

VVC – Purchase of Ithaca 1-17 Well and 5 Mile Pipeline

TORONTO, ONTARIO – October 9, 2025 – VVC Exploration Corporation, dba VVC Resources ("VVC" or the "Company") (TSX-V: VVC; OTC: VVCVF) announces that Plateau Helium Corporation ("PHC"), a wholly owned subsidiary of the Company, has completed the purchase of the Ithaca 1-17 well together with approximately five miles of associated pipeline located in Rush county, Kansas in a prolific helium, gas and oil area known as the Central Kansas Uplift (CKU). The acquisition was initiated in April 2025 and PHC took possession in July 2025. As previously disclosed in our May 30, June 26 and September 2025 MD&As, PHC has a 50% operating interest in the well.

The CKU Project targets helium-rich natural gas within multiple stacked reservoirs in Rush and Pawnee Counties, Kansas, where PHC has now assembled a meaningful lease position, acquired one producing property (Ithaca 1-17) and associated gas gathering system, and identified multiple development well locations. The acquisition of an existing gas gathering system serves to lower initial development cost while expediting the time needed to commence gas/helium sales and provide cashflow.

« Building on a producing asset while securing midstream capacity is a practical way to de-risk our development program in the CKU, » said Bill Kerrigan, President of VVC and PHC. «The Ithaca 1-17 well and pipeline give us a backbone to bring wells online more efficiently. »

About VVC Resources

VVC engages in the exploration, development, and management of natural resources - specializing in scarce and increasingly valuable materials needed to meet the growing, high-tech demands of industries such as manufacturing, technology, medicine, space travel, and the expanding green economy. Our portfolio includes a diverse set of multi-asset, high-growth projects, comprising: Helium & industrial gas production in western U.S.; Gold & associated metals operations in northern Mexico; and Strategic investments in carbon sequestration and other green energy technologies. VVC is a Canada-based, publicly-traded company on the TSXV (TSX-V:VVC). To learn more, visit our website at: www.vvcresources.com.

FORWARD-LOOKING STATEMENTS:

This news release contains “forward-looking information” (within the meaning of applicable Canadian securities laws) and “forward-looking statements” (within the meaning of the U.S. Private Securities Litigation Reform Act of 1995). Such statements are generally identified by words such as “anticipate,” “believe,” “expect,” “plan,” “intend,” “potential,” “estimate,” “propose,” “project,” “outlook,” “strategy,” or similar words suggesting future outcomes or statements regarding an outlook. Such statements include, among others: «... to lower initial development cost while expediting ...; ... de-risk our development program ...; ... bring wells online more efficiently ».

Such forward-looking information or statements are based on several risks, uncertainties and assumptions which may cause actual results or other expectations to differ materially from those anticipated and which may prove to be incorrect. Assumptions have been made regarding, among other things, management's expectations regarding acquisitions, production of helium, oil or gas, future development and growth, plans for and completion of projects by Company's third-party relationships, availability of capital, and the necessity to incur capital and other expenditures. Actual results could differ materially due to a number of factors, without limitation, operational risks in the completion of Company's anticipated projects, delays or changes in plans with respect to the development of Company's anticipated projects by Company's third-party relationships, risks affecting the ability to develop projects, risks in legislative changes in the applicable jurisdictions, risks inherent in operating in foreign jurisdictions, the ability to attract key personnel, risks in decrease of price of helium, gas or oil. No assurances can be given that the efforts by Company will be successful.

Although the Company believes that the expectations reflected in the forward-looking information or statements are reasonable, prospective investors in the Company's securities should not place undue reliance on forward-looking statements because the Company can provide no assurance that such expectations will prove to be correct. Forward-looking information and statements contained in this news release are as of the date of this news release and the Company assumes no obligation to update or revise this forward-looking information and statements, except as required by law.

Investors are cautioned that notwithstanding the expectations described herein, there can be no assurance that the plans described herein will be completed as proposed. Trading in the securities of VVC should be considered highly speculative. All forward-looking statements contained in this press release are expressly qualified in their entirety by these cautionary statements and by those made in our filings with SEDAR in Canada (available at www.sedarplus.ca).
