Security Description:

The goal of this section is to provide a clear understanding of the material rights and privileges of the securities issued by the company. Please provide the below information for each class of the company's equity securities, as applicable:

1. For common equity, describe any dividend, voting and preemption rights.

The following summary description of the common stock of Osyka Corporation ("we", "our" or "us") is based on the provisions of our articles of incorporation as amended ("Articles of Incorporation"), as well as our bylaws ("Bylaws"), and the applicable provisions of the Nevada Revised Statutes ("Nevada Law"). This information is qualified entirely by reference to the applicable provisions of our Articles of Incorporation, Bylaws and Nevada Law.

Voting Rights

Holders of our common stock are entitled to one vote per share in the election of directors and on all other matters on which shareholders are entitled or permitted to vote. Holders of our common stock are not entitled to cumulative voting rights.

Dividend Rights

Subject to the terms of any then outstanding series of preferred stock, the holders of our common stock are entitled to dividends in the amounts and at times as may be declared by our board of directors out of funds legally available therefor.

Liquidation Rights

Upon liquidation or dissolution, holders of our common stock are entitled to share ratably in all net assets available, if any, for distribution to shareholders after we have paid, or provided for payment of, all of our debts and liabilities, and after payment of any liquidation preferences to holders of any then outstanding shares of preferred stock.

Other Matters

Holders of our common stock have no redemption, conversion or preemptive rights. There are no sinking fund provisions applicable to our common stock. The rights, preferences and privileges of the holders of our common stock are subject to the rights of the holders of shares of any series of outstanding preferred stock and preferred stock that we may issue in the future.

4) Issuer's Business, Products and Services

The purpose of this section is to provide a clear description of the issuer's current operations.

A. Summarize the issuer's business operations (If the issuer does not have current operations, state "no operations")

Osyka Corporation (the "Company") was incorporated in the State of Nevada on September 26, 1997. For years, the Company focused on oil and gas exploration, development, and production, primarily in Mississippi, Louisiana, and Texas. In 2018, the company shifted to gold exploration in California with two projects, Goler Gulch and Rand Placer, located northwest of Randsburg in Kern County, California. These projects were terminated in August 2024.

In August 2024, the company transitioned to become a U.S.-based FinTech company, facilitating global payments through its "All-in-One Platform" that integrates advanced technologies from leading suppliers. Osyka now focuses on a wide range of products within the merchant services and payment facilitator sectors, delivered through its subsidiaries and technology partnerships. The company offers a comprehensive suite of services, including cloud-based multi-channel commerce solutions for small and medium-sized businesses, electronic payment processing, remittances, eWallet solutions, streamlined international payments, and card payment switches. Committed to providing robust business solutions to retailers and merchants both in the United States and globally, Osyka operates gateways and payment platforms across Europe, the Middle East, Africa, North America, the Asia Pacific, and Latin America.

On September 23, 2024, the Company entered into an Intellectual Property Assignment Agreement with Adam Zion Elisha, the Company's President, and Director, to acquire proprietary technology related to the LydPay Payment CRM platform. This strategic acquisition is expected to enhance the Company's capabilities in the FinTech sector, broadening its range of payment processing solutions and service offerings. Management believes that this intellectual property will support future revenue growth and operational efficiencies.

B. List any subsidiaries, parent company, or affiliated companies.

None.

C. Describe the issuers' principal products or services.

The Company is a U.S.-based FinTech company that facilitates US and global payments through its partners Platforms,' integrating advanced technologies from leading providers. The Company operates as a Payment Service Provider (PSP) and Merchant Services Provider (MSP), initially focusing on strategic partnerships to expand its reach. The Company specializes in merchant services and

payment facilitation, offering a diverse range of financial solutions through its subsidiaries and technology alliances. Its comprehensive suite of services includes cloud-based multi-channel commerce solutions for small and medium-sized businesses, electronic payment processing and more. Additionally, The Company is actively developing strong exclusive domestic and international banking relationships to enhance its payment network and service offerings.

5) Issuer's Facilities

The goal of this section is to provide investors with a clear understanding of all assets, properties or facilities owned, used or leased by the issuer and the extent in which the facilities are utilized.

