7) Legal/Disciplinary History

A. Identify and provide a brief explanation as to whether any of the persons or entities listed above in Section 6 have, in the past 10 years:

1. Been the subject of an indictment or conviction in a criminal proceeding or plea agreement or named as a defendant in a pending criminal proceeding (excluding minor traffic violations);

None

2. Been the subject of the entry of an order, judgment, or decree, not subsequently reversed, suspended or vacated, by a court of competent jurisdiction that permanently or temporarily enjoined, barred, suspended or otherwise limited such person's involvement in any type of business, securities, commodities, financial- or investment-related, insurance or banking activities;

None

3. Been the subject of a finding, disciplinary order or judgment by a court of competent jurisdiction (in a civil action), the Securities and Exchange Commission, the Commodity Futures Trading Commission, a state securities regulator of a violation of federal or state securities or commodities law, or a foreign regulatory body or court, which finding or judgment has not been reversed, suspended, or vacated;

None

4. Named as a defendant or a respondent in a regulatory complaint or proceeding that could result in a "yes" answer to part 3 above; or

None

5. Been the subject of an order by a self-regulatory organization that permanently or temporarily barred, suspended, or otherwise limited such person's involvement in any type of business or securities activities.

None

6. Been the subject of a U.S Postal Service false representation order, or a temporary restraining order, or preliminary injunction with respect to conduct alleged to have violated the false representation statute that applies to U.S mail.

None

B. Describe briefly any material pending legal proceedings, other than ordinary routine litigation incidental to the business, to which the issuer or any of its subsidiaries is a party to or of which any of their property is the subject. Include the name of the court or agency in which the proceedings are pending, the date instituted, the principal parties thereto, a description of the factual basis alleged to underlie the proceeding and the relief sought. Include similar information as to any such proceedings known to be contemplated by governmental authorities.

See Note 8 of the Annual Report.

See Accompanying Notes to the Consolidated Financial Statements.

MESTEK, INC.
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
September 30, 2025 and 2024

1. SIGNIFICANT ACCOUNTING POLICIES

Nature of Operations

Mestek, Inc. and its subsidiaries (the “Company”) operate primarily in two manufacturing business segments: heating, ventilating, and air conditioning equipment (“HVAC”) including architectural products, and metal forming equipment. In addition, the Company operates a commodity trading business segment as more fully explained in Commodity Trading Segment below. The Company manufactures its HVAC equipment and metal forming equipment at twelve factory locations and sells through established distributor, dealer, and manufacturer’s representative channels, primarily in the United States and Canada.

Basis of Presentation

The Consolidated Financial Statements include the accounts of the Company and its wholly owned subsidiaries and certain partially owned entities over which it has a controlling financial interest. The Company manufactures products in two wholly-owned subsidiaries in Canada and one 85% owned subsidiary in Hebei Province, Peoples Republic of China, and also operates a 99% owned sales company based in Fribourg, Switzerland. All material inter-company accounts and transactions have been eliminated in consolidation.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States (“GAAP”) requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities at the dates of the financial statements and the reported amounts of revenues and expenses during the reporting periods. The most significant estimates and assumptions relate to revenue recognition, realization of accounts receivable, inventory, goodwill, recoverability of intangible assets, warranty costs, product liability costs, environmental reserves, workers compensation claims reserves, health care claims reserves, post-retirement obligations, valuation of investments and commodities, recoverability of property held for sale, accounting for income taxes and the realization of deferred tax assets. Actual amounts could differ significantly from these estimates.

Revenue Recognition

The Company recognizes revenue in accordance with “Financial Accounting Standards Board (“FASB”) Accounting Standards codification (“ASC”) 606, Revenue from Contracts with Customers. Results for the three months and nine months ended September 30, 2025 and 2024 are presented under ASC 606.

MESTEK, INC.
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
September 30, 2025 and 2024

Cash Equivalents and Short-term Investments

The Company considers all highly liquid investments with a maturity of 90 days or less at the time of purchase to be cash equivalents. Cash equivalents include investments in an institutional money market fund, which invests in U.S. Treasury bills, notes and bonds, and/or repurchase agreements, backed by such obligations.

The Company classifies its investments depending on its intent and the nature of the investment. The Company's short-term investments consist of certificates of deposit and treasury bills, with near term maturities of twelve months or less.

Commodity Trading Segment

The Company operates a commodity trading business through a brokerage account for speculative commodities purchases and related investments which is included in Commodity Trading Income in the accompanying consolidated financial statements. These investments carry market risk and are classified as trading and are recorded at their fair values using the specific identification method. The investments include actual physical quantities of precious metals maintained in the broker's name at financial institutions by an established commodities broker.

