CAUTIONARY STATEMENT ON FORWARD-LOOKING STATEMENTS

This Quarterly Report on Form 10-Q (the "Form 10-Q") of Wheeler Real Estate Investment Trust, Inc. (the "Trust," the "Company," "WHLR," "we," "our" or "us") contains "forward-looking statements" within the meaning of Section 27A of the Securities Act of 1933, as amended (the "Securities Act"), and Section 21E of the Securities Exchange Act of 1934, as amended (the "Exchange Act") that are subject to risks, uncertainties and other factors which may cause the actual results, performance or achievements to be materially different from future results, performance or achievements expressed or implied by such forward-looking statements. Forward-looking statements, which are based on certain assumptions and describe the Company's future plans, strategies and expectations, are generally identifiable by use of the words "may", "will", "should", "estimates", "projects", "anticipates", "believes", "expects", "intends", "future", and words of similar import, or the negative thereof. These statements are not guarantees of future performance and are subject to risks, uncertainties and other factors, some of which are beyond our control, are difficult to predict and could cause actual results to differ materially from those expressed or forecasted in the forward-looking statements.

Forward-looking statements that were true at the time made may ultimately prove to be incorrect or false. You are cautioned to not place undue reliance on forward-looking statements, which reflect our management's view only as of the date of this Form 10-Q. We undertake no obligation to update or revise forward-looking statements to reflect changed assumptions, the occurrence of unanticipated events or changes to future operating results.

Factors that could cause actual results, performance or achievements to differ materially from any forward-looking statements made in this Form 10-Q include, but are not limited to:

- the use of and demand for retail space;
- general and economic business conditions, including the rate and other terms on which we are able to lease our properties;
- the loss or bankruptcy of the Company's tenants;
- the geographic concentration of our properties in the Mid-Atlantic, Southeast and Northeast;
- consumer spending and confidence trends, including those affecting the ability of individuals to spend in retail shopping centers;
- availability, terms and deployment of capital;
- substantial dilution of our common stock, par value \$0.01 ("Common Stock") and steep decline in its market value resulting from the exercise by the holders of our Series D Cumulative Convertible Preferred Stock (the "Series D Preferred Stock") of their redemption rights and downward adjustment of the Conversion Price (as defined below) on our outstanding 7.00% Subordinated Convertible Notes due 2031 (the "Convertible Notes"), each of which has already occurred and is anticipated to continue;
- given the volatility in the trading of our Common Stock, whether we have registered and, as necessary, can continue to register sufficient shares of our Common Stock to settle redemptions of all Series D Preferred Stock tendered to us by the holders thereof;
- the degree and nature of our competition;
- changes in governmental regulations, accounting rules, tax rates and similar matters, including tariff-related measures;
- the ability and willingness of the Company's tenants and other third parties to satisfy their obligations under their respective contractual arrangements with the Company;
- the ability and willingness of the Company's tenants to renew their leases with the Company upon expiration;
- the Company's ability to re-lease its properties on the same or better terms in the event of non-renewal or in the event the Company exercises its right to replace an existing tenant, and obligations the Company may incur in connection with the replacement of an existing tenant;
- litigation risks generally;
- the risk that shareholder litigation filed by the Company's former CEO, Daniel Khoshaba, may result in significant costs of defense, indemnification and liability, and divert management's attention away from running the Company;
- the Company's ability to maintain compliance with the financial and other covenants in its debt agreements and under the terms of its Series D Preferred Stock;
- financing risks, such as the Company's inability to obtain new financing or refinancing on favorable terms as the result of market volatility or instability and increases in the Company's borrowing costs as a result of changes in interest rates and other factors;
- the impact of the Company's leverage on operating performance;
- our ability to successfully execute strategic or necessary asset acquisitions and divestitures;

[Table of Contents](#)

- risks related to the market for retail space generally, including reductions in consumer spending, variability in retailer demand for leased space, adverse impact of e-commerce, ongoing consolidation in the retail sector and changes in economic conditions and consumer confidence;
- risks endemic to real estate and the real estate industry generally;
- the adverse effect of any future pandemic, endemic or outbreak of infectious diseases, and mitigation efforts, including government-imposed lockdowns, to control their spread;
- risks to our information systems - or those of our tenants or vendors - from service interruption, misappropriation of data, breaches of security or information technology, or other cyber-related attacks;
- competitive risks;
- the Company's ability to maintain compliance with the listing standards of the Nasdaq Capital Market ("Nasdaq");
- the effects on the trading market of our Common Stock the one-for-24 reverse stock split effected on May 16, 2024 (the "May 2024 Reverse Stock Split"), the one-for-five reverse stock split effected on June 27, 2024 (the "June 2024 Reverse Stock Split"), the one-for-three reverse stock split effected on September 19, 2024 (the "September 2024 Reverse Stock Split", the one-for-two reverse stock split effected on November 18, 2024 (the "November 2024 Reverse Stock Split" and collectively with the May 2024 Reverse Stock Split, June 2024 Reverse Stock Split and September 2024 Reverse Stock Split, the "2024 Reverse Stock Splits"), the one-for-four reverse stock split effected on January 27, 2025 (the "January 2025 Reverse Stock Split"), the the one-for-five reverse stock split effected on March 26, 2025 (the "March 2025 Reverse Stock Split" and, together with the 2024 Reverse Stock Splits and January 2025 Reverse Stock Split, the "Reverse Stock Splits") and any reverse stock splits the Company may effect in the future;
- damage to the Company's properties from catastrophic weather and other natural events, and the physical effects of climate change;
- the risk that an uninsured loss on the Company's properties or a loss that exceeds the limits of the Company's insurance policies could subject the Company to lost capital or revenue on those properties;
- the risk that continued increases in the cost of necessary insurance could negatively impact the Company's profitability;
- the Company's ability and willingness to maintain its qualification as a real estate investment trust ("REIT") in light of economic, market, legal, tax and other considerations;
- the ability of our operating partnership, Wheeler REIT, L.P. (the "Operating Partnership"), and each of our other partnerships and limited liability companies to be classified as partnerships or disregarded entities for federal income tax purposes;
- the impact of e-commerce on our tenants' business; and
- the inability to generate sufficient cash flows due to market conditions, competition, uninsured losses, changes in tax or other applicable laws.

