	27
Total	\$ 1,594	\$ 1,471	\$ 10,862	\$ 10,906

The CODM's primary measure of performance for our reportable segment is Earnings Before Interest Expense, Income Taxes, Depreciation and Amortization ("EBITDA"). The CODM uses EBITDA to analyze how profitable a hotel is, including reviewing how each department at the hotel performed, in comparison to budget and in comparison to prior year performance, when making capital allocation decisions. We do not allocate corporate level income and expenses to segments. Our CODM does not use asset book values in assessing performance or allocating resources for our operating segments and therefore this information is not disclosed.

This amount, combined with net gain on property insurance settlements, make up the amount of net gain on insurance settlements on our unaudited condensed consolidated statements of operations.

## 9. Non-controlling Interests

**Host Inc.'s treatment of the non-controlling interests of Host L.P.:** Host Inc. adjusts the amount of the non-controlling interests of Host L.P. each period so that the amount presented equals the greater of its carrying amount based on accumulated historical cost or its redemption value. The historical cost is based on the proportional relationship between the historical cost of equity held by our common stockholders relative to that of the common unit holders of Host L.P. The redemption value is based on the amount of cash or Host Inc. common stock, at our option, that would be paid to the non-controlling interests of Host L.P. if it were terminated. We have estimated that the redemption value of the common OP units is equivalent to the number of common shares issuable upon conversion of the common OP units held by third parties valued at the market price of Host Inc. common stock at the balance sheet date. One common OP unit may be exchanged for 1.021494 shares of Host Inc. common stock. Redeemable non-controlling interests of Host L.P. are classified in the mezzanine section of our balance sheets as they do not meet the requirements for equity classification because the redemption feature requires the delivery of registered shares.

**HOST HOTELS & RESORTS, INC., HOST HOTELS & RESORTS, L.P., AND SUBSIDIARIES**  
**NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS**  
(Unaudited)

The table below details the historical cost and redemption values for the non-controlling interests of Host L.P.:

	March 31, 2025	December 31, 2024
Common OP units outstanding (millions)	9.2	9.2

Historical cost (millions)	90	90
Book value (millions) <sup>(1)</sup>	133	165

(1) The book value recorded is equal to the greater of redemption value or historical cost.

**Other Consolidated Partnerships.** Non-redeemable non-controlling interests - other consolidated partnerships on the balance sheets consists of the third-party partnership interest of one majority-owned partnership.

## 10. Contingencies

While many of our hotels in Florida were affected by Hurricanes Helene and Milton, which made landfall in September and October 2024, respectively, the most significant damage sustained during the storms occurred at The Don CeSar, which reopened to guests on March 26, 2025, as part of a phased reopening.

At The Don CeSar, our current estimate of the book value of the property and equipment written off and remediation costs is approximately \$58 million, for which we have recorded a corresponding insurance receivable of \$58 million. We believe our insurance coverage is sufficient to cover substantially all of the property damage and the near-term loss of business in excess of our insurance deductibles. As of March 31, 2025, we have received \$20 million of insurance proceeds related to these claims, of which \$10 million reduced our receivable to \$48 million, and \$10 million of these proceeds were recognized as a gain on business interruption in the first quarter, which is included in net gain on insurance settlements on our unaudited condensed consolidated statements of operations.

## 11. Legal Proceedings

We are involved in various legal proceedings in the ordinary course of business regarding the operation of our hotels and Company matters. To the extent not covered by insurance, these legal proceedings generally fall into the following broad categories: disputes involving hotel-level contracts, employment litigation, compliance with laws such as the Americans with Disabilities Act, tax disputes and other general matters. Under our management agreements, our operators have broad latitude to resolve individual hotel-level claims for amounts generally less than \$150,000. However, for matters exceeding such threshold, our operators may not settle claims without our consent.

Based on our analysis of legal proceedings with which we and our hotels managers are currently involved or of which we are currently aware and our experience in resolving similar claims in the past, we have recorded immaterial accruals as of March 31, 2025 related to such claims. We have estimated that, in the aggregate, our losses related to these proceedings will not be material. We are not aware of any matters with a reasonably possible unfavorable outcome for which disclosure of a loss contingency is required. No assurances can be given as to the outcome of any pending legal proceedings.

## Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

The following discussion and analysis should be read in conjunction with the unaudited condensed consolidated financial statements and related notes included elsewhere in this report. Host Inc. operates as a self-managed and self-administered REIT. Host Inc. is the sole general partner of Host L.P. and holds approximately 99% of its partnership interests. Host L.P. is a limited partnership operating through an umbrella partnership structure. The remaining common OP units are owned by various unaffiliated limited partners.

### Forward-Looking Statements

In this quarterly report on Form 10-Q, we make forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. These forward-looking statements are identified by their use of terms and phrases such as “anticipate,” “believe,” “could,” “expect,” “may,” “intend,” “predict,” “project,” “plan,” “will,” “estimate” and other similar terms and phrases, including references to assumptions and forecasts of future results. Forward-looking statements are based on management's current expectations and assumptions and are not guarantees of future performance. Forward-looking statements involve known and unknown risks, uncertainties and other factors which may cause our actual results to differ materially from those anticipated at the time the forward-looking statements are made.

The following factors, among others, could cause actual results and future events to differ materially from those set forth or contemplated in the forward-looking statements:

- the effect on lodging demand of (i) changes in national and local economic and business conditions, including concerns about U.S. economic growth and the potential for an economic recession in the United States or globally, or as a result of recent economic uncertainty due to trade disputes, tariffs and other protection measures, the recent high level of inflation, elevated interest rates, global economic prospects, consumer confidence and the value of the U.S. dollar, and (ii) factors that may shape public perception of travel to a particular location, including natural disasters, such as the Maui wildfires in 2023 and Southern California wildfires in 2025, adverse weather events, such as Hurricane Ian in 2022 and Hurricanes Helene and Milton in 2024, or extreme precipitation, pandemics and other public health crises, such as the COVID-19 pandemic, and the occurrence or potential occurrence of terrorist attacks, all of which will affect occupancy rates at our hotels and the demand for hotel products and services;
- risks that U.S. immigration policies and border closings, visa processing times, travel restrictions or advisories, changes in energy prices or changes in foreign exchange rates will suppress international travel to the United States generally or decrease the labor pool, and risks that international U.S. outbound travel may remain elevated relative to historic levels;
- the impact of geopolitical developments outside the U.S., such as large-scale wars or international conflicts, slowing global growth, or trade disputes, tariffs or other trade protection measures between the United States and its trading partners, all of which could cause economic volatility and affect global travel and lodging demand within the United States or result in supply chain disruptions;
- volatility in global financial and credit markets, which could materially adversely affect U.S. and global economic conditions, business activity, and lodging demand as well as negatively impact our ability to obtain financing and increase our borrowing costs;
- future U.S. governmental action to address budget deficits through reductions in spending and similar austerity measures, as well as the impact of potential U.S. government shutdowns, all of which could materially adversely affect U.S. economic conditions, business activity, credit availability and borrowing costs;
- operating risks associated with the hotel business, including the effect of labor stoppages or strikes, increasing operating or labor costs, including increased labor costs in the recent inflationary environment, the ability of our managers to adequately staff our hotels as a result of shortages in labor, changes in immigration laws or their enforcement, and severance and furlough payments to hotel employees or changes in workplace rules that affect labor costs;
- the effect of rating agency downgrades of our debt securities or on the cost and availability of new debt financings;
- the reduction in our operating flexibility and the limitation on our ability to incur debt, pay dividends and make distributions resulting from restrictive covenants in our debt agreements and other risks associated with the

amount of our indebtedness or related to restrictive covenants in our debt agreements, including the risk that a default could occur;

