

CGROWTH CAPITAL
AN ALTERNATIVE ASSET MANAGEMENT COMPANY

**FINANCIAL INFORMATION
QUARTERLY REPORT
MARCH 31, 2017
(amended)**

Notes to amendment:

These financial statements and disclosures have been amended to correct an error in the Loans payable, current portion and sub-total of the Total Current Liabilities. Loans payable, current portion should have been \$4,071, rather than the stated \$4,070. All Total Current Liabilities were included in the Balance Sheet, however, the sub-total did not include the Accounts Payable figure. The correct sub-total is \$2,230,085, rather than the stated \$1,539,668.

Notes to Financial Statements

CGROWTH CAPTIAL, INC. AND ITS SUBSIDIARIES NOTES TO FINANCIAL STATEMENTS (unaudited)

NOTE 1 – Summary of Significant Accounting Policies

Basis of Presentation

The accompanying un-audited interim financial statements include all information and footnotes required by accounting principles generally accepted in the United States of America ("GAAP") for complete financial statements. In the opinion of management, all adjustments (consisting of normal recurring accruals) considered necessary for a fair presentation of financial position and the results of operations for the periods presented have been included. Operating results for the periods are not necessarily indicative of the results that may be expected for future years. All transactions are denominated in US dollars.

Management's Estimates and Assumptions

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities as of the date of the financial statements. Management considers CGrowth Capital's most significant accounting estimates to include valuation assumptions for share-based payments, allowance for doubtful accounts receivable, inventory reserves, accrual for reserves, the carrying value of long-lived assets, income tax valuation allowances and capitalization of labor and overhead to inventory for work in progress. Actual results could differ significantly from those estimates.

Fair Value of Financial Instruments

The fair value of financial instruments approximates their carrying values at period end dates due to their short maturities. These financial instruments consist of cash and cash equivalents, accounts receivable and accounts payable.

Cash and Cash Equivalents

The Company considers all highly liquid investments purchased with an initial maturity of 90 days or less to be cash equivalents.

Accounts Receivable and Allowance for Doubtful Accounts

The Company recognizes an allowance for losses on accounts receivable based on an analysis of historical bad debt experience, current receivables aging, and expected future write-offs, as well as an assessment of specific identifiable customer accounts considered at risk or uncollectible. As of March 31, 2017, management has determined all receivable balances to be fully collectible and accordingly, no allowance was recognized at such time. Accounts receivable are non-interest bearing and are generally unsecured.

Inventories

Inventories are stated at the lower of cost or market with cost being determined on the first-in, first-out method. Work in progress and finished goods inventory includes an allocation for capitalized labor and overhead. The Company routinely evaluates the carrying value of inventories and provides reserves when appropriate to reduce inventories to the lower of cost or market to reflect estimated net realizable value. As of March 31, 2017, no inventory existed for the Company and, accordingly, no reserve has been recognized at March 31, 2017.

Fair Value Measurement (Topic ASC 820)

The Topic defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

A reporting entity shall measure the fair value of an asset or a liability using the assumptions that market participants would use in pricing the asset or liability, assuming that market participants act in their economic best interest. In developing those assumptions, the reporting entity need not identify specific market participants. Rather, the reporting entity shall identify characteristics that distinguish market participants generally, considering factors specific to all of the following:

- a. The asset or liability
- b. The principal (or most advantageous) market for the asset or liability
- c. Market participants with whom the reporting entity would enter into a transaction in that market.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction in the principal (or most advantageous) market at the measurement date under current market conditions (that is, an exit price) regardless of whether that price is directly observable or estimated using another valuation technique.

Highest and best use is determined from the perspective of market participants, even if the reporting entity intends a different use. However, a reporting entity's current use of a nonfinancial asset is presumed to be its highest and best use unless market or other factors suggest that a different use by market participants would maximize the value of the asset.

