CAUTIONARY NOTE REGARDING FORWARD-LOOKING STATEMENTS

Information set forth in this Annual Report contains forward-looking statements, which involve a number of risks and uncertainties that could cause our actual results to differ materially from those reflected in the forward-looking statements. Forward-looking statements can be identified by use of the words “expect,” “project,” “may,” “might,” potential,” and similar terms. We caution you that any forward-looking information is not a guarantee of future performance and that actual results could differ materially from those contained in the forward-looking information. Forward-looking statements involve a number of risks, uncertainties or other factors beyond our control. These factors include, but are not limited to, our ability to implement our strategic initiatives, economic, political and market conditions and price fluctuations, government and industry regulation, U.S. and global competition, and other factors. Factors that could cause or contribute to such differences include, but are not limited to, those discussed under the heading “Risk Factors.” We undertake no obligation to revise or publicly release the results of any revision to these forward-looking statements. Given these risks and uncertainties, readers are cautioned not to place undue reliance on such forward looking statements. We undertake no obligation to update any forward-looking statement, whether as a result of new information, future events or otherwise.

WORLDWIDE INTERNET, INC.
NOTES TO FINANCIAL STATEMENTS
SEPTEMBER 30, 2014

NOTE 1 - ORGANIZATION AND DESCRIPTION OF BUSINESS

Worldwide Internet, Inc. (the "Company") was incorporated originally as August Resources IV, Inc. on September 1, 1998 in the State of Florida. In 2001 the Company changed its name to Eastern Frontier Corp. On March 30, 2006 the Company changed its domicile from Florida to Nevada and changed its name to Acellus Communications, Inc. On December 11, 2008 the Company changed its name to Worldwide Internet, Inc. and on the same date reversed its stock in the ratio of 1 to 1000.

The Company is now focused on creating a diversified holding company for its business operations and investment holdings.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of presentation

The Company’s financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America (“U.S. GAAP”).The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Management further acknowledges that it is solely responsible for adopting sound accounting practices, establishing and maintaining a system of internal accounting control and preventing and detecting fraud. The Company's system of internal accounting control is designed to assure, among other items, that 1) recorded transactions are valid; 2) valid transactions are recorded; and 3) transactions are recorded in the proper period in a timely manner to produce financial statements which present fairly the financial condition, results of operations and cash flows of the Company for the respective periods being presented

Use of estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Cash equivalents

The Company considers all highly liquid investments with a maturity of three months or less when purchased to be cash equivalents.

Fair value of financial instruments

The Company follows paragraph 825-10-50-10 of the FASB Accounting Standards Codification for disclosures about fair value of its financial instruments and paragraph 820-10-35-37 of the FASB Accounting Standards Codification ("Paragraph 820-10-35-37") to measure the fair value of its financial instruments. Paragraph 820-10-35-37 establishes a framework for measuring fair value in accounting principles generally accepted in the United States of America (U.S. GAAP), and expands disclosures about fair value measurements. To increase consistency and comparability in fair value measurements and related disclosures, Paragraph 820-10-35-37 establishes a fair value hierarchy which prioritizes the inputs to valuation techniques used to measure fair value into three (3) broad levels. The fair value hierarchy gives the highest priority to quoted prices (unadjusted) in active markets for identical assets or liabilities and the lowest priority to unobservable inputs. The three (3) levels of fair value hierarchy defined by Paragraph 820-10-35-37 are described below:

Level 1 Quoted market prices available in active markets for identical assets or liabilities as of the reporting date.

Level 2 Pricing inputs other than quoted prices in active markets in Level 1, which are either directly or indirectly observable as of the reporting date. Level 3 Pricing inputs that are generally observable inputs and not corroborated by market data. The carrying amount of the Company's financial assets and liabilities, such as cash, prepaid expenses and accrued expenses approximate their fair value because of the short maturity of those instruments. The Company's notes payable approximate the fair value of such instruments based upon management's best estimate of interest rates that would be available to the Company for similar arrangements at September 30, 2014.