Forward-looking statements in this Form 10-Q should be read in light of these factors. Except for ongoing obligations to disclose material information as required by the federal securities laws, the Company undertakes no obligation to release publicly any revisions to any forward-looking statements to reflect events or circumstances after the date hereof or to reflect the occurrence of unanticipated events. All of the above factors are difficult to predict, contain uncertainties that may materially affect the Company's actual results and may be beyond the Company's control. New factors emerge from time to time, and it is not possible for the Company's management to predict all such factors or to assess the effects of each factor on the Company's business. Accordingly, there can be no assurance that the Company's current expectations will be realized.

1. Business and Organization

Wheeler Real Estate Investment Trust, Inc. is a Maryland corporation formed on June 23, 2011. The Trust serves as the general partner of Wheeler REIT, L.P. (the "Operating Partnership"), which was formed as a Virginia limited partnership on April 5, 2012. At March 31, 2025, the Company owned 100% of the Operating Partnership. As of March 31, 2025, the Trust owned and operated seventy-two properties, including sixty-nine retail shopping centers and three undeveloped properties in South Carolina, Georgia, Virginia, Pennsylvania, North Carolina, New Jersey, Florida, Massachusetts, Connecticut, Kentucky, Tennessee, Alabama, Maryland and West Virginia. These centers and undeveloped properties include the properties acquired through the Cedar Acquisition (defined below). Accordingly, the use of the word "Company", "we," "our" or "us" refers to the Trust and consolidated subsidiaries, except where the context otherwise requires.

The Trust through the Operating Partnership owns Wheeler Interests ("WI") and Wheeler Real Estate, LLC ("WRE") (WRE and, together with WI, the "Operating Companies"). The Operating Companies are taxable REIT subsidiaries ("TRS") to accommodate serving the non-REIT properties since applicable REIT regulations consider the income derived from these services to be "bad" income subject to taxation. The regulations allow for costs incurred by the Company commensurate with the services performed for the non-REIT properties to be allocated to a TRS.

Acquisition of Cedar Realty Trust

On August 22, 2022, the Company completed a merger transaction (the "Cedar Acquisition") with Cedar Realty Trust, Inc. ("Cedar"). As a result of the merger, the Company acquired all of the outstanding shares of Cedar's common stock, which ceased to be publicly traded on the New York Stock Exchange ("NYSE"). Cedar's outstanding 7.25% Series B Preferred Stock ("Cedar Series B Preferred Stock") and 6.50% Series C Preferred Stock ("Cedar Series C Preferred Stock") remain outstanding and continue to trade on the NYSE. As a result, Cedar became a subsidiary of the Company. Cedar's assets are held by, and its operations are conducted through, its operating partnership, Cedar Realty Trust Partnership, LP.

2. Summary of Significant Accounting Policies

Principles of Consolidation/Basis of Preparation

The accompanying unaudited condensed consolidated financial statements have been prepared in accordance with the instructions to Form 10-Q and include all of the information and disclosures required by U.S. Generally Accepted Accounting Principles ("GAAP") for interim reporting. Accordingly, they do not include all of the disclosures required by GAAP for complete financial statement disclosures. In the opinion of management, all adjustments necessary for fair presentation (including normal recurring accruals) have been included. All material balances and transactions between the consolidated entities of the Company have been eliminated. All share and share-related information presented reflect our May 2024 Reverse Stock Split, June 2024 Reverse Stock Split, September 2024 Reverse Stock Split, November 2024 Reverse Stock Split, January 2025 Reverse Stock Split and March 2025 Reverse Stock Split, which took effect on May 16, 2024, June 27, 2024, September 19, 2024, November 18, 2024, January 27, 2025 and March 26, 2025, respectively. The unaudited condensed consolidated financial statements are prepared on the accrual basis in accordance with GAAP, which requires management to make estimates and assumptions that affect the disclosure of contingent assets and liabilities, the reported amounts of assets and liabilities at the date of the financial statements, and the reported amounts of revenue and expenses during the periods covered by the financial statements. Actual results could differ from these estimates. The unaudited condensed consolidated financial statements in this Form 10-Q should be read in conjunction with the audited consolidated financial statements and related notes contained in the Company's Annual Report on Form 10-K for the year ended December 31, 2024 (the "2024 Form 10-K").

The unaudited condensed consolidated financial statements included in this Form 10-Q include Cedar starting from the date of the Cedar Acquisition. We have determined that this acquisition is not a variable interest entity, as defined under the consolidation topic of the Financial Accounting Standards Board (the "FASB"), Accounting Standards Codification ("ASC"), and we evaluated such entity under the voting model and concluded we should consolidate the entity. Under the voting model, we consolidate the entity if we determine that we, directly or indirectly, have greater than 50% of the voting rights and that other equity holders do not have substantive participating rights.

These reclassifications had no effect on net income or loss. 4. Investment Securities - Related Party

In 2023, the Company subscribed for an investment in the amount of \$10.0 million for limited partnership interests in Stilwell Activist Investments, L.P., a Delaware limited partnership ("SAI"). On June 1, 2024, the Company subscribed for an additional investment in the amount of \$0.5 million for limited partnership interests in SAI. The investment objective of SAI is to seek long-term capital appreciation through investing primarily in publicly-traded undervalued financial institutions or businesses with a strong financial component, or the securities of any of them, and pursuing an activist shareholder agenda with respect to those institutions.

Stilwell Value LLC ("Value") is the general partner of SAI. Joseph Stilwell, a member of the Company's Board of Directors, is the managing member of Value and a limited partner in funds advised by Value. Additionally, E.J. Borrack, a member of the Board of Directors, serves as the General Counsel to Value and its affiliated entities, including SAI and related funds, and is a limited partner in one of the funds advised by Value. Megan Parisi, a member of the Company's Board of Directors, serves as the Director of Communications to Value and its affiliated entities, including SAI and related funds, is a non-managing member of Value and is a limited partner in one of the funds advised by Value.