- our ability to maintain our hotels in a first-class manner, including meeting capital expenditures requirements, and the effect of renovations, including temporary closures, on our hotel occupancy and financial results;
- the ability of our hotels to compete effectively against other lodging businesses in the highly competitive markets in which we operate in areas such as access, location, quality of accommodations and room rate structures;
- our ability to acquire or develop additional hotels and the risk that potential acquisitions or developments may not perform in accordance with our expectations;
- the ability to complete hotel renovations on schedule and on, or under, budget and the potential for increased costs and construction delays due to shortages of supplies as a result of supply chain disruptions;
- relationships with property managers and joint venture partners and our ability to realize the expected benefits of our joint ventures and other strategic relationships;
- risks associated with a single manager, Marriott International, managing a significant percentage of our hotels;
- changes in the desirability of the geographic regions of the hotels in our portfolio or in the travel patterns of hotel customers;
- decreases in the frequency of business travel that may result from hybrid or remote work environments and other changes to business operations, such as alternatives to in-person meetings, including virtual meetings hosted online or over private teleconferencing networks;
- the continued competition from third-party internet travel intermediaries in attracting and retaining customers, which compete with our hotels;
- our ability to recover fully under our existing insurance policies for terrorist acts and natural disasters and our ability to maintain adequate or full replacement cost “all-risk” property insurance policies on our hotels on commercially reasonable terms;
- the effect of a data breach or significant disruption of hotel operator information technology networks as a result of cyber-attacks;
- the effects of tax legislative action and other changes in laws and regulations, or the interpretation thereof, including the need for compliance with new environmental and safety requirements;
- changes in taxes and government regulations that influence or set wages, hotel employee health care costs, prices, interest rates or construction and maintenance procedures and costs;
- the ability of Host Inc. and each of the REITs acquired, established or to be established by Host Inc. to continue to satisfy complex rules in order to qualify as REITs for U.S. federal income tax purposes and Host Inc.’s and Host L.P.’s ability and the ability of our subsidiaries, and similar entities to be acquired or established by us, to operate effectively within the limitations imposed by these rules; and
- risks associated with our ability to execute our dividend policy, including factors such as investment activity, operating results and the economic outlook, any or all of which may influence the decision of our board of directors as to whether to pay future dividends at levels previously disclosed or to use available cash to pay special dividends.

We undertake no obligation to publicly update forward-looking statements, whether as a result of new information, future events, or otherwise. Achievement of future results is subject to risks, uncertainties and potentially inaccurate assumptions, including those risk factors discussed in our Annual Report on Form 10-K for the year ended December 31, 2024 and in other filings with the Securities and Exchange Commission (“SEC”). We caution you not to place undue reliance on these forward-looking statements, which reflect our analysis only and speak as of the date of this report. Although we believe that the expectations reflected in such forward-looking statements are based upon reasonable assumptions, we can give no assurance that we will attain these expectations or that any deviations will not be material.

### Revenues

Total revenues increased \$123 million, or 8.4%, as compared to the first quarter of 2024, driven by a 5.7% increase in room rates at our comparable hotels as well as continued strong group business driving food and beverage revenues. The first quarter also benefited from the 2024 acquisitions of the 1 Hotel Nashville and Embassy Suites by Hilton Nashville Downtown, 1 Hotel Central Park and The Ritz-Carlton O'ahu, Turtle Bay. However, this was partially offset by the closure of The Don CeSar through March 26, 2025, following the impacts of Hurricanes Helene and Milton in September and October 2024, respectively. Comparable hotel RevPAR increased 7.0% for the quarter, primarily due to the increase in room rates, reflecting continued strong group demand, improving recovery in Maui for the quarter as well as market specific events such as the inauguration in Washington, D.C. and the Super Bowl in New Orleans.

Comparable hotel Total RevPAR increased 5.8% for the first quarter, compared to 2024, primarily due to the rate increases and improvements in food and beverage revenues driven by continued strength in group business. The growth was led by our Washington, D.C., Nashville and New York markets with increases of 19.2%, 16.8% and 14.0%, respectively, in the first quarter, driven by both rate and occupancy growth. The Washington, D.C. market benefited from

the Presidential Inauguration, while the increases at our Nashville and New York properties were driven by group business. Our New Orleans market also outperformed with growth of 9.6% due to the Super Bowl. These strong performances were partially offset by comparable hotel Total RevPAR declines in our San Diego and Seattle markets of 4.2% and 1.8%, respectively. In San Diego, there were less citywide events leading to a decline in group demand, while our Seattle properties had less contribution from group business. Comparable hotel Total RevPAR in our Maui market grew 6.8% over the first quarter of 2024, as its recovery from the wildfires continues.

#### *Operating profit*

For the first quarter of 2025 operating profit margin (under GAAP) declined 190 basis points to 17.9%, primarily due to a \$21 million decrease in insurance gains recognized during the quarter. Our comparable hotel EBITDA margin was 31.8%, an increase of 30 basis points compared to the same period in 2024, as improvements in average rates were able to offset an increase in wages expense.

#### *Net income, Adjusted EBITDAre and Adjusted FFO per share*

Net income decreased \$21 million, or 7.7%, for the quarter, primarily due to a decline in gains on insurance settlements and an increase in interest expense, partially offset by the improvements in operations. These changes led to a decrease in diluted earnings per share of \$0.03, or 7.9%, for the quarter. Adjusted EBITDAre, which excludes property insurance gains and interest expense, among other items, increased \$25 million to \$514 million. Adjusted FFO per diluted share increased \$0.03 to \$0.64 for the first quarter, reflecting the improvement in Adjusted EBITDAre, partially offset by an increase in interest expense which is included in Adjusted FFO per diluted share but not Adjusted EBITDAre.

#### *Outlook*

During the first quarter of 2025, group business at our properties remained strong, driven by higher average rates as well as occupancy improvements at our resorts. In addition, first quarter results reflect the improving leisure demand on Maui and a continued recovery in business transient. The first quarter of 2025 also benefited from special events, including the Presidential Inauguration in Washington, D.C. and the Super Bowl in New Orleans. Overall, the first quarter results have not reflected material impacts from recent economic policy changes.

However, on the macroeconomic front, recent heightened uncertainty surrounding trade policy and government spending are expected to weigh on growth through the remainder of 2025. Historically, economic uncertainty has hindered business investment, which is strongly correlated to business transient and group demand. Additionally, international inbound faces headwinds from U.S. trade and other policies, while the full economic impact of heightened tariffs and financial market volatility remains fluid. Other risks to economic growth remain, including high interest rates and geopolitical instability. As a result, leading indicators point toward slower economic growth for the remainder of 2025. The April 2025 Blue Chip Economic Indicators survey shows a sharp downward revision to consensus expectations for U.S. GDP growth in 2025, from 2.0% down to 1.4%, reflecting an immediate reaction to the initial tariff announcements. Business investment growth is also anticipated to slow over the coming year due to the heightened uncertainty and anticipated margin pressures, with only 1.2% growth, down from a 2.3% growth forecast in February.

Hotel supply growth expectations remain below the historical average, although we expect to see above-average growth in a few markets where our hotels are located. Supply chain challenges, which may be exacerbated by current tariffs and trade policies, have resulted in project delays across the U.S., and a prolonged tight lending environment has created construction financing challenges for future projects. We anticipate that the construction pipeline will remain modest until macroeconomic uncertainty moderates and interest rates decline further.