In responding to this item, please clearly describe the assets, properties or facilities of the issuer. Describe the location of office space, data centers, principal plants, and other property of the issuer and describe the condition of the properties. Specify if the assets, properties, or facilities are owned or leased and the terms of their leases. If the issuer does not have complete ownership or control of the property, describe the limitations on the ownership.

The Company presently rents a limited amount of office space in Boca Raton, Florida USA. In addition to this, the Company utilizes remote offices and data centers strategically located in various regions to efficiently serve its growing client base. These remote setups allow the Company to remain agile, reduce overhead costs, and ensure continuous service delivery.

6) All Officers, Directors, and Control Persons of the Company

Using the table below, please provide information, as of the period end date of this report, regarding all officers and directors of the company, or any person that performs a similar function, regardless of the number of shares they own.

OSYKA CORPORATION
NOTES TO FINANCIAL STATEMENTS
MARCH 31, 2025
(Unaudited)

NOTE 1 - ORGANIZATION AND OPERATIONS

Osyka Corporation (the "Company") was incorporated in the State of Nevada on September 26, 1997. For years, the Company focused on oil and gas exploration, development, and production, primarily in Mississippi, Louisiana, and Texas. In 2018, the company shifted to gold exploration in California with two projects, Goler Gulch and Rand Placer, located northwest of Randsburg in Kern County, California. These projects were terminated on August 21, 2024.

In August 2024, the Company transitioned to become a U.S.-based FinTech company, facilitating US and Global payments through its strategic partners relationship platforms" that integrates advanced technologies from leading payments suppliers. The Company now focuses on a wide range of products within the Payments Platforms industries, starting with merchant services and payment facilitator sectors, delivered through its subsidiaries and technology partnerships. The Company offers a comprehensive suite of services, including cloud-based multi-channel commerce solutions for small and medium-sized businesses, electronic payment processing, we are working on remittances and eWallet solutions, streamlined international payments, and card payment switches. Committed to providing robust business solutions with one easy API to developers, Payment service providers, retailers and merchants both in the United States and globally. The Company operates two 3RD gateways and payment platforms across the USA, Europe, the Middle East, Africa, Asia Pacific, and Latin America.

On September 23, 2024, the Company entered into an Intellectual Property Assignment Agreement with Adam Zion Elisha, the Company's President and Director, to acquire proprietary technology related to the LydPay Payment CRM platform. This strategic acquisition is expected to enhance the Company's capabilities in the FinTech sector, broadening its range of payment processing solutions and service offerings. Management believes that this intellectual property will support future revenue growth and operational efficiencies.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of presentation

The Company's financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America ("U.S. GMP"). The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Management further acknowledges that it is solely responsible for adopting sound accounting practices, establishing and maintaining a system of internal accounting control and preventing and detecting fraud. The Company's system of internal accounting control is designed to assure, among other items, that 1) recorded transactions are valid; 2) valid transactions are recorded; and transactions are recorded in the proper period in a timely manner to produce financial statements which present fairly the financial condition, results of operations and cash flows of the Company for the respective periods being presented.

Use of estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reported period.

The Company's significant estimates include income taxes provision and valuation allowance of deferred tax assets; the fair value of financial instruments; the carrying value and recoverability of long-lived assets, including the values assigned to an estimated useful lives of computer equipment; and the assumption that the Company will continue as a going concern. Those significant accounting estimates or assumptions bear the risk of change due to the fact that there are uncertainties attached to those estimates or assumptions, and certain estimates or assumptions are difficult to measure or value. Management bases its

estimates on historical experience and on various assumptions that are believed to be reasonable under the circumstances, the results of which form the basis for making judgments about the carrying values of assets and liabilities that are not readily apparent from other sources.

Management regularly reviews its estimates utilizing currently available information, changes in facts and circumstances, historical experience and reasonable assumptions. After such reviews, and if deemed appropriate, those estimates are adjusted accordingly. Actual results could differ from those estimates.

Carrying value, recoverability and impairment of long-lived assets

The Company has adopted paragraph 360-10-35-17 of the FASB Accounting Standards Codification for its long-lived assets. The Company's long-lived assets, which include computer equipment are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable.

