NOTE 1: NATURE OF OPERATIONS

Baristas Coffee Company, Inc. (“Baristas” or the “Company”) is a Nevada corporation, doing business as Baristas. Formerly known as Innovative Communications, Inc. (ICTN:PK), Baristas is listed on OTC Pink (BCCI:PK). Baristas has recently made a formal application to the NASDAQ Capital Markets, under the reserve symbol “BAPI”. Baristas is a specialty drive through December 31, 2012 beverage retailer with attractive female models as servers. Baristas provides its customers the ability to drive up and order their choice of a custom-blended espresso drink, freshly brewed coffee, or other beverages. Baristas is offering a high-quality option to the fast-food, gas station, or institutional coffee.

Baristas offers its patrons the finest hot and cold beverages, specializing in specialty coffees, blended teas, and other custom drinks. In addition, Baristas offers smoothies, fresh-baked pastries and other confections. Seasonally, Baristas adds beverages such as hot apple cider, hot chocolate, frozen coffees, and more. Another revenue stream is in the promoting and selling Baristas merchandise; promotional items, alluring calendars, mugs, t-shirts and hats that are sold. Historically, all stands have been company owned. However, the Company has begun franchising.

On December 29, 2009, the company announced that it had reached an agreement to acquire a controlling interest in Pangea Networks, Inc. (PGEA:PK) doing business as Baristas Coffee Company. The initial closing occurred on December 22, 2009, when an agreement was reached for Baristas to purchase in excess of 60% of the issued and outstanding share of Pangea. Under terms of the transaction, shareholders in Pangea would receive shares in Baristas. At that time, Subject to concurrence and approval of the Financial Industry Regulatory Authority (“FINRA”), Baristas began to focus its operating activities in Pangea, operating as Baristas Coffee Company. See Subsequent Events below.

The year-end of the Company is December 31.

NOTE 2: BASIS OF PRESENTATION AND GOING CONCERN UNCERTAINTIES

The revenue from current operations is minimal; therefore, the Company is considered to be in the development stage.

Although the Company has recently generated positive cash flows, and profit its ability to continue as a going concern is dependent upon achieving a profitable level of operations and on the ability of the Company to obtain necessary financing to fund the expanding operations. Management believes that its current and future plans enable it to continue as a going concern for the next twelve months.

To meet these objectives, the Company continues to seek other sources of financing in order to support existing operations and expand the range and scope of its business. However, there are no assurances that any such financing can be obtained on acceptable terms and timely manner, if at all. The failure to obtain the necessary working capital would have a material adverse effect on the business prospects and, depending upon the shortfall, the Company may have to curtail or cease its operations.

The accompanying financial statements do not include any adjustments to the recorded assets liabilities that might be necessary should Baristas have to curtail operations or be unable to continue in existence.

NOTE 3: SIGNIFICANT ACCOUNTING POLICIES

A. Uses of Estimates

The preparation of the financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amount of revenue and expenses during the reported period. Actual results could differ materially from the estimates.

B. Fixed Assets

Fixed assets are stated at a cost less accumulated depreciation. The Company periodically evaluates whether events and circumstances have occurred that may warrant revision of the estimated useful life of the fixed assets or whether the remaining balance of fixed assets should be evaluated for possible impairment.

C. Revenue Recognition

Revenue is generated through the sale of custom-blended espresso drinks, freshly brewed coffee, or other beverages, fresh-baked pastries and other confections, and Baristas merchandise,

D. Income Taxes

The Company accounts for income taxes under the provisions of SFAS No. 109, "Accounting for Income Taxes." SFAS No. 109 requires recognition of deferred tax assets and liabilities for the expected future tax consequences of events that have been included in the financial statements or tax returns. Under this method, deferred tax assets and liabilities are determined based on the differences between the financial reporting and tax bases of assets and liabilities and operating loss and tax credit carry forwards using enacted tax rates in effect for the year in which the differences and carry forwards are expected to reverse.

In July 2006, the FASB issued FIN No. 48, "Accounting for Uncertainty in Income Taxes – an interpretation of FASB Statement No. 109." This interpretation clarifies the accounting for uncertainty in income taxes recognized in a company's financial statements in accordance with SFAS No. 109. The interpretation prescribes a recognition threshold and measurement attribute for the financial statement recognition and measurement of a tax position taken in a tax return. It also provides guidance on recognition, classification, interest and penalties, accounting in interim periods, disclosure, and transition. FIN No. 48 is effective for fiscal years beginning after December 15, 2006. The adoption of this interpretation did not have a material impact on the Company's results of operations or financial position. As such, the Company has not recorded any liabilities for uncertain tax positions or any related interest penalties. The acceptability of the tax positions of the Company by the taxing authorities for the tax years open to Internal Revenue Service audit, the fiscal years 2005 through 2009, has not been determined.

NOTE 4: Management's discussion and analysis or plan of operation

A & B - Plan of Operation and Management's Discussion and Analysis of Financial Condition.

The company has generated profits and positive cash flows for the quarterly reporting period. But, its ability to continue as a going concern is dependent upon continuing profitable operations and on its ability to obtain necessary financing to fund expansion. Management believes that its current and future plans will enable it to continue as a going concern and to profitably and dramatically grow.

The Company continues to seek external sources of financing in order to support existing operations, to expand through internal and franchise growth, and to expand the range and scope of its business. While there are no assurances that financing can be obtained on acceptable terms and or in a timely manner management has taken the following steps to improve its positions:

1. Continue to identify and close unprofitable or marginally profitable stores
2. Continue evaluating and negotiating management agreements entered into in conjunction with acquisitions
3. Continue identifying new suppliers and negotiating more favorable terms with existing suppliers.
4. Pursuing and entering into franchising arrangements and financing arrangements enabling the Company to expand with no capital outlays while achieving both immediate and long-term cash flow.
5. Launching new related revenue streams such as ice cream, merchandising, etc.

C. Off-Balance Sheet Arrangements

There are no off-balance sheet arrangements.

Forward looking statements-the use of forward looking statements is discussed in conjunction with the Company's initial application and is herein incorporated by reference. The user of these statements is strongly encouraged to refer to that document and to stay abreast of Company announcements.
