**Holiday Island Holdings, Inc.**  
**Notes to the Financial Statements**  
**March 31, 2015 and 2014**

**Note 1 Organization, Business Operations and Summary of Significant Accounting Policies Organization and Business Operations**

Holiday Island Holdings, Inc. (“HIHI”) is a Delaware corporation formed in 1997, as VillageEDOCS, Inc. (“VEDO”).

**Summary of Significant Accounting Policies**

*Basis of Presentation*

The Company prepares its financial statements in conformity with generally accepted accounting principles in the United States of America. In the opinion of management, all adjustments consisting of normal recurring adjustments necessary for a fair statement of the financial position at March 31, 2015 and 2014, the result of operations and cash flows for the years then ended have been made.

*Use of Estimates*

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that reflect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

*Financial Instruments*

The Company’s balance sheets include the following financial instruments: cash, loans from shareholders, accounts payable, accrued expenses and note payable to stockholder. The carrying amounts of current assets and current liabilities approximate their fair value due to the relatively short period of time between the origination of these instruments and their expected realization. The carrying values of the note payable to stockholder approximates fair value based on borrowing rates currently available to the Company for instruments with similar terms and remaining maturities.

*Fair Value Measurement*

All financial and nonfinancial assets and liabilities were recognized or disclosed at fair value in the financial statements. This value was evaluated on a recurring basis (at least annually). Generally accepted accounting principles in the United States define fair value as the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on a measurement date. The accounting principles also established a fair value hierarchy which required an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. Three levels of inputs were used to measure fair value.

Level 1: Quotes market prices in active markets for identical assets or liabilities.

Level 2: Observable market based inputs or unobservable inputs that were corroborated by market data.

Level 3: Unobservable inputs that were not corroborated by market data.

### ***Cash and Cash Equivalents***

The majority of cash is maintained with a major financial institution in the United States. Deposits with this bank may exceed the amount of insurance provided on such deposits. Generally, these deposits may be redeemed on demand and, therefore, bear minimal risk. The Company considers all highly liquid investments purchased with an original maturity of six months or less to be cash equivalents.

### ***Property and equipment***

Property and Equipment is stated at cost. Depreciation is computed by the straight-line method over estimated useful lives. The carrying amount of all long-lived assets is evaluated periodically to determine if adjustment to the depreciation and amortization period or the unamortized balance is warranted. Based upon its most recent analysis, the Company believes that no impairment of property and equipment exists at March 31, 2015 and 2014.

### ***Investment in Property and Other Long-Lived Assets***

Long-lived assets such as property, equipment and identifiable intangibles are reviewed for impairment whenever facts and circumstances indicate that the carrying value may not be recoverable. When required impairment losses on assets to be held and used are recognized based on the fair value of the asset. The fair value is determined based on estimates of future cash flows, market value of similar assets, if available, or independent appraisals, if required. If the carrying amount of the long-lived asset is not recoverable from its undiscounted cash flows, an impairment loss is recognized for the difference between the carrying amount and fair value of the asset. When fair values are not available, the Company estimates fair value using the expected future cash flows discounted at a rate commensurate with the risk associated with the recovery of the assets. The Company did not recognize any impairment losses for any periods presented.

### ***Advertising***

The costs of advertising are expensed as incurred. Advertising expenses were \$0 and \$0 for the periods ended March 31, 2015 and 2014, respectively. Advertising expenses are included in the Company's selling operating expenses.

### ***Recently Issued Accounting Pronouncements***

We have reviewed the FASB issued Accounting Standards Update ("ASU") accounting pronouncements and interpretations thereof that have effectiveness dates during the periods reported and in future periods. The Company has carefully considered the new pronouncements that alter previous generally accepted accounting principles and does not believe that any new or modified principles will have a material impact on the corporation's reported financial position or operations in the near term. The applicability of any standard is subject to the formal review of our financial management and certain standards are under consideration.

### **Note 2                      Going Concern**

The accompanying unaudited financial statements have been prepared in conformity with accounting principles generally accepted in the United States of America, which assumes the realization of assets and satisfaction of liabilities in the normal course of business, for the Company to continue as a going concern.

