## **INDEPENDENT ACCOUNTANT'S REVIEW REPORT**

To Management  
Amexdrug Corporation  
Commerce, California

We have reviewed the accompanying consolidated financial statements of Amexdrug Corporation, which comprise the consolidated balance sheets as of December 31, 2017 and 2016, and the related consolidated statements of income, shareholders' equity and cash flows for the years then ended, and the related notes to the consolidated financial statements. A review includes primarily applying analytical procedures to management's financial data and making inquiries of company management. A review is substantially less in scope than an audit, the objective of which is the expression of an opinion regarding the financial statements as a whole. Accordingly, we do not express such an opinion.

### **Management's Responsibility for the Financial Statements**

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement whether due to fraud or error.

### **Accountant's Responsibility**

Our responsibility is to conduct the review engagement in accordance with Statements on Standards for Accounting and Review Services promulgated by the Accounting and Review Services Committee of the AICPA. Those standards require us to perform procedures to obtain limited assurance as a basis for reporting whether we are aware of any material modifications that should be made to the financial statements for them to be in accordance with accounting principles generally accepted in the United States of America. We believe that the results of our procedures provide a reasonable basis for our conclusion.

### **Accountant's Conclusion**

Based on our review, we are not aware of any material modifications that should be made to the accompanying financial statements in order for them to be in accordance with accounting principles generally accepted in the United States of America.

AMEXDRUG CORPORATION AND SUBSIDIARIES  
NOTES TO REVIEWED CONSOLIDATED FINANCIAL STATEMENTS  
DECEMBER 31, 2017 AND 2016

1. ORGANIZATION AND LINE OF BUSINESS

Amexdrug's wholly owned subsidiaries include Allied Med, Inc., Dermagen, Inc. and BioRx Pharmaceuticals.

Allied Med, Inc., was formed in October 1997 and is engaged in the pharmaceutical wholesale business of selling brand and generic pharmaceuticals products, over-the-counter drug and non-drug products and health and beauty products to independent and chain pharmacies, alternative care facilities and other wholesalers.

Dermagen, Inc. is a manufacturing company specializing in the manufacturing and distribution of certain pharmaceuticals, medical devices, and health and beauty products. Dermagen has a US Federal Drug Administration (FDA) registered and state FDA approved manufacturing facility license to develop skin and novel health and beauty products for niche markets.

On November 8, 2004, Amexdrug formed BioRx Pharmaceuticals, Inc. as a Nevada corporation. BioRx Pharmaceuticals, Inc. was formed for the purpose of repacking and selling generic and branded pharmaceuticals.

Principles of Consolidation

The accompanying consolidated financial statements include the accounts of Amexdrug Corporation and its wholly-owned subsidiaries, Allied Med, Inc., Dermagen, Inc. and BioRx Pharmaceuticals. Inter-company accounts and transactions have been eliminated in consolidation.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

This summary of significant accounting policies of Amexdrug Corporation is presented to assist in understanding the Company's financial statements. The financial statements and notes are representations of the Company's management, which is responsible for their integrity and objectivity. These accounting policies conform to accounting principles generally accepted in the United States of America and have been consistently applied in the preparation of the financial statements.

Revenue Recognition

The Company generates revenues from the manufacture and resale of pharmaceuticals, over-the-counter products, health and beauty care products and nutritional supplements. The Company accounts for these revenues at the time of shipment to the customer. An allowance for sales returns is provided for products sold on a cash-on-delivery basis that are not accepted or paid for by the customer.

Cash and Cash Equivalent

The Company considers all highly liquid investments with an original maturity of three months or less to be cash equivalents.

Investments

Certificate of Deposits with banking institutions are short-term investments with initial maturities of more than 90 days. The carrying amount of these investments is a reasonable estimate of fair value due to their short-term nature.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the accompanying financial statements. Significant estimates made in preparing these financial statements include the estimate of useful lives of property and equipment, the deferred tax valuation allowance, and the fair value of stock options. Actual results could differ from those estimates.

Property and Equipment

Property and equipment are stated at cost, and are depreciated using the modified accelerated cost recovery system (macrs) method over its estimated useful lives:

Machinery & Office equipment	3-10 Years
Leasehold improvements	2-5 Years

Differences between macrs and Straight-Line depreciation is immaterial. Depreciation expense was \$7,420 and \$7,897 for the years ended December 31, 2017 and 2016, respectively.

AMEXDRUG CORPORATION AND SUBSIDIARIES  
NOTES TO REVIEWED CONSOLIDATED FINANCIAL STATEMENTS  
DECEMBER 31, 2017 AND 2016

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Fair Value of Financial Instruments

Fair Value of Financial Instruments, requires disclosure of the fair value information, whether or not recognized in the balance sheet, where it is practicable to estimate that value. As of December 31, 2017, the amounts reported for cash, accounts receivable, accounts payable, accrued interest and other expenses, and notes payable approximate the fair value because of their short maturities.

