4. Issuer's Business, Products and Services

The purpose of this section is to provide a clear description of the issuer's current operations. Ensure that these descriptions are updated on the Company's Profile on www.OTCMarkets.com.

A. Summarize the issuer's business operations (If the issuer does not have current operations, state "no operations")

Blackwell 3D Construction owns certain innovative 3D house printing technology (the "Technology") assets aimed at revolutionizing the construction industry. Our goal is to specialize in printing fully functional and livable residential housing and small-scale apartment buildings in a fraction of the time and cost compared to traditional construction methods. Initially, our focus will be on launching in the United States and in Southeast Asia. Our 3D house printing process involves using a large-scale printer and a specialized concrete mixture to create the structural components of the house. The printing process

is highly automated, allowing us to create intricate designs and details with precision. Blackwell's unique approach to construction has several advantages.

1. Our 3D printed houses are much faster to build than traditional houses, taking only a few weeks to complete;
2. Our process is much more environmentally friendly, producing less waste and using less energy; and,
3. Our construction costs are significantly lower, allowing us to offer affordable housing solutions.

We cater to a diverse range of clients, including individuals, businesses, and governments, who are looking for a modern and cost-effective solution to their construction needs. Our experienced team can design customized houses that meet our client's specific requirements and preferences. As we implement our business plan, we intend to constantly innovate and improve our Technology to provide even better solutions for our clients.

B. List any subsidiaries, parent company, or affiliated companies.

None.

C. Describe the issuers' principal products or services.

BLACKWELL 3D CONSTRUCTION CORP
NOTES TO THE UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS
AUGUST 31, 2024

NOTE 1 – NATURE OF BUSINESS AND OPERATIONS

Organization

Blackwell 3D Construction Corp (FKA Power Americas Resources Group Ltd.) (the “Company”) was incorporated in the State of Florida on May 11, 2010 under the name Benefit Solutions Outsourcing Corp.

The Company was engaged in the marketing of a craft beer which was brewed, distributed, and marketed solely in Quebec, Canada until the change of control which occurred in March 2019, at which time it ceased business operations.

On February 11, 2019, pursuant to a Stock Purchase Agreement, dated November 21, 2017, by and among Stephan Pilon, Pol Brisset (the “Selling Stockholders”), and Redstone Ventures, LTD (the “Purchaser”), the Purchaser purchased an aggregate of 151,220 (Post split) shares of common stock of Brisset Beer International, Inc., a Nevada corporation (the “Company”), from the Selling Stockholders for \$0.119 per share, or an aggregate purchase price of \$18,000. The 151,220 shares of common stock (Post split) purchase by the Purchaser from the Selling Stockholders represent approximately 76.66% of the outstanding 789 (Post split) shares of common stock of the Company and constitute a change in control of the Company. The source of funds was working capital of the Purchaser. Mr. S. Polishetty has voting and dispositive control over the Purchaser.

On September 13, 2022, the Company received notice of resignation from Kevin G. Malone from the positions of President, Chief Executive Officer, Treasurer, Chief Financial Officer, Secretary and Sole-Director of the Corporation and appointed Mark Croskery to serve as President, Chief Executive Officer, Treasurer, Chief Financial Officer, and Director of the Corporation.

On October 12, 2023, the Company and Ramasamy Balasubramanian entered into that certain Unwind Agreement and Mutual Release for the purpose of unwinding, and rendering void, the Asset Purchase executed by and between the Company and Ramasamy on October 19, 2022. The Parties have mutually and voluntarily agreed to unwind the transaction contemplated by the Original APA. Accordingly, the Company shall return all the Assets acquired per the Original APA once Ramasamy has cancelled, and returned to the Company’s treasury, the 160,000 restricted shares of the Company’s common stock he received per the terms of the Original APA. Additionally, effective as of October 12, 2023, Ramasamy resigned as Chief Financial Officer, Treasurer and Chairman of the Board of Directors of the Company.