Accounts Receivable

Accounts and notes receivable are reduced by an allowance for amounts that may become uncollectible in the future. The accounts receivable allowance for uncollectible amounts is based primarily on management's analyses of accounts in the receivable portfolio and historical write-off experience. Recoveries of receivables previously written off are recorded when cash is received.

Inventories

Inventories are valued at the lower of cost or net realizable value. Cost of inventories is principally determined by the last-in, first-out ("LIFO") method. The Company provides an allowance for excess, obsolete, and damaged inventory based on historical usage.

Property and Equipment

Property and equipment are carried at cost. Depreciation and amortization are computed using the straight-line and accelerated methods over the estimated useful lives of the assets or, for leasehold improvements, the life of the lease, if shorter. When assets are retired or otherwise disposed of, the cost and related accumulated depreciation are removed from the accounts and any resulting gain or loss is reflected in income for the period. The cost of maintenance and repairs is charged to operations as incurred; significant improvements are capitalized. Property is classified as held-for-sale when its carrying amount will be recovered principally through a sale transaction

MESTEK, INC.
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
September 30, 2025 and 2024

rather than continuing use and a sale is highly probable. Assets designated as held for sale are held at the lower of carrying amount or a designation of fair value less costs to sell. Depreciation is not charged against property held for sale.

Goodwill and Other Intangible Assets

Goodwill represents the excess of the cost of a business acquired in a business combination over the fair value of the net assets acquired and liabilities assumed. The Company accounts for goodwill in accordance with FASB ASC 350-20, “Goodwill and Other Intangible Assets” (“ASC 350-20”). The Company does not amortize goodwill and intangible assets with indefinite useful lives, rather such assets are required to be tested for impairment at least annually or sooner whenever events or changes in circumstances indicate that the assets may be impaired. If the carrying amount of a reporting unit is less than its fair value, no impairment exists and no further action is required. If the carrying amount of a reporting unit exceeds its fair value, the Company will record an impairment charge based on the excess of a reporting unit's carrying amount over its fair value. The fair value of a reporting unit is determined using a guideline comparable company market approach. The Company did not recognize any impairment charges related to goodwill during the three months or nine months ended September 30, 2025 and 2024.

Impairment of Long-Lived Assets

The Company reviews long-lived assets for impairment whenever events or changes in business circumstances indicate that the carrying amount of the assets may not be fully recoverable or that the useful lives of these assets are no longer appropriate. Triggering events that could indicate the carrying value of long-lived assets is not fully recoverable may include the loss of significant customers, adverse changes to volumes and/or profitability in specific markets and changes in the Company's business strategy that result in a significant reduction in cash flows generated in a specific operation. Management also performs an annual assessment of the useful lives of the contract rights and accelerates amortization, if necessary. If it is determined that the carrying value of the assets is not recoverable, the Company would write down the long-lived assets by the amount by which the carrying value exceeds fair value. With respect to all long lived assets, the Company determined there were no triggering events to test for impairment of long-lived assets during the three months or nine months ended September 30, 2025 or 2024.

Advertising Expense

Advertising costs are charged to operations as incurred. Such charges are included in Selling Expense in the accompanying consolidated statements of income.

MESTEK, INC.
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
September 30, 2025 and 2024

Product Warranty

The Company provides warranties on certain products which range from one year to longer term warranties. The estimated cost of product warranties are included in the Warranty Reserve, determined primarily from historical information, at the time product revenue is recognized. Should actual product failure warranties differ from the Company's estimates, revisions to the estimated warranty liability would be recorded.

Research and Development Expense

Research and development expenses are charged to operations as incurred. Such charges are included in Engineering Expense in the accompanying consolidated statements of income.

Treasury Shares

Common stock held in the Company's treasury has been recorded at cost. If treasury stock is re-issued, proceeds in excess of cost are credited to paid-in-capital.

Earnings per Common Share

Basic earnings per share have been computed using the weighted average number of common shares outstanding. Common stock options of the Company, as more fully described in Note 7, were considered in the computation of diluted earnings per share, except when such effect would be anti-dilutive.

Currency Translation

Assets and liabilities denominated in foreign currencies are translated into U.S. dollars at exchange rates prevailing on the balance sheet dates. The Statements of Income are translated at weighted-average exchange rates in effect during the year. Adjustments resulting from the translation of financial statements are excluded from the determination of income and are recorded in Accumulated Other Comprehensive Loss as a separate component of Shareholders' Equity. Transaction gains and losses are included in other expense and were not material in either the three months or nine months ended September 30, 2025 or 2024.

