## News Release

---

### **Microbix Presenting at Muskoka Capital Event**

#### **Meetings with Growth-Oriented Investors, September 26 to 28, 2025**

**MISSISSAUGA, CANADA, September 25, 2025** - Microbix Biosystems Inc. (TSX: MBX, OTCQX: MBXBF, Microbix®), a life sciences innovator, manufacturer, and exporter, announces that it will be presenting to investors at the Muskoka Capital Event, organized by Capital Event Management Ltd. and being hosted at the JW Marriott Rosseau Muskoka, in Minett, Ontario, September 26 to 28, 2025.

Microbix's CEO, Cameron Groome, and COO, Ken Hughes, will undertake a series of 18 one-on-one meetings with growth company investors during the formal portion of the event. The presentation slides to which they will be speaking will be posted to the Microbix website at <https://microbix.com>, along with other business information and its financial disclosures.

#### **About Microbix Biosystems Inc.**

Microbix creates proprietary biological products for human health, with over 120 skilled employees and revenues targeting C\$ 2.0 million or more per month. It makes and exports a wide range of critical ingredients and devices for the global diagnostics industry, notably antigens for immunoassays and its laboratory quality assessment products (QAPs™) and reference materials (QUANTDx™) supporting POCT & clinical lab EQA, enabling assay development and validation, or helping ensure the quality of clinical diagnostic workflows. Its antigens drive the tests of approximately 100 diagnostics makers, while QAPs or QUANTDx are sold to clinical lab accreditation organizations, diagnostics companies, and clinical labs. Microbix QAPs are now available in over 30 countries, supported by a network of international distributors. Microbix is ISO 9001 & 13485 accredited, U.S. FDA registered, Australian TGA registered, Health Canada establishment licensed, and provides IVDR-compliant CE marked products.

Microbix also applies its biological expertise and infrastructure to develop other proprietary products and technologies, most notably Kinlytic® urokinase, a biologic thrombolytic drug used to treat blood clots, and reagents or media to support molecular diagnostic testing (e.g., its DxTM™ for patient-sample collection). Microbix is traded on the TSX and OTCQX, and headquartered in Mississauga, Ontario, Canada.

#### **About Capital Event Management Ltd. and the Event**

Capital Event Management Ltd. produces multiple investor events each year, across North America and in the Caribbean. Attendees include leading public and private companies, and a range of investors consisting of investment advisors, fund managers, and high net worth investors. Capital Event's unique event formats aim to allow principals to establish new and lasting relationships that lead to financings, open market support, and increased awareness within the investment community. Further information about the Muskoka event is available at <https://cem.ca/conference/muskoka-capital-event-2025/>

## Forward-Looking Information

This news release includes “forward-looking information,” as such term is defined in applicable securities laws. Forward-looking information includes, without limitation, discussion of Capital Event Management Ltd. and its conferences, Microbix’s products or services, business and business results, goals or outlook, risks associated with financial results and stability, development projects such as those referenced in its corporate presentation, regulatory compliance and approvals, access to and sales to foreign jurisdictions, engineering and construction, production (including control over costs, quality, quantity and timeliness of delivery), currency exchange rates, maintaining profitability and adequate working capital, or raising further capital on acceptable terms or at all, and other similar statements about anticipated future events, conditions or results that are not historical facts. These statements reflect management’s current estimates, beliefs, intentions, and expectations; they are not guarantees of future performance. Microbix cautions that all forward looking information is inherently uncertain and that actual performance may be affected by a number of material factors, some of which are beyond its control. Accordingly, actual future events, conditions, and results may differ materially from the estimates, beliefs, intentions and expectations expressed or implied in the forward-looking information. All statements are made as of the date of this news release and represent Microbix’s judgement as of the date of this new release, and it is under no obligation to update or alter any forward-looking information except as required by applicable law.
