B. Business of Issuer

The Company was incorporated as VENTURE CAPITAL RESOURCE LTD., in the state of Nevada on June 29, 1998. It changed its name to HOW TO GO PUBLIC INC. in January 2007. In July 2009 it changed its name to MEDEX INC.

Our goal is to be the best medical supply and equipment company providing products for people with disabilities, recovering from surgery, in rehabilitation facilities, nursing homes, assisted living centers and the elderly. We are in the development state, and are presently conducting research and product development. MedEx is experiencing rapid movement through the development stage through the acquisition of medical supply companies, medical technology companies, and assisted living and care facilities worldwide. We will attempt to finance operations through a combination of privately placed debt and/or equity. There can be no assurance that we will be successful in finding financing, or even if financing is found, that we will be successful in acquiring wind and solar assets that result in profitable operations.

B. Business of Issuer

1. The Issuer's primary and secondary SIC codes.

The Primary SIC code for the Company is 5047 Medical and Hospital Equipment; we do not have a secondary SIC code.

2. If the issuer has never conducted operations, is in the development stage, or is currently conducting operations.

The Company is in the Medical Equipment Distribution business in California, USA. The company is in the development stage.

3. If the issuer is considered a "shell company" pursuant to SEC Rule 405 of the Securities Act of 1933.

The Company is not considered a "shell company" pursuant to SEC Rule 405 of the Securities Act of 1933

4. State the name of any parent, subsidiary or affiliated company.

The Company has a subsidiary, BEE MOBILE INC.

5. The effect of existing or probable governmental regulations on the business;

The Company does not foresee any costs and/or effects of compliance with (federal, state, and local) governments as medical and hospital equipment company other than industry norms.

6. An estimate of the amount of time spent during each of the last two fiscal years on research and development activities, and, if applicable, the extent to which the cost of such activities are borne directly by customers;

The Company has spent a great deal of time and preparation on the research and development of the Company and it is hard to put a number on it at this time. Over the past two years, approximately 90% of the business operations have been dedicated to research and development. We estimate the number of months dedicated to R&D to be approximately 21 months. The Company does not believe that any potential customer will not be directly or indirectly affected by previous research and development activities due to the fact that the undertaking of research is being conducted during the development stage of the business. As opposed to passing on the cost of doing business, which included the R&D costs, we are focused on delivering the best possible product to our customers to maintain lifelong partnerships.

There has been no third party research to date that has required the Company to pay for the services of a third party.

7. Costs and effects of compliance with environmental laws (federal, state and local);

The Company is currently in compliance with all material environmental regulations applicable to its development activities. Existing and possible future environmental legislation, regulations and actions could cause additional expense, capital expenditures, restrictions and delays, the extent of which cannot be currently predicted.

The Company is not producing any products that are hazardous to the environment and does not foresee any changes that could adversely affect the environment. All products and services are environmentally friendly, and we are ensuring this sustainable vision through our research and development.

8. Number of total employees and number of full time employees

At present, we have 2 full time employees. We also conduct our business through agreements with consultants and third parties.

Item XVI Management's Discussion and Analysis or Plan of Operation.

The following discussion of our financial condition and results of operations should be read in conjunction with our consolidated financial statements and the notes to those statements included elsewhere in this registration statement. In addition to the historical consolidated financial information, the following discussion and analysis contains forward-looking statements that involve risks and uncertainties. Our business and results of operations are affected by a wide variety of factors. We may experience material fluctuations in future operating results, on a quarterly or annual basis, which could have a material and negative affect our business, financial condition, operating results and stock price. Our actual results may differ materially from those anticipated in these forward-looking statements as a result of certain factors, including those set forth under "Risk Factors" and elsewhere in this registration statement.

Plan of Operations / Results of Operations

We have not yet earned any revenues. We anticipate that we will earn revenues in the future but as we are presently in the development stage of our business and we can provide no assurance that we will be able to develop our business to a state that it will generate revenues and become profitable.

Liquidity and Capital Resources

At March 31, 2012, our total cash on hand at the end of the period was \$60,000. From the date of inception to June 29, 1998 we have incurred losses of \$265,158 we attribute our net loss to professional fees and general and administration expenses, and from a lack of revenue to offset our operating expenses.

Based on our current operating plan, we do not expect to generate revenue that is sufficient to cover our expenses for at least the next twelve months. In addition, we do not have sufficient cash and cash equivalents to execute our operations for at least the next twelve months. We will need to obtain additional financing to operate our business for the next twelve months. We will raise the capital necessary to fund our business through a private placement and public offering of our common stock. Additional financing, whether through public or private equity or debt financing, arrangements with stockholders or other sources to fund operations, may not be available, or if available, may be on terms unacceptable to us. Our ability to maintain sufficient liquidity is dependent on our ability to raise additional capital. If we issue additional equity securities to raise funds, the ownership percentage of our existing stockholders would be reduced. New investors may demand rights, preferences or privileges senior to those of existing holders of our common stock. Debt incurred by us would be senior to equity in the ability of debt holders to make claims on our assets. The terms of any debt issued could impose restrictions on our operations. If adequate funds are not available to satisfy either short or long-term capital requirements, our operations and liquidity could be materially adversely affected and we could be forced to cease operations.