The Company has acquired assets (minerals, gravel, and decorative rock) through the acquisition of leases and property purchases over the course of the twenty-four months ended March 31, 2017. As the Company is able to properly identify and quantify the material acquired, adjustments are made to the Other Assets category of the balance sheet to reflect the change in previously unrealized assets. Specific categories include Non-Depreciable Current Assets (for items to be disposed of within 12 months) and Non-Depreciable Non-Current Assets (for items identified to be held for more than 12 months). In determining the fair value of the assets, the Company has applied Topic ASC 820 to those assets previously excavated and/or bagged for resale, but does not include any in ground reserves. Total Non-Depreciable Current Assets and Non-Depreciable Non-Current Assets for the twelve month period ended March 31, 2017 and 2016, is \$80,025 and \$0, and \$160,050 and \$0, respectively.

Property and Equipment

Property and equipment are carried at depreciated cost. Gains or losses related to retirements or disposition of fixed assets are recognized in operations in the period incurred. Costs of normal repairs and maintenance are charged to expense as incurred, while betterments or renewals are capitalized. Depreciation commences at the time the assets are placed in service. Depreciation is provided using the straight-line method over the estimated economic lives of the assets or for leasehold improvements, over the shorter of the estimated useful life or the lease term, which are summarized as follows:

Computer equipment.....	3 – 5 years
Furniture and equipment.....	5 – 7 years
Leasehold improvements.....	7 years

As of March 31, 2017 the Company had accounted for depreciation on all of its current property and equipment. Net depreciation for the three months ended March 31, 2017 was \$63,663.

Revenue Recognition, Deferred Revenue and Change in Accounting Principle

Net revenues include sales services. Services include consulting work performed by the Company. The Company recognizes revenue for these services when it is realized or realizable and earned. Revenue is considered realized and earned when: (i) persuasive evidence of an arrangement exists; (ii) delivery has occurred and/or services have been rendered; (iii) the price is fixed and determinable; and (iv) collection of the resulting receivable is reasonably assured.

Financial Instruments and Concentrations of Credit Risk

We believe the book value of our current assets and liabilities approximate their fair values due to their short term nature.

Financial instruments that potentially subject us to significant concentrations of credit risk consist principally of cash. With respect to cash, during the three-month period ended March 31, 2017, we maintained all of our cash in a deposit account with three financial institutions, which deposit account at times may exceed federally insured limits. We have not experienced any losses in such account.

Income Taxes

We compute income taxes in accordance with Financial Accounting Standards Statement No. 109 "Accounting for Income Taxes" ("SFAS 109"). Under SFAS 109, deferred taxes are recognized for the tax consequences of temporary differences by applying enacted statutory rates applicable to future years to differences between the tax bases of assets and liabilities and their financial statement carrying amounts. Also, the effect on deferred taxes of a change in tax rates is recognized in income in the period that included the enactment date.

Net Income (Loss) per Common Share

The net income per common share is computed by dividing net income by the weighted average of common shares outstanding.

Accounting Pronouncements

We do not expect that the adoption of any recent accounting pronouncements will have a material impact on our financial statements.

NOTE 2 – Going Concern

The accompanying financial statements have been prepared on a going concern basis, which assumes the Company will be able to meet its obligations and continue its operations for at least the next twelve months. Such assumption contemplates the realization of assets and the satisfaction of liabilities in the normal course of business. The Company incurred a net loss of \$738,823 for the fiscal quarter ended March 31, 2017 and had an accumulated deficit of \$2,726,252 as of March 31, 2017. The Company anticipates a current annual working capital deficit of approximately \$500,000.

As of the fiscal quarter ended March 31, 2017, the Company, through its wholly owned subsidiary CGrowth Capital Bond, Ltd., received subscriptions of its £30,000,000.00 British Pounds Sterling (“GBP”) bond offering in excess of £15,000,000.00 GBP. The Company’s subsidiary has successfully completed and received the subscriptions and is working towards fulfillment of the remainder of the bond offering. Funding from the bond subscriptions are being used to finance the three (3) bond projects, including the Company’s Powder River basin oil and gas project in Wyoming. An audit of CGrowth Capital Bond, Ltd. by Chartered Accountants located in the United Kingdom for the fiscal year ended December 31, 2016 has been filed as a supplement to the Company’s annual filing.