The Company's subscriptions were approved by the disinterested directors of the Company, and, after the formation of the Related Person Transactions Committee, by that Committee.

A portion of SAI's underlying investments are in the Company's own equity and debt securities. At December 31, 2024 and 2023, approximately 38.0% and 32.5% of SAI's underlying investments were in the Company's own equity and debt securities, respectively, and approximately 6.2% and 6.9% were in the equity securities of the Company's consolidated subsidiary, respectively.

SAI records investment transactions based on trade date. Realized gains and losses from investment transactions are determined on a specific identification basis. Dividend income, net of withholding taxes, and dividend expense are recognized on the ex-dividend date, and interest income and expense are recognized on an accrual basis. Discounts and premiums to the face amount of debt securities are accreted and amortized using the effective interest rate method over the lives of the respective debt securities.

A limited partner in SAI may request a withdrawal after the expiration of the first anniversary of the date its investment was accepted into SAI. After the expiration of this lock-up period, withdrawal requests can be made quarterly and are generally paid out on a quarterly basis in accordance with the terms of the SAI limited partnership agreement.

Wheeler Real Estate Investment Trust, Inc. and Subsidiaries
Notes to Condensed Consolidated Financial Statements (Continued)
(Unaudited)

In consideration for management, administrative and operational services, limited partners of SAI pay a management fee to an affiliate of Value each calendar quarter, in advance, equal to 0.25% (an annualized rate of 1%) of each limited partner's capital account balance on the first day of such calendar quarter. In addition, as of the last day of each specified performance period, an incentive allocation of 20% of the amount by which the "positive performance change," if any, that has been credited to the capital account of a limited partner during such period exceeds any positive balance in such limited partner's "carryforward account," is debited from the limited partner's capital account and is simultaneously credited to the capital account of Value.

The Company's SAI investment continues to be measured at net asset value as a practical expedient and has not been classified within the fair value hierarchy. Effective in the first quarter of 2025, the Company voluntarily changed its accounting policy for unrealized holding gains and losses from the Company's SAI investment. Under the new accounting policy the unrealized gains/(losses) are recorded through other comprehensive income and continue to be presented net of investment fees as noted above. This change in accounting policy has been applied prospectively.

As of March 31, 2025, the net asset value of the Company's SAI investment was \$12.5 million. For the three months ended March 31, 2025, the Company recorded \$0.5 million through other comprehensive income, this is net of investment fees as noted above. For the three months ended March 31, 2024, the loss on investment securities was \$0.1 million, net of investment fees as noted above.

Fair Value Measurements

The fair value of the Company's fixed rate secured term loans was estimated using available market information and discounted cash flow analyses based on borrowing rates the Company believes it could obtain with similar terms and maturities. As of March 31, 2025 and December 31, 2024, the fair value of the Company's fixed rate secured term loans, which were determined to be Level 3 within the fair value hierarchy, was \$459.4 million and \$451.0 million, respectively, and the carrying value of such loans, was \$446.2 million and \$456.1 million, respectively.

The fair value of the Convertible Notes was estimated using available market information. As of March 31, 2025, and December 31, 2024, the fair value of the Convertible Notes, which were determined to be Level 1 within the fair value hierarchy, was \$226.4 million and \$179.6 million, respectively, and the carrying value, was \$26.6 million and \$26.5 million, respectively.

7. Derivative Liabilities

Fair Value of Warrants

The Company utilized the Black-Scholes valuation method to calculate the fair value of the warrants noted below. Significant observable and unobservable inputs include stock price, conversion price, risk-free rate, term, likelihood of an event of contractual conversion and expected volatility. The Black-Scholes valuation method simulation is a Level 3 fair value technique because it requires the development of significant internal assumptions in addition to observable market indicators. The warrants noted below contain terms and features that give rise to derivative liability classification.

Warrants to purchase shares of Common Stock are as follows:

Warrant Name	Warrants	Expiration Date	Exercise Price	
			March 31, 2025	December 31, 2024
Wilmington Warrant Tranche A	4	3/12/2026	\$ 3,337	\$ 3,337
Wilmington Warrant Tranche B	3	3/12/2026	4,005	4,005
Wilmington Warrant Tranche C	1	3/12/2026	6,675	6,675

In measuring the warrant liability, the Company used the following inputs:

	March 31, 2025	December 31, 2024
Common Stock price	\$3.16	\$3.37 ⁽¹⁾

Risk free interest rate	4.03%	4.21%

(1) Common stock price as of December 31, 2024 and was not restated for any subsequent stock splits.

Fair Value of Conversion Features Related to Convertible Notes

The Company identified certain embedded derivatives related to the conversion features of the Convertible Notes. In accordance with ASC 815-40, *Derivatives and Hedging Activities*, the embedded conversion options contained within the Convertible Notes were accounted for as derivative liabilities at the date of issuance and shall be adjusted to fair value through each reporting date. The Company utilized a binomial lattice model to calculate the fair value of the embedded derivatives. Significant observable and unobservable inputs include conversion price, stock price, dividend rate, expected volatility, risk-free rate, optional conversion price and term. The binomial lattice model is a Level 3 fair value technique because it requires the development of significant internal assumptions in addition to observable market indicators.

In measuring the embedded derivative liability, the Company used the following inputs:

	March 31, 2025	December 31, 2024
Conversion price ⁽¹⁾	\$2.42	\$2.22 ⁽²⁾
Common Stock price	\$3.16	\$3.37 ⁽²⁾

(2) Value as of December 31, 2024 and was not restated for any subsequent stock splits.

