ITEM 6. DESCRIBE THE ISSUER'S BUSINESS, PRODUCTS AND SERVICES.

A. DESCRIPTION OF ISSUER'S BUSINESS OPERATIONS.

The Company is a holding company with a current focus on three market segments in the energy industry, the telecom industry and information/computer technology industry. The Company concentrates its energy-related efforts in acquisition and development of resource assets within that industry that are either profitable or can be made profitable by application of the Company's management and/or resource expertise. In the telecom industry the Company concentrates its efforts on identifying sites around the world at which to install its high-speed wireless networks at lowest cost but with highest net revenue return. In the Information and Computer Technologies industry, the Company strives to meet needs for home, business, communication, and entertainment needs. It is uniquely positioned by having flexible tools in various environments, with adaptive resources, which allows Pure Digital Technology to be widely adopted

The Company had a Value Added Distributor agreement with Sweratel AB, a Swedish company and primary component provider, including a provision granting exclusivity in North America, the Caribbean and anywhere else in the world where Sweratel sees a business value. On August 11, 2015, Sweratel announced the cancellation of the agreement due to our inability to deliver on its terms. On August 20, 2015, Sweratel issued a Statement Letter essentially supporting our ability to utilize Sweratel equipment, software and services essentially under the same terms as in the VAD except without exclusivity in any territory and requiring Sweratel prior approval. We are working to continue developing this business under these terms and ultimately qualify for a new VAD agreement with Sweratel.

B. DATE AND STATE OF INCORPORATION

The Company was incorporated in the State of Nevada in 2004.

C. PRIMARY AND SECONDARY SIC CODES

The Company's primary SIC code is 1311 (oil and gas).
The SIC code for its Pure Mobility International Inc. subsidiary is 481302 (online service providers)

D. THE COMPANY'S FISCAL YEAR END DATE

The Company's fiscal year ends on April 30.

E. PRINCIPAL PRODUCTS OR SERVICES AND THEIR MARKETS

In the energy industry, the Company focuses on exploration and development of natural resources, primarily oil, the markets for which are worldwide dealers and wholesale buyers. Oil is widely used throughout the United States. Recent, dramatic commodity price decreases and sluggish global demand means the outlook for such resources is weak. Extraction has increased in areas where production costs were formerly prohibitive. Previously, this created some favorable opportunities for the company in both development and redevelopment of its lease and any future leases that it might acquire.

In the telecom industry, the Company focuses on identifying locations around the world either underserved or not served with IP-based access to the World Wide Web. In a

recently published white paper, Technology Business Research, Inc. (TBR) states that, TBR believes Pure Mobility's business model exemplifies a business case with a high likelihood of success for a fast ROI. TBR believes the Wi-Fi First market is in a nascent stage with a number of players but no dominant model. Most of the activity is focused on direct acquisition or deployment of the technology by service providers themselves, with few players focusing on local service providers. And that, in addition to the unique focus, Pure Mobility can enable local providers to be competitive with mobile data services in a very short time (i.e., weeks versus the usual months of radio-access network deployment and testing). TBR also states that, "most incumbents are waiting until 2020 to deploy services that offer speeds of 500Mbps to 1Gbps."

In the Information and Computer Technologies industry, the Company strives to meet needs for home, business, communication, and entertainment needs. It is uniquely positioned by having flexible tools in various environments, with adaptive resources, which allows Pure Digital Technology to be widely adopted.

F. RESULTS OF OPERATIONS FOR THE PERIOD ENDED JANUARY 31, 2017 COMPARED TO THE PERIOD ENDED JANUARY 31, 2016:

Revenues: The Company had no revenue from operations for the period ended January 31, 2017 or for the period ended January 31, 2016. However, the company is owed the proceeds from the sale of oil from its net revenue interest in a previously producing oil lease. A dispute has occurred with the owner of the lease with respect to the attribution of costs and payment source. We are still pursuing money definitively owed to us by Hyams Family Trust.

