**COIN CITADEL INC.**  
**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**

**1. Nature of Operations**

Coin Citadel Inc., operates a cryptocurrency mining operation, which utilizes specialized computers (also known as “miners”) using application-specific integrated circuit (ASIC) chips to solve complex cryptographic algorithms in order to support the Bitcoin blockchain (in a process known as “solving a block”), in exchange for cryptocurrency rewards.

Coin Citadel operates a Bitcoin mining division in Plattsburgh, New York with Bitmain ASIC miners numbering under 200. Coin Citadel mines Bitcoin Cash (BCH), and Bitcoin Satoshi Vision (BSV), and other Secure Hash Algorithm (SHA) 256 based protocol cryptocurrencies. Coin Citadel also owns additional miners from other manufacturers which mine Litecoin (LTC), Zcash (ZEC), and Ethereum (ETH).

**2. Summary of Significant Accounting Policies**

**Basis of Accounting**

The accompanying financial statements have been prepared on the accrual basis in accordance with accounting principles generally accepted in the United States of America.

**Balance Sheet Classification**

The Company includes a one-year period as the basis for classifying all current assets and liabilities.

**Going Concern**

The accompanying consolidated financial statements have been prepared on a going concern basis, which contemplates the realization of assets and the settlement of liabilities and commitments in the normal course of business. For the twelve months ended December 31, 2023, the Company incurred a net loss of \$693.

Notwithstanding the net loss for the year ended December 31, 2023, management believes that its current cash, and intangible assets as of December 31, 2023 is sufficient to ensure continuation of the Company as a going concern for at least one year from the date of this Annual Report.

The amount and timing of future cash requirements will depend, in part, on the Company’s ability to ultimately achieve operating profitability. The Company expects to continue to incur net losses and negative operating cash flows in the near-term.

The Company intends to fund future operations through public debt or equity offerings and may seek additional capital through arrangements with strategic partners or from other sources.

## **Revenue Recognition**

The Company accounts for revenue recognition in accordance with Accounting Standards Codification Topic 606 (ASC 606). *Revenue from contracts with customers*, which aligns revenue recognition with the timing of when promised goods or services are transferred to customers in an amount that reflects the consideration to which the Company expects to be entitled in exchange for those good or services. This core principle is achieved through application of the following five-step model: (1) identify the contract with a customer, (2) identify the performance obligations in the contract, (3) determine the transaction price, (4) allocate the transaction price to performance obligations in the contact, and (5) recognize revenue as performance obligations are satisfied.

The Company earns revenue from digital asset mining. The amount of revenue recognized reflects both the fixed and variable consideration to which the Company expects to be entitled in exchange for these items.

Digital asset mining is recognized over time as the mining operations are performed. A number of factors, including the type of cryptocurrency can affect the nature, amount, timing, and uncertainty of cash flows.

Digital asset mining is measured as the amount of consideration expected to receive in exchange for providing the cryptocurrency.

Payment terms for the Company's cryptocurrency are paid on demand at the time of the exchange. The adoption of the new standard resulted in no modifications to the timing of revenue recognition.

## **Cost of Revenue**

The Company's cost of revenue consists primarily of direct costs of earning bitcoin related to mining operations, including mining pool fees, electric power costs, other utilities, but excluding depreciation and amortization, which are separately stated in the Company's statements of operations.

## **Estimates and Assumptions**

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and reported amounts of revenues and expenditures during the reporting period. Accordingly, actual amounts could differ from these estimates.

## **Cash and Equivalents**

The Company considers all highly liquid investments purchased with an original maturity of three months or less to be cash equivalents. As of December 31, 2023, cash equivalents consist solely of cash held in financial institutions covered by FDIC insured limits.

## **Principles of Consolidation**

The consolidated financial statements include the Company's wholly owned subsidiary Coin Citadel Mining. All significant intercompany transactions are eliminated.