The following table sets forth a summary of the changes in fair value of the Company's derivative liabilities, which include both the warrant and embedded derivative liabilities (in thousands, unaudited):

8. Commitments and Contingencies

Most leases include one or more options to renew, with renewal terms that can extend the lease term from 5 to 50 years. As of March 31, 2025 and 2024, the weighted average remaining lease term of our leases was 35 and 36 years, respectively. Litigation

The Company is involved in various legal proceedings arising in the ordinary course of its business, including, but not limited to commercial disputes. The Company believes that such litigation, claims and administrative proceedings will not have a material adverse impact on its financial position or its results of operations. The Company records a liability when it considers the loss probable and the amount can be reasonably estimated. In addition, the below legal proceedings are in process:

Daniel Khoshaba v. Joseph D. Stilwell, et al., Civil Action No. 2:24CV237 in the United States District Court for the Eastern District of Virginia. On April 10, 2024, Daniel Khoshaba, a holder of the Company's Common Stock and former CEO of the Company, filed a derivative action on behalf of the Company and putative class action on behalf of common stockholders who had not purchased the Convertible Notes in a rights offering alleging that the current and certain former directors of the Company breached their duty to the Company and its common stockholders, and that certain of those directors and an officer of the Company were unjustly enriched. The complaint primarily asserts the Defendants failed to take sufficient action to mitigate the potential dilution that could be caused by the redemption rights of holders of Series D Preferred Stock and that the Defendants should not have authorized dividends on the Convertible Notes sold in the rights offering to be paid in Series D Preferred Stock. The Company is named as a nominal defendant in the case and no claims are asserted against it. The Company is providing indemnification (including legal fees and costs) to the directors and officer Defendants. On June 10, 2024, the individual Defendants and the other parties filed motions to dismiss the complaint. On September 13, 2024, the District Court issued an opinion (i) granting the directors' motion to dismiss the derivative claims, finding no demand was made and that demand would not have been futile; (ii) granting the motion to dismiss the unjust enrichment claim against the directors based on a failure to plead facts supporting the elements of such a claim, and (ii) denying the motions to dismiss on all other grounds. At this juncture, discovery is ongoing and the outcome of the litigation remains uncertain.

Preferred stockholders of Cedar have filed a putative class action suit against the directors of Cedar prior to the Cedar Acquisition (collectively, the "Former Cedar Directors") in the Circuit Court for Montgomery County, Maryland captioned *Anthony Aquino, et al. v. Bruce Schanzer, et al.*, Case No.: C-15-CV-25-000731 (the "Aquino Action"). The Aquino Action alleges that the Former Cedar Directors breached their fiduciary duties to Cedar's preferred stockholders through the Cedar Acquisition. The claims in the Aquino Action mirror the fiduciary duty breach claims that were a subject of the putative class action complaint entitled *Kim, et al., v. Cedar Realty Trust, Inc., et al.* (the "Kim Action"), which was dismissed with prejudice in 2023 by the United States District Court for the District of Maryland. The dismissal was affirmed on appeal to the United States Court of Appeals for the Fourth Circuit in 2024. The Aquino Action alleges that the courts in the Kim Action misinterpreted Maryland law on fiduciary duties to preferred stockholders. Neither the Company nor Cedar have been sued in the Aquino Action. The Company has a contractual obligation to indemnify the Former Cedar Directors. On May 2, 2025, the Former Cedar Directors moved to dismiss the Aquino Action. At this juncture, the outcome of the litigation remains uncertain.

9. Rental Revenue and Tenant Receivables

10. Equity and Mezzanine Equity

Reverse Stock Splits

On March 5, 2024, in accordance with the Maryland General Corporation Law, our Board of Directors declared the Reverse Stock Splits advisable, and directed that they be submitted to the Company's stockholders for consideration. The Company's stockholders approved the Reverse Stock Splits at the annual meeting held on May 6, 2024.

The January 2025 Reverse Stock Split and March 2025 Reverse Stock Split were effective on January 27, 2025 and March 26, 2025, respectively, at the reverse stock split ratios of one-for-four and one-for-five, respectively. The par value of each share of Common Stock remained unchanged after each such reverse stock split. No fractional shares were issued in connection with either reverse stock split. Stockholders who would have otherwise been issued a fractional share of the Company's Common Stock as a result of each such reverse stock split instead received a cash payment in lieu of such fractional share in an amount equal to the applicable fraction multiplied by the closing price of the Company's Common Stock on Nasdaq on each effective date thereof, without any interest.

All share and share-related information presented in this Form 10-Q, including our condensed consolidated financial statements, has been retroactively adjusted to reflect the decreased number of shares resulting from the Reverse Stock Splits, unless otherwise noted.

The settlement of each of these transactions occurred on or before the next business day after each exchange. In each of these transactions, the Company did not receive any cash proceeds and the shares of the Preferred Stock exchanged have been retired and cancelled.

repurchase of the noncontrolling interests caused the recognition of \$8.5 million deemed distributions during the three months ended March 31, 2025. There were no repurchases of noncontrolling interests in the three months ended March 31, 2024.

Earnings per share

Basic earnings per share ("EPS") is calculated by dividing net income (loss) attributable to the Company's common shareholders by the weighted average number of common shares outstanding for the period including participating securities. Diluted EPS reflects the potential dilution that could occur if securities or other contracts to issue Common Stock were exercised or converted into shares of Common Stock.

The following table summarizes the potential dilution of conversion of Operating Partnership common units ("Common Units"), Series B Preferred Stock, Series D Preferred Stock, warrants and Convertible Notes into the Company's Common Stock. These have been excluded from the Company's diluted earnings per share calculation because their inclusion would be antidilutive.

	March 31, 2025	
	Outstanding shares	Potential Dilutive Shares
Series B Preferred Stock	3,218,718	14
Series D Preferred Stock	1,903,921	9,306,274
Warrants to purchase Common Stock	—	8
Convertible Notes	—	6,761,314

The following table summarizes the Series D Preferred Stock dividends (in thousands, except for per share amounts, unaudited):

For the three months ended March 31, 2025	\$ 1,856	\$ 0.97
For the three months ended March 31, 2024	\$ 2,020	\$ 0.81

The total cumulative dividends in arrears for Series D Preferred Stock is \$29.6 million as of March 31, 2025 (\$15.57 per share). The Series D Preferred Stock holders were entitled to cumulative cash dividends at an annual dividend rate of 14.75% and 12.75%, as of March 31, 2025 and 2024, respectively. There were no dividends declared to holders of Common Stock, the Company's Series A Preferred Stock, Series B Preferred Stock or Series D Preferred Stock during the three months ended March 31, 2025 and 2024.

