Item 6 Describe the Issuer's Business, Products and Services

A. Description of the issuer's business operations;

PROXIMA-RF

Proxima RF products are currently being tested and deployed in several national grocery retail stores and restaurants, as well as state utility commissions. In another key market, the Company is engaged with a Value Added Reseller in providing RFID readers, sensor

tags and data loggers to the United States Army Blood Services Program in a demonstration project. Through this ongoing trial program, the US Army is anticipated to implement RFID data logging of its critical blood supply shipments worldwide. The Company is also engaged in promising early discussions with Panasonic regarding the use of ProximaRF's mobile data logging solutions in its medical supply division.

ProximaRF has begun development work on the "The Integrity Tag" – RFID-based technology which, when completed, will have the capability of tracking large cannabis shipments from legal grow operations to cannabis dispensaries and storage facilities in jurisdictions where such activity is legal. The online software will be offered to authorized entities within the supply chain as well as act as tool for law enforcement.

The company is seeking additional resources to finance the delivery of existing contracts, to continue new product design and development activities such as work on **The Integrity Tag**, and to focus on aggressive marketing and sales activities in four identified key market sectors, namely:

- 1) Food Safety
- 2) Healthcare & Pharmaceutical
- 3) Cold Chain Logistics
- 4) Factory & Field Maintenance

HURRICANE MRI

The company has obtained the rights to market the Cirrus Open MRI throughout North and South America from Hurricane Enterprises. Hurricane Enterprises Ltd (www.hurricanemri.com) has obtained exclusive world-wide distribution rights to the ground-breaking *Cirrus Open 0.2 Tesla MR Imaging Device* developed in Canada under the auspices and funding of The National Research Council of Canada, (the "NRC"). The Cirrus MRI is an open Magnetic Resonance Imaging Device intended to provide a physician with a patient's internal physiological imagery using magnetic resonance imaging techniques - all without the use of ionizing radiation or advanced cryogenics. The Intellectual property rights for this innovative MRI machine continue to be held by the NRC, with manufacturing rights held by a consortium of scientists involved in the development of the technology. Worldwide distributor rights are held in a Hong Kong company controlled by Hurricane Enterprises, Ltd..

ALTITUDE ORGANIC CORPORATION

Altitude Organic is one of the nation's oldest marijuana dispensary brand names. Beginning in 2009, the company has developed retailing, branding, and commercial cultivating strategies in conjunction with its licensed medical marijuana retail dispensaries operating under the Altitude Organic Medicine brand name. The company has operated in California, Colorado, and Arizona. Altitude Organic Corporation is currently targeting expansion through dispensary and partnerships nationally, as well as outright acquisition in 'for-profit' Colorado. The company seeks to capture market share

in the fast growing, multi-billion dollar cannabis industry.

On April 9, 2013, the Company announced that Sean Loomer became the Chief Operating Officer to oversee all of the operational activity of the Company. Mr. Loomer is currently working on acquiring the rights to an exclusive proprietary prepaid card that would work for all deployed dispensary machines that are described in the section below named “TRANZBYTE TECHNOLOGY AND NEW DEVELOPMENT DIVISION”.

Principal products or services and their markets

The Cirrus Open 0.2T MRI offers lower purchase price and lower operating costs. Because it does not require cooling with liquid helium, which is in short supply nationwide. It is also much safer and more appropriate for use in remote areas. Also, the Cirrus MRI is far more resilient against local power level fluctuations. The software-driven device comes equipped with Internet-ready capability, allowing radiologists and technicians anywhere with Internet access to review results in real time from the convenience of their urban hospital settings.

THE ZAZZZ NETWORK

As a Zazzz™ network affiliate, dispensaries and other retail locations can earn commissions in exchange for hosting and selling selected premium consumer products contained within the Zazzz proprietary product program. The program will feature only the unique products and opportunities the company feels will be tremendously popular among its retail clientele. The company is currently examining and testing products from around the world and is planning to announce its Zazzz product line this year. Dispensary and retail affiliates in the Zazzz Network share in the success of both Zazzz and Altitude Organic Corporation while simultaneously enhancing customer product offerings

TRANZBYTE CORPORATION – DIVIDEND FARMING

The company is currently negotiating with several promising acquisition prospects. Company management feels target companies in selected growth markets which are compatible with the company’s current business model will fortify and accelerate the company’s stability while enabling the company to speed up and augment the target company’s entry into the marketplace.

TRANZBYTE TECHNOLOGY AND NEW DEVELOPMENT DIVISION

The Company has an agreement in principle with its previous spin-out subsidiary, PanPacific International to purchase proprietary dispensary machines that would only dispense to consumers over the age of 21 in the USA. The machine design will include features such as a 22" video monitor at the top of the machine that will also be used as a security camera and a card reader that will only accept payment on a prepaid card. The Company created the design of the machine and is currently consulting to Vending Design Concepts who will be the exclusive manufacturer for the proprietary machines.

Altitude Organix Network, a wholly owned division of the Company, will be oversee each monitor on each deployed machine to assure that it is connected to the internet, that it will receive streaming information as provided by the Company for consumers to view and also serve as a security camera to assure that local law enforcement authorities are contacted when the machine is being vandalized.

The planned deployment of the proprietary machines is called Project 21. Beta testing and preliminary rollout of the machines are being planned to occur before the end of this calendar year. Once rolled out, the automated dispensaries will be part of company's proprietary Zazz Network.

The company's evolving 10-year-old optical and magnetic media technology division, Tranzbyte Technology, continues to remain actively engaged in promoting the sale of its optical media enhancement products to potential customers in Asia. Products in the Tranzbyte division include FLASHAlbum™ -- a technology that enables distributors of optical media (CDs, DVDs, etc.) to consolidate the best features of each medium onto a single content-protected USB flash drive. The Company is currently in the process of registering the name, FLIXSTIX, in support of its initiative to vend the technologies in its Tranzbyte Division to China.

B. Date and State (or Jurisdiction) of Incorporation:

The Company was incorporated on August 9, 1993 in the State of Oregon, U.S.A. and commenced inception of business on the same date.

On November 13, 1998, the Company filed a plan of merger with the State of Nevada whereby Ti-Mail was merged into Desert Winds Entertainment Corporation, a Nevada Corporation and the Company's board of directors together with an affirmative vote of the majority shareholders approved the change of the Company's name to Desert Winds Entertainment Corporation to better reflect the Company's new business direction as an entertainment company specializing in the production and marketing of ensemble tribute artist productions.