Basic Income per Share Calculations

Basic income per share is computed by dividing net income by the weighted-average number of common shares outstanding. As of December 31, 2017 and 2016, the Company did not have any potentially issuable common shares outstanding; accordingly, diluted income per share is not applicable to the Company and is not presented.

Income Taxes

The Company uses the liability method of accounting for income taxes. Deferred tax assets and liabilities are recognized for the future tax consequences attributable to financial statements carrying amounts of existing assets and liabilities and their respective tax bases and operating loss and tax credit carry-forwards. The measurement of deferred tax assets and liabilities is based on provisions of applicable tax law. The measurement of deferred tax assets is reduced, if necessary, by a valuation allowance based on the amount of tax benefits that, based on available evidence, is not expected to be realized.

Research and Development

Research and development costs are expensed as incurred. Total cost for research and development during the years ended December 31, 2017 and 2016, were \$69,200 and \$37,500, respectively.

Advertising and Marketing Costs

The Company expenses the cost of advertising and promotional materials when incurred. Total advertising and marketing costs were \$108,955 and \$216,081 for the years ended December 31, 2017 and 2016, respectively.

Concentration of Credit Risk

The Company's historical revenues and receivables have been derived solely from the pharmaceutical industry. Although the Company primarily sells products on a cash-on-delivery basis, the Company also sells products to certain customers under credit terms. The Company performs ongoing credit evaluations of its customers' financial conditions and usually requires a delayed check depository from its customers at the date products are shipped. The Company maintains an allowance for accounts receivable that may become uncollectible.

During the years ended December 31, 2017, purchases from three vendors accounted for 56% of total purchases. Accounts payable to these vendors accounted for 96% of the total accounts payable balance as of December 31, 2017.

During the year ended December 31, 2016, purchases from those four vendors accounted 86% of total purchases. Accounts payable to these vendors accounted for 69% of the total accounts payable balance as of December 31, 2016.

The loss of these vendors could have a potential negative effect upon the Company's future operations.

Accounts Receivable

An allowance for uncollectible accounts receivable is established by charges to operations for amounts required to maintain an adequate allowance, in management's judgment, to cover anticipated losses from customer accounts and sales returns. Such accounts are charged to the allowance when collection appears doubtful. Any subsequent recoveries are credited to the allowance account.

Inventory

Inventory includes purchased products for resale and raw materials and supplies necessary to manufacture pharmaceuticals, medical devices, and health and beauty products and is stated at the lower of cost (using the first-in, first-out method) or net realizable value. Provisions, when required, are made to reduce excess and expired inventory to its estimated net realizable value. Although competitive pressures and pharmaceutical advancements expose the Company to the risk that estimates of the net realizable value could change in the near term, the Company's agreements with most vendors provide for the right of return of outdated or expired inventory. The Company is exposed to other ownership related risks associated with inventory.

AMEXDRUG CORPORATION AND SUBSIDIARIES  
NOTES TO REVIEWED CONSOLIDATED FINANCIAL STATEMENTS  
DECEMBER 31, 2017 AND 2016

3. INTANGIBLE ASSETS

Trademarks are recorded at cost and are amortized over their estimated useful life, which is ten years. An impairment charge is recognized if the carrying amount is not recoverable and the carrying amount exceeds the fair value of the intangible assets as determined by projected discounted cash flows.

Goodwill represents the excess of the purchase price of Dermagen, Inc. over the fair value of its net assets at the date of acquisition. Goodwill is not amortized, but is tested for impairment quarterly or when a triggering event occurs. The testing for impairment requires the determination of the fair value of the asset or entity to which the goodwill relates (the reporting unit). The fair value of a reporting unit is determined based upon an eighth of the quoted market price of the Company's common stock and present value techniques based upon estimated future cash flows of the reporting unit, considering future revenues, operating costs, the risk-adjusted discount rate and other factors. Impairment is indicated if the fair value of the reporting unit is allocated to the assets and liabilities of that unit, with the excess of the fair value of the reporting unit over the amounts assigned to its assets and liabilities assigned to the fair value of goodwill. The amount of impairment of goodwill is measured by the excess of the goodwill's carrying value over its fair value. As of December 31, 2017, and 2016, the Company's goodwill was not deemed to be impaired.

The Company reviews its long-lived assets for impairment when events or changes in circumstances indicate that their carrying value may not be recoverable. The Company evaluates, at each balance sheet date, whether events and circumstances have occurred which indicate possible impairment. The Company uses an estimate of future undiscounted net cash flows from the related asset or group of assets over their remaining life in measuring whether the assets are recoverable. As of December 31, 2017, based on the analysis of estimated undiscounted future net cash flows, the Company did not consider any of its long-lived assets to be impaired.

4. INCOME TAXES

The Company files income tax returns in the U.S. Federal jurisdiction, and the state of California. With few exceptions, the Company is no longer subject to U.S. federal, state and local, or non-U.S. income tax examinations by tax authorities for years before 2014.