Based on the Company’s current cash position versus its historical working capital deficit, the Company, for the fiscal quarter ended March 31, 2017, has the ability to continue as a going concern and is not dependent upon its ability to generate sufficient cash flow from sales to meet its obligations on a timely basis, nor is it necessary to obtain additional financing, on its way to ultimately attaining profitability. Furthermore, the Company does not require nor intend to raise additional capital through equity financings, which could result in existing shareholders having their ownership interests diluted.

NOTE 3 – Related Party Transactions

Administrative fees – During the three months ended March 31, 2017, the Company accrued or paid administrative fees to a majority shareholder company closely held by our current CEO in the amount of \$30,000.

Management fees – During the three months ended March 31, 2017, the Company accrued or paid management fees to a company closely held by our current CEO in the amount of \$45,000.

Rent expense – During the three months ended March 31, 2017, the Company accrued or paid office rent and expenses to a majority shareholder company closely held by our current CEO in the amount of \$3,000.

Notes payable – During the three months ended March 31, 2017, a majority shareholder company closely held by the current CEO of the Company, loaned the Company an

additional \$0 in principle and \$2,758 accrued interest. The balance of the loan, which is due on demand and carries an interest rate of 6%, is \$222,304.

NOTE 4 – Notes and Loans Payable

At fiscal quarter ended March 31, 2017, the Company had notes payable, loans payable, assumed debts, and accrued interest in the amount of \$1,535,598. The notes included notes payable to four unaffiliated parties in the amount of \$190,850, which are not secured by collateral of the Company, carries accrued interest between 6% and 8% and is due on demand by the holders. Another note payable is to an affiliated company of our Chief Executive Officer in the amount of \$222,304, is not secured by collateral of the company, carries accrued interest of 6%, and is due on demand by the holder. Loans payable included loans to a third party totaling \$16,446, which are secured by equipment purchased for the Company, carry interest rates of 6.3%, and are due within the following fiscal year. Assumed debts are associated with our West Salt Creek purchase totaling \$503,685 and are not secured by collateral of the company. A final note, in the amount of \$227,718, is related to the purchase of our Chewelah, Washington facility and is 5% interest loan secured by our 47-acre industrial site. The Chewelah facility is current in its payments and is in the process of renovation and upgrades. The Company is in the process of restructuring and/or paying off all other notes while avoiding the further use of equity.

NOTE 5 – Property and Equipment

During the three months ended March 31, 2017, the Company invested \$246,679 in new oil well drilling, and invested \$29,493 to set up an affiliated office in Malaysia. The Company will continue to increase its purchasing of property, plant, and equipment during the fiscal year in support of its operations.

NOTE 6 – Non-Depreciable Current Assets and Non-Depreciable Non-Current Assets

Total Non-Depreciable Current Assets and Non-Depreciable Non-Current Assets for the fiscal quarter ended March 31, 2017 is \$80,025 and \$0, respectively. The Fair Value Measurements are calculated as follows:

NOTE 7 – Stockholders' Equity

During the fiscal quarter ended March 31, 2017, the Company did not issue any common or preferred shares of the Company:

NOTE 8 – Contingencies

During the third quarter ended September 30, 2015, the Company received a default notice regarding the lease payment structure on leased rock quarries. The Company has challenged the default notice and is defending itself against the default. The Company has chosen to be conservative and assume a worst case outcome, with the results being a write-down of the non-depreciable non-current assets in the amount of \$1,841,800 until the matter is resolved. The default does not affect the Company's 47-acre industrial site.

6) Describe the Issuer's Business, Products and Services

Describe the issuer's business so a potential investor can clearly understand the company. In answering this item, please include the following:

A. a description of the issuer's business operations;

Following the change of control in July 2012, the Company began to diversify itself and position the Company to be an alternative asset holding and management company servicing assets and companies in the mining, exploration, real estate and emerging technology sectors with solutions designed to help companies monetize their undervalued or unused assets and bring products and services to market.

Prior to the change of control, the Company had provided telephonic inpatient nursing and rehabilitative services to patients who require continuous healthcare but not hospital services through its subsidiary, Spectrum Managed Care of California, Inc. ("Spectrum"). The Company also provided proprietary software for nurse case management services through this same subsidiary. The Company fully impaired the value of Spectrum and its software on its balance sheet. At the end of FY2013, the Company made the decision to divest itself of the market sector since the telephonic services has since ceased.

