1 General Considerations

At OTC Markets Group our mission is to create better informed and more efficient financial markets. Our vision is to expand the world of investment opportunities by creating the financial markets of choice, that bring the benefits of public trading to a wide spectrum of securities and efficiently fulfill the capital formation needs of a broad range of U.S. and global companies.

These OTCQX Rules for U.S. Banks are designed to create the most informed, efficient and cost-effective market for your securities¹. We use the power of technology and transparency to connect companies with investors and broker dealers to intelligently analyze, value and trade securities. The OTCQX rules require companies to meet high standards, make adequate, current information publicly available, provide timely public disclosure of any news or information which might reasonably be expected to materially affect the market for its securities, and demonstrate compliance with securities laws and regulations. By agreeing to these rules, an OTCQX Company will support the best public market, with a fair and efficient trading experience, increased confidence in its operations and an enhanced reputation with shareholders and the general public.

We urge all OTCQX company directors, officers, and persons responsible for the accuracy and adequacy of disclosure, as well as their outside advisors, to understand these OTCQX Rules and to act with integrity and the highest standards in meeting their responsibilities and obligations. Transparency builds trust, and the unique success of each OTCQX company will be a reflection on the good will and efforts of the people involved.

1.1 Application of OTCQX Rules For U.S. Banks

These OTCQX Rules for U.S. Banks consist of certain regulations adopted and published by OTC Markets Group, which prescribe the rights, privileges and obligations of Companies with securities qualified to be traded on OTCQX and the nature of the securities that may be traded. The OTCQX Rules for U.S. Banks are necessarily principles-based and should be understood as instituting standards for conduct, rather than rules establishing minimum compliance requirements. Accordingly, the OTCQX Rules for U.S. Banks are intended to outline for Companies and investors the standards a Company must meet to participate in the OTCQX market, and describe the initial and ongoing disclosure OTCQX Companies must provide to the investing public.

1.2 Amendment of OTCQX Rules For U.S. Banks

OTC Markets Group may, in its sole and absolute discretion, amend these OTCQX Rules for U.S. Banks, whenever it determines that an amendment is necessary or desirable to enhance the quality of the market represented by OTCQX, to improve the disclosure of OTCQX Companies for the benefit of public investors, or for any other reason. Each amendment shall be effective 30 days subsequent to its publication in an OTCQX Rules Release; *provided, however*, that in the event OTC Markets Group determines, in its sole and absolute discretion, that an amendment is non-controversial, such amendment may be effective immediately or at any subsequent time as provided in such Release.

¹ These Rules have not been reviewed by the U.S. Securities and Exchange Commission or any state securities regulator, although OTC Markets Group as a matter of policy welcomes comments and suggestions from these and other regulators.

1.3 Defined Terms

Capitalized terms used herein are defined in Part 7 of these OTCQX Rules for U.S. Banks.

2 Requirements for Admission

OTCQX for U.S. Companies is comprised of two distinct tiers, the OTCQX U.S. tier and, for companies able to meet our highest standards, the OTCQX U.S. Premier tier.

2.1 OTCQX U.S. Tier Initial Eligibility Criteria for U.S. Banks

To be considered for admission to the OTCQX U.S. tier, the Company shall:

- a) Be a U.S. bank, U.S. bank holding company, U.S. thrift, U.S. thrift holding company, or U.S. financial institution that is regulated by a U.S. Bank Regulator;
- b) Not be subject to any Bankruptcy or reorganization proceeding, including but not limited to placement in conservatorship or receivership;
- c) As of the most recent annual period end, have \$100 million in total assets;
- d) Meet one of the following exemptions, consistent with the definition of a “Penny Stock” under Rule 3a51-1 under the Securities Exchange Act of 1934²:

 2. Have average revenue of at least \$6,000,000 for the last three years.
 3. Have a bid price of \$5 per share as of the close of business on each of the 30 consecutive calendar days immediately preceding the Company’s Application Day, and as of the most recent fiscal year end have at least one of the following:

 - B. Net tangible assets of \$1,000,000;

In the event that there has not been a prior public market for the Company’s securities in the U.S., and FINRA has approved a Form 211 with a bid price greater than \$5 per share, then the Company may apply in writing for an exemption from the requirement to maintain a bid price over \$5 per share as of the close of business on each of the 30 consecutive days prior to the Company’s Application Day, which exemption may be granted by OTC Markets in its sole and absolute discretion. In such a case, the Company may demonstrate compliance with Section 2.1(d) 3(A) - (D) using its most recent annual, quarterly or current event report filed through EDGAR or a pro-forma