Despite the macroeconomic uncertainty, we are maintaining our prior 2025 comparable hotel RevPAR growth guidance range, as there have not been any material declines in demand trends, though we are beginning to see moderating trends in group lead volume. Our forecast assumes comparable hotel RevPAR growth will be between 0.5% and 2.5% for the full year 2025. The forecast assumes a moderate recovery at our Maui properties; however, the timing of Maui's full recovery remains uncertain. In addition, we continue to expect margins to decline in comparison to 2024, driven by higher wages and benefits, including increases driven by new union contracts in certain cities, as well as growth in insurance and real estate taxes.

As discussed above, the current outlook for the lodging industry remains uncertain, reflecting varying analyst assumptions surrounding the impact of trade policy, financial market volatility, reductions in government employment and escalating geopolitical conflicts. Therefore, there can be no assurances as to lodging demand performance for any number of reasons, including, but not limited to, deteriorating macroeconomic conditions.

### ***Strategic Initiatives***

*Capital Projects.* During the first quarter of 2025, we spent approximately \$46 million on return on investment ("ROI") capital projects, \$61 million on renewal and replacement projects, and \$39 million on hurricane and other restoration work. This included our continuing restoration efforts at The Don CeSar following Hurricanes Helene and Milton, for which we estimate the total property reconstruction and remediation costs, including resiliency enhancements, to be approximately \$100 million to \$110 million of which approximately 25-30% relates to remediation costs. The Don CeSar reopened to guests on March 26, 2025, as part of a phased reopening, with amenities such as the retail space, restaurant and second pool expected to re-open in the summer of 2025. As of April 30, 2025, we have received total insurance proceeds of \$20 million related to our claims, of which \$10 million has been recognized as business interruption proceeds in the first quarter of 2025.

In collaboration with Hyatt, we initiated a transformational capital program in 2023 on six properties in our portfolio. These investments are intended to position the targeted hotels to compete better in their respective markets while seeking to enhance long-term performance. We expect to invest approximately \$125 million to \$200 million per year on this program through 2027. Hyatt has agreed to provide additional priority returns on the agreed upon investments and operating profit guarantees totaling \$40 million to offset expected business disruptions.

Approximately 45% of the total estimated costs of the program have been spent as of March 31, 2025, and we spent approximately \$19 million during the first quarter of 2025, which is included in ROI capital projects. During the first quarter of 2025, we completed the project at Grand Hyatt Atlanta in Buckhead and expect to complete projects at the Hyatt Regency Austin and Hyatt Regency Washington on Capitol Hill later this year.

For full year 2025, we expect total capital expenditures of \$580 million to \$670 million, consisting of ROI projects of approximately \$270 million to \$315 million, renewal and replacement expenditures of \$240 million to \$275 million, and \$70 million to \$80 million for the restoration work from the damage caused by Hurricanes Helene and Milton. The full year ROI project spend includes approximately \$170 million to \$180 million for the Hyatt transformational capital program discussed above.

Construction continued on the development of 40 condominiums on a five-acre development parcel to be Four Seasons-branded and managed residences at the Four Seasons Resort Orlando at Walt Disney World® Resort. The mid-rise building is expected to be completed in the fourth quarter of 2025, and the villas are expected to be completed in the first half of 2026. During the first quarter of 2025, we spent \$19 million in development costs for this project and expect full year 2025 development costs for this project to be \$75 million to \$85 million.

## Statement of Operations Results and Trends

### Hotel Sales Overview

The following table presents total revenues in accordance with GAAP and includes all consolidated hotels (in millions, except percentages):

	Quarter ended March 31,		
	2025	2024	Change
Revenues:			
Rooms	\$ 938	\$ 853	10.0 %
Food and beverage	503	473	6.3 %
Other	153	145	5.5 %
Total revenues	\$ 1,594	\$ 1,471	8.4 %

Total revenues for the first quarter increased 8.4% compared to the first quarter of 2024, due to an increase in room rates, improvements in food and beverage revenues driven by continued strong group business, improving leisure demand on Maui, and other market-specific events. Our 2025 revenues also benefited from the operations of our 2024

acquisitions, including 1 Hotel Nashville and Embassy Suites by Hilton Nashville Downtown acquired in April 2024, 1 Hotel Central Park acquired in July 2024, and The Ritz-Carlton O'ahu, Turtle Bay acquired in July 2024 (collectively, the "2024 Acquisitions"). The improvements were partially offset by the closure of The Don CeSar, which closed in September 2024 due to Hurricanes Helene and Milton, and reopened on March 26, 2025.

*Rooms.* Total rooms revenues increased \$85 million, or 10.0%, for the first quarter compared to 2024, reflecting the operations of the 2024 Acquisitions and an increase at our comparable hotels of \$51 million, or 5.8%, for the quarter driven by a 5.7% increase in average room rate coupled with an 80 basis point improvement in occupancy.

*Food and beverage.* Total food and beverage ("F&B") revenues increased \$30 million, or 6.3%, for the first quarter compared to 2024 due to the 2024 Acquisitions and an increase in comparable F&B revenues of \$18 million, or 3.7%, which was driven by contribution growth in banquet and audio-visual revenues, as well as an increase in outlet revenues from the improving recovery on Maui.

*Other revenues.* Total other revenues increased \$8 million, or 5.5%, for the first quarter compared to 2024 driven by results from the 2024 Acquisitions. Other revenues at our comparable hotels increased \$2 million, or 1.3%, primarily due to an increase in spa, golf and other ancillary revenues as the recovery continues on Maui, though these increases were partially offset by a decrease in attrition and cancellation fees from record levels recorded in the first quarter of 2024 related to Maui.

#### *Property-level Operating Expenses*

The following table presents property-level operating expenses in accordance with GAAP and includes all consolidated hotels (in millions, except percentages):

	Quarter ended March 31,		Change
	2025	2024	
Expenses:			
Rooms	\$ 225	\$ 202	11.4 %
Food and beverage	323	295	9.5 %
Other departmental and support expenses	364	334	9.0 %
Management fees	69	69	— %
Other property-level expenses	111	104	6.7 %
Depreciation and amortization	196	180	8.9 %
Total property-level operating expenses	<u>\$ 1,288</u>	<u>\$ 1,184</u>	<u>8.8 %</u>

Our operating costs and expenses, which consist of both fixed and variable components, are affected by several factors. Rooms expenses are affected mainly by occupancy, which drives costs related to items such as housekeeping, reservation systems, room supplies, laundry services and front desk costs. Food and beverage expenses correlate closely with food and beverage revenues and are affected by occupancy and the mix of business between banquet, audio-visual and outlet sales. However, the most significant expense for the rooms, food and beverage, and other departmental and support expenses is wages and employee benefits, which comprise approximately 57% of these expenses. For the first quarter of 2025, these expenses increased approximately 6% on a per available room basis compared to 2024, primarily due to an overall increase in general wage rates and benefits. Wage and benefit rate inflation is expected to be approximately 6% in 2025.

Other property-level expenses consist of property taxes, the amounts and structure of which are highly dependent on local jurisdiction taxing authorities, and property and general liability insurance, all of which do not necessarily increase or decrease based on similar changes in revenues at our hotels.

The increase in expenses for the first quarter of 2025 compared to 2024 for rooms, food and beverage, and other departmental and support was generally due to the corresponding increases in revenues due to the 2024 Acquisitions, and

also reflected increased expenses at our comparable hotels primarily due to increased wages and benefits, as described below:

*Rooms.* Rooms expenses increased \$23 million, or 11.4%, for the quarter. Our comparable hotels rooms expenses increased \$13 million, or 6.2%, for the quarter driven by an overall increase in wage rates.

*Food and beverage.* F&B expenses increased \$28 million, or 9.5%, for the quarter. For our comparable hotels, F&B expenses increased \$16 million, or 5.3%, for the quarter. Overall, F&B costs as a percentage of revenues increased slightly year over year as a result of increased wages and benefits.

