NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

NOTE A – SUMMARY OF ACCOUNTING POLICIES

A summary of the significant accounting policies applied in the preparation of the accompanying financial statement follows.

In the opinion of management, all adjustments (consisting of normal recurring accruals) considered necessary for a fair presentation have been included in this year-end report.

The consolidated financial statements include a company which is effectively controlled directly by the Parent Company, where control is defined as the power to govern the financial operation policies. This control is generally evidenced when the company directly or indirectly owns more than 50% of the voting rights of the company's share capital. Significant intercompany transactions have been eliminated in consolidation.

Inventory is valued at the lower of cost or market as of the respective balance sheet dates.

In May of 2006, the Company's former parent, Green Endeavors LTD., formerly Net2Auction, Inc., purchased 50,000 shares (50,000,000 shares prior to the pre-reverse stock split on June 27, 2006) to gain a 50.02% ownership of BizAuctions, Inc. On June 27, 2006, the Company had a reverse stock split whereby each shareholder received 1 share for each 1,000 shares owned. On June 28, 2006, the former parent company, Green Endeavors LTD., acquired 50,000,000 post reverse split shares to gain a 99.9% ownership of the Company's outstanding common stock. In this transaction, the Company acquired 100% of BizAuctions, Corp. from its parent. This transaction was valued at \$154,400 or \$0.003 per share.

As of December 31, 2012, and December 31, 2011, AmeriResource Technologies, Inc. ("Parent" or its "Affiliates") controlled approximately 0.0003% and 0.02%, respectively, of the outstanding common stock of the Company. Upon the conversion of the Series A and Series D Preferred stock owned by the Parent would give approximately 93% and 81% voting control as of December 31, 2012, and December 31, 2011 of the Company.

Effective August 17, 2006, a forward stock split was effective whereby each shareholder of record received 2 shares of common stock for each share owned.

Business and Basis of Presentation

BizAuctions, Inc. was formed as a Delaware Corporation on May 5, 1995 as Topper's Brick Oven Pizza, Inc. Since the inception of the Company there have been three subsequent name changes to its current name, BizAuctions, Inc.

BizAuctions has established itself as a leader within the eBay marketplace through its online auctions of well known name brand merchandise. BizAuctions designation on eBay as a Power-Seller ranks the Company among the most successful on eBay in terms of sales and customer satisfaction. With a worldwide audience of approximately 290 million plus registered users, eBay provides the Company a well known and established forum to market and sell our merchandise in a competitive bidding format.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

NOTE A – SUMMARY OF ACCOUNTING POLICIES (CONTINUED)

Business and Basis of Presentation-(Continued)

The Company strategy is that of the most basic of economic principles: Buy low and sell high. We have contracted with retailer-wholesalers to purchase salvaged merchandise at a discount and sell for a profit on eBay, Amazon, Craig's List, and at our retail-outlet store. This salvaged merchandise is generally overstock inventory, display models, and customer returns. We sell brand name general merchandise, home goods, appliances, clothes and electronics. BizAuctions list the merchandise through Kyozou software which is fully integrated and compliant with eBay, Amazon, and Craig's List. Once an auction ends, payment is collected via PayPal or credit card. We have our own designated Account Executives with eBay, Amazon, and PayPal to help BizAuctions achieve the highest potential.

BizAuctions operates out of its retail-warehouse in Chula Vista, CA, a suburb of San Diego, CA, and has 5 full time employees at the end of this reporting quarter. We are currently providing liquidation services to retailers and other wholesalers in California. Since the inception of the Company, we have created an efficient business model that will allow for expansion in good economic times. The current operational capacity is limited to the Company purchasing power and the current economic conditions.

The Company is in the process of redefining its business model and is making contacts with other major retailers and wholesalers for liquidation services. The Company is in discussions with other major retailers-wholesalers that provide a broad base of merchandise for the potential liquidation of inventory that has been either phased out or is a surplus for the wholesaler.