In July 2012, the Company entered into an Assignment of Contract with Keystone Financial Management, Inc. ("KFM"), its majority shareholder, whereby KFM assigned to the Company, and the Company assumed from KFM, all of KFM's rights, title and interest in and to that certain Joint Venture Agreement pursuant to which the Company acquired the rights to an ore processing agreement enabling conversion of raw ore materials into marketable commodities, such as gold and silver. This acquisition demonstrates the Company's strategy of purchasing or executing joint ventures on valuable assets and to monetize the assets to bring shareholder value.

During the latter part of 2012, the Company has worked to line up additional contracts in the metal mining field, worked on agreements with strategic partners and consultants, and established targeted equipment purchases to carry out operations in 2013. During the first quarter of 2013, the Company was able to initiate its first series of equipment purchases for the processing of raw ore materials into marketable commodities.

On March 13, 2013, the Company announced that it had executed a Purchase and Sale Agreement for the purchase of the Deer Trail Mine in Eastern Washington. The 40 acre fee simple parcel contains three (3) historically active mines and is grandfathered as an active mining site. Terms of the purchase are to be disclosed upon closing of the transaction. The transaction has yet to close, however, the parties continue to work together as joint partners.

During the second quarter of 2013, the Company engaged the Bureau of Land Management to secure a rock quarry near Colville, Washington, known as the Chewelah Community Pit. On June 17, 2013, the Company entered into an agreement with JPX Global, Inc. for the lease and purchase of the representative material at the quarry along with a joint venture agreement for the Company to oversee the extraction and sale of the material. The Company has recognized a gain on the sale of assets related to the net cash received in the transaction. Effective the end of FY2013, the Company severed the relationship with JPX Global and has subsequently terminated its rights to the quarry.

Effective September 30, 2013, the Company closed on a Purchase and Sale Agreement with West Salt Creek, Inc. for the purchase of 2,064 acres of Wyoming oil leases. Located in the Powder River Basin, the leases include active wells with current production along with the associated fixtures, pumps, vehicles, and tanks for the current field operation. The purchase price for the property leases, well interest, and equipment is \$3,900,000. The Company paid for the acquisition through the issuance of a) \$3,000,000 in Preferred A stock (which amounted to 300,000 shares of Preferred A stock valued at \$10.00 per shares). The shares have a two year lock up, may be called by the Company during that time period at the stated price plus a 6% cumulative annual premium, and may be converted to common shares after the hold period at a 20% discount to market; and b) \$900,000 in Common stock (which amounted to 9,000,000 shares of Common stock valued at \$0.10 per share). The common stock is subject to a 1 year lock up, a metering and block trade restriction, and Rule 144. At no time may the seller own more than 4.9% of the Commons shares of the Company. Additionally, the Company issued Warrants to the seller for the purchase of 4,500,000 shares of Common stock. The Warrants have a strike price of \$0.50 per share, expire on the fifth anniversary of the closing, and are to be paid for in cash.

On November 5, 2013, the Company announced that it had entered into a comprehensive Memorandum of Understanding for ("Agreement") with asset holders in Stevens County, Washington. The Agreement incorporates the purchase of an existing 47 acre industrial site located just 38 miles from the Company's mining operations; extensive mineral rights to terrazzo, dolomite, silica, and gravel, which incorporates over 10 physical quarry locations; and the purchase of controlling interest in a company with current assets, inventories, and sales channels for the minerals. In conjunction with the Agreement, the Company also executed a Contract for Hire Agreement ("Contract") with the same asset holders to provide for site cleanup, inventory cataloging, and asset liquidation of specified tools, equipment, and buildings on the 47 acre site as well as another industrial site not included in the Agreement. Under the Contract, the Company oversaw the liquidation and site cleanups through its partner, Cedar Canyon Mining Corp. and a representative of the asset holders. As compensation, the Company received 60% of the liquidated assets during the term of the Contract, 20% paid weekly and 40% to be applied to the purchase of the industrial site detailed in the Agreement. On April 2, 2014, the Company closed on the industrial site and associated quarries. The mineral rights are currently in dispute between the Company and the original lease holder, however, the industrial site, held under the wholly owned subsidiary Chewelah Properties, LLC, is current in its obligations and currently undergoing renovations and upgrades to the facility.