*Other departmental and support expenses.* Other departmental and support expenses increased \$30 million, or 9.0%, for the quarter. On a comparable hotel basis, other departmental and support expenses increased \$11 million, or 3.3%, for the quarter. These increases were primarily due to higher wage expense.

*Management fees.* Total management fees were flat for the quarter. Base management fees, which generally are calculated as a percentage of total revenues, increased \$3 million, or 7.3%, for the quarter. At our comparable hotels, base management fees increased \$2 million, or 4.3%. Incentive management fees, which generally are based on the amount of operating profit at each hotel after we receive a priority return on our investment, decreased \$3 million, or 10.7%, for the quarter, while incentive management fees were flat at our comparable hotels.

*Other property-level expenses.* These expenses generally do not vary significantly based on occupancy and include expenses such as property taxes and insurance. Other property-level expenses increased \$7 million, or 6.7%, for the quarter, due to the 2024 Acquisitions. Other property-level expenses at our comparable hotels increased \$2 million, or 2.0%, for the quarter. Other property-level expenses were partially offset by the receipt of operating profit guarantees under the transformational capital programs in both 2025 and 2024.

#### *Other Income and Expense*

*Corporate and other expenses.* The following table details our corporate and other expenses for the quarters (in millions):

	Quarter ended March 31,	
	2025	2024
General and administrative costs	\$ 25	\$ 21
Non-cash stock-based compensation expense	6	6
Total	\$ 31	\$ 27

*Net gain on insurance settlements.* The following table details our gain on insurance settlements for property damage and business interruption, net of property damage and remediation losses, related to Hurricanes Ian, Helene and Milton for the quarters (in millions):

	Quarter ended March 31,	
	2025	2024
Property damage		
Hurricane Ian	\$ —	\$ 21
Business interruption		
Hurricanes Helene/Milton	10	—
Hurricane Ian	—	10
Net gain on insurance settlements	\$ 10	\$ 31

*Interest expense.* Interest expense increased for the quarter due primarily to higher outstanding debt balances during the first quarter of 2025 compared to 2024, as we refinanced \$400 million of senior notes in 2024 through the

issuances of \$1.3 billion of senior notes at higher interest rates, and also used the proceeds to partially fund the 2024 Acquisitions. The following table details our interest expense for the quarters (in millions):

	Quarter ended March 31,	
	2025	2024
Cash interest expense <sup>(1)</sup>	\$ 54	\$ 45
Non-cash interest expense	3	2
Total interest expense	\$ 57	\$ 47

(1) Including the change in accrued interest, total cash interest paid was \$56 million and \$39 million for the quarters ended March 31, 2025 and 2024, respectively.

*Benefit for income taxes.* We lease substantially all our properties to consolidated subsidiaries designated as taxable REIT subsidiaries (“TRS”) for U.S. federal income tax purposes. Taxable income or loss generated/incurred by the TRS primarily represents hotel-level operations, net of the aggregate rent paid to Host L.P. by the TRS, on which we record an income tax provision or benefit. For the first quarter of 2025, we recorded a net income tax benefit of \$1 million, primarily due to a loss recorded by the TRS.

### Comparable Hotel RevPAR Overview

We discuss operating results for our hotels on a comparable hotel basis. Comparable hotels are those properties that we consolidate as of the reporting date. Comparable hotels do not include the results of hotels sold or classified as held-for-sale, hotels that have sustained substantial property damage or business interruption, or hotels that have undergone large-scale capital projects, in each case requiring closures lasting one month or longer during the reporting periods being compared. See “Comparable Hotel Operating Statistics and Results” below for more information on how we determine our comparable hotels.

We also include, following the comparable hotels results by geographic location, the same operating statistics presentation on an actual basis, which includes results for our portfolio for the time period of our ownership, including the results of non-comparable properties, dispositions through their date of disposal and acquisitions beginning as of the date of acquisition. Lastly, we discuss our hotel results by mix of business (i.e., transient, group, or contract).

#### *Hotel Operating Data by Location*

(1) Prior to our ownership of The Ritz Carlton O'ahu, Turtle Bay, golf revenues were recorded by the property based on gross sales. After our acquisition of the property in July 2024, the golf course operates under a lease agreement, under which we record rental income, resulting in lower total revenues when compared to the periods prior to our ownership.

#### Hotel Business Mix

Our customers fall into three broad categories: transient, group, and contract business, which accounted for approximately 60%, 36%, and 4%, respectively, of our full year 2024 room sales. The information below is derived from business mix results from the 79 comparable hotels owned as of March 31, 2025. For additional detail on our business mix, see “Management’s Discussion and Analysis of Financial Condition and Results of Operations” in our most recent Annual Report on Form 10-K.

For the first quarter, group revenue increased by 5.9% compared to 2024, driven by a 6.5% increase in average rates in part due to special events, including the inauguration in Washington, D.C. and the Super Bowl in New Orleans. In addition, transient revenue increased by 4.7% for the first quarter, reflecting the improving leisure demand on Maui and an increase in transient demand at our other resorts. Results reflect lower group room nights in the first quarter of 2025 as

compared to 2024 as our properties in Maui benefited from recovery and relief group business in the first quarter of 2024, which was more than offset by the increase in group room rates.

The following are the results of our transient, group and contract business:

	Quarter ended March 31, 2025		
	Transient business	Group business	Contract business
Room nights (in thousands)	1,362	1,136	193
Percent change in room nights vs. same period in 2024	(0.8 %)	(0.6 %)	11.4 %
Rooms revenues (in millions)	\$ 523	\$ 365	\$ 43
Percent change in revenues vs. same period in 2024	4.7 %	5.9 %	20.5 %

## Liquidity and Capital Resources

**Liquidity and Capital Resources of Host Inc. and Host L.P.** The liquidity and capital resources of Host Inc. and Host L.P. are derived primarily from the activities of Host L.P., which generates the capital required by our business from hotel operations, the incurrence of debt, the issuance of OP units or the sale of hotels. Host Inc. is a REIT, and its only significant asset is the ownership of general and limited partner interests of Host L.P.; therefore, its financing and investing activities are conducted through Host L.P., except for the issuance of its common and preferred stock. Proceeds from common and preferred stock issuances by Host Inc. are contributed to Host L.P. in exchange for common and preferred OP units. Additionally, funds used by Host Inc. to pay dividends or to repurchase its stock are provided by Host L.P. Therefore, while we have noted those areas in which it is important to distinguish between Host Inc. and Host L.P., we have not included a separate discussion of liquidity and capital resources as the discussion below applies to both Host Inc. and Host L.P.

**Overview.** We look to maintain a capital structure and liquidity profile with an appropriate balance of cash, debt, and equity to provide financial flexibility given the inherent volatility of the lodging industry. We believe this strategy has resulted in a better cost of debt capital, allowing us to complete opportunistic investments and acquisitions and positioning us to manage potential declines in operations throughout the lodging cycle. We have structured our debt profile to maintain a balanced maturity schedule and to minimize the number of assets that are encumbered by mortgage debt. Currently, only one of our consolidated hotels is encumbered by mortgage debt. We intend to use available cash in the near term predominantly to fund, and believe we have sufficient liquidity to fund, corporate expenses, capital expenditures, hotel acquisitions and dividends and remain well positioned to execute additional investment transactions to the extent opportunities arise.

**Cash Requirements.** We use cash for acquisitions, capital expenditures, debt payments, operating costs, and corporate and other expenses, as well as for dividends and distributions to stockholders and to OP unitholders, respectively, and stock and OP unit repurchases. As a REIT, Host Inc. is required to distribute to its stockholders at least 90% of its taxable income, excluding net capital gain, on an annual basis. Our next significant debt maturity is \$500 million of senior notes due in June 2025. We believe we have sufficient liquidity to repay the senior notes at maturity.