BizAuctions sales for the year ended December 31, 2012 has decreased approximately \$2,142,195 over the year ending December 31, 2011. The decrease in revenues is due to the sale of a substantial portion of the retail operations during the 3rd quarter of calendar year 2011.

Cash and Cash Equivalents

For the purposes of the Statements of Cash Flows, the company considers all highly liquid debt instruments purchased with a maturity date of three months or less to be cash equivalents.

Income Taxes

The Company has adopted Financial Accounting Standard No. 109 (SFAS 109) which requires the recognition of deferred tax liabilities and assets for the expected future tax consequences of events that have been included in the financial statement or tax returns. Under this method, deferred tax liabilities and assets are determined based on the difference between financial statements and tax basis of assets and liabilities using enacted tax rates in effect for the year in which the differences are expected to reverse. Temporary differences between taxable income reported for financial reporting purposes and income tax purposes are insignificant.

Net Loss Per Common Share

The Company computes earnings per share under Financial Accounting Standard No. 128, "Earnings Per Share" (SFAS 128). Net loss per common share is computed by dividing net loss by the weighted average number of shares of common stock and dilutive common stock equivalents outstanding during the year. Dilutive common stock equivalents consist of shares issuable upon conversion of convertible preferred

(Unaudited)

Net Loss Per Common Share-(Continued)

shares. During the years ended December 31, 2012, and December 31, 2011, common stock equivalents are not considered in the calculation of the weighted average number of common shares outstanding because they would be anti-dilutive, thereby decreasing the net loss per common share.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly actual results could differ from those estimates.

Revenue Recognition

Revenue for product sales is recognized at the time the product is shipped to or picked up by the customer.

Advertising

The Company follows the policy of charging the costs of advertising to expenses as incurred. For the years ended December 31, 2012, and December 31, 2011, advertising costs were not material to the statement of loss.

Liquidity

As shown in the accompanying financial statements, the Company has incurred a net loss of (\$221,938), and (\$1,611,386) during the years ended December 31, 2012, and December 31, 2011, respectively. As of December 31, 2011, the Company had working capital deficit of (\$2,925,170). In order for the Company to sustain operations, additional working capital must be raised by increases in revenue realizing profitable margins, by the sale of equity securities, advances or loans from its parent company or its affiliates.

Concentrations of Credit Risk

Financial instruments and related items, which potentially subject the Company to concentrations of credit risk, consist primarily of cash, cash equivalents and related party receivables. The Company places its cash and temporary cash investments with credit quality institutions. At times, such investments may be in excess of the FDIC insurance limit.

Stock Based Compensation

In December 2002, the FASB issued SFAS No. 148, "Accounting for Stock-Based Compensation-Transition and Disclosure-an amendment of SFAS 123." This statement amends SFAS No. 123,

"Accounting for Stock-Based Compensation," to provide alternative methods of transition for a voluntary change to the fair value based method of accounting for stock-based employee compensation. In addition, this statement amends the disclosure requirements of SFAS No. 123 to require prominent disclosures in both annual and interim financial statements about the method of accounting for stock-based employee

Stock Based Compensation-(Continued)

compensation and the effect of the method used on reported results. The Company has chosen to continue to account for stock-based compensation using the intrinsic value method prescribed in APB Opinion No. 25 and related interpretations. Accordingly, compensation expense for stock options is measured as the excess, if any, of the fair market value of the Company's stock at the date of the grant over the exercise price of the related option. The Company has adopted the annual disclosure provisions of SFAS No. 148 in its financial reports for the years-ended December 31, 2012, and December 31, 2011.

Comprehensive Income

Statement of Financial Accounting Standards No. 130, "Reporting Comprehensive Income" (SFAS 130), establishes standards for reporting and display of comprehensive income, its components and accumulated balances. Comprehensive income is defined to include all changes in equity except those resulting from investments by owners and distributions to owners. Among other disclosures, SFAS 130 requires that all items that are required to be recognized under current accounting standards as components of comprehensive income be reported in a financial statement that is displayed with the same prominence as other financial statements. The Company adopted SFAS 130 during the periods ended December 31, 2012, and December 31, 2011, and has no items of comprehensive income to report.