Equipment

Equipment is recorded at cost. Expenditures for major additions and betterments are capitalized. Maintenance and repairs are charged to operations as incurred. Depreciation of equipment is computed by the straight-line method (after taking into account their respective estimated residual values) over the assets estimated useful life of three (3) or seven (7) years. Upon sale or retirement of equipment, the related cost and accumulated depreciation are removed from the accounts and any gain or loss is reflected in statements of operations.

Impairment of long-lived assets

The Company follows paragraph 360-10-05-4 of the FASB Accounting Standards Codification for its long-lived assets. The Company's long-lived assets, which includes computer equipment is reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount of the asset may not be recoverable.

The Company assesses the recoverability of its long-lived assets by comparing the projected undiscounted net cash flows associated with the related long-lived asset or group of long-lived assets over their remaining estimated useful lives against their respective carrying amounts. Impairment, if any, is based on the excess of the carrying amount over the fair value of those assets. Fair value is generally determined using the asset's expected future discounted cash flows or market value, if readily determinable. If long-lived assets are determined to be recoverable, but the newly determined remaining estimated useful lives are shorter than originally estimated, the net book values of the long-lived assets are depreciated over the determined remaining estimated useful lives.

Commitments and contingencies

The Company follows subtopic 450-20 of the FASB Accounting Standards Codification to report accounting for contingencies. Liabilities for loss contingencies arising from claims, assessments, litigation, fines and penalties and other sources are recorded when it is probable that a liability has been incurred and the amount of the assessment can be reasonably estimated.

Revenue recognition

The Company follows paragraph 605-10-S99-1 of the FASB Accounting Standards Codification for revenue recognition. The Company will recognize revenue when it is realized or realizable and earned. The Company considers revenue realized or realizable and earned when all of the following criteria are met: (i) persuasive evidence of an arrangement exists, (ii) the product has been shipped or the services have been rendered to the customer, (iii) the sales price is fixed or determinable, and (iv) collectability is reasonably assured.

Income taxes

The Company follows Section 740-10-30 of the FASB Accounting Standards Codification, which requires recognition of deferred tax assets and liabilities for the expected future tax consequences of events that have been included in the financial statements or tax returns. Under this method, deferred tax assets and liabilities are based on the differences between the financial statement and tax bases of assets and liabilities using enacted tax rates in effect for the fiscal year in which the differences are expected to reverse. Deferred tax assets are reduced by a valuation allowance to the extent management concludes it is more likely than not that the assets will not be realized. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the fiscal years in which those temporary differences are expected to be recovered or settled. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in the Statements of Income and Comprehensive Income in the period that includes the enactment date.

The Company adopted section 740-10-25 of the FASB Accounting Standards that addresses the determination of whether tax benefits claimed or expected to be claimed on a tax return should be recorded in the financial statements. Under Section 740-10-25, the Company may recognize the tax benefit from an uncertain tax position only if it is more likely than not that the tax position will be sustained on examination by the taxing authorities, based on the technical merits of the position. The tax benefits recognized in the financial statements from such a position should be measured based on the largest benefit that has a greater than fifty percent (50%) likelihood of being realized upon ultimate settlement. Section 740-10-25 also provides guidance on de-recognition, classification, interest and penalties on income taxes, accounting in interim periods and requires increased disclosures. The Company had no material adjustments to its liabilities for unrecognized income tax benefits according to the provisions of Section 740-10-25.

Net income (loss) per common share

Net income (loss) per common share is computed pursuant to section 260-10-45 of the FASB Accounting Standards Codification. Basic net income (loss) per common share is computed by dividing net income (loss) by the weighted average number of shares of common stock outstanding during the period. Diluted net income (loss) per common share is computed by dividing net income (loss) by the weighted average number of shares of common stock and potentially outstanding shares of common stock during the period. The weighted average number of common shares outstanding and potentially outstanding common shares assumes that the Company incorporated as of the beginning of the first period presented.

There were no potentially dilutive shares outstanding as of September 30, 2014.

