

LUCRATIVE GROWTH ENVIRONMENT PREDICTED FOR EFLN

Wildwood April 17, 2017 press release

Stock prices for eFUEL have been valued between \$0.20 and \$0.30 per share. This conservative valuation is done according to the company appraisal, it does not reflect considerations for any multiples. Furthermore, management deems that present assets value at \$520,000,000.00 is quite conservative, given the unmined minerals still to be unearthed and today's gold, mineral and land values. EFUEL's new assets bolster all company divisions in achieving their previously stated goals.

EFUEL is presently partnering with Euro-American Finance Network, Inc. (a private company held by the Stefanovic family). Together they are negotiating the purchase of additional assets which presently generate annual revenues of \$22,000,000.00. The value of company and net income to the shareholders will increase in the future.

The company has received approval for a \$35,000,000.00 loan. The actual funds are not received yet. However, upon receipt and final execution, the loan will be used primarily to develop construction projects (CHEROKEE TRADING MALL) including residential and mall properties. In addition, \$1,250,000.00 of the loan is earmarked to acquire (establish) a gold mining company.

EFUEL EFN CORPORATION has filed annual financial report and business activity records with the State of Florida. Our financial and business activities over the five years have been audited by the State of Florida. The result of the vigorous audit elicited the approval of all records by the State of Florida.

This is great news for all stock holders.

The eFUEL EFN CORPORATION stocks are for long-term investors or institutions who would like to build investment fund. The Euro-American Finance Network, Inc. has undertaken interest to buy 50,000,000 shares from the market. The investors who like to play as casino should not buy this stock.