On or about October 17, 2023, the Company's Board of Directors, receiving the majority vote of the Company's shareholders of approximately 74.91%, approved the following: (i) Changing the corporate name from Power Americas Resource Group Ltd. to Blackwell 3D Construction Corp.; (ii) A change in the Company's OTC trading symbol from PARG to BDCC or, if unavailable, to BLCC or BCCP and, (iii) A One for Two Hundred Fifty (1-for-250) Reverse Stock Split of the issued and outstanding shares of Common Stock of the Company whereby every 250 shares of the Company's issued and outstanding common stock on the Payment Date shall automatically convert into one new share of common stock. The financial statements have been retroactively restated to reflect the stock split.

NOTE 2 – GOING CONCERN

The accompanying financial statements have been prepared in US dollars and in accordance with accounting principles generally accepted in the United States ("GAAP") on a going concern basis, which contemplates the realization of assets and the satisfaction of liabilities and commitments in the normal course of business. During the three months ended August 31, 2024, the Company has incurred net losses of \$823,227, accumulated deficits of \$10,056,041, and used cash in operations of \$123,344. These conditions raise substantial doubt about the Company's ability to continue as a going concern.

Our current operations have been funded entirely from capital raised from our private offering of securities as well as additional funding received through the issuance of convertible notes and stock issuances. We are entirely dependent on our ability to attract and receive additional funding from either the sale of securities or outside sources such as private investment or a strategic partner. We currently have no firm agreements or arrangements with respect to any such financing and there can be no assurance that any needed funds will be available to us on acceptable terms or at all. The inability to obtain sufficient funding of our operations in the future will restrict our ability to grow and reduce our ability to continue to conduct business operations. Our failure to raise additional funds will adversely affect our business operations, and may require us to suspend our operations, which in turn may result in a loss to the purchasers of our common stock. If we are unable to obtain necessary financing, we will likely be required to curtail our development plans which could cause us to become dormant. Any additional equity financing may involve substantial dilution to our then existing stockholders.

The Company's ability to continue as a going concern is dependent on its ability to achieve profitable operations and to generate sufficient cash flow from financing and operations to meet its obligations as they become payable. Management may seek additional capital through a private placement and public offering of its common stock. Although there are no assurances that management's plans will be realized, management believes that the Company will be able to continue operations in the future.

NOTE 3 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation and Principles of Consolidation

The accompanying consolidated financial statements have been prepared in accordance with generally accepted accounting principles in the United States (GAAP) and applicable rules and regulations of the Securities and Exchange Commission (SEC) regarding interim financial reporting. Certain information and note disclosures normally included in the consolidated financial statements prepared in accordance with GAAP have been condensed or omitted pursuant to such rules and regulations.

The accompanying consolidated financial statements represent the results of operations, financial position and cash flows of Power Americas, Inc. include the financial statements of the Company, and its 100% owned subsidiaries. All inter-company balances and transactions have been eliminated.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ significantly from those estimates.

Cash and Cash Equivalents

For purposes of the statement of cash flows, the Company considers all highly liquid debt instruments purchased with a maturity of three months or less to be cash equivalents to the extent the funds are not being held for investment purposes. The cash account that is held in Canadian Dollar, and foreign exchange transaction gain (loss) resulting from fluctuations in the currency exchange rate between U.S. dollar and Canadian dollar has been recorded in the statements of operations. Translation gain (loss) is reported as a component of other accumulated comprehensive income, which was nil during the nine months ended February 29, 2024 and February 28, 2022.

Stock-based compensation

The Company follows ASC 718-10, “Stock Compensation”, which addresses the accounting for transactions in which an entity exchanges its equity instruments for goods or services, with a primary focus on transactions in which an entity obtains employee services in share-based payment transactions. ASC 718-10 is a revision to SFAS No. 123, “Accounting for Stock-Based Compensation,” and supersedes Accounting Principles Board (“APB”) Opinion No. 25, “Accounting for Stock Issued to Employees,” and its related implementation guidance. ASC 718- 10 requires measurement of the cost of employee services received in exchange for an award of equity instruments based on the grant-date fair value of the award (with limited exceptions).