## Cryptocurrencies

Cryptocurrencies, (including bitcoin and bitcoin cash) are included in current assets in the accompanying balance sheets. Cryptocurrencies purchased are recorded at cost and cryptocurrencies awarded to the Company through its mining activities are accounted for in connection with the Company's revenue recognition policy.

## Property and Equipment

Property and equipment, which include digital mining equipment are reported in the financial statements at cost. Property and equipment are depreciated using the straight-line method over a three-year useful life. All equipment was fully depreciated in June 2023.

## Income Taxes

The Company accounts for income taxes under the asset and liability method, in which deferred tax assets and liabilities are recognized for the future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax bases and operating loss and tax credit carry forwards. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in operations in the period that includes the enactment date. A valuation allowance is required to the extent any deferred tax assets may not be realizable.

ASC Topic 740, Income Taxes, ("ASC 740"), also clarifies the accounting for uncertainty in income taxes recognized in an enterprise's financial statements and prescribes a recognition threshold and measurement process for financial statement recognition and measurement of a tax position taken or expected to be taken in a tax return. For those benefits to be recognized, a tax position must be more-likely-than-not to be sustained upon examination by taxing authorities. ASC 740 also provides guidance on derecognition, classification, interest and penalties, accounting in interim period, disclosure and transition. Based on the Company's evaluation, it has been concluded that there are no significant uncertain tax positions requiring recognition in the Company's financial statements. The Company believes that its income tax positions and deductions would be sustained on audit and does not anticipate any adjustments that would result in material changes to its financial position.

## Subsequent Events

Management has evaluated subsequent events through November 13, 2023, the date the financial statements were available to be issued.

## 3. Property and Equipment

Property and equipment consist of the following as of December 31, 2023:

Mining Equipment	41,024
Less: Accumulated Depreciation	(41,024)
Net Book Value	-

#### **4. Notes Payable**

There is a \$60,000 note payable to Thomas Pillsworth who is the current Chief Executive Officer (CEO) for Coin Citadel. The note was issued before Thomas was CEO. This is an unsecured, zero interest bearing note with no maturity date.

#### **5. Leases**

Effective January 1, 2019, the Company accounts for its leases under ASC 842, *Leases* (“ASC 842”). Under this guidance, arrangements meeting the definition of a lease are classified as operating or financing leases and are recorded on the balance sheet as both a right of use asset and lease liability, calculated by discounting fixed lease payments over the lease term at the rate implicit in the lease or the Company’s incremental borrowing rate. Lease liabilities are increased by interest and reduced by payments each period, and the right of use asset is amortized over the lease term. For operating leases, interest on the lease liability and the amortization of the right of use asset result in straight-line rent expense over the lease term.

In calculating the right of use asset and lease liability, the Company elects to combine lease and non-lease components as permitted under ASC 842. The Company excludes short-term leases having initial terms of 12 months or less from the new guidance as an accounting policy election and recognizes rent expense on a straight-line basis over the lease term.

In June 2020, Coin Citadel entered into a 36-month finance lease agreement with 2CRSI for 1,056 Octopus GPU servers for its data center build out for Ethereum mining. This agreement includes an incremental borrowing rate of 3%, and monthly payments of \$158,802.60, plus monthly electricity bills, to begin on completion of installation. As of December 31, 2023 the lease agreement is void. The Company also paid deposits to 2CRSI in the amount of \$60,000, of which collectability is currently indeterminable.

#### **6. Related Party Payable**

The Company owes \$11,190 to an officer for advances to pay business expenses. The amounts due to related party are to be repaid when cash is available to the Company. There is no interest attached to these advances.

#### **7. Risk and Uncertainties**

The general economy has been negatively impacted by the effects of the world-wide coronavirus pandemic. The Corporation is closely monitoring its operations, liquidity, and capital resources and is actively working to minimize the current and future impact of this unprecedented situation. As of the date of issuance of the financial statements, the Corporation has not experienced a major detrimental impact, however, given the current economic climate, there are risks and uncertainties related to this matter.
