

# Val-D'Or Mining Announces U.S Listing on the OTCQB Under the Symbol "VDOMF"

Val-D'Or, Quebec--(Newsfile Corp. - November 19, 2025) - Val-D'Or Corporation (TSXV: VZZ) (OTCQB: VDOMF) ("Val-D'Or Mining" or the "Company") announces that its common shares have commenced trading on the OTCQB marketplace under the symbol "VDOMF", effective November 19, 2025. The Company's common shares will continue to trade on the TSX Venture Exchange under the symbol "VZZ".

The Company expects that the listing on the OTCQB will provide greater visibility and convenience of trading for US investors, resulting in enhanced liquidity and greater reach.

Glenn J. Mullan, CEO of Val-D'Or Mining, commented, "We are pleased that Val-D'Or Mining has secured its U.S. listing on the OTCQB, an important milestone that increases our market visibility and improves liquidity for our shareholders. Access to the U.S. market allows a wider group of investors to participate in Val-D'Or Mining's progress and strengthens our ability to support future growth. This listing positions us to attract new investment and further advance our strategic initiatives, supporting long-term growth."

The OTCQB Venture Market is for early stage and developing U.S. and international companies. Companies are current in their reporting and undergo an annual verification and management certification process. Investors can find real-time quotes and market information for the Company on [www.otcmarkets.com](http://www.otcmarkets.com).

## About Val-D'Or Mining Corporation

Val-D'Or Mining Corporation is a junior natural resource issuer involved in the process of acquiring and exploring its diverse mineral property assets, most of which are situated in the Abitibi Greenstone Belt of NE Ontario and NW Québec. To complement its current property interests, the Company regularly evaluates new opportunities for staking and/or acquisitions. Outside of its principal regional focus in the Abitibi Greenstone Belt, the Company holds several other properties in Northern Québec (Nunavik) covering different geological environments and commodities (Ni-Cu-PGE's).

The Company has expertise in the identification and generation of new projects, and in early-stage exploration. The mineral commodities of interest are broad, and range from gold, copper-zinc-silver, nickel-copper-PGE to industrial and energy minerals. After the initial value creation in the 100%-owned, or majority-owned properties, the Company seeks option/joint venture partners with technical expertise and financial capacity to conduct more advanced exploration projects.