Other Comprehensive Income

In accordance with accounting standards, the Company is required to report in its financial statements, in addition to its net income, comprehensive income, which includes all changes in equity during a period from non-owner sources, including foreign currency translation adjustments.

MESTEK, INC.
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
September 30, 2025 and 2024

Income Taxes

Deferred tax assets and liabilities are recognized for the future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax bases. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. Deferred tax assets and liabilities are recorded net as long term. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in the period that includes the enactment date.

Fair Value of Financial Instruments, Concentration of Credit and other Risk and Significant Customers

The Company maintains most of its cash in bank deposits, nearly all of which are not insured by the Federal Deposit Insurance Company. However, the Company does not believe it is exposed to any material risk of loss with respect to its cash deposits given the financial condition of its banking partners.

The Company also maintains cash in accounts outside of the United States. These amounts are not insured by the Federal Deposit Insurance Corporation. The Company has not experienced any losses in such accounts. The Company believes it is not exposed to any significant credit risk on cash and cash equivalents.

The carrying values of cash, cash equivalents, brokerage accounts, investments, accounts receivable, accounts payable, accrued expenses and short-term bank debt approximate fair market value due to the short-term nature of these financial instruments. The carrying value of long-term debt approximates fair market value, which is based on quoted market prices or on rates available to the Company for debt with similar terms and maturities. Financial instruments that potentially subject the Company to concentrations of credit risk are principally accounts receivable. The Company's brokerage account, as noted above, subjects the Company to market risk. The Company also invests in United States and Canadian government securities which are reflected in the accompanying financial statements under Short-Term Investments.

The Company has no significant off-balance sheet or concentration of credit risk exposure such as foreign exchange contracts or option contracts. The Company maintains its cash and cash equivalents with established financial institutions. Certain cash in foreign institutions may be subject to temporary withdrawal restrictions. Concentration of credit risk with respect to accounts receivable is limited to certain customers to whom the Company makes substantial sales. To reduce its credit risk, the Company routinely assesses the financial strength of its customers. The Company maintains an allowance for potential credit losses but historically has not experienced any significant losses related to individual customers or groups of customers beyond what is

MESTEK, INC.
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
September 30, 2025 and 2024

provided for in the allowance. No individual customer accounted for more than 10% of revenues in the three months or nine months ended September 30, 2025 or 2024. No individual customer accounted for more than 10% of the Company's accounts receivable at September 30, 2025 or 2024.

Fair Value Measurements

Accounting for *Fair Value Measurements* establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Company has the ability to access.

Level 2 Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the assets or liability; and
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The Company has investments in gold, and other precious metals that are Level 1 financial instruments and are recorded based upon listed gold and other precious metals prices. These are presented as investments in precious metals and are recorded in Commodity Investments in the accompanying consolidated balance sheets.

The Company has open trading contracts that are Level 1 financial instruments and are recorded based on the difference in market price of the underlying precious metal of the open trading contracts between the date when the contracts are entered and the balance sheet date. These are presented as positions in open contracts and are recorded in Commodity Investments in the accompanying consolidated balance sheets.

MESTEK, INC.
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
September 30, 2025 and 2024

The Company had investments in US Treasury securities as of September 30, 2025 that are Level 1 financial instruments, which are recorded based on quoted market prices, and are included in Short-term Investments in the accompanying consolidated balance sheets.

Reclassifications

Certain amounts in the prior years' consolidated financial statements have been reclassified to conform to the current year's presentation without any change in net income or total assets.

Labor Force

Certain of the Company's personnel are represented by labor unions. The Company has contracts with each union which are generally renewed for 3- to 4-year terms. The concentration of employees under union contracts represented approximately 19% and 19% of the Company's workforce as of September 30, 2025 and December 31, 2024, respectively.

2. DEBT

Revolving Loan Agreement

On May 25, 2018, the Company entered into a new five year, \$60,000,000, committed, secured, multi-bank revolving loan and letter of credit facility (the "Facility"), led by Santander N.A, replacing a prior five-year credit agreement entered into on December 30, 2014. Prior to maturity on May 25, 2023 the Facility was extended by a Third Amendment on May 15, 2023 and was further amended on August 21, 2023 and December 14, 2023 as a result of which the Facility was reduced to \$50,000,000 and extended through August 21, 2028. Borrowings under the extended Facility bear interest, at the Company's election, at a floating rate based on the lenders' prime or base rate or, for short term borrowings, at a rate based upon the Secured Overnight Financing Rate (SOFR) which replaced Libor during the five-year term of the Facility. Borrowings outstanding under the Facility were \$0 and \$0, respectively as of September 30, 2025 and December 31, 2024.

