LUCRATIVE GROWTH ENVIRONMENT PREDICTED FOR EFLN

Stock prices for eFUEL have been valued between \$0.20 and \$0.30 per share. This conservative valuation does not reflect considerations for any multiples. Furthermore, management deems that present assets value at \$520,000.000 is quite conservative given the unmined minerals still to be unearthed and today's gold, mineral and land values. eFUEL's new assets bolster all divisions in achieving their previously stated goals.

eFUEL is presently partnering with Euro-American Finance Network Inc. (a private company held by the Stefanovic family). Together they are negotiating the purchase of additional assets which presently generate annual revenues of \$22,000,000.00.

eFUEL EFN CORPORATION has filed annual financial and business activity records with the State of Florida. Our financial and business activities over the last 5 years have been audited by the State of Florida. The result of the vigorous audit elicited the approval of all records by the State of Florida. This is great news for all stock holders.

This press release has information that contain forward- looking statement with meaning of Section 27A of Securities Act 1933 as amend and Section 21E of the Securities Exchange Act 1933 as amended and have in Section 21E of the Securities Exchange Act 1954, both which are intended to be covered by the safe harbors created in connection, with that investor are cautioned that all forwarding statements involve risks uncertainties including eFUEL EFN CORPORATION.