Effective November 15, 2013, the Company closed on a Purchase and Sale Agreement with Max Oil Exploration and Extraction, LLC for the purchase of a 49% Working Interest in a well located within the Company's existing Wyoming oil leases. The purchase price for the well interest and equipment is \$752,000. The Company paid for the acquisition through the issuance of a) \$705,000 in Preferred A stock (which amounted to 70,500 shares of Preferred A stock valued at \$10.00 per shares). The shares have a two year lock up, may be called by the Company during that time period at the stated price plus a 6% cumulative annual premium, and may be converted to common shares after the hold period at a 20% discount to market; and b) \$47,000 in Common stock (which amounted to 470,000 shares of Common stock valued at \$0.10 per share). The common stock is subject to a 1 year lock up, a metering and block trade restriction, and Rule 144. At no time may the seller own more than 4.9% of the Commons shares of the Company. Additionally, the Company issued Warrants to the seller for the purchase of 235,000 shares of Common stock. The Warrants have a strike price of \$0.50 per share, expire on the fifth anniversary of the closing, and are to be paid for in cash.

Effective December 31, 2013, the Company closed on a Purchase and Sale Agreement with Ventrum Energy Corp. for the purchase of 975 acres of Wyoming oil leases. Located in the Powder River Basin, the leases include active wells with current production along with the associated fixtures, pumps, vehicles, and tanks for the current field operation. The purchase price for the property leases, well interest, and equipment is \$1,105,720. The Company paid for the acquisition through the issuance of a) \$1,055,720 in Preferred A stock (which amounted to 105,572 shares of Preferred A stock valued at \$10.00 per shares). The shares have a two year lock up, may be called by the Company during that time period at the stated price plus a 6% cumulative annual premium, and may be converted to common shares after the hold period at a 20% discount to market; and b) \$50,000 in Common stock (which amounted to 500,000 shares of Common stock valued at \$0.10 per share). The common stock is subject to a 1 year lock up, a metering and block trade restriction, and Rule 144. At no time may the seller own more than 4.9% of the Commons shares of the Company. Additionally, the Company issued Warrants to the seller for the purchase of 250,000 shares of Common stock. The Warrants have a strike price of \$0.50 per share, expire on the fifth anniversary of the closing, and are to be paid for in cash.

Effective April 1, 2014, the Company closed on a Purchase and Sale Agreement with Ventrum Louisiana, LLP for the purchase of 1,194 acres of Louisiana oil leases. The six (6) leases include nine (9) active wells with current production along with the associated fixtures, pumps, vehicles, and tanks for the current field operation. The purchase price for the property leases, well interest, and equipment is \$900,000. The Company paid for the acquisition through the issuance of \$900,000 in Preferred A stock (which amounted to 90,000 shares of Preferred A stock valued at \$10.00 per shares). The shares have a two year lock up, may be called by the Company during that time period at the stated price plus a 6% cumulative annual premium, and may be converted to common shares after the hold period at a 20% discount to market. Currently, the operator has notified the Company that they are experiencing financial issues related to the drop in oil prices and has subsequently stopped reporting to the Company. The Company is working with outside investors, advisors, and operators to resolve the issue.

On May 14, 2015, the Company executed a commercial lease with Wildfire Cannabis Company, LLC whereby the Company would lease to Wildfire one of their warehouse spaces under a turnkey lease to include: 21,400 sq ft (building) + 8,000 sq ft (fenced secure area) + 13,200 sq ft (44 parking slots), plus an option for up to 7,000 additional building square footage. Lease rates are \$24.00 per rentable square foot, with annual CPI adjustments, plus \$21.03 per rentable square foot in Tenant Improvements, plus \$1.50 per square foot fenced secure outdoor entry, plus \$0.24 per square foot parking.