The Company assesses the recoverability of its long-lived assets by comparing the projected undiscounted net cash flows associated with the related long-lived asset or group of long-lived assets over their remaining estimated useful lives against their respective carrying amounts. Impairment, if any, is based on the excess of the carrying amount over the fair value of those assets. Fair value is generally determined using the asset's expected future discounted cash flows or market value, if readily determinable. If long-lived assets are determined to be recoverable, but the newly determined remaining estimated useful lives are shorter than originally estimated, the net book values of the long-lived assets are depreciated over the newly determined remaining estimated useful lives.

The Company considers the following to be some examples of important indicators that may trigger an impairment review: (i) significant under-performance or losses of assets relative to expected historical or projected future operating results; (ii) significant changes in the manner or use of assets or in the Company's overall strategy with respect to the manner or use of the acquired assets or changes in the Company's overall business strategy; (iii) significant negative industry or economic trends; (iv) increased competitive pressures; (v) a significant decline in the Company's stock price for a sustained period of time; and (vi) regulatory changes. The Company evaluates acquired assets for potential impairment indicators at least annually and more frequently upon the occurrence of such events.

The impairment charges, if any, is included in operating expenses in the accompanying statements of operations.

Intangible Assets and Amortization

Intangible assets are recorded at cost and primarily include proprietary technology such as the LydPay Payment CRM platform. These assets are amortized on a straight-line basis over their estimated useful lives. The Company periodically evaluates the reasonableness of the useful lives and assesses the assets for impairment when events or changes in circumstances indicate potential recoverability issues. If impairment is identified, it is recognized as a charge to the statement of operations.

Amortization Period: The LydPay Payment CRM platform is amortized over 5 years, with amortization expense recorded in the statement of operations.

Impairment of Intangible Assets: Impairment evaluations involve various valuation techniques, including discounted cash flow analysis, to determine fair value. Any impairment identified is recorded as an expense in the statements of operations.

Cash equivalents

The Company considers all highly liquid investments with a maturity of three months or less when purchased to be cash equivalents.

Related parties

The Company follows subtopic 850-10 of the FASB Accounting Standards Codification for the identification of related parties and disclosure of related party transactions.

Pursuant to Section 850-10-20 the Related parties include a) affiliates of the Company; b) Entities for which investments in their equity securities would be required, absent the election of the fair value option under the Fair Value Option Subsection of Section

825-10-15, to be accounted for by the equity method by the investing entity; c) trusts for the benefit of employees, such as pension and profit-sharing trusts that are managed by or under the trusteeship of management; d) principal owners of the Company; e) management of the Company; f) other parties with which the Company may deal if one party controls or can significantly influence the management or operating policies of the other to an extent that one of the transacting parties might be prevented from fully pursuing its own separate interests; and g) Other parties that can significantly influence the management or operating policies of the transacting parties or that have an ownership interest in one of the transacting parties and can significantly influence the other to an extent that one or more of the transacting parties might be prevented from fully pursuing its own separate interests.

The financial statements shall include disclosures of material related party transactions, other than compensation arrangements, expense allowances, and other similar items in the ordinary course of business. However, disclosure of transactions that are eliminated in the preparation of combined financial statements is not required in those statements. The disclosures shall include: a. the nature of the relationship(s) involved b. description of the transactions, including transactions to which no amounts or nominal amounts were ascribed, for each of the periods for which income statements are presented, and such other information deemed necessary to an understanding of the effects of the transactions on the financial statements; c. the dollar amounts of transactions for each of the periods for which income statements are presented and the effects of any change in the method of establishing the terms from that used in the preceding period; amounts due from or to related parties as of the date of each balance sheet presented and, if not otherwise apparent, the terms and manner of settlement.

Commitments and contingencies

The Company follows subtopic 450-20 of the FASB Accounting Standards Codification to report accounting for contingencies. Certain conditions may exist as of the date the financial statements are issued, which may result in a loss to the Company but which will only be resolved when one or more future events occur or fail to occur. The Company assesses such contingent liabilities, and such assessment inherently involves an exercise of judgment. In assessing loss contingencies related to legal proceedings that are pending against the Company or unasserted claims that may result in such proceedings, the Company evaluates the perceived merits of any legal proceedings or unasserted claims as well as the perceived merits of the amount of relief sought or expected to be sought therein.

