4) Issuer's Business, Products and Services

A. Summary of business operations

RGS Group focuses on Impact Investments that create positive social and environmental impact alongside financial return and measuring the achievement of both. Impact investment involves investing in companies or funds that offer both financial return and a positive social and environmental impact. It's about finding opportunities for great financial performance that also create real social and environmental good.

Our core business is in property investment and developments, distribution of goods and services and services and any software applications on the internet or mobile devices.

Resources Global Services Group is currently involved/reviewing a few projects:

Project 1 (Completed)

This Project (Seem Reap) has been completed in December 2018 with a Cambodian based company, RGS Global which has ownership of 2 land titles in Cambodia. The resultant land parcels are part of a mega project that has been earmarked for development of a Theme Park in Seem Reap. The development is structured and designed to be a world class entertainment resort city, catering to both locals and foreign visitors. Land prices in Siem Reap town continued to increase from 2020, due to the growing strength of the tourism industry, as reported by Khmer Times.

Projects in the Pipeline

Work in Progress - They are as follows:

- **Real Estate Software Services**

Since the last quarter of 2022, Resources Global Services Group (RGSG) has been involved in software pilot testing with a real estate software technology company based in Australia. The company has developed an online application to support property investors in analyzing, sourcing and financing properties through the management of the project and to assess its viability; private financiers who provide funds to property investors to purchase their properties; homeowners who are selling their properties and real estate agents who are selling the properties on behalf on the owners. We have been involved in testing, marketing and also in negotiation re the business partnership with the real estate software company to participate in the business venture. Target timeline – 3rd – 4th Quarter 2023.

Update as of 31 December 2023 - There are not many subscribers to this real estate software as the Australian economy is weak and inflation is still a threat to the economy. Real estate is slow due to the high interest rates. There is not enough participation of real estate subscribers to this real estate software tool to enable it to be a viable proposition for a partnership with the software technology company based in Sydney, Australia.

- **Software Development**

During the period of lockdown in 2020 due to the pandemic, Resources Global Services Group (RGSG) has been researching and reviewing the opportunities to work in partnership with start-up local companies in Australia in the software development arena. A small start-up company has been identified and the company has been offered a small government grant in their current project. We are monitoring its progress, and we are being kept updated on its progress. Project still under review.

Update as of 31 December 2023 – Company has not initiated too many social media platforms to participate in this pet mobile application due to much competition in AI. Progress to be monitored. However, there is a potential in this company that can be further explored.

- **Property Development in Australia**

Since 2021, Resources Global Services Group (RGSG) has been researching and reviewing the opportunities to work with local companies in Australia in the property investment and development arena. RGSG is working in partnership with a local company which has acquired a parcel of land for the purpose of developing the land into multi-level dwellings. The parcel of land is near shopping centers, bus stations and tertiary educational facilities. The Reserve Bank's continual interest rate rise has slowed down the increased demand in the housing market and led to a plateau in housing prices though there is a shortfall of good, quality property for renters at an affordable price.

With the Development Approval by the Brisbane City Council, Australia. RGSG is reviewing the feasibility study of this project and if it continues to prove viable, RGSG will be looking at funding opportunities/options to support the partnership with the Property Development Project. This project has moved into Design and Construction costing with the quantity surveyor. The Property market in Australia has decline considerably at the end of 2023 but the property market is slowly picking up though building costs had increased and inflation is still a concern for property developers and property investors. The Project is under review and close monitoring of the property market is in progress. There is slow progress as construction companies are facing high building costs and a

considerable number of large companies are closing down. Local Council is taking a considerable amount of time to approve Property Development Projects.

- **Business Opportunities**

RGSG is looking for viable business opportunities and potential joint ventures in 2024 - 2025. Australian Property Developers and Property Investors are encouraged to contact the company directors for RGSG to discuss potential joint ventures.

Various Property projects are currently under review and feasibility studies are in progress.

- **Program Management Consultancy in Brisbane, Australia**

Potential opportunity to work with local property development Program Management Consultancy business. Target timeline –2024. Under Review.

B. List any subsidiaries, parent company, or affiliated companies.

None

C. Describe the issuers' principal products or services.

Resources Global Services Group (RGSG) is an international infrastructure company involved in land acquisitions, property investments, integrated developments in the Southeast Asia markets, and professional services (i.e. project management) to the local businesses.

5) Issuer's Facilities

The Company operates at the following premises of the directors:

91 Sandgate Road, Albion, Queensland Australia 4010.

Note: Working from home is an option due to the increased number of covid virus cases in Australia. A more economical approach has been undertaken in relation to cost savings as rental prices have increased considerably due to shortage of office premises in the city.

