Files will be created twice daily and placed on OTC Markets' SFTP server at 6:00 AM and 7:00 PM.

Files will be created with and without the CUSIP field included¹. File naming convention is as follows:

¹ CUSIP is a unique nine-character alphanumeric code appearing on the face of each stock or bond certificate that is assigned to a security by Factset. CUSIP numbers are the property of the American Bankers Association (ABA) and are administered by Factset. Since OTC Markets Group neither owns nor controls CUSIP numbers, distributors cannot be authorized to receive the daily list or fundamental data files including CUSIP data unless they have a daily license in place with CUSIP. Distributors please note: OTC Markets Group is not responsible for obtaining written approval from CUSIP prior to authorizing data distributors to externally redistribute CUSIP data; it is the responsibility of the data distributor to obtain such CUSIP permission for their downstream customers.