**Capital Resources.** As of March 31, 2025, we had \$428 million of cash and cash equivalents, \$264 million in our FF&E escrow reserves and \$1.5 billion available under the revolver portion of our credit facility. We depend primarily on external sources of capital to finance future growth, including acquisitions. As a result, the liquidity and debt capacity provided by our credit facility and the ability to issue senior unsecured debt are key components of our capital structure. Our financial flexibility, including our ability to incur debt, pay dividends, make distributions and make investments, is contingent on our ability to maintain compliance with the financial covenants of our credit facility and senior notes indentures, which include, among other things, the allowable amounts of leverage, interest coverage and fixed charges.

Two programs are currently in place relating to potential purchases or sales of our common stock. Under our common stock repurchase program, common stock may be purchased from time to time depending upon market conditions and may be purchased in the open market or through private transactions or by other means, including principal transactions with various financial institutions, like accelerated share repurchases, forwards, options, and similar transactions and through one or more trading plans designed to comply with Rule 10b5-1 under the Securities Exchange

Act of 1934, as amended. The plan does not obligate us to repurchase any specific number or any specific dollar amount of shares and may be suspended at any time at our discretion. During the first quarter of 2025, we repurchased 6.3 million shares of Host Inc. common stock at an average price of \$15.79 per share, exclusive of commissions, through our common share repurchase program for a total of \$100 million. At March 31, 2025, we had \$585 million available for repurchase under our program.

In addition, on May 31, 2023, we entered into a distribution agreement with J.P. Morgan Securities LLC, BofA Securities, Inc., Goldman Sachs & Co. LLC, Jefferies LLC, Morgan Stanley & Co. LLC, Scotia Capital (USA) Inc., Truist Securities, Inc. and Wells Fargo Securities, LLC, as sales agents pursuant to which Host Inc. may offer and sell, from time to time, shares of Host Inc. common stock having an aggregate offering price of up to \$600 million. The sales will be made in transactions that are deemed to be “at the market” offerings under the SEC rules. We may sell shares of Host Inc. common stock under this program from time to time based on market conditions, although we are not under an obligation to sell any shares. We may sell shares when we believe conditions are advantageous and there is a compelling use of proceeds, including to fund future potential acquisitions or other investment opportunities. The agreement also contemplates that, in addition to the offering and sale of shares to or through the sales agents, we may enter into separate forward sale agreements with each of the forward purchasers named in the agreement. No shares were issued during the first quarter of 2025. As of March 31, 2025, there was \$600 million of remaining capacity under the agreement.

Given the total amount of our debt and our maturity schedule, we may continue to redeem or repurchase senior notes from time to time, taking advantage of favorable market conditions. In February 2023, Host Inc.’s Board of Directors authorized repurchases of up to \$1.0 billion of senior notes other than in accordance with their respective terms, of which the entire amount remains available under this authority. We may purchase senior notes with cash through open market purchases, privately negotiated transactions, a tender offer, or, in some cases, through the early redemption of such securities pursuant to their terms. Repurchases of debt will depend on prevailing market conditions, our liquidity requirements, contractual restrictions and other factors. Any retirement before the maturity date will affect earnings and NAREIT FFO per diluted share as a result of the payment of any applicable call premiums and the accelerated expensing of previously deferred and capitalized financing costs. Accordingly, considering our priorities in managing our capital structure and liquidity profile, and given prevailing conditions and relative pricing in the capital markets, we may, at any time, subject to applicable securities laws and the requirements of our credit facility and senior notes indentures, be considering, or be in discussions with respect to, the repurchase or issuance of exchangeable debentures and/or senior notes or the repurchase or sale of our common stock. Any such transactions may, subject to applicable securities laws, occur simultaneously.

We continue to explore potential acquisitions and dispositions. We anticipate that any such future acquisitions will be funded by cash, debt issuances by Host L.P., equity offerings of Host Inc., issuances of OP units by Host L.P., or proceeds from sales of hotels. Given the nature of these transactions, we can make no assurances that we will be successful in acquiring any one or more hotels that we may review, bid on or negotiate to purchase or that we will be successful in disposing of any one or more of our hotels. We may acquire additional hotels or dispose of hotels through various structures, including transactions involving single assets, portfolios, joint ventures, acquisitions of the securities or assets of other REITs or distributions of hotels to our stockholders.

**Sources and Uses of Cash.** Our sources of cash generally include cash from operations, proceeds from debt and equity issuances, and proceeds from hotel sales. Uses of cash include acquisitions, capital expenditures, operating costs, debt repayments, and repurchases of shares and distributions to equity holders.

**Cash Provided by Operating Activities.** In the first quarter of 2025, net cash provided by operating activities was \$305 million compared to \$365 million for first quarter of 2024, a decrease due to payments for condominium construction costs and increased interest payments.

**Cash Used in Investing Activities.** Net cash used in investing activities was \$83 million for the first quarter of 2025 compared to \$100 million for the first quarter of 2024. Cash used in investing activities for the first quarter of 2025 and 2024 primarily related to \$146 million and \$103 million of capital expenditures, respectively, as well as investments in our joint ventures. Cash provided by investing activities in 2025 included \$79 million of proceeds from the repayment of a note receivable.

**Cash Used in Financing Activities.** In the first quarter of 2025, net cash used in financing activities was \$327 million compared to \$44 million for first quarter of 2024. Cash used in financing activities in both 2025 and 2024 primarily related to

the payment of common stock dividends, while 2025 also included common stock repurchases. Cash provided by financing activities in first quarter of 2024 included a draw on the credit facility.

The following table summarizes significant equity transactions that have been completed through April 30, 2025 (in millions):

Transaction Date	Description of Transaction	Transaction Amount
<b>Equity of Host Inc.</b>		
January - April 2025	Dividend payment <sup>(1)(2)</sup>	\$ (349)
January - March 2025	Repurchase of 6.3 million shares of Host Inc. common stock	(100)
	Cash payments on equity transactions	<u>\$ (449)</u>

(1) In connection with the dividend payments, Host L.P. made distributions of \$354 million to its common OP unit holders.

(2) Includes the fourth quarter 2024 dividend that was paid in January 2025.

## Debt

As of March 31, 2025, our total debt was \$5.1 billion, with a weighted average interest rate of 4.7% and a weighted average maturity of 5.0 years. Additionally, 80% of our debt has a fixed rate of interest, and only one of our consolidated hotels is encumbered by mortgage debt.

## Financial Covenants

**Credit Facility Covenants.** Our credit facility contains certain important financial covenants concerning allowable leverage, unsecured interest coverage, and required fixed charge coverage. Total debt used in the calculation of our ratio of consolidated total debt to consolidated EBITDA (our “Leverage Ratio”) is based on a “net debt” concept, pursuant to which cash and cash equivalents in excess of \$100 million are deducted from our total debt balance for purposes of measuring compliance.

At March 31, 2025, we were in compliance with all of our financial covenants under the credit facility. The following table summarizes the results of the financial tests required by the credit facility, which are calculated on a trailing twelve-month basis:

	Actual Ratio	Covenant Requirement for all years
Leverage ratio	2.8x	Maximum ratio of 7.25x
Fixed charge coverage ratio	5.5x	Minimum ratio of 1.25x
Unsecured interest coverage ratio <sup>(1)</sup>	7.1x	Minimum ratio of 1.75x

(1) If, at any time, our leverage ratio is above 7.0x, our minimum unsecured interest coverage ratio will decrease to 1.50x.