The Facility contains affirmative and negative covenants typical of such financing transactions, and specific financial covenants which require the Company to maintain a minimum cash flow coverage ratio and a maximum cash flow leverage ratio. As of September 30, 2025 and December 31, 2024, the Company was in compliance with all of the financial covenants required under the Facility, except for the timely delivery of financial statements, which had no effect on the consolidated financial statements. The credit agreement relating to the Facility also contains restrictions regarding the creation of indebtedness, the occurrence of

MESTEK, INC.
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
September 30, 2025 and 2024

mergers or consolidations, the sale of subsidiary stock and the payment of dividends. The availability of borrowings under the loan agreement is reduced by outstanding letters of credit. Borrowing availability under the Facility was \$41,981,872 and \$41,837,000 as of September 30, 2025 and December 31, 2024, respectively.

3. INCOME TAXES

The provision for income taxes for the three-months and nine months ended September 30, 2025 and 2024 are estimated based on historical income tax expenses adjusted for changes in applicable statutory rates.

4. LEASES AND RELATED PARTY TRANSACTIONS

Leases are recorded under ASC 842, Leases, where the Company determines if an arrangement is a lease obligation at the inception of the contract. The Company enters into operating lease commitments primarily for its manufacturing and office space that expire on various dates over the next 5 years, some of which include one or more options to extend the lease for up to 5 years.

An analysis of the Company's lease population indicates that they qualify as operating leases. The Company's operating lease ROU assets and corresponding lease liabilities with contract terms greater than 12 months are recognized based on the present value of the future minimum lease payments over the lease term at the commencement date. In determining the present value of future lease payments, the Company utilizes the Company's expected long-term secured borrowing rate of 5%. In addition, the calculation may include options to extend or terminate the lease when it is reasonably certain that the Company will exercise that option. The Company recognizes its operating lease expense for lease payments on a straight-line basis over the lease term which is included in General and Administrative Expense in the accompanying consolidated statements of income. Variable lease costs are not included in fixed lease payments and as a result, are excluded from the measurement of the ROU assets and lease liabilities. The Company expenses all variable lease costs as incurred, which were not material for the three months or nine months ended September 30, 2025 or 2024.

Related Party Leases

The Company leases various manufacturing facilities and equipment from companies owned by certain officers and directors of the Company, either directly or indirectly, or through affiliates. The leases generally provide that the Company will bear the cost of property taxes and insurance. Rent expense for operating leases, including those with related parties, for the three months and nine months ended September 30, 2025 was consistent with the rent expense for the

MESTEK, INC.
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
September 30, 2025 and 2024

year ended December 31, 2024, adjusted for inflation.

5. EMPLOYEE BENEFIT PLANS

The Company maintains a qualified non-contributory profit-sharing plan (“Profit-Sharing Plan”) covering all eligible employees. The Company maintains a retirement savings plan (“Retirement Savings Plan”) qualified under Internal Revenue Code Section 401(k) for employees covered under certain collective bargaining agreements

The Company maintains a separate qualified 401(k) plan (“401(k) Plan”) for salaried employees not covered by a collective bargaining agreement who choose to participate.

6. COMMITMENTS AND CONTINGENCIES

Indemnifications

The Company is obligated under Indemnity Agreements (“Indemnity Agreements”) executed on behalf of 18 of the Company’s officers and directors. Under the terms of the Indemnity Agreements, the Company is contingently liable for costs which may be incurred by the officers and directors in connection with claims arising by reason of these individuals’ roles as officers and directors of the Company.

Contingencies

Letters of Credit

As of September 30, 2025, the Company had outstanding approximately, \$8.0M in standby letters of credit, including \$5.6M in connection with the TCE PI Trust, and \$2.4M issued principally in connection with its commercial insurance programs.

Insurance

The Company retains significant obligations under its commercial general liability insurance policies for product liability and other losses. For losses occurring in the policy years ending October 1, 2014 through October 1, 2025, the Company maintains commercial general liability insurance, retaining liability for the first \$2,000,000 per occurrence of commercial general liability claims (including products liability claims), subject to an agreed aggregate. In addition, the Company retains liability for the first \$250,000 per occurrence of workers compensation coverage, subject to an agreed aggregate. The Company records an accrual for estimated incurred

MESTEK, INC.
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
September 30, 2025 and 2024

but not recorded claims including health insurance, based on an analysis of claim history, claim lag periods and any current known claims.