Cash flows reporting

The Company adopted paragraph 230-10-45-24 of the FASB Accounting Standards Codification for cash flows reporting, classifies cash receipts and payments according to whether they stem from operating, investing, or financing activities and provides definitions of each category, and uses the indirect or reconciliation method (“Indirect method”) as defined by paragraph 230-10-45-25 of the FASB Accounting Standards Codification to report net cash flow from operating activities by adjusting net income to reconcile it to net cash flow from operating activities by removing the effects of (a) all deferrals of past operating cash receipts and payments and all accruals of expected future operating cash receipts and payments and (b) all items that are included in net income that do not affect operating cash receipts and payments. The Company reports the reporting currency equivalent of foreign currency cash flows, using the current exchange rate at the time of the cash flows and the effect of exchange rate changes on cash held in foreign currencies is reported as a separate item in the reconciliation of beginning and ending balances of cash and cash equivalents and separately provides information about investing and financing activities not resulting in cash receipts or payments in the period pursuant to paragraph 830-230-45-1 of the FASB Accounting Standards Codification.

Advertising Costs

The Company expenses the cost of advertising and promotional materials when incurred. Total Advertising costs were $0 for three months ended September 30, 2014.

Subsequent events

The Company follows the guidance in Section 855-10-50 of the FASB Accounting Standards Codification for the disclosure of subsequent events. The Company will evaluate subsequent events through the date when the financial statements were issued. Pursuant to ASU 2010-09 of the FASB Accounting Standards Codification, the Company considers its financial statements issued when they are widely distributed to users, such as publishing them on OTCMarkets.com.

Recently issued accounting pronouncements

The following accounting standards were issued as of December 26, 2011: **ASU 201006, Fair Value Measurements and Disclosures (Topic 820) - Improving Disclosures about Fair Value Measurements.**

This ASU affects all entities that are required to make disclosures about recurring and nonrecurring fair value measurements under FASB ASC Topic 820, originally issued as FASB Statement No. 157, *Fair Value Measurements*. The ASU requires certain new disclosures and clarifies two existing disclosure requirements. The new disclosures and clarifications of existing disclosures are effective for interim and annual reporting periods beginning after December 15, 2009, except for the disclosures about purchases, sales, issuances, and settlements in the roll forward of activity in Level 3 fair value measurements. Those disclosures are effective for fiscal years beginning after December 15, 2010, and for interim periods within those fiscal years.

ASU 2011-04, *Fair Value Measurement (Topic 820) ± Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and IFRSs*

This ASU supersedes most of the guidance in Topic 820, although many of the changes are clarifications of existing guidance or wording changes to align with IFRS 13. In addition, certain amendments in ASU 2011-04 change a particular principle or requirement for measuring fair value or disclosing information about fair value measurements. The amendments in ASU 2011-04 are effective for public entities for interim and annual periods beginning after December 15, 2011. The Company has an amount due it officers for the balance of loans and accrued compensation. Any advances and accrued salary is without interest.

NOTE 3 - GOING CONCERN

As reflected in the accompanying financial statements, the Company had net income of $58,851 and net cash used in operating activities of $3,931 for the three months ended September 30, 2014.

While the Company is attempting to commence operations and generate revenues, the Company’s cash position may not be significant enough to support the Company’s daily operations. Management intends to raise additional funds by way of a public or private offering. Management believes that the actions presently being taken to further implement its business plan and generate revenues provide the opportunity for the Company to continue as a going concern. While the Company believes in the viability of its strategy to generate revenues and in its ability to raise additional funds, there can be no assurances to that effect. The ability of the Company to continue as a going concern is dependent upon the Company's ability to further implement its business plan. The financial statements do not include any adjustments that might be necessary if the Company is unable to continue as a going concern.

NOTE 4 - ACCOUNTS PAYABLE

The Company had an account payable to an unrelated party in the amount of $45,000 for services provided through December 31, 2013. The accounts payable was settled with cash and the issuance of 45,000,000 common shares, pursuant to Section 3(a)(10) exemption, under a court order from the District Court for the State of Florida. The company's current account payables is $3,991.