Incremental compensation costs arising from subsequent modifications of awards after the grant date must be recognized.

Concentration of Credit Risk

The Company has no off-balance-sheet concentrations of credit risk such as foreign exchange contracts, options contracts or other foreign hedging arrangements. The Company maintains all of its cash balances with two financial institutions in the form of demand deposits.

Earnings per share

The Company follows ASC Topic 260 to account for the earnings per share. Basic earnings per common share ("EPS") calculations are determined by dividing net income by the weighted average number of shares of common stock outstanding during the year. Diluted earnings per common share calculations are determined by dividing net income by the weighted average number of common shares and dilutive common share equivalents outstanding. During periods of net loss, all common stock equivalents are excluded from the diluted EPS calculation because they are antidilutive. There were no potential equivalent shares of common stock as of February 29, 2024.

Revenue Recognition

The Company recognizes revenue from its contracts with customers in accordance with *ASC 606 – Revenue from Contracts with Customers*. The Company recognizes revenues when satisfying the performance obligation of the associated contract that reflects the consideration expected to be received based on the terms of the contract.

Revenue related to contracts with customers is evaluated utilizing the following steps: (i) Identify the contract, or contracts, with a customer; (ii) Identify the performance obligations in the contract; (iii) Determine the transaction price; (iv) Allocate the transaction price to the performance obligations in the contract; (v) Recognize revenue when the Company satisfies a performance obligation.

Fair Value of Financial Instruments

The Company measures fair value in accordance with ASC 820 - Fair Value Measurements. ASC 820 defines fair value and establishes a three-level valuation hierarchy for disclosures of fair value measurements. ASC 820 establishes a framework for measuring fair value in generally accepted accounting principles, and expands disclosures about fair value measurements. To increase consistency and comparability in fair value measurements and related disclosures, ASC 820 establishes a fair value hierarchy which prioritizes the inputs to valuation techniques used to measure fair value into three (3) broad levels. The fair value hierarchy gives the highest priority to quoted prices (unadjusted) in active markets for identical assets or liabilities and the lowest priority to unobservable inputs. The three (3) levels of fair value hierarchy defined by ASC 820 are:

Level 1 - Inputs are unadjusted, quoted prices in active markets for identical assets or liabilities at the measurement date.

Level 2 - Inputs (other than quoted market prices included in Level 1) are either directly or indirectly observable for the asset or liability through correlation with market data at the measurement date and for the duration of the instrument's anticipated life.

Level 3 - Inputs reflect management's best estimate of what market participants would use in pricing the asset or liability at the measurement date. Consideration is given to the risk inherent in the valuation technique and the risk inherent in the inputs to the model. Valuation of instruments includes unobservable inputs to the valuation methodology that are significant to the measurement of fair value of assets or liabilities.

As defined by ASC 820, the fair value of a financial instrument is the amount at which the instrument could be exchanged in a current transaction between willing parties, other than in a forced or liquidation sale, which was further clarified as the price that would be received to sell an asset or paid to transfer a liability ("an exit price") in an orderly transaction between market participants at the measurement date

The reported fair values for financial instruments that use Level 2 and Level 3 inputs to determine fair value are based on a variety of factors and assumptions. Accordingly, certain fair values may not represent actual values of the Company's financial instruments that could have been realized as of August 31, 2024 or that will be recognized in the future, and do not include expenses that could be incurred in an actual settlement. The carrying amounts of the Company's financial assets and liabilities, such as cash, accounts receivable, receivables from related parties, prepaid expenses and other, accounts payable, accrued liabilities, and related party and third-party notes payables approximate fair value due to their relatively short maturities. The Company's notes payable to related parties approximates the fair value of such instrument based upon management's best estimate of terms that would be available to the Company for similar financial arrangements at August 31, 2024 and May 31, 2024.

Recent Accounting Pronouncements

Management has considered all recent accounting pronouncements issued. The Company's management believes that these recent pronouncements will not have a material effect on the Company's financial statements.
