QUANTUMZYME CORP
(FORMERLY RELIANT SERVICES, INC.)
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
January 31, 2024

NOTE 1 – NATURE OF BUSINESS AND OPERATIONS

Organization

Quantumzyme Corp. (formally Reliant Service Inc.) (the “Company”) was incorporated in the state of Nevada on March 20, 2015. The company develops marketing channels to distribute office equipment to the wholesale market in the United States. Our functional currency is the US Dollar and all the references to currency in the financial statements are in US Dollars.

On February 8, 2023, Ms. Sandra (Demeria) Brossart (“Brossart”) resigned as the sole-officer and director of the Company, and Mr. Naveen Krishna Rao Kulkarni (“Kulkarni”) was appointed as sole-officer and director in her place. Thereafter, on February 21, 2023, the Company entered into that certain Asset Purchase Agreement (“Purchase Agreement”), between the Company and Quantumzyme Inc., a Delaware corporation, (“Quantumzyme”) and Kulkarni, the sole-officer, director, and shareholder of Quantumzyme (collectively, Quantumzyme and Mr. Kulkarni are hereinafter referred to as the “Seller”) pursuant to which the Company acquired various assets from the Seller, such assets are applied to and used in the “Enzyme Catalyst” biotransformation sector. In exchange for the Acquired Assets, the Company issued Mr. Kulkarni One Hundred Fifty Million (1,500,000) restricted shares of the Company’s common stock (Post split), representing approximately Seventy-Three (73%) percent of the Company’s issued and outstanding shares.

On March 31, 2023, the Company changed its name to Quantumzyme Corp.

NOTE 2 – GOING CONCERN

The accompanying financial statements have been prepared in US dollars and in accordance with accounting principles generally accepted in the United States (“GAAP”) on a going concern basis, which contemplates the realization of assets and the satisfaction of liabilities and commitments in the normal course of business. During the six months ended January 31, 2024, the Company incurred net losses of \$73,479 ,accumulated deficits of \$270,508, and used cash in operations in the amount of \$64,920. These conditions raise substantial doubt about the Company's ability to continue as a going concern.

We are entirely dependent on our ability to attract and receive funding from either the sale of securities or outside sources such as private investment or a strategic partner. We currently have no firm agreements or arrangements with respect to any such financing and there can be no assurance that any needed funds will be available to us on acceptable terms or at all. The inability to obtain sufficient funding of our operations in the future will restrict our ability to grow and reduce our ability to continue to conduct business operations. Our failure to raise additional funds will adversely affect our business, and may require us to suspend our operations, which in turn may result in a loss to the purchasers of our common stock. If we are unable to obtain necessary financing, we will likely be required to curtail our development plans. Any additional equity financing may involve substantial dilution to our then existing stockholders.

NOTE 3 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ significantly from those estimates.

Cash and Cash Equivalents

For purposes of the statement of cash flows, the Company considers all highly liquid debt instruments purchased with a maturity of three months or less to be cash equivalents to the extent the funds are not being held for investment purposes.

Stock-based compensation

The Company follows ASC 718-10, "Stock Compensation", which addresses the accounting for transactions in which an entity exchanges its equity instruments for goods or services, with a primary focus on transactions in which an entity obtains employee services in share-based payment transactions. ASC 718-10 is a revision to SFAS No. 123, "Accounting for Stock-Based Compensation," and supersedes Accounting Principles Board ("APB") Opinion No. 25, "Accounting for Stock Issued to Employees," and its related implementation guidance. ASC 718-10 requires measurement of the cost of employee services received in exchange for an award of equity instruments based on the grant-date fair value of the award (with limited exceptions). Incremental compensation costs arising from subsequent modifications of awards after the grant date must be recognized.

Concentration of Credit Risk

The Company has no off-balance-sheet concentrations of credit risk such as foreign exchange contracts, options contracts or other foreign hedging arrangements. The Company maintains all of its cash balances with two financial institutions in the form of demand deposits.

Loss per Share

The Company follows ASC Topic 260 to account for the earnings per share. Basic earnings per common share ("EPS") calculations are determined by dividing net income by the weighted average number of shares of common stock outstanding during the year. Diluted earnings per common share calculations are determined by dividing net income by the weighted average number of common shares and dilutive common share equivalents outstanding. During periods when common stock equivalents, if any, are anti-dilutive they are not considered in the computation.

Revenue Recognition

The Company recognizes revenue from its contracts with customers in accordance with *ASC 606 – Revenue from Contracts with Customers*. The Company recognizes revenues when satisfying the performance obligation of the associated contract that reflects the consideration expected to be received based on the terms of the contract.

Revenue related to contracts with customers is evaluated utilizing the following steps: (i) Identify the contract, or contracts, with a customer; (ii) Identify the performance obligations in the contract; (iii) Determine the transaction price; (iv) Allocate the transaction price to the performance obligations in the contract; (v) Recognize revenue when the Company satisfies a performance obligation.

Income Taxes

Deferred taxes are provided on a liability method whereby deferred tax assets are recognized for deductible temporary differences and operating loss and tax credit carry forwards and deferred tax liabilities are recognized for taxable temporary differences. Temporary differences are the differences between the reported amounts of assets and liabilities and their tax bases. Deferred tax assets are reduced by a valuation allowance when, in the opinion of management, it is more likely than not that some portion or all of the deferred tax assets will not be realized. Deferred tax assets and liabilities are adjusted for the effects of changes in tax laws and rates on the date of enactment.