## Senior Notes Indenture Covenants

The following table summarizes the results of the financial tests required by the indentures for our senior notes and our actual credit ratios as of March 31, 2025:

	Actual Ratio	Covenant Requirement
Unencumbered assets tests	439 %	Minimum ratio of 150%
Total indebtedness to total assets	23 %	Maximum ratio of 65%
Secured indebtedness to total assets	<1%	Maximum ratio of 40%
EBITDA-to-interest coverage ratio	7.0x	Minimum ratio of 1.5x

For additional details on our credit facility and senior notes, see our Annual Report on Form 10-K for the year ended December 31, 2024.

## **Dividend Policy**

Host Inc. is required to distribute at least 90% of its annual taxable income, excluding net capital gains, to its stockholders in order to maintain its qualification as a REIT. Funds used by Host Inc. to pay dividends on its common stock are provided by distributions from Host L.P. As of March 31, 2025, Host Inc. is the owner of approximately 99% of the Host L.P. common OP units. The remaining common OP units are owned by unaffiliated limited partners. Each Host L.P. common OP unit may be redeemed for cash or, at the election of Host Inc., Host Inc. common stock based on the conversion ratio. The current conversion ratio is 1.021494 shares of Host Inc. common stock for each Host L.P. common OP unit.

Investors should consider the non-controlling interests in the Host L.P. common OP units when analyzing dividend payments by Host Inc. to its stockholders, as these Host L.P. common OP unitholders share in cash distributed by Host L.P. to all of its common OP unitholders, on a pro rata basis. For example, if Host Inc. paid a \$1 per share dividend on its common stock, it would be based on the payment of a \$1.021494 per common OP unit distribution by Host L.P. to Host Inc., as well as to the other unaffiliated Host L.P. common OP unitholders.

Host Inc.'s policy on common dividends generally is to distribute, over time, 100% of its taxable income, which primarily is dependent on Host Inc.'s results of operations, as well as tax gains and losses on hotel sales. On February 19, 2025, Host Inc.'s Board of Directors announced a regular quarterly cash dividend of \$0.20 per share on Host Inc.'s common stock. The dividend was paid on April 15, 2025 to stockholders of record on March 31, 2025. All future dividends are subject to Board approval.

## **Critical Accounting Estimates**

Our unaudited condensed consolidated financial statements have been prepared in conformity with GAAP, which requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of our financial statements and the reported amounts of revenues and expenses during the reporting period. While we do not believe that the reported amounts would be materially different, application of these policies involves the exercise of judgment and the use of assumptions as to future uncertainties and, as a result, actual results could differ from these estimates. We evaluate our estimates and judgments on an ongoing basis. We base our estimates on experience and on various other assumptions that we believe are reasonable under the circumstances. All of our significant accounting policies, including certain critical accounting policies, are disclosed in our Annual Report on Form 10-K for the year ended December 31, 2024.

## **Comparable Hotel Operating Statistics and Results**

To facilitate a year-to-year comparison of our operations, we present certain operating statistics (i.e., Total RevPAR, RevPAR, average daily rate and average occupancy) and operating results (revenues, expenses, hotel EBITDA and associated margins) for the periods included in our reports on a comparable hotel basis in order to enable our investors to better evaluate our operating performance. We define our comparable hotels as those that: (i) are owned or leased by us as of the reporting date and are not classified as held-for-sale; and (ii) have not sustained substantial property damage or business interruption, or undergone large-scale capital projects, in each case requiring closures lasting one month or longer (as further defined below), during the reporting periods being compared.

We make adjustments to include recent acquisitions to include results for periods prior to our ownership. For these hotels, since the year-over-year comparison includes periods prior to our ownership, the changes will not necessarily correspond to changes in our actual results. Additionally, operating results of hotels that we sell are excluded from the comparable hotel set once the transaction has closed or the hotel is classified as held-for-sale.

The hotel business is capital-intensive and renovations are a regular part of the business. Generally, hotels under renovation remain comparable hotels. A large-scale capital project would cause a hotel to be excluded from our comparable hotel set if it requires the entire property to be closed to hotel guests for one month or longer.

Similarly, hotels are excluded from our comparable hotel set from the date that they sustain substantial property damage or business interruption if it requires the property to be closed to hotel guests for one month or longer. In each case, these hotels are returned to the comparable hotel set when the operations of the hotel have been included in our consolidated results for one full calendar year after the hotel has reopened. Often, related to events that cause property damage and the closure of a hotel, we will collect business interruption insurance proceeds for the near-term loss of business. These proceeds are included in net gain on insurance settlements on our condensed consolidated statements of operations. Business interruption insurance gains covering lost revenues while the property was considered non-comparable also will be excluded from the comparable hotel results.

Of the 81 hotels that we owned as of March 31, 2025, 79 have been classified as comparable hotels. The operating results of the following properties that we owned as of March 31, 2025 are excluded from comparable hotel results for these periods:

- The Don CeSar (business disruption due to Hurricane Helene resulting in closure of the hotel beginning at the end of September 2024, reopened in March 2025);
- Alila Ventana Big Sur (business disruption due to the collapse of a portion of Highway 1, causing closure of the hotel beginning in March 2024, reopened in May 2024); and
- Sales and marketing expenses related to the development and sale of condominium units on a development parcel adjacent to Four Seasons Resort Orlando at Walt Disney World® Resort.

### Foreign Currency Translation

Operating results denominated in foreign currencies are translated using the prevailing exchange rates on the date of the transaction, or monthly based on the weighted average exchange rate for the period. Therefore, hotel statistics and results for non-U.S. properties include the effect of currency fluctuations, consistent with our financial statement presentation.

### Non-GAAP Financial Measures

We use certain “non-GAAP financial measures,” which are measures of our historical financial performance that are not calculated and presented in accordance with GAAP, within the meaning of applicable SEC rules. These measures include the following:

- Earnings Before Interest Expense, Income Taxes, Depreciation and Amortization (“EBITDA”), Earnings Before Interest Expense, Income Taxes, Depreciation and Amortization for real estate (“EBITDA<sub>re</sub>”) and Adjusted EBITDA<sub>re</sub>, as a measure of performance for Host Inc. and Host L.P.,
- Funds From Operations (“FFO”) and FFO per diluted share, both calculated in accordance with National Association of Real Estate Investment Trusts (“NAREIT”) guidelines and with certain adjustments from those guidelines, as a measure of performance for Host Inc., and
- Comparable hotel operating results, as a measure of performance for Host Inc. and Host L.P.

The discussion below defines these measures and presents why we believe they are useful supplemental measures of our performance.

Set forth below for each such non-GAAP financial measure is a reconciliation of the measure with the financial measure calculated and presented in accordance with GAAP that we consider most directly comparable thereto. We also have included in “Management’s Discussion and Analysis of Financial Condition and Results of Operations – Non-GAAP Financial Measures” in our Annual Report on Form 10-K for the year ended December 31, 2024 further explanations of the adjustments being made, a statement disclosing the reasons why we believe the presentation of each of the non-GAAP financial measures provide useful information to investors regarding our financial condition and results of operations, the additional purposes for which we use the non-GAAP financial measures and limitations on their use.

## ***EBITDA, EBITDAre and Adjusted EBITDAre***

### ***EBITDA***

EBITDA is a commonly used measure of performance in many industries. Management believes EBITDA provides useful information to investors regarding our results of operations because it helps us and our investors evaluate the ongoing operating performance of our properties after removing the impact of our capital structure (primarily interest expense) and our asset base (primarily depreciation and amortization). Management also believes the use of EBITDA facilitates comparisons between us and other lodging REITs, hotel owners that are not REITs and other capital-intensive companies. Management uses EBITDA to evaluate property-level results and as one measure in determining the value of acquisitions and dispositions and, like FFO and Adjusted FFO per diluted share, it is widely used by management in the annual budget process and for compensation programs.

