NOTE 1. NATURE OF BUSINESS AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Nature of Business

Bagger Dave's Tavern is a casual restaurant and bar concept. Its first restaurant opened in January 2008 in Berkley, Michigan. As of September 24, 2023, there were six Bagger Dave's restaurants in operation: four in Michigan, one in Indiana and one in Ohio. We have worked to create a concept that provides a warm, inviting, and entertaining atmosphere through a friendly and memorable guest experience.

Bagger Dave's specializes in burgers, all-natural lean turkey burgers, hand-cut fries, locally crafted beers on draft, hand-dipped milkshakes, salads, black bean turkey chili, newly introduced pizza with hot oil and much more, delivered in a warm, hip atmosphere with friendly service.

The Company headquarters are located in the offices of BT Brands, Inc. at 405 Main Avenue West, Suite 2D, West Fargo, North Dakota 58078. We can also be found on the Internet at www.baggerdaves.com.

We follow accounting standards set by the Financial Accounting Standards Board ("FASB"). The FASB sets generally accepted accounting principles in the United States of America ("GAAP") that we follow to ensure we consistently report our financial condition, results of operations, and cash flows. References to GAAP issued by the FASB in these footnotes are to the FASB Accounting Standards Codification ("ASC").

Basis of Presentation

These consolidated financial statements include the accounts of Bagger Dave's Burger Tavern, Inc., and its wholly-owned subsidiaries. All intercompany transactions and balances have been eliminated.

Fiscal Year

The Company utilizes a 52 or 53-week accounting period that ends on the last Sunday in December. Fiscal year 2023 is comprised of 53 weeks. The third quarter of 2023 ended on September 24, 2023, and comprised 13 weeks, and the third quarter of 2022 ended on September 25, 2022, and comprised 13 weeks.

Cash and Cash Equivalents

Cash and cash equivalents consist of cash on hand and demand bank deposits. The Company considers all highly liquid investments purchased with three months or less original maturities as cash and cash equivalents. At times throughout the year, the company may maintain cash balances in excess of federally insured limits in the ordinary course of business. Management does not believe the Company is exposed to unusual risks on such deposits.

Accounts Receivable

Accounts receivable consist of amounts due from third-party delivery services of \$32,115 and \$11,449 in the quarters ended September 24, 2023, and September 25, 2022, respectively. No allowance for doubtful accounts was necessary at either date.

Gift Cards

The Company records Bagger Dave's gift card sales as a gift card liability when sold. The gift card liability account is offset when redeemed by recording the transaction as revenue. Michigan law states that gift cards cannot expire, and any post-sale fees cannot be assessed until five years after the date of gift card purchase by the consumer. The Company believes its historical breakage percentage is approximately 15 percent. Furthermore, based on historical redemption patterns, the Company believes that the redemption of gift cards from closed locations is immaterial.

Therefore, gift card liability is adjusted for breakage based on redemptions of gift cards at continuing operations and unredeemed gift cards from closed locations. Breakage income is recognized for this adjustment.

The Company's gift card liability was \$51,028 as of September 24, 2023, and \$54,332 as of September 25, 2022, respectively, and is included in other accrued liabilities on the Consolidated Balance Sheets.

Inventory

Inventory consists mainly of food and beverage products and is accounted for at the lower of cost or market using the first in, first out method of inventory valuation. Cash flows related to inventory sales are classified in net cash used by operating activities in the Consolidated Statements of Cash Flows.

Prepaid Assets and Other Long-Term Assets

Prepaid assets consist principally of prepaid rent, bonus, insurance, and contracts and are recognized ratably as operating expense over the period of future benefit. Other long-term assets consist primarily of security deposits for operating leases and utilities.

Property and Equipment

Property and equipment are recorded at cost. Buildings, including buildings on leased land, are depreciated using the straight-line method over the shorter term of the lease or its estimated useful life, which ranges from 10-39 years. Equipment, furniture and fixtures are depreciated using the straight-line method over the estimated useful lives of the assets, which range from three to seven years. Leasehold improvements, which include the cost of improvements funded by landlord incentives or allowances, are amortized using the straight-line method over the lesser of the term of the lease, with consideration of renewal options if renewals are reasonably assured because failure to renew would result in an economic penalty, or the estimated useful lives of the assets, which is typically five – 15 years. Maintenance and repairs are expensed as incurred. Upon retirement or disposal of assets, the cost and accumulated depreciation are eliminated from the respective accounts and the related gains or losses are credited or charged to earnings.