The financial statements do not include any adjustments to reflect the possible future effects on the recoverability and classification of assets or the amounts and classification of liabilities that may result from the possible inability of the Company to continue as a going concern.

**Note 3 Property and Equipment**

Property and equipment, as of March 31, consist of:

	<b>2015</b>	<b>2014</b>
Property & Equipment	\$ 0	\$ 0
Less accumulated depreciation	0	0
	<u>\$ -</u>	<u>\$ -</u>

Depreciation of property and equipment was \$0 and \$0 the periods ended March 31, 2015 and 2014, respectively.

**Note 4 Real Estate Owned**

The company owns no real estate.

**Note 5 Options**

The Company recognizes all share-based payments to employees, including grants of employee stock options to be recognized as compensation expense in the financial statements based on their fair values. That expense is recognized over the period during which an employee is required to provide services in exchange for the award, known as the requisite service period (usually the vesting period).

**Note 6 Income Taxes**

The Company accounts for income taxes using the liability method. As such, deferred tax assets and liabilities are recorded based on the differences between the tax bases of assets and liabilities and their carrying amounts for financial reporting purpose, referred to as temporary differences. Deferred tax assets and liabilities at the end of each period are determined using the currently enacted tax rates applied to taxable income in the periods in which the deferred tax assets and liabilities are expected to be settled or realized.

The income tax benefits and deferred tax assets as of March 31, 2015 and 2014 are as follows:

	<b>2015</b>	<b>2014</b>
Income tax provision (benefit) at statutory rate	\$ (0)	\$ (0)
State income tax expense (benefit), net of federal benefit	0	(0)
Subtotal	(0)	(00)
Change in allowance	0	0

Less reserve for allowance	9,800,000	9,791,000
Deferred Tax Asset	<u>\$ —</u>	<u>\$ —</u>

## **6) Describe the Issuer's Business, Products and Services General**

A) A description of the issuer's business operations;

As announced in the November 11, 2013 Shareholder Letter, VillageEDOCS, Inc. ("VEDO") Holiday Island Holdings, Inc. predecessor, entered into a Real Estate Purchase Option Agreement with Holiday Island Development Corporation (HIDC), giving the Company the option to acquire all or parts of HIDC's real estate holdings located at Holiday Island, Arkansas in a planned multi-transaction process, funded by conventional financing and the issuance of securities.

Holiday Island is a 4,000 acre resort / planned community with approximately 3,000 residents, a full complement of natural and developed recreational facilities, located on 53,000 acre Table Rock Lake between two national forests in the Ozark Mountains of Northwest Arkansas.

The real estate to be acquired includes the newest and largest shopping center in the area, multi-acre parcels strategically located for a variety of residential and commercial uses, and the single largest selection of building sites in the area, all complete with full infrastructure.

Post acquisition, our strategic plan is to take the existing (Exclusive – with Developer rights) Developer's place, and control the community's further development, planning and zoning. Acquired as a whole, this is a rare opportunity to control the development of the fastest growing town in this part of Northwest Arkansas, and dominate the local retail, commercial, and residential markets.

Growth and product demand is planned to be facilitated at an accelerated rate by Holiday Island's proximity to booming Northwest Arkansas Metropolis, headquarters for industry leaders Wal-Mart, Tyson's Food, J.B. Hunt Transportation, and the cultural/entertainment venues of nearby Crystal Bridges Art Museum, Eureka Springs, Branson, MO., and the University of Arkansas.

The existing Developer and the recently elected new board of directors of Holiday Island Holdings, who have extensive developing, marketing and selling experience with planned communities, specifically including Holiday Island, are on board to develop and implement a comprehensive real estate-based strategic plan.

In connection with the Company's repurpose and specifically its agreement with HIDC, we pursued our near-term goals during the 1<sup>st</sup> Quarter of 2014 to: 1) upgrade from OTC Financial Reporting "Limited" to "Current", 2) change our name and symbol to reflect our current pursuits in the real estate industry, and to ultimately 3) upgrade our trading position from the "OTC PINKS" to "OTC BB" as an SEC fully reporting company, and 4) raise capital through conventional financing and the future issuance of Company securities.

