Basis of Consolidation

The consolidated financial statements reflect the financial results of the Company, Totalpost Services, Inc. and its 90% owned subsidiary, Orpheus Capital, LLC, a California LLC. Orpheus Capital, LLC is included in the consolidated financial statements from January 1, 2013 through February 8, 2013, when it was sold. All significant inter-company transactions have been eliminated in consolidation.

The Company's mergers and acquisitions were accounted for as purchases in accordance with either Accounting Principles Board ("APB") Opinion No. 16, Business Combinations, or SFAS No. 141, Business Combinations. SFAS No. 141 requires all business combinations initiated after June 30, 2001 to be accounted for under the purchase method of accounting. The fair value of the consideration given by the Company in the mergers was used as the valuation basis for each of the combinations. The accompanying consolidated statements of operation and cash flows include the results of the properties purchased through the mergers and acquisitions from their respective closing dates.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles (GAAP) in the United States requires management to make estimates and assumptions that affect amounts reported and disclosed in the financial statements and the accompanying notes. Actual results could differ materially from these estimates. On an ongoing basis, we expect to evaluate our estimates, including those related to the accounts receivable, the accounts payable and sales allowances, fair values of marketable and non-marketable securities, fair values of intangible assets and goodwill, useful lives of intangible assets, property and equipment, fair values of options to purchase our common stock, and income taxes, among others. We expect to base our estimates on historical experience and on various other assumptions that are believed to be reasonable, and the results of which form the basis for making judgments about the carrying values of assets and liabilities.

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts or revenues and expenses during the reporting period. Actual results could differ materially from those estimates. Significant accounting policies and estimates underlying the accompanying financial statements include:

It is reasonably possible that the estimates may change in the future.

Fair Value of Financial Instruments

The carrying amounts of our financial instruments, including cash and cash equivalents, marketable securities, Accounts Receivable, Accounts Payable and accrued liabilities, approximate fair value because of their generally short maturities.

Cash and Cash Equivalents and Marketable Securities

We invest our excess cash in money market funds and in highly liquid debt instruments of U.S. municipalities, corporations and the US government and its agencies. All highly liquid investments with stated maturities of three months or less from date of purchase are classified as cash equivalents; all highly liquid investments with stated maturities of greater than three months are classified as marketable securities.

Property and Equipment

Property and equipment are stated at cost less accumulated depreciation and amortization. Depreciation is computed using the straight-line method over the estimated useful lives of the assets. Leasehold improvements, if any, are amortized over the shorter of the lease term or the estimated useful lives of the assets. Depreciation for equipment commences once it is placed in service and depreciation for buildings and leasehold improvements commences once they are ready for their intended use.

Depreciation

Depreciable property, when utilized by the Company and not held for sale, is expected to be depreciated using a straight-line method over the estimated useful lives of the assets as follows:

Land improvements	3-20 years
Buildings and improvements	3-14 years
Furniture, fixtures and equipment	5-10 years
Computer software	5 years

Long-Lived to Assets Including Goodwill and Other Acquired Intangible Assets

The Company reviews property and equipment and intangible assets, including goodwill, for impairment whenever events or changes in circumstances indicate the carrying amount of an asset may not be recoverable. Recoverability of these assets is measured by comparison of carrying amounts to the future on discounted cash flows the assets are expected to generate. If property and equipment and intangible assets are considered to be impaired, the impairment to be recognized equals the amount by which the carrying value of the asset exceeds its fair market value. The Company has made no adjustments to long-lived assets in any of the years presented. In accordance with SFAS No.142, *Goodwill and Other Intangible Assets*, the Company tests goodwill, if any, for impairment at least annually, or more frequently if events or changes in circumstances indicate that this asset may be impaired.

SFAS No.142 also requires that intangible assets with definite lives be amortized over their estimated useful lives and reviewed for impairment whenever events or changes in circumstances indicate an asset's carrying value may not be reasonable in accordance with SFAS No.144, *Accounting for the Impairment of Long-Lived Assets and for Long-Lived Assets to Be Disposed Of*.

