Before any holder shall be entitled to convert, he shall surrender the certificate or certificates representing Series A Preferred to be converted, duly endorsed or accompanied by proper instruments of transfer, at the office of the Corporation or of any transfer agent, and shall give written notice to the Corporation at such office that he elects to convert the same. Unless otherwise set forth by the Board of Directors, the Conversion Ratio shall not be affected by a stock dividend or subdivision (stock split) on the Common Stock of the Corporation, or a stock combination (reverse stock split) or stock consolidation by reclassification of the Common Stock. (2) If upon occurrence of a Liquidation the assets and funds thus distributed among the holders of the Series A Preferred shall be insufficient to permit the payment to such holders of the full preferential amount, then the entire assets and funds of the Corporation legally available for distribution shall be distributed among the holders of the Series A Preferred ratably in proportion to the full amounts to which they would otherwise be respectively entitled.

(3) After payment of the full amounts to the holders of Series A Preferred as set

forth above in paragraph (3)(a)(1), any remaining assets of the Corporation shall be distributed pro rata to the holders of the Preferred Stock and Common Stock (in the case of the Preferred Stock, on an “as converted” basis into Common Stock).

(b) For purposes of this Section 3, and unless a majority of the holders of the Series A Preferred affirmatively vote or agree by written consent to the contrary, a Liquidation shall be deemed to include (i) the acquisition of the Corporation by another entity by means of any transaction or series of related transactions (including, without limitation, any reorganization, merger or consolidation) and (ii) a sale of all or substantially all of the assets of the Corporation, unless the Corporation’s stockholders of records as constituted immediately prior to such acquisition or sale will, immediately after such acquisition or sale (by virtue of securities issued as consideration for the Corporation’s acquisition or sale or otherwise) hold at least fifty percent (50%) of the voting power of the surviving or acquiring entity.

(c) If any of the assets of the Corporation are to be distributed other than in cash under this Section 3, then the board of directors of the Corporation shall promptly engage independent competent appraisers to determine the value of the assets to be distributed to the holders of Preferred Stock or Common Stock. The Corporation shall, upon receipt of such appraiser’s valuation, give written notice to each holder of shares of Preferred Stock or Common Stock of the appraiser’s valuation.

(4) Voting Rights. Except as otherwise required by law, the holders of Series A Preferred and the holders of Common Stock shall be entitled to notice of any stockholders’ meeting and to vote as a single class upon any matter submitted to the stockholders for a vote as follows: (i) the holders of Series A Preferred shall have one vote for each full share of Common Stock into which a share of such series would be convertible on the record date for the vote, or, if no such record date is established, at the date such vote is taken or any written consent of stockholders is solicited; and (ii) the holders of Common Stock shall have one vote per share of Common Stock held as of such date.

(5) Covenants. In addition to any other rights provided by law, the Corporation shall not, without first obtaining the affirmative vote or written consent of the holders of a majority of the outstanding shares of Series A Preferred, do any of the following:

(3) make fundamental changes to the business of the Corporation;

(5) create any new class of shares having preferences over or being on a parity with the Series A Preferred as to dividends or assets, unless the purpose of creation of such class is, and the proceeds to be derived from the sale and issuance thereof are to be used for, the retirement of all Series A Preferred then outstanding;

(6) accurate any indebtedness in excess of \$1,000,000;

(7) make any change in the size or number of authorized directors;

(8) repurchase any of the Corporation's Common Stock;

(10) make any payment of dividends or other distributions or any redemption or repurchase of common stock or options or warrants to purchase common stock of the Corporation which would frustrate the right of the Series A Preferred to its cumulative dividend; or

(11) make any sale of additional Preferred Stock.

Mr. Zhan had provided a short term business loan to help secure financing for purchase of a majority position in the company. The loan was collateralized by a majority position in the company and upon default on the obligation to repay the \$135,000 control was automatically transferred and returned to Mr. Zhan.

Upon default and as of April 21, 2009 the collateral of 40,734,000 pledged shares of the Company's common stock had been transferred to Mr. Zhan, resulting in new ownership of the Company. The officers and directors of the Company were relieved of their duties and Mr. Zhan was appointed President and Director.

On June 18, 2009, the Company entered into a Plan of Exchange agreement (the "Plan of Exchange") between and among the Company, Guangzhou Du Ye Trading Company Ltd., a corporation organized under the laws of the Peoples' Republic of China ("Du Ye"), the shareholders of Du Ye ("Du Ye Shareholders") and Mr. Zhan.

Pursuant to the terms of the Plan of Exchange, the Company acquired 100% of the capital stock of Du Ye in exchange for the issuance by the Company of 60,000,000 new shares of Common Stock to Du Ye, which gave Du Ye an interest in the Company representing approximately 96.4% of the then issued and outstanding shares on a dilutive basis. The parties intended that the transactions qualified and met the Internal Revenue Code requirements for a tax-free reorganization, in which there was no corporate gain or loss recognized by the parties, with reference to Internal Revenue Code (IRC) sections 354 and 368.

