About International Battery Metals Ltd.

International Battery Metals Ltd. is a direct lithium extraction technology company focused on advancing the development of lithium from brine resources. The Company delivers a proprietary DLE process through a modular plant design and architecture built around its media and column systems. Depending on customer requirements, IBAT integrates its DLE process into existing customer flowsheets or specifications or delivers a full flowsheet solution using its proprietary DLE design in conjunction with strategic partnerships. With operational field deployment experience, International Battery Metals is positioned to support the next phase of lithium project

development as global battery demand continues to expand. The Company is headquartered in Houston, Texas. For more information, [click here](#).