NOTE 5 - ACCOUNTS RECEIVABLES AND OTHER ASSETS

The Company had an account receivable due from China Ming Yang in the amount of $1,734,000 and $500,000 in an account receivable due from Solar City. The company transferred the China Ming Yang Receivable as well as its interest in Greener Wind Solutions, Inc. to GCHI Green Company Holdings, Inc a Canadian company effective June 30, 2014. In addition the company has receivables from I-Texts, Inc. for $148,100, Telemedcare, Inc. for $8,500 and American Wellness Center, Inc. for $10,000.

The company has $21,457,324 in Ludvik Holdings, Inc. assets and $8,600,000 in assets that were purchased for the issuance of Series C Preferred Shares and $3,000,000 in GCHI Green Company Holdings, Inc. common and preferred shares.

NOTE 6– COMMITMENTS & CONTIGENCIES

Rent

The Company currently uses a virtual office and offices located at 332 N. Henry Street, Williamsburg, Va 23185.

NOTE 7 – RELATED PARTY TRANSACTIONS

Accrued salaries owing to officers

The Company had one employment agreement renewable each year with its previous principal officer for $72,000 a year. The employment agreement was terminated as of April 9, 2013. The company entered into a Settlement Agreement and issued a Promissory Note in the amount of $345,013 that was subsequently assigned to a third party. The third party has subsequently converted the note into shares of the company and there is no longer any obligation due on the Note. The company has a consulting agreement with a company controlled by its Secretary whereby it pays $5,000 per month.

Ludvik Holdings, Inc. transaction

On March 11, 2013, the Company and Ludvik Holdings, Inc. (“Ludvik”) a privately owned Delaware corporation, entered into a letter of intent for the purchase of the assets of Ludvik.

On April 8, 2013, Ludvik purchased one hundred million shares of the Company’s common stock and twelve million five hundred thousand shares of Series B Preferred Stock with ten votes per share from Kenneth D. Bland, the Company’s sole director. In connection with the transaction, Mr. Bland resigned as the Company’s sole director and president; and, the persons identified below were elected as directors and executive officers of the Company. Mr Bland is no longer a director, officer or shareholder in the company.

Frank Kristan was elected as the sole director of the Company to replace Mr. Bland. Phil Sands was elected as Secretary and Frank Kristan was appointed as President and Treasurer of the Company.

On April 11, 2013, the Company issued 154,125,870 common shares to Ludvik Holdings and 5,000,000 shares of the Company’s Series A Preferred shares, with one hundred votes per share, in partial payment of the purchase of Ludvik Holding’s assets and business, subject to assumption of liabilities and obligations. The total purchase price is $21,062,587, with an unpaid balance of $650,000 to be paid in cash. On July 1, 2013 the company issued a Promissory Note to Ludvik for payment of the $650,000. The Note has been assigned to TCA Global Credit Master Fund LP and has subsequently been purchased by a third party. The third party has subsequently converted the note into shares of the company and there is no longer any obligation due on the Note.

The company received a commitment from a third party for the satisfaction of up to $971,000 in creditor liabilities as of September 30, 2013. The creditor liabilities on September 30, 2013 included $650,000 due to TCA with an additional fee of $50,000, $125,000 due to a third party consultant, $60,000 due to the company corporate advisor and $86,000 due to third party.

On July 9, 2014 the TCA loan was paid in full and TCA released its lien interest on the Ludvik assets.

NOTE 8 – STOCKHOLDERS’ DEFICIT

In 2010 the Company issued 198,085,700 shares of stock. Of this issuance 185,092,166 was issued to its officers as founder shares valued at par. The remaining shares for services of 8,500,000 were valued at the prevailing market rate of the stock which was $0.10. Shares for services expense was recorded as $1,086,662, shown on the statement of operations for 2010. Additionally in 2010 4,493,534 shares were issued for cash of $204,000. As the issuance of shares in 2010 for cash was done at rates lower than the prevailing market rate of the price of the stock the Company recognized a finance cost in 2010 of $309,677. This amount is included in the other expense amount as shown on the statement of operations.

