INFORMATION AND DISCLOSURE STATEMENT PURSUANT TO RULE 15c2-(11)(a)(5)

All information contained in this Information and Disclosure Statement has been compiled to fulfill the disclosure requirements of Rule 15e211 (a)(5) promulgated under the Securities Exchange Act of 1934, as amended. The enumerated captions contained herein correspond to the sequential format as set forth in the rule.

FORWARD LOOKING STATEMENTS

This Quarterly Report contains forward-looking statements. To the extent that any statements made in this report contain information that is not historical, these statements are essentially forward-looking. Forward-looking statements can be identified by the use of words such as "expects", "plans", "may,", "anticipates", "believes", "should", "intends", "estimates", and other words of similar meaning. These statements are subject to risks and uncertainties that cannot be predicted or quantified and, consequently, actual results may differ materially from those expressed or implied by such forward-looking statements. Such risks and uncertainties include, without limitation, marketability of our products; legal and regulatory risks associated with the share exchange our ability to raise additional capital to finance our activities; the effectiveness, profitability and; the future trading of our common stock; our ability to operate as a public company; our ability to protect our proprietary information; general economic and business conditions; the volatility of our operating results and financial condition; our ability to attract or retain qualified senior management personnel and research and development staff; and other risks detailed from time to time in our filings with the OTC Markets (the "OTC"), or otherwise.

Information regarding market and industry statistics contained in this report is included based on information available to us that we believe is accurate. It is generally based on industry and other publications that are not produced for purposes of securities offerings or economic analysis. Forecasts and other forward-looking information obtained from these sources are subject to the same qualifications and the additional uncertainties accompanying any estimates of future market size, revenue and market acceptance of products and services. We do not undertake any obligation to publicly update any forward-looking statements. As a result, investors should not place undue reliance on these forward-looking statements.

FOOD AND DRUG ADMINISTRATION DISCLOSURE (FDA)

The statements found herein have not been evaluated by the Food and Drug Administration (FDA) and are not intended to diagnose, treat, cure or prevent any disease or medical condition.

NAME OF ISSUER AND ITS PREDECESSORS (IF ANY)

Medical Marijuana, Inc. (the "Company", "we", "our", "us", "MJNA")

The Company was originally incorporated as Berkshire Collection, Inc., in Canada in 2003. On May 23, 2005, the Company was incorporated in the State of Oregon. The Company changed its name to Mynewpedia Corp. on January 31, 2007. On May 21, 2008 the Company, with the consent of the majority shareholder of Mynewpedia, agreed to issue common stock of Mynewpedia, Corp. (MYNW) to the shareholders of Club Vivanet (Florida) in exchange for all issued and outstanding common shares of the stock of Club Vivanet, totaling 9,300,000 common shares by way of an exchange of one (1) share of Club Vivanet for twelve (12) shares of Mynewpedia, Inc., Club Vivanet Inc., formed in August 2006 as a Florida C Corporation, is currently a wholly owned subsidiary of the Company. Total outstanding shares of the Company after the acquisition The Company subsequently changed its name to Club were 221,176,840. Vivanet, Inc. on May 22, 2008, and on August 28, 2008, the Company effected a 20:1 reverse split which resulted in 11,058,842 total issued and outstanding shares of common stock of the Company. On March 23, 2009, the Company resolved to change its name to Medical Marijuana, Inc.; this name change became effective April 28, 2009. On April, 27, 2009, the then-current directors/officers of the company resigned and appointed new Officers/Directors. On April 28, 2009, the Company issued a total of 40,000,000 shares to the new CEO. These actions effected a change in and control of the company. Upon the effective date of the name change, the Company's trading symbol was changed to MJNA. On the date of the name change of the Company to Medical Marijuana, Inc., the Company spun off its wholly owned subsidiaries: Club Vivanet, a Florida corporation and Mynewpedia Corp. On March 23, 2011, an equity/asset exchange was affected between Hemp Deposit and Distribution Corp., a Delaware corporation ("HDDC"), and the Company. The equity/asset exchange called for the Company to issue 260,000,000 shares of common stock to HDDC which required an increase in the authorized share capital from 300,000,000 shares to 600,000,000 shares. The increase was declared effective on March 28, 2011. The issuance of the 260,000,000 shares was effected on March 31, 2011, which then effected a change in and control of the Company. As of June 27, 2013, new management found various misfilings that pertain to authorized shares from former management in which legal counsel was retained to make corrective actions as part of its corporate measures to ensure complete compliance in all matters. These actions have been filed with the State of Oregon. The Company does not have any plans at this time to increase authorized shares beyond the stated amount.

^{*} The Company was unable to verify all the financial information from RDH.
The income provided above was verified by third parties. The expense amounts were not audited and therefore, not included in the calculation of net income for the Company. This information is being furnished for informational

Notes to Financial Statements

Note 1: Summary of Significant Accounting Policies

Nature of Operations.

Medical Marijuana Inc. ("MJNA" or "Company") is an Oregon corporation vested in the medical marijuana and industrial hemp markets. The company is comprised of a diversified portfolio of products, services, technology and businesses solely focused on the cannabis and hemp industries.