- g) Have a Market Capitalization of at least \$10 million on each of the 30 consecutive calendar days immediately preceding the Company's Application Day. 1. *Financial Reporting Obligations*

- A. *SEC Reporting Companies.* A Company that is an SEC Reporting Company must file with the SEC, on an ongoing basis, all annual, quarterly and other interim reports required to be filed on EDGAR, provided, however, that if under Section 12(i) of the Exchange Act the Company is required to file reports with a Bank Regulator and not on EDGAR, the Company must post such reports through the OTC Disclosure & News Service.

- ii. The notice must state the name of the Company, the type of report (annual, quarterly or interim) that is or will be late, the reason why the report is or will be late, and the date that the Company expects to post the report.

A Notification of Late Filing will extend the Company's due date for a Quarterly Report by 5 calendar days and an annual report by 15 calendar days.

2. *Timely Disclosure of Material News Releases/Developments*

- A. An OTCQX Company is expected to release quickly to the public any news or information which might reasonably be expected to materially affect the market for its securities. This is one of the most important and fundamental purposes of the OTCQX market.
- B. An OTCQX Company should also act promptly to dispel unfounded rumors which result in unusual market activity or price variations.
- C. Information required to be released quickly to the public under this Section 3.1(k)(2) should be disclosed in a press release through the OTC Disclosure & News Service or an Integrated Newswire (or a combination of methods).

Annual and quarterly earnings, dividend announcements, mergers, acquisitions, tender offers, stock splits, major management changes, and any substantive items of unusual or non-recurrent nature are examples of news items that should be handled on an immediate release basis. News of major new products, contract awards, expansion plans, and discoveries very often fall into the same category. Unfavorable news should be reported as promptly and candidly as favorable news. Reluctance or unwillingness to release a negative story or an attempt to disguise unfavorable news endangers management's reputation for integrity. Changes in accounting methods to mask such occurrences can have a similar impact.

It should be the Company's primary concern to assure that news will be handled in proper perspective. This necessitates appropriate restraint, good judgment, and careful adherence to the facts. Any projections of financial data, for instance, should be soundly based, appropriately qualified, conservative and factual. Excessive or misleading

conservatism should be avoided. Likewise, the repetitive release of essentially the same information is not appropriate. Few things are more damaging to a company's shareholder relations or to the general public's regard for a company's securities than information improperly withheld. On the other hand, a volume of press releases is not to be used since important items can become confused with trivia.

Premature announcements of new products whose commercial application cannot yet be realistically evaluated should be avoided, as should overly optimistic forecasts, exaggerated claims and unwarranted promises. Should subsequent developments indicate that performance will not match earlier projections; this too should be reported and explained. Judgment must be exercised as to the timing of a public release on those corporate developments where disclosure would endanger the Company's goals or provide information helpful to a competitor. In these cases, the Company should weigh the fairness to both present and potential shareholders who at any given moment may be considering buying or selling the company's stock.

3. *Compliance with Blue Sky Laws.* OTCQX has been recognized for the purposes of many U.S. state securities laws governing registration requirements for secondary market transactions.. The initial and ongoing disclosure required by these OTCQX rules may satisfy the applicable secondary trading exemptions for transaction in OTCQX securities, subject to additional conditions under each state's applicable regulations.
 4. *Maintain Verified Company Profile.* At least once every six months, the Company must verify its Company Profile via www.otcqi.com with the information required to maintain the "Verified Company Profile" designation on the Company Profile page on www.otcmarkets.com. This includes verification of certain required information, such as officers, directors and securities counsel.
- k. *OTCQX Sponsor.* A Company may voluntarily retain an OTCQX Sponsor to provide ongoing advice and services. Such advisor will have no formal role under these OTCQX Rules.

3.2 Standards for Continued Qualification

- a) As of the most recent fiscal year end, the Company must maintain compliance with the eligibility criteria set forth in Section 2.1 (a) – (d) and 2.1 (h) – (i), or Section 2.2 (a) – (c) and 2.2 (g) – (k), as applicable, and Section 2.3 of these OTCQX Rules for U.S. Banks.
