**SYNDICATION, INC.**  
**NOTES TO THE FINANCIAL STATEMENTS**  
**DECEMBER 31, 2013**

**NOTE 1 – NATURE OF BUSINESS**

Syndication, Inc. (“Syndication” and the “Company”) was incorporated under the laws of the State of Delaware on March 25, 1999. Its efforts have been principally devoted to acquire controlling interest in or to participate in the creation of, and to provide financial management, and technical support to development stage business, e-commerce businesses and traditional brick and mortar businesses.

**NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

Basis of Presentation

The accompanying unaudited financial statements of Syndication, Inc. have been prepared in accordance with accounting principles generally accepted in the United States of America.

Accounting Basis

The Company uses the accrual basis of accounting and accounting principles generally accepted in the United States of America (“GAAP” accounting). The Company has adopted a December 31 fiscal year end.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date the financial statements and the reported amount of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Cash and Cash Equivalents

For purposes of the statement of cash flows, the Company considers highly liquid financial instruments purchased with a maturity of three months or less to be cash equivalents

Revenue Recognition

The Company will recognize revenue when products are fully delivered or services have been provided and collection is reasonably assured.

Loss Per Common Share

Basic loss per share is calculated using the weighted-average number of common shares outstanding during each reporting period. Diluted loss per share includes potentially dilutive securities such as outstanding options and warrants, using various methods such as the treasury stock or modified treasury stock method in the determination of dilutive shares outstanding during each reporting period. The Company does not have any potentially dilutive instruments.

**SYNDICATION, INC.**  
**NOTES TO THE FINANCIAL STATEMENTS**  
**DECEMBER 31, 2013**

Income Taxes

Income taxes are computed using the asset and liability method. Under the asset and liability method, deferred income tax assets and liabilities are determined based on the differences between the financial reporting and tax bases of assets and liabilities and are measured using the currently enacted tax rates and laws. A valuation allowance is provided for the amount of deferred tax assets that, based on available evidence, are not expected to be realized. It is the Company's policy to classify interest and penalties on income taxes as interest expense or penalties expense. As of December 30, 2013, there have been no interest or penalties incurred on income taxes.

**NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)**

Stock-Based Compensation

Stock-based compensation is accounted for at fair value in accordance with ASC Topic 718. To date, the Company has not adopted a stock option plan and has not granted any stock options.

As of December 31, 2013, the Company has not issued any stock-based payments to its employees.

Property and equipment

Property and equipment is recorded at cost. Major additions and improvements are capitalized. The cost and related accumulated depreciation of equipment retired or sold are removed from the accounts and any differences between the undepreciated amount and the proceeds from the sale are recorded as gain or loss on sale of equipment. Depreciation is computed using the straight-line method over a period of five years.

**NOTE 3 – PROPERTY AND EQUIPMENT**

	Cost	Accumulated depreciation	Net Book Value December 31, 2013	Net Book Value December 31, 2012
Furniture and equipment	44,661	44,661	0	1,573

**SYNDICATION, INC.**  
**NOTES TO THE FINANCIAL STATEMENTS**  
**DECEMBER 31, 2013**

**NOTE 4 – CAPITAL LEASE OBLIGATION**

Property and equipment includes the following amounts for capitalized leases at December 31, 2013.

	December 31, 2013
Surgical treatment equipment	95,246
Less: accumulated amortization.	(91,847)
	3,399

The balance of the capital lease obligation was discharged during the year ended December 31, 2012.

**NOTE 5 – CONVERTIBLE DEBENTURE**

On December 30, 2005 Syndication, in order to obtain alternative funding for its ongoing operations of the Company, entered into a Termination Agreement with Cornell Capital Partners pursuant to which the Standby Equity Distribution Agreement entered between the Company and the Investor dated June 30, 2004 was terminated. To that end, on December 30, 2005, the company then executed a Securities Purchase Agreement (the Agreement) for the sale of (i) \$ 1,150,000 in secured convertible debentures and (ii) stock purchase warrants to buy 120,000,000 shares of our common stock. In accordance with EITF-00-19 and SFAS 150, since there is no explicit limit on the number of shares that are to be delivered upon exercise of the conversion feature, the Company is not able to assert that it will have sufficient authorized and un-issued shares to settle the conversion option. As a result, the conversion feature has been accounted for as a derivative liability, with the fair value recorded in earnings each period. As of December 31, 2012, the company converted \$ 622, 835 of its debenture to equity reducing the outstanding debenture balance from \$ 1,150,000 to \$ 527,165, including \$ 69,800 converted for lender, subject to confirmation from stock agent.

**NOTE 6 – INCOME TAXES**

As of December 31, 2013, the Company had net operating loss carry forwards of approximately \$11,241,000 that may be available to reduce future years' taxable income from 2004 through 2025. Future tax benefits which may arise as a result of these losses have not been recognized in these financial statements, as their realization is determined not likely to occur and accordingly, the Company has recorded a valuation allowance for the deferred tax asset relating to these tax loss carry-forwards.