Fair Value of Financial Instruments

The Company measures fair value in accordance with ASC 820 - Fair Value Measurements. ASC 820 defines fair value and establishes a three-level valuation hierarchy for disclosures of fair value measurements. ASC 820 establishes a framework for measuring fair value in generally accepted accounting principles, and expands disclosures about fair value measurements. To increase consistency and comparability in fair value measurements and related disclosures, ASC 820 establishes a fair value hierarchy which prioritizes the inputs to valuation techniques used to measure fair value into three (3) broad levels. The fair value hierarchy gives the highest priority to quoted prices (unadjusted) in active markets for identical assets or liabilities and the lowest priority to unobservable inputs. The three (3) levels of fair value hierarchy defined by ASC 820 are:

Level 1 - Inputs are unadjusted, quoted prices in active markets for identical assets or liabilities at the measurement date.

Level 2 - Inputs (other than quoted market prices included in Level 1) are either directly or indirectly observable for the asset or liability through correlation with market data at the measurement date and for the duration of the instrument's anticipated life.

Level 3 - Inputs reflect management's best estimate of what market participants would use in pricing the asset or liability at the measurement date. Consideration is given to the risk inherent in the valuation technique and the risk inherent in the inputs to the model. Valuation of instruments includes unobservable inputs to the valuation methodology that are significant to the measurement of fair value of assets or liabilities.

As defined by ASC 820, the fair value of a financial instrument is the amount at which the instrument could be exchanged in a current transaction between willing parties, other than in a forced or liquidation sale, which was further clarified as the price that would be received to sell an asset or paid to transfer a liability ("an exit price") in an orderly transaction between market participants at the measurement date

The reported fair values for financial instruments that use Level 2 and Level 3 inputs to determine fair value are based on a variety of factors and assumptions. Accordingly, certain fair values may not represent actual values of the Company's financial instruments that could have been realized as of January 31, 2024 and July 31, 2023 or that will be recognized in the future, and do not include expenses that could be incurred in an actual settlement. The carrying amounts of the Company's financial assets and liabilities, such as cash, accounts receivable, receivables from related parties, prepaid expenses and other, accounts payable, accrued liabilities, and related party and third party notes payables approximate fair value due to their relatively short maturities. The Company's notes payable approximates the fair value of such instrument based upon management's best estimate of terms that would be available to the Company for similar financial arrangements at January 31, 2024 and July 31, 2023.

Financial assets and liabilities measured at fair value on a recurring basis are summarized below as of January 31, 2024:

	Level 1	Level 2	Level 3	Total
Liabilities				
	\$ -	\$ -	\$ -	\$ -

Financial assets and liabilities measured at fair value on a recurring basis are summarized below as of July 31, 2023:

	Level 1	Level 2	Level 3	Total
Liabilities				
	\$ -	\$ -	\$ -	\$ -

Recent Accounting Pronouncements

In August 2020, the FASB issued ASU 2020-06, ASC Subtopic 470-20 “Debt—Debt with “Conversion and Other Options” and ASC subtopic 815-40 “Hedging—Contracts in Entity’s Own Equity”. The standard reduced the number of accounting models for convertible debt instruments and convertible preferred stock. Convertible instruments that continue to be subject to separation models are (1) those with embedded conversion features that are not clearly and closely related to the host contract, that meet the definition of a derivative, and that do not qualify for a scope exception from derivative accounting; and, (2) convertible debt instruments issued with substantial premiums for which the premiums are recorded as paid-in capital. The amendments in this update are effective for fiscal years beginning after December 15, 2021, including interim periods within those fiscal years. Early adoption is permitted, but no earlier than fiscal years beginning after December 15, 2020, including interim periods within those fiscal years.

Management has considered all recent accounting pronouncements issued. The Company’s management believes that these recent pronouncements will not have a material effect on the Company’s financial statements.

On July 25, 2023, the new note holders settled the combined balance of \$3,200 for the issue of 3,200,000 shares of common stock valued at \$3,200.

NOTE 5 – ASSET PURCHASE AGREEMENT

On February 21, 2023, the Company entered into an Asset Purchase Agreement pursuant to which the Company acquired various proprietary assets and intellectual property for 1,500,000 restricted shares of common stock (Post split) valued at \$5,000,000.

The Company evaluated the Asset Purchase Agreement in accordance with ASC 805 – Business Combinations which notes the threshold requirements of a business combination that includes the expanded definition of a “business” and defines elements that are to be present to be determined whether an acquisition of a business occurred. No “activities” of the acquiree were acquired. Instead, the Company obtained control of a set of inputs (the acquired assets). Thus, the Company determined agreement is an acquisition of assets, not an acquisition of a business in accordance with ASC 805. The total purchase price of \$5,000,000 in connection with the assets acquired is included in intangible assets on the Balance Sheet.

NOTE 6 – RELATED PARTY TRANSACTIONS

As of January 31, 2024 and July 31, 2023, the amount due to related parties was \$9,912 and \$9,912, respectively. Amounts due to related parties are non-interest bearing and due on demand.

NOTE 7 - COMMITMENTS AND CONTINGENCIES

From time to time, the Company may become involved in various lawsuits and legal proceedings, which arise in the ordinary course of business. Litigation is subject to inherent uncertainties, and an adverse result in these or other matters may arise from time to time that may harm business. Management is currently not aware of any such legal proceedings or claims that could have, individually or in the aggregate, a material adverse effect on our business, financial condition, or operating results.