Note 1

Ashley Edward Walker

Ashley is an Australian, based in Brisbane and has a broad experience base extending over a range of employment areas. His technical expertise spans from Marine to Civil Aviation (i.e. aerodrome design, Air Traffic Control support, processing applications for building developments around aerodromes, record drawings of ground facilities and a range of management roles). He was involved in significant projects such as the New Brisbane Airport and the redevelopment of the Cairns International Airport), Business Development and Export Advisor with the Australian Trade Commission. During his employment with the Australian Trade Commission, he was closely involved with numerous companies, assisting them to prepare their organizations for export markets around the world. This role also required close liaison with all levels of government and private bodies involved with assisting companies to export.

Note 2

Jean-Francois Meli

Jean-Francois is a CPA, who has worked in Canada, the United States, France, England, and New Zealand. He has been a Chief Financial Officer of a number of large corporations, including well-known brands such as Hans and Canterbury since 1990. He has 20 years of financial and operations management experience within the Manufacturing, Retail and Not-For-Profit sectors. He is a globally accomplished, influential Executive poised to deliver strategic visions and innovative thinking and in restoring profitability, streamlining operations, and attaining commitment of key stakeholders.

Note 3

Siew Cheng Chua Ong

Siew has extensive experience in Program Management and IT systems development, managing customer facing project initiative changes for businesses and resource forecasting and scheduling and managing Vendor/Partner needs and delivery. She has worked extensively with both government and private sector organizations. Her expertise is in managing and implementing highly complex IT Programs and Quality Management in ISO Standard Certifications in Australia and New Zealand. Past clients include ANZ Bank, Virgin Australia, Origin Energy, QGC (Oil & Gas), Fonterra, Telecoms NZ, Ministry of Social Development & New Zealand Immigration Services. She managed and implemented the Governance Framework Transformation Program and the Data Warehousing System for Virgin Australia. She implemented a complex Infrastructure Transformation Program at NZ Telecom Ltd, managing the IT infrastructure environment and an Enterprise-Wide server management tool (based in USA) deployed to 2000 managed servers in New Zealand.

Note: The Company intends to appoint additional directors when deemed appropriate and to meet regulatory requirements should the Company pursue an active listing of its securities on one or more publicly traded exchanges.

7) Legal/Disciplinary History

A. Identify and provide a brief explanation as to whether any of the persons or entities listed above in Section 6 have, in the past 10 years, :

1. Been the subject of an indictment or conviction in a criminal proceeding or plea agreement named as a defendant in a pending criminal proceeding (excluding minor traffic violations);

None

2. Been the subject of the entry of an order, judgment, or decree, not subsequently reversed, suspended or vacated, by a court of competent jurisdiction that permanently or temporarily enjoined, barred, suspended or otherwise limited such person's involvement in any type of business, securities, commodities, financial – or investment-related, insurance or banking activities;

None

3. Been the subject of a finding, disciplinary order or judgment by a court of competent jurisdiction (in a civil action), the Securities and Exchange Commission, the Commodity Futures Trading Commission, a state securities regulator of a violation of federal or state securities, or commodities law, or a foreign regulatory body or court, which finding, or judgment has not been reversed, suspended, or vacated;

None

4. Named as a defendant or a respondent in a regulatory complaint or proceeding that could result in a "yes" answer to part 3 above: or

None

5. Been the subject of an order by a self-regulatory organization that permanently or temporarily barred, suspended, or otherwise limited such person's involvement in any type of business or securities activities.

None

6. Been the subject of a U.S. Postal Service false representation order or a temporary restraining order, or preliminary injunction with respect to conduct alleged to have violated the false representation statute that applies to U.S. mail.

None

- B. Describe briefly any material pending legal proceedings, other than ordinary routine litigation incidental to the business, to which the issuer or any of its subsidiaries is a party to or of which any of their property is the subject. Include the name of the court or agency in which the proceedings are pending, the date instituted, the principal parties thereto, a description of the factual basis alleged to underlie the proceeding and the relief sought. Include similar information as to any such proceedings known to be contemplated by governmental authorities.

None

Resources Global Services Group

NOTES TO FINANCIAL STATEMENTS

December 31, 2023

(Unaudited)

NOTE 1 - ORGANIZATION AND OPERATIONS

The Company was originally incorporated in 1999, in the State of Nevada, under the name of Claremont Technologies Corporation. On April 01, 2007, the Company changed its name from Claremont Technologies Corporation to China Ivy INC. On April 30, 2018, the Company changed its name from China Ivy to Resources Global Services Group.

Resources Global Services Group (RGSG) is an international infrastructure company involved in land acquisitions, property investments and integrated developments in the emerging Southeast Asia markets, market distribution of goods and services, hospitality and services, i.e., resources-based projects (water filtration in the systems in academic institutions).