Accounting for Uncertainty in Income Taxes was adopted by the Company on January 1, 2007. The Company's policy is to recognize interest accrued related to unrecognized tax benefits in interest expense and penalties in operating expenses. During the period ended December 31, 2017 and 2016, the Company did not recognize interest and penalties.

5. DEFERRED TAXES

Deferred taxes are provided on a liability method whereby deferred tax assets are recognized for deductible temporary differences and operating loss and tax credit carry-forwards and deferred tax liabilities are recognized for taxable temporary differences. Temporary differences are the differences between the reported amounts of assets and liabilities and their tax bases. Deferred tax assets are reduced by a valuation allowance when, in the opinion of management, it is more likely than not that some portion or all of the deferred tax assets will not be realized. Deferred tax assets and liabilities are adjusted for the effects of changes in tax laws and rates on the date of enactment.

The provision for income taxes for the years ended December 31, 2017 and 2016 consist of the following:

	2017	2016
Federal:		
Current	\$ 42,900	\$ 30,200
Deferred	3,300	(4,400)
State:		
Current	12,500	12,600
Deferred	1,500	(700)
	60,200	37,700

AMEXDRUG CORPORATION AND SUBSIDIARIES  
NOTES REVIEWED TO CONSOLIDATED FINANCIAL STATEMENTS  
DECEMBER 31, 2017 AND 2016

5. DEFERRED TAXES (Continued)

Net deferred tax assets consist of the following components as of December 31, 2017 and 2016:

	2017	2016
Deferred Tax Assets:		
Depreciation	\$ 1,100	\$ 6,900
Related Party Accrual	5,200	6,700
Deferred Tax Liabilities:		
Net Deferred Tax Asset/(Liability)	\$ 6,300	\$ 13,600

The income tax provision differs from the amount of income tax determined by applying the combined U.S. federal and state income tax rate of 28% to pretax income from continuing operations for the years ended December 31, 2017 and 2016 due to the following:

	2017	2016
Book income	\$ 65,000	\$ 43,500
State Income Taxes	(4,900)	(4,900)
Meals and Entertainment	2,000	4,200
Unrealized Gain	(1,800)	500
Depreciation	1,600	1,800
Related Party Accruals	500	3,400
R&D Credit Addback Expense	1,800	1,000
Change in Deferred Tax Asset/Liability	7,300	(5,100)
Effect of income tax rate changes on deferred items	(2,500)	-
Provision to Return Differences	-	-
Estimated Tax Rates to Actual	(8,800)	(6,700)
	\$ 60,200	\$ 37,700

The effect of income tax rate changes on deferred items for the year ended December 31, 2017 is primarily related to the U.S. tax reform legislation (The Tax Cuts and Jobs Act) which was enacted on December 22, 2017. The legislation included a reduction of the U.S. Federal income tax rate to 21%. Although most provisions of tax reform are not effective until 2018, we are required to record the effect of a change in tax law in the period of enactment (2017). That rate reduction impacted the Company's provision for income taxes for the year ended December 31, 2017 for the tax deferred portion. We reduced the combined federal and state rate from 39% to 28%.

	2018
Federal Rate	21.000%
CA	8.840%
Fed Effect of State	-1.856%
Tax Rate	27.984%

6. RELATED PARTY TRANSACTIONS

The Company borrowed \$109,202 from a shareholder to facilitate the purchase of Dermagen and to cover operating expenses. The balance of \$108,023 is an unsecured loan payable on demand and carries an annual interest rate of 8%, payable every 6 months. The interest accrued as of December 31, 2017 and 2016 was \$18,478 and \$17,284, respectively.

AMEXDRUG CORPORATION AND SUBSIDIARIES  
NOTES TO REVIEWED CONSOLIDATED FINANCIAL STATEMENTS  
DECEMBER 31, 2017 AND 2016

7. BANK LINE OF CREDIT

The line of credit was renewed for another year with a maturity date of June 2018. The line of credit was secured by a personal guarantee and accounts receivable. The interest rate on the line of credit is 3.25% and is a variable that changes with the index at a rate of 1.0%, increasing the index to 4.25%. The balance of the line of credit at December 31, 2017 was \$691,639.

8. BUSINESS SEGMENT INFORMATION

The Company has operations in two segments of its business, namely: Distribution and Health and Beauty Products. Distribution consists of the wholesale pharmaceutical distribution and resale of brand and generic pharmaceutical products, over-the-counter drugs and non-drug products and health and beauty products. Health and Beauty Products consist of the manufacture and distribution of primarily health and beauty products.

The following tables describe information regarding the operations and assets of these reportable business segments:

	Distributions	Health and Beauty Products	Total
For the year ended December 31, 2017			
Sales to external customers	\$ 3,730,528	\$ 6,698,439	\$ 10,428,967
Depreciation and amortization	\$ 2,526	\$ 4,894	\$ 7,420
Segment income (loss) before taxes	\$ 133,853	\$ 34,283	\$ 168,136