Segment Information

Statement of Financial Accounting Standards No. 131, Disclosures about Segments of an Enterprise and Related Information (SFAS 131) establishes standards for reporting information regarding operating segments in annual financial statements and requires selected information for those segments to be presented in interim financial reports issued to stockholders. SFAS 131 also establishes standards for related disclosures about products and services and geographic areas. Operating segments are identified as components of an enterprise about which separate discrete financial information is available for evaluation by the chief operating decision maker, or decision-making group, in making decisions to allocate resources and assess performance. The information disclosed herein, materially represents all of the financial information related to the Company's principal operating segment.

New Accounting Pronouncements

SFAS No. 168. In June of 2009, the Financial Accounting Standards Board, ("FASB"), issued SFAS No. 168, The FASB Accounting Standards Codification and the Hierarchy of Generally Accepted Accounting Principles-replacement of SFAS No. 162. No 168 established the FASB Accounting Standards Codification as the source of authoritative accounting principles recognized by the FASB to be applied in the preparation of financial statements in conformity with generally accepted accounting principles. No.168 explicitly recognizes rule and interpretive releases of the Securities and Exchange Commission (SEC) under federal securities laws issued for fiscal years and interim periods ending after September 15, 2009. The Company has adopted SFAS No. 168 and there was no impact on the Company's consolidated financial statements or results of operations.

SFAS No. 165. In May of 2009, the Financial Accounting Standards Board, ("FASB), issued SFAS No. 165, Subsequent Events No. 165 establishes general standards of accounting for, and requires disclosures of events that occur after the balance sheet date but before the financial statements are issued or available

The 3rd payment in the amount of \$175,000.00 was made subsequent to the filing of the year-end report. (For additional information, see Note K-Legal, and Note L-Subsequent Events of this report.)

NOTE N - INCOME TAXES

The Company has adopted Financial Accounting Standard No. 109 which requires the recognition of deferred tax liabilities and assets for the expected future tax consequences of events that have been included in the financial statement or tax returns. Under this method, deferred tax liabilities and assets are determined based on the difference between financial statements and tax bases of assets and liabilities using enacted tax rates in effect for the year in which the differences are expected to reverse. Temporary differences between taxable income reported for financial reporting purposes and income tax purposes are insignificant.

At December 31, 2012, the Company has available for federal income tax purposes a net operating loss carry forward of approximately, (\$ 10,000,000), beginning to expire in the year 2025, that may be used to offset future taxable income. The Company has provided a valuation reserve against the full amount of the net operating loss benefit, since in the opinion of management based upon the start-up status of the Company, the tax benefits will not be recognized until income is realized. Due to significant changes in the Company's ownership, the future use of its existing net operating losses may be limited.

Components of deferred tax assets as of December 31, 2012, are as follows:

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

NOTE O - GOING CONCERN

The accompanying consolidated statements have been prepared on a going concern basis, which contemplates the realization of assets and the satisfaction of liabilities in the normal course of business. As shown in the financial statements during the years-ended December 31, 2012, and December 31, 2011, the Company incurred a loss from operations of (\$197,770), and (\$1,611,386), respectively, and has not obtained profitable operation under its current operating plan. This may indicate that the Company will be unable to continue as a going concern for a reasonable period of time.

The Company's existence is dependent upon advances from its Parent company and its affiliates, the sale of additional equity stock, loans, and management's ability to develop profitable operations. Management anticipates the Company will attain profitable status and improve its liquidity through the continued developing, marketing and selling of its products and additional equity investments in the Company. The accompanying financial statements do not include any adjustments that might result should the Company be unable to continue as a going concern. In order to improve the Company's liquidity, the Company is actively pursing additional equity financing through discussions with investment bankers and private investors. There can be no assurance the Company will be successful in its effort to secure additional equity financing. If operations and cash flows continue to improve through these efforts, management believes that the Company can continue to operate and achieve profitability. However, no assurance can be given that management's actions will result in profitable operations or the resolution of its liquidity problems.