The Company capitalizes items associated with construction but not yet placed into service, known as construction in progress ("CIP"). Items capitalized include fees associated with the design, build-out, furnishing of the restaurants, leasehold improvements, construction period interest (when applicable), equipment, and furniture and fixtures. Restaurant CIP is not amortized or depreciated until the related assets are placed into service. Items are placed into service according to their asset category when the restaurant is open for service.

Intangible Assets

Amortizable intangible assets consist of trademarks and are stated at cost, less accumulated amortization. The trademarks are amortized on a straight-line basis over the estimated useful life of 15 years.

Liquor licenses, also a component of intangible assets, are deemed to have an indefinite life and are not amortized. Management reviews liquor license assets annually (at year-end) to determine whether carrying values have been impaired. We identify potential impairments for liquor licenses by comparing the fair value with the carrying amount. If the fair value exceeds the carrying amount, the liquor licenses are not impaired. If the carrying amount exceeds the fair value, an impairment loss is recorded for the difference. No impairments were recognized in the fiscal quarters of September 24, 2023, or September 25, 2022.

Treasury stock

Treasury stock purchases are accounted for using the cost method, whereby the entire cost of the acquired stock is recorded as treasury stock. Gains and losses on the subsequent issuance of shares are credited or charged to paid-in capital more than par value using the average-cost method.

Impairment or Disposal of Long-Lived Assets

We review long-lived assets quarterly to determine if triggering events have occurred, which would require a test to determine if the carrying amount of these assets may not be recoverable based on estimated future cash flows. Assets are reviewed at the lowest level, at which cash flows can be identified, which is at the individual restaurant level. In the absence of extraordinary circumstances, restaurants are included in the impairment analysis after being open for two years. We evaluate the recoverability of a restaurant's long-lived assets, including buildings, intangibles, leasehold

improvements, furniture, fixtures, and equipment over the remaining life of the primary asset in the asset group, after considering the potential impact of planned operational improvements, marketing programs, and anticipated changes in the trade area. In determining future cash flows, management makes significant estimates concerning future operating results for each restaurant over the remaining life of the primary asset in the asset group. If assets are impaired, the impairment charge is measured by calculating the amount by which the asset carrying amount exceeds its fair value based on our estimate of discounted future cash flows. The determination of fair value of an asset is also subject to significant judgment. Refer to Note 2 for additional information.

We account for exit or disposal activities, including restaurant closures, in accordance with ASC Topic 420, *Exit or Disposal Cost Obligations*. Such costs include the cost of disposing of the assets as well as other facility-related expenses from previously closed restaurants. These costs are generally expensed as incurred. Additionally, at the date we cease using a property under an operating lease, we record a liability for the net present value of any remaining lease obligations, net of estimated sublease income. Any subsequent adjustments to that liability because of lease termination or changes in estimates of sublease income are recorded in the period incurred. Refer to Note 2 for additional information.

No impairments were recognized in the fiscal quarters ending September 24, 2023, or September 25, 2022.

Deferred Gains

Deferred gains on the sale-leaseback transaction described in Note 3 are recognized as a reduction of rent expense over the life of the related operating lease agreements.

Revenue Recognition

Revenues from food and beverage sales are recognized and generally collected at the point of sale. All sales taxes are presented on a net basis and are excluded from revenue.

Advertising

Advertising expenses of \$0.017 million and \$0.016 million are included in general and administrative expenses in the Consolidated Statements of Operations for the fiscal quarters ended September 24, 2023, and September 25, 2022, respectively.

Pre-opening Costs

Pre-opening costs are those costs associated with opening new restaurants and will vary based on the number of new locations opening and under construction. The Company also reclassifies labor costs that exceed the historical average for the first three months of restaurant operations that are attributable to training. These costs are expensed as incurred.

Income Taxes

Deferred income tax assets and liabilities are computed for differences between the financial statement and tax bases of assets and liabilities that will result in taxable or deductible amounts in the future based on enacted tax laws and rates applicable to the periods in which the differences are expected to affect taxable income. Valuation allowances are established when necessary to reduce deferred tax assets to the amount expected to be realized. Income tax expense (income) is the tax payable or refundable for the period plus or minus the change during the period in deferred tax assets and liabilities.

The Company applies the provisions of FASB ASC 740, *Income Taxes* ("ASC 740") regarding the accounting for uncertainty in income taxes. The Company classifies all interest and penalties as income tax expense. As of September 24, 2023, and September 25, 2022, there are no accrued interest amounts or penalties related to uncertain tax positions.

