

January 20, 2017

Dear FirstAtlantic Shareholders,

I am pleased to provide you with a report of FirstAtlantic's results for 2016. It was a successful year in which we recorded solid earnings, achieved stellar asset quality, and continued significantly growing non-interest checking account balances. Your company continues to perform well in a number of key measures, which are discussed in this letter. A summary of the most recent financial statements is attached for your review.

EARNINGS

Net income for 2016 was \$3.7 million or \$.62 per share, an increase of \$100,000, or 3% over 2015 results. Growth in net income was made possible by an \$815,000 increase in interest income for the year. Key contributors to the increase in interest income were growth in loan interest of \$478,000 and investment interest of \$298,000 that resulted from larger average balances in both loans and investments. Loan balances averaged \$19 million higher in 2016 compared to 2015, and investment balances averaged \$14 million higher for the year. Other factors impacting net income were a reduction in loan loss provision expense of \$144,000 and a non-recurring gain on sale of securities of \$373,000. In 2015, we recorded a \$779,000 non-recurring gain on the sale of purchased loans, which has the effect of negatively impacting the year over year net income comparisons.

Core earnings, which exclude non-recurring items and loan loss provision expense, grew by \$365,000 in 2016, an increase of 11%, to \$3.7 million. Growth in core income was fueled by the increase in interest income that resulted from higher average balances in loans and investments. A Core Earnings Table highlighting the specific non-core items is attached to provide a view of year over year comparable earnings.

LOANS

The loan portfolio, while growing by \$19 million in average balances year over year, was relatively unchanged in the fourth quarter at \$310 million. Challenges to loan growth have been two fold – a recent increase in loan payoffs and a reduction in new loan production from being understaffed in the 3^{rd} and 4^{th} quarters. We now have our lending team fully staffed and anticipate increased production in 2017. While the net loan portfolio increased by \$10.2 million from December 2015 to December 2016, the portfolio of FirstAtlantic originated loans (non-purchased loans) grew by \$26 million, an increase of 14%, to \$214 million.

DEPOSITS

The company benefitted from continued growth in non-interest bearing deposit account balances, which consist largely of business checking accounts. Growth in non-interest bearing deposits totaled \$12.9 million in 2016, an increase of 14.4%. Declines in interest bearing checking accounts and money market accounts resulted in a net decline in total deposits of \$1.1 million. Non-interest bearing deposits

now comprise 29% of total deposits, an increase from 25.3% over the course of the year, providing us with a more stable and lower cost of funds.

NET INTEREST MARGIN

The net interest margin for 2016 declined to 4.13% from 4.17% in 2015. However, when excluding purchased loan accretion, our net interest margin actually increased for the year to 3.79% from 3.69% in the previous year. Growth in net interest margin was positively impacted by the improved deposit mix, which contributed towards our cost of funds declining from .44% in 2015 to .39% in 2016.

The Federal Reserve Bank has signaled an expectation of more than one rate increase in 2017 after increasing the targeted Fed Funds rate by one-quarter percent in each of the last two years. The degree to which we are able to adjust deposit rates at a lesser pace than the Fed rate increases, and our ability to continue growing non-interest bearing deposits are factors that could benefit net interest margin. Challenging our ability to increase net interest margin will be that loans maturing in 2017 are generally at higher interest rates than the rates on new loan originations.

ASSET QUALITY

The asset quality measures for FirstAtlantic have continued to improve. At December 31, 2016, the ratio of non-performing assets to total assets had been reduced to a most favorable rate of .20%, down from .63% at the end of 2015. Total non-performing assets declined by \$1.75 million in 2016 to \$887,000 at year end. Net loan charge-offs for the year were \$90,000, a very low rate of only .03% of average loans, and a significant improvement from last year's already low net loan charge off amount of \$278,000.

The company's Loan Loss Reserve increased \$267,000 during the year to \$2.28 million, equal to .73% of gross loans, an increase from .67% at December 31, 2015. Excluding acquired loans accounted for at fair market value, the reserve as a percentage of loans remained stable at .85% from year-end 2015 to 2016.

EQUITY

Total Shareholders' Equity grew by \$2.5 million, a 4.3% increase, in 2016 after accruing for \$721,000 in dividends during the year. Tangible Shareholders' Equity increased by 5.1% in 2016 to \$57.7 million. On a per share basis, book value per share was \$10.04 and tangible book value per share was \$9.62 as of December 31, 2016.

Because of the late year spike in long term interest rates, equity was negatively impacted by a \$600,000 decline in the after tax value of our Available for Sale investment portfolio compared to December 2015. The decline in the after tax value of the portfolio was more pronounced in the fourth quarter at \$1.4 million. The average re-pricing term of our Available for Sale investment portfolio continues to be approximately 5 years and the portfolio has limited extension risks due to the structure of the securities within the portfolio.

FirstAtlantic's ratio of tangible equity to assets remains very strong at 13%, providing continued support for both our organic growth and acquisition strategies.

KEY HIGHLIGHTS

- The board of directors increased the frequency of the dividend to quarterly in 2016; it had
 previously been an annual dividend. The quarterly dividend amount was set at \$.03 per share
 beginning with the April, 2016 payment. On an annualized basis, this represents a 20% increase
 from the previous \$.10 annual dividend.
- In addition to the value our shareholders have received from dividend payments, the stock price of FirstAtlantic continued to grow in 2016, ending the year at \$11.20. This represents a 31.76% increase in price since our stock began trading on the OTCMarkets in March 2015, and an 11.22% increase in 2016.
- We will be completing an upgrade and change in our core data system in February. This
 enhancement will allow us to better serve our targeted customer markets of businesses and
 professionals, improve our fraud management capabilities, and more effectively manage our
 data processing expenses while limiting our exposure to future costs related to merger and
 acquisition activity.

Over the next few weeks, you will receive our Annual Report and Proxy Statement in which the date of our Annual Shareholders Meeting will be announced. Also, during the month of February, we expect to post the company's annual audited financial statement on the OTCMarkets page for FirstAtlantic, www.otcmarkets.com/stock/FFHD/filings. Please be on the lookout for these items.

I want to thank you for your continued support of FirstAtlantic. We will continue to be diligent in working to enhance the value of your investment.

Sincerely,

Mitchell W. Hunt, Jr.

Metal Spent

President and Chief Executive Officer