11. Segment Reporting

The Company's chief operating decision maker ("CODM") is our Chief Executive Officer. The Company's primary business is the ownership and operation of grocery-anchored shopping centers. The CODM reviews operating and financial information for each property on an individual basis and, accordingly, each property represents an individual operating segment. The CODM uses net operating income ("NOI") to assist in making decisions on how to allocate resources and assess the Company's financial performance. The Company defines NOI as revenues (rental and other revenues), less real estate and other property-related taxes, insurance and property operating expenses. CAM expenses, utilities, ground rent and management fees are reviewed by the CODM collectively as property operating expenses. The Company has no operations outside of the United States of America. Therefore, the Company has aggregated its properties into one reportable segment as the properties

share similar long-term economic characteristics and have other similarities including the fact that they are operated using consistent business strategies, are typically located in similar markets, and have similar tenant mixes.

Company Overview

The Company, a Maryland corporation, is a fully integrated, self-managed commercial real estate investment trust that owns, leases and operates income-producing retail properties with a primary focus on grocery-anchored centers. In August 2022, the Company acquired Cedar Realty Trust. As a result of that acquisition, Cedar became a subsidiary of the Company.

As of March 31, 2025, the Company, through the Operating Partnership, owned and operated seventy-two properties, including sixty-nine retail shopping centers and three undeveloped properties in South Carolina, Georgia, Virginia, Pennsylvania, North Carolina, New Jersey, Florida, Massachusetts, Connecticut, Kentucky, Tennessee, Alabama, Maryland and West Virginia. This list includes the properties acquired through the Cedar Acquisition.

The Company's portfolio of properties is dependent upon regional and local economic conditions, and is geographically concentrated in the Mid-Atlantic, Southeast and Northeast, which markets represent approximately 45%, 44% and 11% respectively, of the total annualized base rent of the properties in its portfolio as of March 31, 2025. The Company's geographic concentration may cause it to be more susceptible to adverse developments in those markets than if it owned a more geographically diverse portfolio. Additionally, the Company's retail shopping center properties depend on anchor stores or major tenants to attract shoppers and could be adversely affected by the loss of, or a store closure by, one or more of these tenants.

Income tax expense	(26)	—	(26)	n/a
Net Income (Loss)	\$ 5,400	\$ (6,006)	\$ 11,406	

Revenues were lower primarily as a result of (1) a decrease of \$1.6 million in rental revenues and expense recoveries, net of credit adjustments on operating lease receivables, attributable to properties that were sold in 2024 and 2025 and (2) a decrease of \$0.1 million in market lease amortization and straight line rent, partially offset by (3) an increase of \$0.2 million in rental revenues and expense recoveries, net of credit adjustments on operating lease receivables, attributable to same center properties.

Property Operating expenses were lower primarily as a result of (1) a decrease of \$0.3 million in real estate taxes, and (2) a decrease of \$0.1 million in repairs and maintenance, partially offset by (3) an increase of \$0.3 million in grounds and landscaping primarily due to an increase in snow removal.

Depreciation and amortization were lower primarily as a result of the purchase price allocation of lease intangibles due to the timing of the Cedar Acquisition and properties sold in 2024 and 2025.

Corporate general and administrative expenses were relatively flat.

Interest expense increased 9.3%. Below is a comparison of the components which make up interest expense (in thousands):

	Three Months Ended March 31,		Changes	
	2025	2024	Dollars	Percent
Property debt interest - excluding Cedar debt	\$ 4,324	\$ 4,201	\$ 123	2.9 %
Convertible Notes interest ⁽¹⁾	540	543	(3)	(0.6)%
Loan prepayment premium	541	—	541	n/a
Amortization of deferred financing costs	708	628	80	12.7 %
Property debt interest - Cedar	1,980	2,033	(53)	(2.6)%
Total Interest Expense	\$ 8,093	\$ 7,405	\$ 688	9.3 %

(1) Includes the fair value adjustment for the paid-in-kind interest.

The above increase in property debt interest inclusive of Cedar debt was \$0.1 million a result of (1) an increase of \$0.1 million due to an increase in the overall average interest rate, partially offset by (2) a decrease in the average principal debt balance.

Net changes in the fair value of derivative liabilities was a \$2.3 million loss for the three months ended March 31, 2025, which represents a non-cash adjustment from a change in the fair value, primarily related to the conversion rate on the Convertible Notes, which can only be adjusted downward based on the redemption price(s) of the Series D Preferred Stock relative to market trade prices of the Convertible Notes and Common Stock. See Note 7 to the accompanying condensed consolidated financial statements for additional details.

Gain on Preferred Stock retirements is a result of the fair market value of the Common Stock issued on redemptions and exchanges of the Company's Preferred Stock compared to the Preferred Stock's carrying value. During the three months ended March 31, 2025 and 2024, the Company realized a gain of \$3.8 million and \$0.2 million in the aggregate, respectively, as a result of the fair market value of the Common Stock issued in these transactions being less than the carrying value of the Preferred Stock retired.

Other expense represents expenses which are non-operating in nature. Other expenses were \$0.4 million for the three months ended March 31, 2025, which primarily consisted of capital structure costs, including the registration of our Common Stock to issue in settlement of Series D Preferred Stock redemptions, expenses incurred in connection with the Reverse Stock Splits and redemptions of the Series D Preferred Stock by holders thereof. Other expenses were \$0.7 million for the three months ended March 31, 2024, which primarily consisted of capital structure costs to repurchase Convertible Notes.