### ***EBITDAre and Adjusted EBITDAre***

We present EBITDAre in accordance with NAREIT guidelines, as defined in its September 2017 white paper “Earnings Before Interest, Taxes, Depreciation and Amortization for Real Estate,” to provide an additional performance measure to facilitate the evaluation and comparison of our results with other REITs. NAREIT defines EBITDAre as net income (calculated in accordance with GAAP) excluding interest expense, income tax, depreciation and amortization, gains or losses on disposition of depreciated property (including gains or losses on change of control), impairment expense for depreciated property and of investments in unconsolidated affiliates caused by a decrease in value of depreciated property in the affiliate, and adjustments to reflect the entity’s pro rata share of EBITDAre of unconsolidated affiliates.

We make additional adjustments to EBITDAre when evaluating our performance because we believe that the exclusion of certain additional items described below provides useful supplemental information to investors regarding our ongoing operating performance. We believe that the presentation of Adjusted EBITDAre, when combined with the primary GAAP presentation of net income, is beneficial to an investor’s understanding of our operating performance. Adjusted EBITDAre also is similar to the measure used to calculate certain credit ratios for our credit facility and senior notes. We adjust EBITDAre for the following items, which may occur in any period, and refer to this measure as Adjusted EBITDAre:

- *Property Insurance Gains and Property Damage Losses* – We exclude the effect of property insurance gains reflected in our condensed consolidated statements of operations because we believe that including them in Adjusted EBITDAre is not consistent with reflecting the ongoing performance of our assets. In addition, property insurance gains could be less important to investors given that the depreciated asset book value written off in connection with the calculation of the property insurance gain often does not reflect the market value of real estate assets. Similarly, losses from property damage or remediation costs that are not covered through insurance are excluded.
- *Acquisition Costs* – Under GAAP, costs associated with completed property acquisitions that are considered business combinations are expensed in the year incurred. We exclude the effect of these costs because we believe they are not reflective of the ongoing performance of the Company.
- *Litigation Gains and Losses* – We exclude the effect of gains or losses associated with litigation recorded under GAAP that we consider to be outside the ordinary course of business. We believe that including these items is not consistent with our ongoing operating performance.
- *Severance Expense* – In certain circumstances, we will add back hotel-level severance expenses when we do not believe that such expenses are reflective of the ongoing operation of our properties. Situations that would result in a severance add-back include, but are not limited to: (i) costs incurred as part of a broad-based reconfiguration of the operating model with the specific hotel operator for a portfolio of hotels and (ii) costs incurred at a specific hotel due to a broad-based and significant reconfiguration of a hotel and/or its workforce. We do not add back corporate-level severance costs or severance costs at an individual hotel that we consider to be incurred in the normal course of business.
- Effective January 1, 2025, we exclude the expense recorded for non-cash stock-based compensation, as it represents a non-cash transaction and the add back is consistent with the calculation of Adjusted EBITDA for our financial covenant ratios under our credit facility and senior notes indentures and consistent with the presentation of Adjusted EBITDAre for the majority of other lodging REIT filers.

In unusual circumstances, we also may adjust EBITDAre for gains or losses that management believes are not representative of the Company's current operating performance. The last adjustment of this nature was a 2013 exclusion of a gain from an eminent domain claim.

The following table provides a reconciliation of EBITDA, EBITDAre, and Adjusted EBITDAre to net income, the financial measure calculated and presented in accordance with GAAP that we consider the most directly comparable:

- (1) Net income, EBITDA, EBITDAre, Adjusted EBITDAre, NAREIT FFO and Adjusted FFO for the quarter ended March 31, 2025 include a gain of \$4 million from the sale of land adjacent to The Phoenician hotel.
- (2) Unrealized gains of our unconsolidated investments are not recognized in our EBITDAre, Adjusted EBITDAre, NAREIT FFO or Adjusted FFO until they have been realized by the unconsolidated partnership.
- (3) Effective January 1, 2025, we exclude the expense recorded for non-cash stock-based compensation, as it represents a non-cash transaction and the add back is consistent with the calculation of Adjusted EBITDA for our financial covenant ratios. Prior year results have been updated to conform with the current year presentation.

### FFO Measures

We present NAREIT FFO and NAREIT FFO per diluted share as non-GAAP measures of our performance in addition to our earnings per share (calculated in accordance with GAAP). We calculate NAREIT FFO per diluted share as our NAREIT FFO (defined as set forth below) for a given operating period, as adjusted for the effect of dilutive securities, divided by the number of fully diluted shares outstanding during such period, in accordance with NAREIT guidelines. As noted in NAREIT's Funds From Operations White Paper – 2018 Restatement, NAREIT defines FFO as net income (calculated in accordance with GAAP) excluding depreciation and amortization related to certain real estate assets, gains and losses from the sale of certain real estate assets, gains and losses from change in control, impairment expense of certain real estate assets and investments and adjustments for consolidated partially owned entities and unconsolidated affiliates. Adjustments for consolidated partially owned entities and unconsolidated affiliates are calculated to reflect our pro rata share of the FFO of those entities on the same basis.

We also present Adjusted FFO per diluted share when evaluating our performance because management believes that the exclusion of certain additional items described below provides useful supplemental information to investors regarding our ongoing operating performance. Management historically has made the adjustments detailed below in evaluating our performance, in our annual budget process and for our compensation programs. We believe that the presentation of Adjusted FFO per diluted share, when combined with both the primary GAAP presentation of diluted earnings per share and FFO per diluted share as defined by NAREIT, provides useful supplemental information that is

beneficial to an investor's understanding of our operating performance. We adjust NAREIT FFO per diluted share for the following items, which may occur in any period, and refer to this measure as Adjusted FFO per diluted share:

- *Gains and Losses on the Extinguishment of Debt* – We exclude the effect of finance charges and premiums associated with the extinguishment of debt, including the acceleration of the write-off of deferred financing costs from the original issuance of the debt being redeemed or retired and incremental interest expense incurred during the refinancing period. We also exclude the gains on debt repurchases and the original issuance costs associated with the retirement of preferred stock. We believe that these items are not reflective of our ongoing finance costs.
- *Acquisition Costs* – Under GAAP, costs associated with completed property acquisitions that are considered business combinations are expensed in the year incurred. We exclude the effect of these costs because we believe they are not reflective of the ongoing performance of the Company.
- *Litigation Gains and Losses* – We exclude the effect of gains or losses associated with litigation recorded under GAAP that we consider to be outside the ordinary course of business. We believe that including these items is not consistent with our ongoing operating performance.
- *Severance Expense* – In certain circumstances, we will add back hotel-level severance expenses when we do not believe that such expenses are reflective of the ongoing operation of our properties. Situations that would result in a severance add-back include, but are not limited to, (i) costs incurred as part of a broad-based reconfiguration of the operating model with the specific hotel operator for a portfolio of hotels and (ii) costs incurred at a specific hotel due to a broad-based and significant reconfiguration of a hotel and/or its workforce. We do not add back corporate-level severance costs or severance costs at an individual hotel that we consider to be incurred in the normal course of business.
- Effective January 1, 2025, we exclude the expense recorded for non-cash stock-based compensation, as it represents a non-cash transaction and the add back is consistent with the calculation of Adjusted EBITDA for our financial covenant ratios under our credit facility and senior notes indentures and consistent with the presentation of Adjusted FFO per diluted share for the majority of other lodging REIT filers.