If the assessment of a contingency indicates that it is probable that a material loss has been incurred and the amount of the liability can be estimated, then the estimated liability would be accrued in the Company's financial statements. If the assessment indicates that a potential material loss contingency is not probable but is reasonably possible, or is probable but cannot be estimated, then the nature of the contingent liability, and an estimate of the range of possible losses, if determinable and material, would be disclosed.

Loss contingencies considered remote are generally not disclosed unless they involve guarantees, in which case the guarantees would be disclosed. Management does not believe, based upon information available at this time, that these matters will have a material adverse effect on the Company's financial position, results of operations or cash flows. However, there is no assurance that such matters will not materially and adversely affect the Company's business, financial position, and results of operations or cash flows.

Revenue recognition

The Company follows paragraph 605-10-S99-1 of the FASB Accounting Standards Codification for revenue recognition. The Company will recognize revenue when it is realized or realizable and earned. The Company considers revenue realized or realizable and earned when all of the following criteria are met: (i) persuasive evidence of an arrangement exists, (ii) the product has been shipped or the services have been rendered to the customer, (iii) the sales price is fixed or determinable, and (iv) collectability is reasonably assured.

Income Tax Provisions

The Company follows Section 740-10-30 of the FASS Accounting Standards Codification, which requires recognition of deferred tax assets and liabilities for the expected future tax consequences of events that have been included in the financial statements or tax returns. Under this method, deferred tax assets and liabilities are based on the differences between the financial statement and tax bases of assets and liabilities using enacted tax rates in effect for the fiscal year in which the differences are expected to reverse. Deferred tax assets are reduced by a valuation allowance to the extent management concludes it is more

likely than not that the assets will not be realized. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the fiscal years in which those temporary differences are expected to be recovered or settled. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in the Statements of Income and Comprehensive Income in the period that includes the enactment date.

The Company adopted section 740-10-25 of the FASB Accounting Standards Codification ("Section 740-10-25") with regards to uncertainty income taxes. Section 740-10-25 addresses the determination of whether tax benefits claimed or expected to be claimed on a tax return should be recorded in the financial statements. Under Section 740-10-25, the Company may recognize the tax benefit from an uncertain tax position only if it is more likely than not that the tax position will be sustained on examination by the taxing authorities, based on the technical merits of the position. The tax benefits recognized in the financial statements from such a position should be measured based on the largest benefit that has a greater than fifty percent (50%) likelihood of being realized upon ultimate settlement. Section 740-10-25 also provides guidance on de-recognition, classification, interest and penalties on income taxes, accounting in interim periods and requires increased disclosures.

Net income (loss) per common share

Net income (loss) per common share is computed pursuant to section 260-10-45 of the FASS Accounting Standards Codification. Basic net income (loss) per common share is computed by dividing net income (loss) by the weighted average number of shares of common stock outstanding during the period. Diluted net income (loss) per common share is computed by dividing net income (loss) by the weighted average number of shares of common stock and potentially outstanding shares of common stock during the period. The weighted average number of common shares outstanding and potentially outstanding common shares assumes that the Company incorporated as of the beginning of the first period presented.

Cash flows reporting

The Company adopted paragraph 230-10-45-24 of the FASB Accounting Standards Codification for cash flows reporting, classifies cash receipts and payments according to whether they stem from operating, investing, or financing activities and provides definitions of each category, and uses the indirect or reconciliation method ("Indirect method") as defined by paragraph 230-10-45-25 of the FASB Accounting Standards Codification to report net cash flow from operating activities by adjusting net income to reconcile it to net cash flow from operating activities by removing the effects of (a) all deferrals of past operating cash receipts and payments and all accruals of expected future operating cash receipts and payments and (b) all items that are included in net income that do not affect operating cash receipts and payments. The Company reports the reporting currency equivalent of foreign currency cash flows, using the current exchange rate at the time of the cash flows and the effect of exchange rate changes on cash held in foreign currencies is reported as a separate item in the reconciliation of beginning and ending balances of cash and cash equivalents and separately provides information about investing and financing activities not resulting in cash receipts or payments in the period pursuant to paragraph 830-230-45-1 of the FASS Accounting Standards Codification.