Same-Property Net Operating Income

Same-property net operating income ("Same-Property NOI") is a widely-used non-GAAP financial measure for REITs. The Company believes that Same-Property NOI is a useful measure of the Company's property operating performance. The Company defines Same-Property NOI as property revenues (rental and other revenues) less property and related expenses (property operation and maintenance and real estate taxes). Because Same-Property NOI excludes general and administrative expenses, depreciation and amortization, gain or loss on sale or capital expenditures and leasing costs and impairment charges, it provides a performance measure, that when compared year over year, reflects the revenues and expenses directly associated with owning and operating commercial real estate properties and the impact to operations from trends in occupancy rates, rental rates and operating costs, providing perspective not immediately apparent from operating income. The Company uses Same-Property NOI to evaluate its operating performance since Same-Property NOI allows the Company to evaluate the impact of factors, such as occupancy levels, lease structure, lease rates and tenant base, have on the Company's results, margins and returns. Properties are included in Same-Property NOI if they are owned and operated for the entirety of both periods being compared. Consistent with the capital treatment of such costs under GAAP, tenant improvements, leasing commissions and other direct leasing costs are excluded from Same-Property NOI.

The most directly comparable GAAP financial measure is consolidated operating income. Same-Property NOI should not be considered as an alternative to consolidated operating income prepared in accordance with GAAP or as a measure of liquidity. Further, Same-Property NOI is a measure for which there is no standard industry definition and, as such, it is not consistently defined or reported on among the Company's peers, and thus may not provide an adequate basis for comparison among REITs.

The following table is a reconciliation of Same-Property NOI from operating income (the most directly comparable GAAP financial measure):

	Three Months Ended March 31,	
	2025	2024
	(in thousands, unaudited)	
Operating Income	\$ 12,142	\$ 7,478
Add (deduct):		
Gain on disposal of properties, net	(5,688)	—
Corporate general & administrative	2,732	2,746
Depreciation and amortization	6,231	6,598
Straight-line rents	(399)	(370)
Above (below) market lease amortization, net	(740)	(913)
Other non-property revenue	(3)	(3)
NOI related to properties not defined as same-property	27	(905)
Same-Property Net Operating Income	<u>\$ 14,302</u>	<u>\$ 14,631</u>

Total Same-Property NOI was \$14.3 million and \$14.6 million for the three months ended March 31, 2025 and 2024, respectively, representing a decrease of 2.2% due to a 6.9% increase in property expenses, partially offset by a 1.0% increase in property revenue.

Funds from Operations

We use funds from operations ("FFO"), a non-GAAP measure, as an alternative measure of our operating performance, specifically as it relates to results of operations and liquidity. We compute FFO in accordance with standards established by the Board of Governors of the National Association of Real Estate Investment Trusts ("Nareit") in its March 1995 White Paper (as amended in November 1999, April 2002 and December 2018). As defined by Nareit, FFO represents net income (computed in accordance with GAAP), excluding gains (or losses) from sales of property, plus real estate-related depreciation and amortization (excluding amortization of loan origination costs), plus impairment of real estate-related long-lived assets and after adjustments for unconsolidated partnerships and joint ventures. Most industry analysts and equity REITs, including us, consider FFO to be an appropriate supplemental measure of operating performance because, by excluding gains or losses on dispositions and excluding depreciation, FFO is a helpful tool that can assist in the comparison of the operating performance of a company's real estate between periods, or as compared to different companies. Management uses FFO as a supplemental measure to conduct and evaluate our business because there are certain limitations associated with using GAAP net income alone as the primary measure of our operating performance. Historical cost accounting for real estate assets in accordance with GAAP implicitly assumes that the value of real estate assets diminishes predictably over time, while historically real estate values have risen or fallen with market conditions. Accordingly, we believe FFO provides a valuable alternative measurement tool to GAAP when presenting our operating results.

We believe the computation of FFO in accordance with Nareit's definition includes certain items that are not indicative of the results provided by our operating portfolio and affect the comparability of our period-over-period performance. These items include, but are not limited to, legal settlements, non-cash amortization on loans and acquisition costs. Therefore, in addition to FFO, management uses Adjusted FFO ("AFFO"), which we define to exclude such items. Management believes that these adjustments are appropriate in determining AFFO as they are not indicative of the operating performance of our assets. In addition, we believe that AFFO is a useful supplemental measure for the investing community to use in comparing us to other REITs as many REITs provide some form of adjusted or modified FFO. However, there can be no assurance that AFFO presented by us is comparable to the adjusted or modified FFO of other REITs.

A reconciliation of net income (loss) to FFO available to common stockholders and AFFO is shown in the table below (in thousands):

	Three Months Ended March 31,	
	2025	2024

Other non-recurring and non-cash expenses are costs of the Company that we believe will not be incurred on a go-forward basis. Other non-recurring expenses were \$0.5 million for the three months ended March 31, 2025, a result of loan prepayment premiums. There were no other non-recurring expenses for the three months ended March 31, 2024.

Macroeconomic Considerations

Substantially all of the Company's leases contain provisions designed to partially mitigate the negative impact of inflation in the near term. Such lease provisions include clauses that require tenants to reimburse the Company for inflation-sensitive costs such as real estate taxes, insurance and many of the operating expenses it incurs. In addition, many of our leases are for terms of less than ten years, which permits us to seek increased rents upon re-rental at market rates. However, significant inflation rate increases over a prolonged period of time may have a material adverse impact on the Company's business. Conversely, deflation could lead to downward pressure on rents and other sources of income.

Fluctuations in interest rates and recent governmental tariff-related measures could significantly impact our operating portfolio and overall financial performance. Interest rate increases could result in higher incremental borrowing costs for the Company and our tenants. The duration of the Company's indebtedness and our relatively low exposure to floating rate debt have mitigated the direct impact of inflation and interest rate increases. In a low or stable interest rate environment, we may benefit from lower borrowing costs, enabling strategic investments, acquisitions, or capital returns to shareholders. Additionally, we monitor market conditions to adjust our capital allocation accordingly, maintain a disciplined financial approach and seek to optimize returns while managing exposure to interest rate volatility. The degree and pace of inflation and interest rate changes have had and may continue to have impacts on our business. Changes in tariffs could lead to construction cost variances for the Company, additional tenant costs, which may affect rental rates, and shifts in tenant mix that may impact the Company's operating income.