The lease commences and is contingent upon the completion of the tenant improvement buildout by the Company. As of this filing, the Company has secured financing and has begun the first stage of the buildout.

During the 4th quarter 2015, the Company executed a commercial lease agreement with option to purchase with Zamunda, LLC whereby the Company would lease to Zamunda, for a period of sixty (60) months, an initial two (2) buildings on its Chewelah property totaling 32,400 sq ft. In conjunction with the lease, the Company extended to Zamunda a 36-month option to purchase on a portion of the property containing the two (2) building for a total purchase price of \$800,000. Upon execution of the agreement, the Tenant paid to the Company a total of \$100,000 to include the first year's rent and an option to purchase fee.

During the 4th quarter 2015, the Company established a wholly owned subsidiary, CGrowth Capital Bond, Ltd., in the United Kingdom, for the purpose of issuing corporate bonds for certain assets held by the Company and two other entities located in Peru. The initial bond offering is for £15,000,000.00 British Pounds Sterling ("GBP") with a portion of the bond benefiting the Company's Wyoming oil and gas leases operated under its wholly owned subsidiary Powder River Resources, Inc. As of this filing, the Company's subsidiary, CGrowth Capital Bond, Ltd., successfully completed and received initial subscriptions in excess of £15,000,000.00 GBP and has further increased the bond offering to £30,000,000.00 GBP.

During the 3rd quarter of 2016, the Company's subsidiary, Powder River Resources, Inc., entered into and received an oil and gas lease assignment covering property located in Campbell County, Wyoming. Included with the lease is a Joint Operating Agreement providing Powder River Resources with 40.375% Working Interest. The Company intends to provide financing for the project which covers up to 7 new drilling locations. The Company began mobilizing for drilling operation during the 4th quarter of 2016 and completed surface work prior to the onset of winter.

7) Describe the Issuer's Facilities

The goal of this section is to provide a potential investor with a clear understanding of all assets, properties or facilities owned, used or leased by the issuer.

In responding to this item, please clearly describe the assets, properties or facilities of the issuer, give the location of the principal plants and other property of the issuer and describe the condition of the properties. If the issuer does not have complete ownership or control of the property (for example, if others also own the property or if there is a mortgage on the property), describe the limitations on the ownership.

If the issuer leases any assets, properties or facilities, clearly describe them as above and the terms of their leases.

CGrowth Capital's main headquarters is located at: 4550 NW Newberry Hill Road, Suite 202, Silverdale, WA 98383. The Company leases, on a month to month basis, a portion of approximately 1,000 square feet of office space that it shares with its major shareholder, KFM. The Company pays KFM \$1,000 per month for its share of the rent and office expenses.

The Company owns 3,400 acres of Wyoming oil leases located in the Powder River Basin. The Company also owns portions of active wells with current production along with the associated fixtures, pumps, vehicles, and tanks for the current field operations. The underlying land is owned by the Bureau of Land Management and other private parties, and is operated by a third party.

The Company owns 1,194 acres of Louisiana oil leases. The Company also owns portions of active wells with current production along with the associated fixtures, pumps, vehicles, and tanks for the current field operations. The underlying land is owned by the Bureau of Land Management and operated by a third party. The site is currently inactive and has been fully impaired on the Company's balance sheet.

The Company owns 47 acres of industrial property in Chewelah, Washington. The property includes 17 acres of open space, ~90,000 sq ft of warehouse space, and various other attributes common to industrial property. In April 2016, the Company's wholly owned subsidiary Chewelah Properties, LLC, received its Determination of Non-Significance ("DNS") regarding its SEPA submittal from Stevens County Land Services division to allow the industrial facility to transition from a mineral processing site to an F-1 manufacturing facility.

The Company's subsidiary holds the mineral rights to dolomite, terrazzo, silica, and gravel, which incorporates over 10 physical quarry locations. The leases are in dispute with the underlying lease holder and the Company is working to defend its position.

The Company's subsidiary, Powder River Resources, Inc., holds oil and gas leases covering 640 acres located in Campbell County, Wyoming. Included with the leases is a Joint Operating Agreement providing Powder River Resources with 40.375% Working Interest on new wells.