Company and Du Ye were hereby reorganized, such that the Company acquired 100% the capital stock of Du Ye, and Du Ye became a wholly-owned subsidiary of the Company.

On October 28, 2009, the Company entered into an Agreement (the "Agreement") between and among the Company and Ms. Wanwen Su, an individual ("Buyer"), pursuant to which the Buyer acquired 100% of the total assets of \$12,881 from the Company. As a result of the transactions consummated at the closing, the purchase gave the Buyer a 'controlling interest' in Du Ye, and Du Ye was no longer a wholly-owned subsidiary of the Company.

On November 2, 2009, the Company completed a Plan Of Reorganization with the equity owners of United Healthcare Solutions, Inc., a corporation duly organized under the laws of the State of Nevada (hereinafter the "UHC"), pursuant to which, the Stockholders of UHC received 60,000,000 shares of the Company's Common Stock from the Company's Stockholder, of which 40,000,000 shares were retired back to the treasury, and the stockholders of UHC transferred their shares of UHC to the Company. The Company continued as the surviving corporation and UHC became a wholly-owned subsidiary of UAPI. As a result of the reorganization, the former owners of UHC owned approximately 89.5% of the issued and outstanding shares of the Company. UHC is a Practice Management Company working with practice groups to help achieve their goals in a timely manner

On October 26, 2010, the Company entered into a Plan of Exchange agreement (the "POE") between and among the Company, Metropolitan Computing Corp., a New Jersey Corporation ("MCC"), the shareholders of MCC ("MCC Shareholders"), and Dutchess Private Equities Fund Ltd., a Cayman Islands Exempt Company ("Dutchess").

Pursuant to the terms of the POE, the Company desired to acquire MCC and MCC Shareholders desired that MCC be acquired by the Company in the manner described herein.

The Company would acquire 100% of the capital stock of MCC from Dutchess in exchange for total consideration of \$1,600,000 (the "Exchange Price"). The Exchange Price shall be paid as follows:

The Company shall issue the Company's Preferred Stock in the amount of \$1,600,000 to Dutchess at the equivalent value on a fully converted basis according to the conversion right designated by the Certificate of Amendment to the Articles of Incorporation of the Company. The Preferred Stock is payable at Closing and is convertible into Common Stock anytime after issuance at a price equal to 95% of the closing bid price of UMYG Common Stock on the day prior to conversion. The Company shall file a registration statement with the United States Securities and Exchange Commission (the "SEC") covering shares of the Company's Common Stock underlying the Preferred Stock no later than 60 days following the Closing of this transaction.

The transactions qualify and meet the Internal Revenue Code requirements for a tax free reorganization, in which there is no corporate gain or loss recognized by the Company, with reference to Internal Revenue Code (IRC) sections 354 and 368. Upon the Closing, MCC will become a wholly-owned subsidiary of the Company.

Item XVI: Management's Discussion and Analysis or Plan of Operation.

A. Plan of Operation: Issuer's Plan of Operation for the next twelve months.

The Company's primary business operations are counseled through its MCC subsidiary which is located in East Hanover, New Jersey. The Company maintains a secondary administrative office located in Miami Lakes, Florida. The Company currently employs approximately 7 full-time employees and expects to hire 2-3 additional sales related employees over the next twelve months.

Metropolitan Computing Corporation (MCC) is a leader in instrumentation, data acquisition systems, high-speed production tablet press replication and tablet press control systems for the pharmaceutical industry, having earned its reputation for technical excellence, quality service and client satisfaction. It was established in 1985 to serve companies that required outside help in technical programming. In 1986, Warner-Lambert commissioned MCC to create the first PC-based Tablet Press monitor in history. Today, MCC is an industry recognized expert in precision instrumentation, specializing in solid dosage form equipment.

The Company plans to grow revenue for MCC over the next twelve months includes hiring 2-3 additional sales employees to market its products and services to newer laboratories and pharmaceutical manufacturers which is a relatively untapped market. We expect only a marginal increase in expenses since the additional payroll related expenses will be somewhat offset by a decrease in operating expenses during 2012.

Unity Business Services (UBS) is a development stage company planning to provide full service practice management, including: offering practice management, billing, staffing, contracting, licensing, credentialing, accounting, and solutions for practice start ups or new practices, as well as marketing techniques, HIPPA compliance, and consulting for physicians, and hospitals.

The Company plans to increase spending on UBS during 2012 to approximately \$100,000 to complete the software management system, create an interactive website and begin to test market the application. As a practical matter, we will jointly develop this system with our UTI subsidiary since there is much functional overlay. We do not expect a material amount of sales during 2012.

Unity Technologies Inc. (UTI), a development stage company, is planning to offer a complete software solution, containing billing, electronic medical records, and electronic health records for physician's offices, and hospitals.

The Company plans to increase spending on UTI during 2012 to approximately \$75,000 to complete the software management system, create an interactive website and begin to test market the application. As a practical matter, we will jointly develop this system with our UBS subsidiary since there is much functional overlay. We do not expect a material amount of sales during 2012.

United Healthcare Solutions (UHS), a development stage company, is being designed to provide a medical, vision and dental discount plan, PPO network, and an HMO targeted for acquisition in Nevada, and looking to expand nationwide.