In unusual circumstances, we also may adjust NAREIT FFO for gains or losses that management believes are not representative of our current operating performance. For example, in 2017, as a result of the reduction of the U.S. federal corporate income tax rate from 35% to 21% by the Tax Cuts and Jobs Act, we remeasured our domestic deferred tax assets as of December 31, 2017 and recorded a one-time adjustment to reduce our deferred tax assets and to increase the provision for income taxes by approximately \$11 million. We do not consider this adjustment to be reflective of our ongoing operating performance and, therefore, we excluded this item from Adjusted FFO.

The following table provides a reconciliation of the differences between our non-GAAP financial measures, NAREIT FFO and Adjusted FFO (separately and on a per diluted share basis), and net income, the financial measure calculated and presented in accordance with GAAP that we consider most directly comparable:

(4) Diluted earnings per common share, NAREIT FFO per diluted share and Adjusted FFO per diluted share are adjusted for the effects of dilutive securities. Dilutive securities may include shares granted under comprehensive stock plans, preferred OP units held by non-controlling limited partners and other non-controlling interests that have the option to convert their limited partner interests to common OP units. No effect is shown for securities if they are anti-dilutive.

**Comparable Hotel Property-Level Operating Results**

We present certain operating results for our hotels, such as hotel revenues, expenses, food and beverage profit, and EBITDA (and the related margins), on a comparable hotel, or "same store," basis as supplemental information for our investors. Our comparable hotel results present operating results for our hotels without giving effect to dispositions or properties that experienced closures due to renovations or property damage, as discussed in "Comparable Hotel Operating Statistics and Results" above. We present comparable hotel EBITDA to help us and our investors evaluate the ongoing operating performance of our comparable hotels after removing the impact of our capital structure (primarily interest expense) and our asset base (primarily depreciation and amortization expense). Corporate-level costs and expenses also are removed to arrive at property-level results. We believe these property-level results provide investors with supplemental information about the ongoing operating performance of our comparable hotels. Comparable hotel results are presented both by location and for our properties in the aggregate. We eliminate from our comparable hotel level operating results severance costs related to broad-based and significant property-level reconfiguration that is not considered to be within the normal course of business, as we believe this elimination provides useful supplemental information that is beneficial to an

investor's understanding of our ongoing operating performance. We also eliminate depreciation and amortization expense because, even though depreciation and amortization expense are property-level expenses, these non-cash expenses, which are based on historical cost accounting for real estate assets, implicitly assume that the value of real estate assets diminishes predictably over time. As noted earlier, because real estate values historically have risen or fallen with market conditions, many real estate industry investors have considered presentation of historical cost accounting for operating results to be insufficient.

Because of the elimination of corporate-level costs and expenses, gains or losses on disposition, certain severance expenses and depreciation and amortization expense, the comparable hotel operating results we present do not represent our total revenues, expenses, operating profit or net income and should not be used to evaluate our performance as a whole. Management compensates for these limitations by separately considering the impact of these excluded items to the extent they are material to operating decisions or assessments of our operating performance. Our condensed consolidated statements of operations include such amounts, all of which should be considered by investors when evaluating our performance.

We present these hotel operating results on a comparable hotel basis because we believe that doing so provides investors and management with useful information for evaluating the period-to-period performance of our hotels and facilitates comparisons with other hotel REITs and hotel owners. In particular, these measures assist management and investors in distinguishing whether increases or decreases in revenues and/or expenses are due to growth or decline of operations at comparable hotels (which represent the vast majority of our portfolio) or from other factors. While management believes that presentation of comparable hotel results is a supplemental measure that provides useful information in evaluating our ongoing performance, this measure is not used to allocate resources or to assess the operating performance of each of our hotels, as these decisions are based on data for individual hotels and are not based on comparable hotel results in the aggregate. For these reasons, we believe comparable hotel operating results, when combined with the presentation of GAAP operating profit, revenues and expenses, provide useful information to investors and management.

The following tables present certain operating results and statistics for our hotels for the periods presented herein and a reconciliation of the differences between comparable Hotel EBITDA, a non-GAAP financial measure, and net income, the financial measure calculated and presented in accordance with GAAP that we consider most directly comparable. Similar reconciliations of the differences between (i) hotel revenues and (ii) our revenues as calculated and presented in accordance with GAAP (each of which is used in the applicable margin calculation), and between (iii) hotel expenses and (iv) operating costs and expenses as calculated and presented in accordance with GAAP, also are included in the reconciliation:

### **Item 3. Quantitative and Qualitative Disclosures about Market Risk**

All information in this section applies to both Host Inc. and Host L.P.

#### **Interest Rate Sensitivity**

As of March 31, 2025 and December 31, 2024, 80% of our outstanding debt bore interest at fixed rates. To manage interest rate risk applicable to our debt, we may enter into interest rate swaps or caps. The interest rate derivatives into which we may enter are strictly to hedge interest rate risk and are not for trading purposes. As of March 31, 2025, we do not have any interest rate derivatives outstanding.

See Item 7A of our most recent Annual Report on Form 10-K.

#### **Exchange Rate Sensitivity**

As we have operations outside of the United States (specifically, the ownership of hotels in Brazil and Canada and a minority investment in a joint venture in India), currency exchange risks arise in the normal course of our business. To manage the currency exchange risk, we may enter into forward or option contracts or hedge our investment through the issuance of foreign currency denominated debt. No foreign currency hedging transactions were entered into during the first quarter of 2025. We currently have two foreign currency forward purchase contracts with a total notional amount of CAD 99 million (\$73 million), which will mature in August 2025. The foreign currency exchange agreements into which we have entered are strictly to hedge foreign currency risk and are not for trading purposes.

See Item 7A of our most recent Annual Report on Form 10-K.

### **Item 4. Controls and Procedures**

#### ***Controls and Procedures (Host Hotels & Resorts, Inc.)***

##### ***Disclosure Controls and Procedures***

Under the supervision and with the participation of our management, including our Chief Executive Officer and Chief Financial Officer, we have evaluated the effectiveness of our disclosure controls and procedures pursuant to Exchange Act Rule 13a-15(b) as of the end of the period covered by this report. Based on that evaluation, our Chief Executive Officer and Chief Financial Officer have concluded that these disclosure controls and procedures are effective.

##### ***Changes to Internal Control over Financial Reporting***

There have been no changes in our internal control over financial reporting during our most recent fiscal quarter that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

#### ***Controls and Procedures (Host Hotels & Resorts, L.P.)***

Under the supervision and with the participation of our management, including Host Inc.'s Chief Executive Officer and Chief Financial Officer, we have evaluated the effectiveness of our disclosure controls and procedures pursuant to Exchange Act Rule 13a-15(b) as of the end of the period covered by this report. Based on that evaluation, Host Inc.'s Chief Executive Officer and Chief Financial Officer have concluded that these disclosure controls and procedures are effective.

***Changes to Internal Control over Financial Reporting***

There have been no changes in our internal control over financial reporting during our most recent fiscal quarter that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

## PART II. OTHER INFORMATION

### Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

#### Issuer Purchases of Equity Securities (Host Hotels & Resorts, Inc.)

On August 3, 2022, the Board of Directors authorized a \$1 billion share repurchase program. The common stock may be purchased from time to time depending upon market conditions, and repurchases may be made in the open market or through private transactions or by other means, including principal transactions with various financial institutions, accelerated share repurchases, forwards, options and similar transactions, and through one or more trading plans designed to comply with Rule 10b5-1 under the Securities Exchange Act of 1934, as amended. The program does not obligate us to repurchase any specific number of shares or any specific dollar amount and may be suspended at any time at our discretion.

  - b. Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
  - c. Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
  - d. Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer(s) and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
  - a. All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
  - b. Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.