Litigation

The Company is subject to several legal actions and proceedings in which various monetary claims are asserted. Management, after consultation with its corporate legal department and outside counsel, does not anticipate that any ultimate liability arising out of all such litigation and proceedings will have a material adverse effect on the financial condition of the Company except as set forth below.

Environmental Litigation and Remediation Reserves

The Company maintains an environmental reserve related to the settlement of litigation in 2004 connected with the Company's Lisle, IL manufacturing facility. The environmental reserve covers the Company's obligations to perform certain soil and ground water remediation procedures at the Lisle facility and the Company's related obligation to fund a trust (the "TCE PI Trust") established in connection with the settlement for the purpose of administering future personal injury claims relating to the Lisle facility.

These reserves have been established in accordance with FASB ASC 450, "Contingencies". They represent management's best estimate of these liabilities and are based upon known or anticipated claims estimated by various legal, scientific and economic experts. There is no assurance that these reserves will be adequate to meet all potential personal and property claims arising from the environmental contamination at the Lisle, IL site, however, claim activity has been lower to date than originally forecasted.

The Company has substantially completed the remediation of the Lisle, IL facility, pursuant to a work plan for the site and has received approval from the Illinois Environmental Protection Agency ("IEPA") of the ground water remedial standards to be achieved by the work plan, as well as the methodology for ground water remediation. Accordingly, the Company believes that future remediation costs at the site will be *de minimus*.

Annually the Company reviews the existing third-party claim and remediation cost estimates and determines based on actual claim data whether an updated analysis is necessary. Given the level of expenses to date the Company believes that the existing analysis remains appropriate as of September 30, 2025 and will revise its reserves in future periods as a result of actual activity.

MESTEK, INC.
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
September 30, 2025 and 2024

Other Claims Alleging Releases of Hazardous Materials or Asbestos Related Liability

As of September 30, 2025, the Company is a party to approximately 75 asbestos-related lawsuits, many in Texas where numerous asbestos-related actions have been filed against numerous defendants. The lawsuits previously pending against the Company in Illinois have all been resolved by plaintiffs' dismissals without payment.

Almost all of these suits seek to establish liability against the Company as successor to companies that may have manufactured, sold or distributed asbestos-related products, and who are currently in existence and defending thousands of asbestos related cases, or because the Company currently sells and distributes boilers, an industry that has been historically associated with asbestos-related products. The Company believes it has valid defenses to all of the pending claims and vigorously contests that it is a successor to companies that may have manufactured, sold or distributed any product containing asbestos materials. However, the results of asbestos litigation have been unpredictable, and accordingly, an adverse decision or adverse decisions in these cases, individually or in the aggregate, could materially adversely affect the financial position and results of operation of the Company and could expose the Company to substantial additional asbestos related litigation and the defense costs thereof, which defense costs, because of the sheer number of asbestos claimants and the historical course of the litigation process in this area has the potential to become substantial, though these costs are not capable of estimation at this time. The total requested damages of these cases are over \$3 billion.

To date this year the Company has had approximately 3 asbestos- related cases dismissed without any payment and has settled no asbestos-related case for a *de minimus* value. However, there can be no assurance the Company will be able to successfully defend or settle any pending litigation.

In addition to the Lisle, IL site, the Company has been named or contacted by state authorities and/or the IEPA regarding the Company's asserted liability or has otherwise determined it may be required to expend funds for the remediation of certain other sites in North Carolina, Connecticut and Pennsylvania.

The Company continues to investigate all of these matters. Given the information presently known, no estimation can be made of any liability which the Company may have with respect to these matters. There can be no assurance, but based on the information presently available, the Company does not believe that the outcome of any of these matters will be material to the Company's financial position or results of operations.

MESTEK, INC.
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
September 30, 2025 and 2024

7. SHAREHOLDERS' EQUITY

Mestek has authorized common stock of 20,000,000 shares with no par value, and a stated value of \$0.05 per share. As of September 30, 2025, the Estate of John E. Reed, and Stewart B. Reed, Chairman and CEO of Mestek, together beneficially own a majority of the outstanding shares of Mestek's common stock.

8. STOCK OPTION PLAN

In 2011, the Company adopted a stock option plan (the "Plan") that provides for the granting of qualified (also known as incentive stock options) and nonqualified stock options to Company directors, officers, employees, and consultants. A total of 300,000 shares of the Company's common stock were issuable under the Plan. The qualified options vest after a five-year period.

As of September 30, 2025, there were no stock options outstanding and 127,000 shares remain available for future grants and/or the Plan.

9. SUBSEQUENT EVENTS

The Company has evaluated subsequent events through November 10, 2025, the date on which the financial statements issued and no additional disclosures or adjustments were required.
