A. Rising India's management focuses on opportunities of large scale, one being assisted living. These projects are in large demand due to the "Baby Boomers". Assisted living creates one of the best returns for the investment dollar today.

Rising India has researched acquisition and land-banking opportunities throughout Southern California based on new home developers like: D.R. Horton, Lennar, Ryland Homes, Standard Pacific and many others left fully entitled, development projects and planned communities vacant, unsold and basically guarded by private security services.

Rising India is pursuing opportunities through the local and regional bank foreclosed properties. There is an abundance of non-earning assets in their portfolios. Some can be bought for \$.10 to \$.30 cents on the dollar.

Rising India is acquiring through long term options and or purchase as much raw land and or entitled land through discounted acquisition strategies. We will also pursue full housing developments, assisted living and planned communities that have been left behind and or abandoned.

Our retirement communities offer more than just retirement and assisted living. Our Senior Center has a complete selection of apartment homes, services, and activities that celebrate our resident's independence and honor their life experience

The accompanying notes are an integral part of the financial statements.

The management of this investment opportunity has over fifty years of combined experience in residential and commercial real estate development, entitlement and construction. We are certain of the business opportunity here in the Coachella Valley and surrounding areas. Our management team can acquire and or option each project at a substantial discount and resell or develop at a premium profit, garnering substantial returns for the company. In May of 2013 Rising India, Inc. has acquired ownership of Mayer Luce Corp. The owners of a 3 million dollar 161 acre proposed entitlement project for assisted living in the Coachella Valley. Rising India, Inc. has issued 350 million shares of treasury common stock for ownership position.

B. BASIS OF ACCOUNTING

The Company utilizes the accrual method of accounting, whereby revenue is recognized when earned and expenses when incurred. The unaudited financial statements have been prepared in accordance with generally accepted accounting principles for interim financial information. As such, the financial statements do not include all of the information and footnotes required by generally accepted accounting principles for complete financial statements. In the opinion of management, all adjustments considered necessary for a fair presentation have been included and these adjustments are of a normal recurring nature. C. USE OF ESTIMATES

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the period. Actual results could differ from those estimates.

D. CASH AND CASH EQUIVALENTS

Cash and cash equivalents include cash on hand; cash in banks and any highly liquid investments with maturity of three months or less at the time of purchase.