Cost of Revenues: The Company incurred no costs of sales for the period ended January 31, 2017 or for the period ended January 31, 2016.

Gross Profit: The Company did not have any gross profit for the period ended January 31, 2017 or for the period ended January 31, 2016.

Operating Gain (Loss): The Company produced an operating loss for the period ended January 31, 2017 of \$398,490, compared to a loss of \$35,105 for the period ended January 31, 2016.

Net Gain (Loss) Before Income Taxes: Net gain or loss before income taxes represents operating gain or loss plus other (non-operating) gain or loss. For the period ended January 31, 2017, the company had a net loss of \$37,490, compared to a net loss of \$35,105 for the period ended January 31, 2016.

Liquidity and Capital Resources: During the period ended January 31, 2017, the Company did not produce cash or cash equivalents from operations.

G. OFF-BALANCE SHEET ARRANGEMENTS

Kr

Prior to January 31, 2015, the Company, as per a Director's Agreement entered into with Connie Helwig, agreed to issue Convertible Series C Preferred shares. These shares act as a "poison pill" to protect the company against the attempt of former directors to regain control of the company as well as creditors attempting to liquidate assets based on their votes in the event that their debt is converted into shares.

The shares can vote on an as-converted basis; can convert into common shares based on a 1000:1 ratio; are limited to 52% of the voting power of all share capital issued and outstanding. There are 10 million preferred shares authorized. At that time, none had been issued but they were owed to Ms. Helwig.

On September 30, 2014, Ms. Helwig sold 999,999 of her Convertible Series C Preferred Shares to an investor in order to raise funds to fight the lawsuit initiated by Brian Wilmot, a former officer and director of the Company. The investor demanded that the shares have the following amended rights to be filed with the State of Nevada:

- 1) Can vote on an as-converted basis,
- 2) Can convert into common shares based on a 1000:1 ratio that can never be adjusted.
- 3) Are not subject to dilution.
- 4) Not subject to any adverse effects as a result of any reverse splits.
- 5) In no event will the shares be used to out-vote Connie Helwig at any time that she serves as a director of the corporation.

These shares were issued in the second quarter of 2015 and the amended rights filed with the State of Nevada.

On March 15, 2015, as a condition of the Company's acquisition of Pure Mobility International Inc., the beneficial ownership of the Convertible Series C Preferred shares were redistributed as follows: 7,225,000 shares to Pablo L. Nieto, Jr., 1,275,000 shares to Marc Desparois, 750,000 shares to Connie Helwig, 375,000 shares to Paul Khan, 375,000 shares to Genuine Publishing Ltd.

The company entered into employment agreements with Connie Helwig and two consultants for a two year term and one year term respectively in July of 2013. Unpaid balances require the company to issue a convertible note for the balance.

Effective July 1, 2015, the Company extended the employment agreements with Connie Helwig and one consultant for an additional 3 month period under the same terms and conditions as the original agreements. These employment agreements have not been further extended.

Effective March 15, 2015 and continuously until terminated, the company entered into a consulting agreement with Nieto and Company to provide the services of Pablo L. Nieto, Jr. Unpaid balances require the company to issue a convertible note for the balance.

Effective April 1, 2015 and continuously until terminated, the company entered into an employment agreement with Marc Desparois. Unpaid balances require the company to issue a convertible note for the balance.

Effective October 4ⁿ, 2016, 1,000,000 Convertible Series A Preferred shares were authorized with the following designation:

- 1) Can vote on an as-converted basis,
- 2) Can convert into common shares based on a 10000:1 ratio that can

- never be adjusted.
- 3) Are not subject to dilution.
 - 4) Not subject to any adverse effects as a result of any reverse splits.
 - 5) Holders that are non-directors can only convert their preferred shares into common so that their beneficial ownership never exceeds 9.9% of the current issued and outstanding common share count