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of presentation

The Company's financial statements have been prepared in accordance with accounting principles generally accepted in Australia (ASSB) and in the United States of America ("U.S. GAAP"). The preparation of financial statements in conformity with accounting principles generally accepted in Australia and in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Management further acknowledges that it is solely responsible for adopting sound accounting practices, establishing, and maintaining a system of internal accounting control and preventing and detecting fraud.

The Company's system of internal accounting control is designed to assure, among other items, that:

- 1) recorded transactions are valid.
- 2) valid transactions are recorded; and
- 3) transactions are recorded in the proper period in a timely manner to produce financial statements which present fairly the financial condition, results of operations and cash flows of the Company for the respective periods being presented.

Income Taxes

There was no income tax for the three months period ended 31 December 2023.

Cash and Cash Equivalents

Cash and cash equivalents consist primarily of cash in readily available checking and saving accounts. Cash and cash equivalents are on deposit with financial institutions without any restrictions.

Going Concern

The accompanying financial statements have been prepared assuming that the Company will continue as a going concern, which contemplates continuity of operations, realization of assets, and liquidation of liabilities in the normal course of business.

As reflected in the accompanying financial statements, the Company had an accumulated **loss** for the year as at **December 31, 2023 of \$14,464** for the period.

Management believes that the actions presently being taken to further implement its business plan and generate revenues provide the opportunity for the Company to continue as a going concern. While the Company believes in the viability of its strategy to generate revenues and in its ability to raise additional funds, there can be no assurances to that effect. The ability of the Company to continue as a going concern is dependent upon the Company's ability to further implement its business plan and generate revenues.

Financial Instruments

The Company's financial instruments consist primarily of accounts payable and accounts receivable. The carrying amounts of such financial instruments approximate their respective estimated fair value due to the short-term maturities.

Fair value estimates are made at a specific point in time based on relevant market information about the financial instrument. These estimates are subjective in nature and involve uncertainties and matters of significant judgment and, therefore, cannot be determined with precision.

Cash and Cash Equivalent

Cash and cash equivalents consist primarily of cash in readily available checking and saving accounts.

Property, Plant and Equipment

The table below shows movements in net book value of our tangible assets during the financial year.

	Land and site improvements	Buildings	Other plant, equipment	Total property, plant and equipment
Net Book Value as at 1 January 2023	615,900	-	-	615,900
Additions	-	-	-	-
Disposals	-	-	-	-
Depreciation Expenses	-	-	-	-
Impairment losses	-	-	-	-
Revaluation	-	-	-	-
Net Book Value as at 31 December 2023	615,900	-	-	615,900

Impairment assessment

All non-current tangible assets are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amounts may not be recoverable.

The recoverable amount of an asset is the higher of its fair value less cost of disposal and its value in use. Fair value less cost of disposal is measured with reference to quoted market prices in an active market.

Revaluation of assets

Following initial recognition at cost, a valuation of the land at Siem Reap, Cambodia conducted by Knight Frank – Cambodia was carried out on the 15th of July 2016, to ensure that the carrying amounts of assets do not materially differ from the assets' fair values as at the reporting date. Revaluations for land, buildings and infrastructure are conducted every five years; other plants and equipment are revalued annually on a sample basis.

Revaluation adjustments are made on a class basis. Any revaluation increment is credited to equity under the heading of asset revaluation reserve except to the extent that it reverses a previous revaluation decrement of the same class that was previously recognised through profit and loss. Revaluation decrements for a class of assets are recognised through profit and loss except to the extent that they reverse a previous revaluation increment for that class.

Any accumulated depreciation as at the revaluation date is eliminated against the gross carrying amount of the asset and the asset is restated to the revalued amount.

Revenue

Revenue is measured at the fair value of the consideration received or receivable, net of discounts and taxes applicable to the revenue.

Foreign currencies translation

The accompanying financial statements are presented in Australian dollars ("AUD").

Translation gains and losses that arise from exchange rate fluctuations from transactions denominated in a currency other than the functional currency are translated into AUD at the rate on the date of the transaction and included in the results of operations as incurred. There were no material transaction gains or losses in the periods presented.

Goodwill

Goodwill acquired in a business combination is measured at cost. Cost represents the excess of what we pay for the business combination over the fair value of the identifiable net assets acquired at the date of acquisition. Goodwill is not amortised but is tested for impairment on an annual basis or when an indication of impairment arises. The goodwill amount arising from the acquisition of joint ventures or associated entities constitutes part of the cost of the investment.

Related parties

We have acquired 51% ownership of the company RGS Global in the 4th quarter of 2018. One of our former directors (Sherman Liew) had a vested interest in this company. He (Mr Sherman Liew) was previously performing the role of Vice President, Overseas Operations of this company, RGSG. He had resigned due to workload commitment to other projects.