In 2011 the Company issued 11,004,200 shares of stock of which 10,000,000 was issued for services valued at market and shown on the statement of operations as stock for services expense, and 1,004,200 shares for cash of $30,000. The financing charge in 2011 on stock issued for cash below market was $72,920.

In the twelve months of 2012, the Company issued 14,957,834 shares of stock. Of this issuance 14,907,834 were issued to its officers as founder shares valued at par and the amount thereof expensed. The remaining shares were issued for par value.

In the period ending December 31, 2013, the company issued 154,125,870 shares at a value of $0.10c per share as a deposit pursuant to a letter of intent. The company also issued 1,000,000 shares of common stock for legal and advisory services provided to the company. The company also issued 440,000 common shares for cash at $0.05c per share pursuant to the terms of convertible notes. The company subsequently issued 186,500,000 common shares for cash at $0.001.

In the period ending September 30, 2014, the Company also issued 123,346,966 shares and 350,000,000 shares for cash and assignment of debt and 45,000,000 shares for services.

NOTE 9 - INCOME TAX

Deferred taxes are provided on a liability method whereby deferred tax assets are recognized for deductible temporary differences and operating loss and tax credit carry forwards and deferred tax liabilities are recognized for taxable temporary differences. Temporary differences are the differences between the reported amounts of assets and liabilities and their tax bases. Deferred tax assets are reduced by a valuation allowance when, in the opinion of management, it is more likely than not that some portion or all of the deferred tax assets will not be realized Deferred tax assets and liabilities are adjusted for the effects of changes in tax laws and rates on the date of enactment.

At December 31, 2013, the Company had net operating loss carry forwards of approximately $1,618,057 that may be offset against future taxable income from the year 2014 to 2032. No tax benefit has been reported in the September 30, 2014 financial statements since the tax benefit is offset by an allowance of the same amount.

Due to the change in ownership provisions of the Tax Reform Act of 1986, net operating loss carry forwards for Federal Income tax reporting purposes are subject to annual limitations. Should a change in ownership occur, net operating loss carry forwards may be limited as to use in future years.

NOTE 10 – SUBSEQUENT EVENTS

Management has evaluated subsequent events pursuant to the requirements of ASC Topic 855 and has determined that, other than listed below, no material subsequent events exist.

The Company has retained an investment banking firm as its exclusive placement agent and financial advisor in connection with acquisition financing of up to $30,000,000 in debt and a $30,000,000 firm commitment underwritten public offering on a major exchange. The Company must meet various conditions, which it believes are reasonable and attainable in due course of business. The planned public offering is subject to the Company's successful auditing and acquisition of its current target businesses.

Principal products or services, and their markets;

We have designed a proprietary cell broadcast/cell information technology product suite. This technology is commonly known as a short message service via cell broadcast (SMCB) for point to multipoint distribution of emergency and commercial messages simultaneously to multiple network subscribers. This type of communication process is initiated by our proprietary cbp2mp broadcast controller which will be installed in cellular networks of wireless carriers. Our controller transmits data to cell phones on the network which have our proprietary application (App) when within range of the towers. Our proprietary product suite includes the cbp2mp controller, the App for free download by cell phone subscribers and software which enables the network personnel to initiate the point to multipoint broadcast, including linkage to emergency broadcast systems. The controller, App and software comprise our cbp2mp system. We plan to offer our cbp2mp proprietary product suite to wireless carriers, agencies, and municipalities for no upfront charge, and bill the client a monthly service fee with a component based on number of broadcast transmissions. We believe our cbp2mp system and billing structure will be very attractive to rural cellular carriers and other providers of wireless broadband to communities throughout the United States.

Our proprietary technology is a trade secret for which we plan to use commercially reasonable means to protect from infringement. We have a patent application pending for certain features of our technology, subject to our response to questions received from the Patent and Trademark Office.

Commencing on April 9, 2013 the Company focused on additional investment opportunities to diversify its business operation.