Legal Costs

Legal costs are expensed as incurred.

Discontinued Operations

The Company discontinued operations of Orpheus Capital, LLC., effective the date that it was sold on February 8th, 2013. The Company followed guidelines set forth in ASC 205-20, *Presentation of Financial Statements, Discontinued Operations*.

Gains on Real Estate Sales

Gains on disposition of properties are recognized using the full accrual method in accordance with the provisions of SFAS No.66, *Accounting for Real Estate Sales*, provided that various criteria relating to the terms of sale and any subsequent involvement by the Company with the properties sold are met.

Advertising and Promotional Expenses

Advertising and promotional costs are expensed as incurred.

Stock-based Compensation

In December 2004, the Financial Accounting Standards Board issued Statement of Financial Accounting Standards ("SFAS") No. 123 (revised 2004), *Share-based Payment* ("SFAS 123R"), that addresses the accounting for share-based payment transactions in which an enterprise receives employee services in exchange for equity instruments of the enterprise or liabilities that are based on the fair value of the enterprise's equity instruments or that may be settled by the issuance of such equity instruments. SFAS 123R eliminates the ability to account for share-based compensation transactions using the intrinsic value method under Accounting Principles Board Opinion No.25, Accounting for Stock Issued to Employees ("APB 25"), and it generally requires instead that such transactions be accounted for using a fair-value-based method.

Liquidity

As shown in the aaccompanying financial statements, the Company has incurred a net loss of $166,917 during the quarter ended September 30, 2013, and a cumulative loss from inception of $4,507,554 (February 3, 1998).

Litigation

The Company may be subject to various claims or threatened lawsuits in the normal course of business. Management believes that the outcome of any such lawsuits would not have a materially adverse effect on the Company's financial position, results of operations or cash flows.

Note B – Commitments and Contingencies

At September 30, 2013, future minimum payments under operating leases are as follows for the next three years and a thereafter:

Note D – Income Taxes

The Company has adopted Financial Accounting Standard No. 109, ASC 740, *Income Taxes*, which requires the recognition of deferred tax liabilities and assets for the expected future tax consequences of events that have been included in the financial statement or tax returns. Under this method, deferred tax liabilities and assets are determined based on the difference between financial statements and tax bases of assets and liabilities using enacted tax rates in effect for the year in which the differences are expected to reverse. Temporary differences between taxable income reported for financial reporting purposes and income tax purposes are insignificant.

At September 30, 2013, the Company has available for federal income tax purposes a net operating loss carry forward from continuing operations of approximately $4,507,554. Such losses may not be fully deductible is due to the significant amounts of non-Cash service costs in the change in ownership rules Under Section 382 of the Internal Revenue Code. The Company has established a valuation allowance for the full tax benefit of the operating loss carryovers due to the uncertainty regarding realization. There is no tax benefit recorded due to this allowance as of September 30, 2013. In addition, there are no FIN48, *Accounting for Uncertainty In Income Taxes*, accrued liabilities as of year-end.

Note E – Going Concern

The accompanying consolidated statements have been prepared on a going concern basis, which contemplates the realization of assets and the satisfaction of liabilities in the normal course of business. As shown in the financial statements since inception through September 30, 2013, the Company incurred a loss from operations of $4,507,554 however, has not maintain profitable operations under its current operation plan. This may indicate that the Company will be unable to continue as a going concern for a reasonable period of time.

The Company's existence is dependent upon management's ability to develop profitable operations. Management anticipates the Company will attain profitable status and improve its liquidity for the continued developing, marketing and selling of its products. The accompanying financial statements do not include any adjustments that might result should the Company be unable to continue as a going concern. If operations and cash flows continue to improve through these efforts, management believes that the Company can continue to operate and achieve profitability. However, no assurance can be given that management's action will result in profitable operation or the resolution of its liquidity problems.

Note F – Net Income (Loss) Per Common Share

The Company computes earnings per share under Financial Accounting Standard No. 128, "Earnings per Share" (SFAS 128).