Liquidity and Capital Resources

At March 31, 2025, our consolidated cash, cash equivalents and restricted cash totaled \$47.0 million compared to consolidated cash, cash equivalents and restricted cash of \$38.5 million at March 31, 2024. Cash flows from operating activities, investing activities and financing activities were as follows (in thousands, unaudited):

	Three Months Ended March 31,		Changes	
	2025	2024	Dollars	Percent
Operating activities	\$ 4,440	\$ 5,234	\$ (794)	(15.2)%
Investing activities	16,228	(4,134)	20,362	492.5 %
Financing activities	(34,364)	(2,393)	(31,971)	(1336.0)%

Operating Activities

Net cash provided by operating activities, before net changes in operating assets and liabilities, was \$4.8 million and \$6.3 million for 2025 and 2024, respectively, primarily due to (1) a \$0.9 million decrease in NOI related to properties not defined as same-property, (2) a \$0.3 million decrease in Same-Property NOI and (3) a \$0.1 increase in cash paid for interest expense, (4) a \$0.5 increase in loan prepayment premium, partially offset by (5) a \$0.3 decrease in other expense.

Investing Activities

Our cash flows from investing activities increased \$20.4 million, primarily due to (1) the proceeds from the sale of three properties sold in 2025 compared to no property sales during the three months ended March 31, 2024 and (2) the decrease in capital expenditures of \$2.1 million.

Financing Activities

Our cash flows used in financing activities were \$34.4 million for the three months ended March 31, 2025, compared to cash flows used in financing activities of \$2.4 million for the comparable period in 2024.

Financing activities during the three months ended March 31, 2025 primarily consisted of:

Cash outflows:

- \$21.2 million repurchase of noncontrolling interests;
- \$9.1 million payment on October 2022 Cedar Term Loan related to the sale of Webster Commons;
- \$2.1 million for distributions paid on noncontrolling interests;
- \$1.0 million payment on June 2022 Term Loan related to the sale of South Lake;
- \$0.5 million for loan prepayment premium; and
- \$0.4 million scheduled loan principal payments on debt.

Financing activities during the three months ended March 31, 2024 primarily consisted of:

Cash inflows:

- \$1.4 million draw on Cedar Revolving Credit Agreement; and
- \$1.0 million draw on Timpany Plaza loan.

Cash outflows:

- \$2.7 million for distributions paid on noncontrolling interests;
- \$1.3 million repurchase of debt securities;
- \$0.4 million payments for deferred financing costs; and
- \$0.4 million scheduled loan principal payments on debt.

The Company continues to endeavor to manage its debt prudently with the objective of achieving a conservative capital structure and minimizing leverage within the Company. Our debt balances, excluding unamortized debt issuance costs, consisted of the following (in thousands):

	March 31, 2025 (unaudited)	December 31, 2024
Fixed-rate notes	\$ 489,008	\$ 499,531
Total debt	\$ 489,008	\$ 499,531

The weighted average interest rate and term of our fixed-rate debt were 5.54% and 7.3 years, respectively, at March 31, 2025. The weighted average interest rate and term of our fixed-rate debt were 5.43% and 7.9 years, respectively, at March 31, 2024. As of March 31, 2025, the Company has \$10.5 million of debt maturing during the twelve months ending March 31, 2026. On April 4, 2025, Cedar entered into the April 2025 Bridge Loan for \$10.0 million with a maturity date of January 4, 2026. While we anticipate being able to refinance all the loans at reasonable market terms upon maturity, our inability to do so may materially impact our financial position and results of operations. See Note 6 to the accompanying condensed consolidated financial statements for additional mortgage indebtedness details.

Material Cash Requirements, Contractual Obligations and Commitments

Our expected material cash requirements for the twelve months ended March 31, 2026 and thereafter are comprised of (i) contractually obligated expenditures; (ii) other essential expenditures; (iii) other investments; and (iv) repurchases of noncontrolling interests, including through the February 2025 Cedar Series B Offer.

The primary liquidity needs of the Company, in addition to the funding of our ongoing operations, at March 31, 2025 are \$10.5 million in principal and regularly scheduled payments due in the twelve months ended March 31, 2026 as described in Note 6 in the accompanying condensed consolidated financial statements.

In addition, the Company has \$5.0 million outstanding construction commitments at March 31, 2025.

In addition to liquidity required to fund debt payments and construction commitments, we may incur some level of capital expenditures during the year for our existing properties that cannot be passed on to our tenants.

To meet these future liquidity needs, the Company:

- had \$19.2 million in cash and cash equivalents at March 31, 2025;
- had \$27.8 million held in lender reserves for the purpose of tenant improvements, lease commissions, real estate taxes, insurance and \$10.0 million to secure the April 2025 Cedar Bridge Loan at March 31, 2025; and
- intends to use cash generated from operations during the twelve months ending March 31, 2026.

In 2024 and through the 2025 expiration of the February 2025 Cedar Series B Offer, the Company has repurchased a total of 2,092,465 shares of Cedar Series C Preferred Stock and 592,372 shares of Cedar Series B Preferred Stock for a total purchase price of approximately \$42.4 million, excluding fees and expenses. These repurchases were funded through asset sales and the April 2025 Cedar Bridge Loan. The shares purchased in the February 2025 Cedar Series B Offer represented approximately 41% of the issued and outstanding Cedar Series B Preferred Stock as of April 8, 2025 and will reduce future annual dividend payments by \$1.1 million. The Cedar shares purchased in 2024 and through the three months ended March 31, 2025 reduced the Series C Preferred Stock outstanding by 42% from the Cedar Acquisition date and will reduce future annual dividend payments by \$3.4 million. The Company intends to continue repurchasing its Cedar Series B Preferred Stock and Cedar Series C Preferred Stock as both series are currently trading at a discount to their liquidation value, presenting a strategic opportunity to buy back shares at favorable prices. By reducing the number of shares eligible for dividend payments, the Company believes it may partially offset the net operating income lost from the recent sales of certain properties as it seeks to enhance its financial stability and optimize its capital allocation.