The provision for Federal income tax consists of the following:

	December 31, 2013	December 31, 2012
Federal income tax benefit attributable to:		

Current operations	\$ 49,000	\$ 206,750
Less: valuation allowance	(49,000)	(206,750)
Net provision for Federal income taxes	<u>\$ 0</u>	<u>\$ 0</u>

The cumulative tax effect at the expected rate of 34% of significant items comprising our net deferred tax amount is as follows:

	December 31,2013	December 31, 2012
Deferred tax asset attributable to:		
Net operating loss carryover	\$ 3,822,000	\$ 3,773,000
Less: valuation allowance	(3,822,000)	(3,773,000)
Net deferred tax asset	<u>\$ 0</u>	<u>\$ 0</u>

Due to the change in ownership provisions of the Tax Reform Act of 1986, net operating loss carry forwards for federal income tax reporting purposes are subject to annual limitations. Should a change in ownership occur net operating loss carry forwards may be limited as to use in future years.

## **6) Issuers Business, Products and Service;**

We are a consulting company formed to acquire controlling interests in or to participate in the creation of, and to provide financial, management and technical support to, development stage businesses, e-commerce businesses and traditional brick-and-mortar businesses. We have no restrictions or limitations in terms of the type of industry that we intend to focus our activities on. We do not want to limit the scope of our potential target businesses. In evaluating whether to act as a consultant with a particular company and whether to invest in a specific company, our board of directors intends to apply a general analysis which would include, but be not limited to, the following: an evaluation to determine if the target company has the products, services and skills to successfully compete in its industry; an evaluation to determine if the target company has the products, services and skills to successfully compete in its industry; an evaluation of the target company's management skills; and an evaluation of our equity position in a target company, if any, to review the extent, if any, that we will be able to exert influence over the direction and operations of the development stage company. As a condition to any acquisition or development agreement, we intend to require representation on the company's board of directors to ensure our ability to provide active guidance to the company. The board of directors has the ultimate authority for any decision with regard to selecting which companies to consult with and in which companies we might make an investment. Our strategy is to integrate affiliated companies into a network and to actively develop the business strategies, operations and management teams of the affiliated entities. It is the intent of our board of directors to develop and exploit all business opportunities to increase efficiencies between companies with which we may invest in or consult. For example, if we are consulting with a marketing company, we may utilize that marketing company to provide services for other companies with which we consult or in which we invest. We may acquire companies to be held as wholly owned subsidiaries of our company. Our board of directors believes that the financial evaluations of our company would be enhanced as a result of having diversified companies owned by our company. We anticipate that our role as a consultant to development stage companies may provide the opportunity for us

to invest in such development stage companies; however, our services as a consultant will not be conditioned on us being allowed to invest in a company. We do not intend to identify potential acquisition, investment and consulting activities through the use of paid advertisements, phone solicitation or email solicitation, but intend to become aware of and identify potential acquisition, investment and consulting activities through the business contacts and networking of our officers and directors.

### **Strategy and Objectives - Investment and Development Activities**

We believe that we can add value to development stage B2B e-commerce Internet-related companies and traditional brick-and-mortar businesses by providing seed-capital, and we may take advantage of various potential business acquisition opportunities through the issuance of our securities. Syndication believes we can further assist them in the following areas: to develop and implement business models that capitalize on the Internet's ability to provide solutions to traditional companies; to build a corporate infrastructure including a management team, a qualified sales and marketing department, information technology, finance and business development; to assist them in their ability to manage rapid growth and flexibility to adopt to the changing Internet marketplace and technology; to assist them in evaluating, structuring and negotiating joint ventures, strategic alliances, joint marketing agreements and other corporate transactions; and to advise them in matters related to corporate finance, financial reporting and accounting operations. We believe that our management team is qualified to identify companies that are positioned to compete successfully in their respective industries. We intend to structure our acquisitions to permit the acquired company's management and key personnel to retain an equity stake in the company. We believe that we have the ability to complete acquisitions and investments quickly and efficiently. We intend that after acquiring an interest in a development company, it will participate in follow-on financing if needed. We have no proposed activities related to the offering of securities of any other company.

## **Management and Consulting Activities**

In evaluating whether to act as a consultant with a particular company, we intend to apply an analysis which includes, but is not limited to, the following factors: industry evaluation to determine inefficiencies that may be alleviated through Internet or commerce use and will evaluate the profit potential, the size of the market opportunity and the competition that exists for that particular industry; target company evaluation to determine if the target company has the products, services and skills to become successful in its industry; overall quality and industry expertise evaluation of a potential acquisition candidate in deciding whether to acquire a target company. If the target company's management skills are lacking, a determination will be made as to whether a restructuring of its corporate infrastructure is feasible and, if done so, whether it would be successful; evaluation of our equity position in a target company and extent that we will be able to exert influence over the direction and operations of the development stage company; and as a condition to any acquisition or development agreement, we intend to require representation on the company's board of directors to ensure our ability to provide active guidance to the acquired company.