Pursuant to our near and long-term plans, we accomplished the following during 2014: 1) upgraded our financial reporting status from Limited to Current on January 6, 2014, 2) changed the company name from VillageEDOCS, Inc. to Holiday Island Holdings, Inc. and symbol from VEDO to HIHI effective February 17, 2014, 3) reached a verbal agreement with the audit firm DKM – Certified Public Accountants, Clearwater, Florida in February of 2014 to audit the Company's Financial Statements as a step toward upgrading to SEC fully reporting, 4) took many steps to position the Company to raise the near-term and long-term capital needed to accomplish our goals, including establishing a mutual interest with a top boutique Investment Relations firm, Carmel Advisors, San Diego, California, to create market awareness of our company, stock, and plans, resulting in a signed agreement on May 2, 2014, 5) a second agreement with Carmel was executed on September 20, 2014 increasing the compensatory common stock for their investor relations services, 6) started market awareness activities in August, 2014, 7) started a search for an Investment Banking firm to develop and execute its near and long term funding goals, 8) in the 2<sup>nd</sup> quarter started planning a debt to equity conversion, 9) changed stock transfer agents from Computershare to Pacific Stock Transfer Company. expecting to benefit from more and

faster attention to stock transfer-related activities, significantly reduced fees, better exposure in investment circles, and providing strategic advice 10) in November 2014, changed IR firms from Carmel to Innovative Business Alliance, LLC, San Diego, 11) started a new development and implementation of an investor awareness program to create shareholder value and stock liquidity, 12) started a restructure of the Company's capitalization to significantly reduce its outstanding shares and share concentration in negotiations with the Company's Affiliates (2) and majority shareholders to return a large block of their shares to the Treasury.

At this filing, the Company and the Affiliates have executed an agreement to purchase 280,000,000 shares and return them to the Treasury, scheduled for May, 2015 under certain conditions to result in reducing the total outstanding shares from approximately 999,000,000 to 719,000,000. The Recap Agreement contains an Affiliate Lock Up and Leak Out clause restricting sales of their stock to 5 % of the prior quarter total shares traded.

Management and outside advisors expect the recapitalization to have an immediate favorable effect on shareholder value and stock liquidity.

In the meantime, the Company and IBA continues to step up its investor awareness program.

During the first quarter of 2015, the Company hired a financial advisory group, and initiated its efforts to develop and implement capital raises in the form of, but not limited to private placement, convertible debentures, aged convertible notes, and conventional financing.

The advisory group has assisted in the completion of the Company's first aged note conversion in April, 2015. The purchaser has verbally committed to buy all of the Company's aged debt totaling approximately \$ 1.1 million.

As the funding occurs, the Company will move on with its plans to upgrade to SEC fully reporting company, and start real estate acquisition, development, marketing, and resell, all located at Holiday Island, Arkansas.

As of this filing, the Company has become allowed to acquire its shopping center target located at Holiday Island, Arkansas in pieces, rather than in the whole. This is advantageous as the best financially performing shopping center properties can be picked off first for the highest return to the Company.

Currently, the Company, with the assistance of its financial advisors, have a financing offer circulating in the financial community to fund the purchase of the shopping center's super market, Sunfest Market. Sunfest carries a triple net lease with a net income of \$100,000 per year. At an 8 % capitalization rate, the value of Sunfest is \$ 1, 200,000. We are hopeful to secure an approval and funding in the early 2<sup>nd</sup> quarter of this year.

When this transaction is complete, the Company will continue its efforts to secure funding and purchase the entire shopping center, valued at \$ 10,000,000. A full, or significant portion, acquisition of the shopping center would give the Company the ability to dominate the local retail and commercial business. The Holiday Island shopping center is the newest and largest in the area with a consumer base over over 35,000.

B) Date and State (or Jurisdiction) of Incorporation: VillageEDOCS was incorporated in the State of Delaware in 1997 and has been in business since 1994. The Company's name was changed to Holiday Island Holdings, Inc. as of February 17, 2014.