Additionally, the Company plans to undertake measures to grow its operations and increase liquidity through delivering space currently leased but not yet occupied, backfilling vacant anchor spaces, replacing tenants who are in default of their lease terms, increasing future lease revenue through tenant improvements partially funded by restricted cash, disposition of non-core assets in the ordinary course of business and refinancing properties.

In order to continue qualifying as a REIT, the Company is required to distribute at least 90% of its "REIT taxable income," as defined in the Internal Revenue Code of 1986, as amended (the "Code"). Future dividend declarations will continue to be at the discretion of the Board of Directors, and will depend on the cash flow and financial condition of the Company, capital requirements, annual distribution requirements under the REIT provisions of the Code, and such other factors as the Board of

Directors may deem relevant. The Company intends to continue to operate its business in a manner that will allow it to qualify as a REIT for U.S. federal income tax requirements.

Our success in executing on our strategy will dictate our liquidity needs going forward. If we are unable to execute in these areas, our ability to grow may be limited without additional capital.

Convertible Notes

The Convertible Notes could have the effect of causing, if interest is paid in the future in shares of Series D Preferred Stock, substantial dilution of the Series D Preferred Stock and reduction in the value of any Series D Preferred Stock. In addition, depending on the prices at which the ongoing monthly redemptions of Series D Preferred Stock occur, the conversion price for the Convertible Notes could be repeatedly adjusted downwards, which has caused, and could continue to cause, significant downward pressure on the value of the Company's Common Stock.

Series D Preferred Stock

As of March 31, 2025, the outstanding Series D Preferred Stock had an aggregate liquidation preference of approximately \$47.7 million, with aggregate accrued and unpaid dividends in the amount of approximately \$29.6 million, for a total liquidation value of \$77.3 million. On a monthly basis, each holder of Series D Preferred Stock has the right, at such holder's option, to request that the Company redeem any or all of such holder's shares of Series D Preferred Stock.

As the holders of the Series D Preferred Stock continue to exercise their redemption rights on a monthly basis, the Company will continue to pay the aggregate redemption price in shares of our Common Stock. The Company does not believe it is in its interests to liquidate assets or incur indebtedness to fund cash redemptions of the Series D Preferred Stock and, accordingly, it has no intention of doing so. Therefore, the Company intends to continue to settle redemptions of the Series D Preferred Stock in Common Stock. We believe that the issuance of Common Stock to settle redemptions in Common Stock will continue to result in a substantial dilution of the outstanding Common Stock.

Item 3. Quantitative and Qualitative Disclosures About Market Risk.

We are a smaller reporting company as defined by Rule 12b-2 of the Exchange Act and are not required to provide the information under this item.

Item 4. Controls and Procedures.

Evaluation of Disclosure Controls and Procedures

The management of the Company, under the supervision and with the participation of our principal executive officer and principal financial officer, has evaluated the effectiveness of our disclosure controls and procedures in ensuring that the information required to be disclosed in our filings under the Securities Exchange Act of 1934, as amended, is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms, including ensuring that such information is accumulated and communicated to the Company's management, as appropriate, to allow timely decisions regarding required disclosure. Based on such evaluation, our principal executive and financial officers have concluded that such disclosure controls and procedures were effective as of March 31, 2025 (the end of the period covered by this Form 10-Q) to provide reasonable assurance that information required to be disclosed by us in our filings under the Exchange Act is recorded, processed, summarized, and reported within the time periods specified in the SEC's rules and forms and to provide reasonable assurance that such information is accumulated and communicated to our management, including our principal executive officer and principal financial officer, as appropriate to allow timely decisions regarding required disclosure.

Changes in Internal Control Over Financial Reporting

There has been no change in the Company's internal control over financial reporting that occurred during the three months ended March 31, 2025, that has materially affected, or is reasonably likely to materially affect, the Company's internal control over financial reporting. In designing and evaluating the disclosure controls and procedures, management recognized that any controls and procedures, no matter how well-designed and operated, can provide only reasonable assurance of achieving the desired control objectives, and management necessarily was required to apply its judgment in evaluating the cost-benefit relationship of possible controls and procedures.

PART II. OTHER INFORMATION

Item 1. Legal Proceedings.

See Note 8, Commitments and Contingencies, to our condensed consolidated financial statements included in this Form 10-Q.

Item 1A. Risk Factors.

We are a smaller reporting company as defined by Rule 12b-2 of the Exchange Act and are not required to provide the information under this item.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds.

Unregistered Sales of Equity Securities

During the three months ended March 31, 2025, the Company issued an aggregate of 218,282 shares of its Common Stock to unaffiliated holders of the Company's securities in exchange for 138,174 shares of the Company's Series D Preferred Stock and 138,174 shares of the Company's Series B Preferred Stock. The settlement of these transactions occurred on or before the next business day after each exchange. The Company did not receive any cash proceeds as a result of the exchanges, and the shares of the Preferred Stock exchanged have been retired and cancelled.

The Company issued the Common Stock in these exchange transactions in reliance upon the exemption from the registration requirements of the Securities Act contained in Section 3(a)(9) of the Securities Act on the basis that the issuance of Common Stock constituted an exchange with an existing holder of the Company's securities, and no commission or other remuneration was paid or given directly or indirectly for soliciting such transaction.

All of the foregoing issuances of Common Stock were made to accredited investors.

Issuer Purchases of Equity Securities

None.

Item 3. Defaults Upon Senior Securities.

As of May 4, 2025, the Company had accumulated undeclared dividends of \$29.6 million to holders of shares of our Series D Preferred Stock, of which \$1.9 million are attributable to the three months ended March 31, 2025.

Item 4. Mine Safety Disclosures.

Not applicable.

Item 5. Other Information.

During the three months ended March 31, 2025, none of our directors or officers (as defined in Rule 16a-1(f) of the Exchange Act) adopted, modified or terminated any contract, instruction or written plan for the purchase or sale of our securities that was intended to satisfy the affirmative defense conditions of Rule 10b5-1(c) or any "non-Rule 10b5-1 trading arrangement," as defined in Item 408 of Regulation S-K.