Use of Estimates

The preparation of consolidated financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, disclosure of contingent assets

and liabilities at the date of the consolidated financial statements, and the reported amounts of income and expenses during the reporting period. Actual results could differ from those estimates.

Recent Accounting Pronouncements

We have reviewed significant newly issued accounting pronouncements and concluded that they either are not applicable to our operations or that no material effect is expected on our consolidated financial statements because of future adoption.

NOTE 2. IMPAIRMENTS, DISPOSALS AND EXIT COSTS

Based on impairment indicators that existed on September 24, 2023, the Company performed an impairment analysis on its long-lived assets subject to amortization. For the three months ending September 24, 2023, \$0 million of long-lived assets were deemed impaired. Impairment charges are recorded to the extent that the carrying amount of the assets is not considered recoverable based on the estimated future cash flows of the location. The impairment charges are included in impairment and loss on asset disposals on the Consolidated Statements of Operations.

We are currently monitoring the valuation of long-lived assets at several restaurants and have developed plans to improve operating results. As we periodically refine our estimated future operating results, changes in our estimates and assumptions may cause us to realize impairment charges that could be material in the future.

Sale-leaseback transactions

On October 6, 2014, the Company entered into a sale-leaseback agreement for \$8.9 million with a third-party Real Estate Investment Trust ("REIT"). The arrangement included the sale of real estate on which twelve of Bagger Dave's locations operate. In the fourth quarter of 2014, we closed the sale of five of the twelve properties, with total proceeds of \$6.9 million. We closed the sale of the remaining property in June 2015 with total proceeds of \$2.0 million. Under the terms of each sale-leaseback transaction, we transferred title of the real property to the purchaser after final inspection and, in turn, entered separate leases with the purchaser having a 15-year basic operating lease term plus four separate 5-year renewal options. Certain of the sale-leaseback arrangements resulted in a gain which has been deferred. As of September 24, 2023, \$0.03 million of the deferred gain was recorded in Other accrued liabilities and \$0.16 million of the deferred gain was recorded in Long-Term liabilities on the Consolidated Balance Sheets. As of September 25, 2022, \$0.03 million of the deferred gain was recorded in Other accrued liabilities and \$0.19 million of the deferred gain was recorded in Long-Term liabilities on the Consolidated Balance Sheets. The gains will be recognized into income as an offset to rent expense over the life of the related lease agreements.

The valuation allowance was recorded due to our history of losses in recent years.

NOTE 8. OPERATING LEASES

The Company's lease terms generally include renewal options and frequently require us to pay a proportionate share of real estate taxes, insurance, common area maintenance, and other operating costs. Some restaurant leases provide for contingent rental payments based on sales thresholds.

Total rent expenses were \$0.13 million and \$0.13 million for the fiscal quarters ended September 24, 2023, and September 25, 2022, respectively.

Scheduled future minimum lease payments for each of the next five years and thereafter for non-cancelable operating leases for existing restaurants with initial or remaining lease terms more than one year on September 24, 2023, are summarized as follows:

The cumulative effect adjustment increased retained earnings by \$314,752.

The new lease accounting standard provides for establishing a Right of Use asset and a Lease Liability to reflect the present value of future lease payments. The discount rate used approximates the Company's cost of capital as lessor's cost of capital was not available. The weighted average discount rate applied is 7 percent. Both the Right of Use asset and the Lease liability had an original balance of \$7,705,495. The Right of Use asset is included in the Property and Equipment section of the balance sheet, and the lease liability is included in current and long-term liabilities. Amortization of the Right of Use Asset and the Lease Liability was \$93,211 and \$86,866 for the three months ended September 24, 2023, and September 25, 2022, respectively. The weighted average remaining lease term is approximately 7.75 years as of September 24, 2023.

NOTE 9. COMMITMENTS AND CONTINGENCIES

Bagger Dave's has the option to make an annual discretionary contribution to the 401(k) plan. No match was made during the twelve months ended September 24, 2023.

The Company is subject to ordinary and routine legal proceedings, as well as demands, claims and threatened litigation, which arise in the ordinary course of its business. The ultimate outcome of any litigation is uncertain. We have insured and continue to insure against most of these types of claims. A judgment on any claim not covered by or more than our insurance coverage could materially adversely affect our financial condition or results of operations.