NOTE 3 - GOING CONCERN

The accompanying financial statements have been prepared assuming that the Company will continue as a going concern, which contemplates continuity of operations, realization of assets, and liquidation of liabilities in the normal course of business.

As reflected in the accompanying financial statements, the Company had an accumulated deficit at March 31, 2025 of \$2,978,068. This factor, among others, raises substantial doubt about the Company's ability to continue as a going concern.

While the Company is attempting to commence operations and generate revenues, the Company's cash position may not be significant enough to support the Company's daily operations. Management intends to raise additional funds by way of a public or private offering. Management believes that the actions presently being taken to further implement its business plan and generate revenues provide the opportunity for the Company to continue as a going concern. While the Company believes in the viability of its strategy to generate revenues and in its ability to raise additional funds, there can be no assurances to that effect. The ability of the Company to continue as a going concern is dependent upon the Company's ability to further implement its business plan and generate revenues.

The financial statements do not include any adjustments that might be necessary if the Company is unable to continue as a going concern.

NOTE 4 – INTELLECTUAL PROPERTY: LYDPAY PAYMENT CRM

On September 23, 2024, the Company entered into an Intellectual Property Assignment Agreement with Adam Zion Elisha, the Company's President and Director, to acquire proprietary technology related to the LydPay Payment CRM platform. The total value of the intellectual property was recorded at \$1,823,000. This amount was recognized as an intangible asset on the Company's balance sheet as of March 31, 2025, with a corresponding related party payable. In accordance with the terms of the Intellectual Property Assignment Agreement, this amount is non-interest bearing and payable on demand.

Amortization

The intellectual property associated with the LydPay Payment CRM platform is being amortized over a useful life of 5 years, beginning on September 23, 2024. The amortization expense for the quarter ended March 31, 2025 is \$91,150, recognizing the straight-line amortization of the asset over the remaining useful life.

	Useful Life (years)	March 31, 2025	December 31, 2024
Long term asset	5	\$ 1,823,000	\$ 1,823,000
Less: Accumulated amortization		(205,594)	(114,444)

NOTE 6 - STOCKHOLDERS' EQUITY

Shares Issued

During the three months ended March 31, 2025, the Company issued no shares of capital stock.

Shares authorized

As of March 31, 2025, the Company was authorized to issue 599,000,000 shares of common stock with a par value of \$0.001 per share.

As of March 31, 2025, there were 439,161,187 shares of common stock issued and outstanding.

As of March 31, 2025, the Company was authorized to issue 1,000,000 shares of preferred stock with a par value of \$0.001 per share.

As of March 31, 2025, there were 1,000 shares of Series A preferred stock issued and outstanding.

Termination of Option Agreement and Cancellation of Stock Payable

Pursuant to an Option Agreement dated November 19, 2019, the Company was obligated to issue 500,000 shares of Series B Preferred Stock to six members of the project vendor. The Series B Preferred Stock Designation had not yet been filed with the

Nevada Secretary of State. This obligation was carried on the balance sheet as a \$500,000 stock payable, and the optioned mining claims were carried as a \$500,000 asset.

On August 21, 2024, the Company entered into a Termination Agreement to cancel the Option Agreement related to the mining claims. As a result, the obligation to issue the 500,000 shares of Series B Preferred Stock has been cancelled, and the \$500,000 stock payable was written off. Concurrently, the \$500,000 asset associated with the mining claims was also written off. This termination has resulted in no further obligations for the Company regarding the \$500,000 mining claims or the issuance of Series B Preferred Stock. Additionally, \$125,000 was expensed as a loss on mining claims.

NOTE 7 – SUBSEQUENT EVENTS

The Company has analyzed its operations subsequent to March 31, 2025, to the date these financial statements were available to be issued and has determined that it does not have any material subsequent events to disclose in these financial statements.