The Company plans to expand this area of the business during 2012 by acquiring existing PPO/HMO networks that it can utilize for resale to regional insurance carriers. The Company has identified several existing networks that would be open to an acquisition or strategic partnership with the Company. One of the initial networks is located in Nevada. Acquisitions can be costly and the ability to expand this part of the business will largely dependent on available cash resources as well as the ability to work out purchases utilizing conventional financing methods or the Company's common stock.

The Company believes it has enough working capital on hand to maintain its business operations. However, all of the above expansion plans will be dependent on raising additional capital. The Company estimates it will need between \$200,000 and \$1 million over the next twelve months in order to carry out its expansion plans. Additional funds may be secured through conventional debt or through equity offerings of its common or preferred stock.

B. Management's Discussion and Analysis of Financial Condition and Results of Operations.

Results of operations for the three and nine months ended September 30, 2011 and 2010

Revenues

We had revenues of \$196,964 and \$676,158 for the three and nine months ended September 30, 2011, respectively. We had no revenues during the comparable periods in 2010. Our revenues were generated from the sales of Physician Practice Management. Before the acquisition with MCC on October 26, 2010, we had no revenues generated.

Operating Expenses

Selling, general and administrative expenses were \$187,599 and \$514,663 for the three and nine months ended September 30, 2011, respectively, in connection with the operation in MCC. We are now working to reduce some of our fixed expenses to maintain positive cash flow during 2012. We expect such reduction in fixed expenses will offset the increase in overall expenses resulting from hiring 2-3 new sales employees. Comparatively, we had general and administrative expenses of \$61,526 and \$230,693 for the three and nine months ended September 30, 2010, respectively, which consist primarily of development expenses associated with attempting to develop our business plan and expenses associated with being a publicly traded company.

Other Income/Expense

We had loss on extinguishment of convertible debt in amount of \$139,080 and \$406,681 for the three and nine months ended September 30, 2011 and 2010, respectively, which were in connection with the stock issuance of 91,600,000 shares for settlement of partial note in an amount of \$24,920. The difference between the fair market value and the conversion price was recognized as loss on extinguishment of convertible debt.

For the nine months ended September 30, 2010 we had a gain of \$131,128 in debt forgiveness in connection with the extinguishment of a related party note.

Operating Activities

Net cash used in operating activities was \$301,119 for the nine months ended September 30, 2011, compared to net cash of \$58,303 used in operations for the nine months ended September 30, 2010. Negative cash flows from operation during the nine months ended September 30, 2011 was due primarily to the net loss of \$779,084, plus the increase in inventory in an amount of \$344,181, partially offset by the decrease in accounts receivable by \$120,043, the increase in accounts payable and salaries payable by \$41,118 and \$151,579, respectively, and the non-cash loss of \$406,681 on extinguishment of convertible debt. We issued 91,600,000 shares of common stock for settlement of partial note in an amount of \$24,920. Comparatively, negative cash flows from operation during the same period in 2010 was due to the net loss of \$100,085.

Investing Activities

Cash used in investing activities mainly consists of capital expenditures, expenditures for property, plant, and equipment.

Net cash used in investing activities was \$1,573 for the nine months ended September 30, 2011, due primarily to purchase of property and equipment in both periods. We had no cash flows from investing activities during the nine months ended September 30, 2010.

Financing Activities

Net cash provided by financing activities was \$302,851 and \$57,941 for the nine months ended September 30, 2011 and 2010, respectively. Positive cash flows from financing activities during the nine months ended September 30, 2011 were due primarily to the proceeds from notes payable in an amount of \$328,370, of which \$124,689 was from related parties, offset by the repayments of \$31,564 to shareholders' loan. Comparatively, positive cash flows during the same period in 2010 were due to the proceeds from related parties' loan.

As of September 30, 2011, we had an accumulated working capital deficit of \$2,994,675. We plan to address this in the year of 2012 attempting to convert certain notes and salaries payable into common stock of the Company. We still may fall short of needed capital in which case we anticipate covering our working capital deficit either through positive cash flow generated from MCC or through additional capital raising through conventional debt or through equity transactions.

The Company continued as the surviving corporation and UHC became a wholly-owned subsidiary of the Company. As a result of the reorganization, the former owners of UHC owned approximately 89.5% of the issued and outstanding shares of the Company. NOTE—2 RECENT ACCOUNTING PRONOUNCEMENTS

The Company has reviewed all recently issued, but not yet effective, accounting pronouncements and does not believe the future adoption of any such pronouncements may be expected to cause a material impact on its consolidated financial condition or the consolidated results of its operations.

ASU 2011-04 changes the wording used to describe many of the requirements in U.S. GAAP for measuring fair value and for disclosing information about fair value measurements to ensure consistency between U.S. GAAP and IFRS. ASU 2011-04 also expands the disclosures for fair value measurements that are estimated using significant unobservable (Level 3) inputs. This new guidance is to be applied prospectively. The Company anticipates that the adoption of this standard will not materially expand its financial statement note disclosures.