These products range from patented and proprietary based cannabinoid products, to whole plant or isolated high value extracts specifically manufactured and formulated for the pharmaceutical, nutraceutical and cosmeceutical industries.

The Company's services are extensive and varied, ranging from medical clinic management to the capitalization and development of existing industry business and product leaders. Services include development of cannabinoid-based health and wellness products, and the development of medical-grade cannabinoid compounds. Finally, MJNA services include the licensing of its proprietary testing, genetics, labeling, and packaging, tracking, production and standardization methods for the medicinal herb industry.

Medical Marijuana Inc.'s proprietary technologies include the only pharmaceutical-level vertical biotechnology company specializing in the standardization, production, and extraction of medicinal cannabinoids. MJNA's PhytoSPHERE Systems (under exclusive license for use by CannaVest Corp.) and their advanced plant growth technologies save significantly on resources necessary for production of medical-grade cannabis. In addition to providing a medical grade end product, extracts, and compounds, PhytoSPHERE Systems also offers pre- and post-production tracking, gemplasm references, packaging, and processing to ensure consistency and genetic purity.

Basis of Financial Statement Presentation. The accompanying financial statements have been prepared on the accrual basis. The significant accounting policies followed are described below to enhance the usefulness of the financial statements to the reader.

<u>Cash Equivalents</u>. Holdings of highly liquid investments with maturities of three months or less when purchased are considered to be cash equivalents.

Marketable Securities. Management classifies all investments as available-for-sale. Available-for-sale securities are carried at fair value.

<u>Inventories</u>. Inventories are valued at cost. Inventory consists of CanChew gum and raw materials.

Property, Plant, and Equipment. Property, plant, and equipment are recorded at cost less depreciation and amortization. Depreciation and amortization are primarily accounted for

on the straight-line method based on estimated useful lives. The amortization of leasehold improvements is based on the shorter of the lease term or the life of the improvement. Betterments and large renewals which extend the life of the asset are capitalized whereas maintenance and repairs and small renewals are expensed as incurred.

Revenue Recognition. Revenue is recognized in the financial statements (and the customer billed) either when materials are shipped from stock or when the vendor bills the Company for the order. Net sales are arrived at by deducting discounts, freight, and sales taxes from gross sales.

Supplementary Information. A breakdown of consolidating income by subsidiary has been included.

Estimates. The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

(See exhibit 1)

Wellness Managed Services

Wellness Managed Services engages in the management, capitalization and development of health and wellness facilities, medical clinics and cooperatives throughout North America.

Wellness Managed Services provides a comprehensive array of clinically-supporting health and wellness products and services that will attract patients while providing for a fully operational, profitable enterprise. We seek to provide facilities and patients alike with the latest in quality products and support services that will serve the health and wellness community. Wellness Managed Services has actively been acquiring and developing its services. This subsidiary is in negotiations for several additional facilities in Canada, California, Colorado and Arizona at present, and is looking to further expand throughout the US as well as develop an international division.

Canipa Holdings

Canipa Holdings has been formed to assist Medical Marijuana Inc.'s expansion efforts in Europe, the Middle East and Asia. Canipa Holdings focuses its efforts on obtaining product and marketing approvals as well as distribution partners for the entire line of Medical Marijuana Inc.'s portfolio of products.

HempMedsPX

HempMedsPX, is a subsidiary of Medical Marijuana Inc. that focuses on the online marketing, distribution and sales of our portfolio of products. Working with various industry companies, HempMedsPX develops the content and presentations for the various ecommerce sites that promote and sell the products.

Red Dice Holdings

Red Dice Holdings, LLC is the owner of the Dixie Brand of products including Dixie Botanicals. The company has over 70 unique consumer products and is one of the most recognizable cannabis and hemp brands in the world. The brands have been featured by 60 Minutes, Forbes, Fortune, and Fast Company, to name a few.

The company sells direct-to-consumer products, looks to integrate additional brands into its distribution and manufacturing platform, and licenses its brand(s) and IP to others looking to manufacture and distribute the products within their markets. Besides marketing, sales and licensing, the company has a full-time team of researchers and product development specialists who are tasked with improving the products and developing additional delivery methods.

CanChew Biotechnologies

CanChew Biotechnologies focuses on the treatment of pain and other medical disorders with the application of chewing gum-based cannabis/cannabinoid medical products. The company is focused on the R&D and execution of their clinical development plan and the out-licensing of their technology. Clinical development focuses on the R&D of the formulation, production and the development of chewing gum-based products for the treatment of issues like pain, nausea and vomiting, anorexia, spasticity and various other medical issues.

KannaLife Sciences

KannaLife Sciences ("KannaLife"), is a late-stage biopharmaceutical and phytomedical technology company. They were created to develop natural, phytomedical products to be used in health and wellness regimens. They are also involved in the research and development of novel new therapeutic agents to be used as transport carriers for other compounds seeking to break the blood/brain barrier. They are also developing their own

compounds to be used for the treatment and prevention of oxidative and neurotoxic stresses borne from a variety of ailments and illnesses.

Note 2: Related-Party Transactions

Hemp Deposit and Distribution Company

The Company has an agreement with Hemp Deposit and Distribution Company ("HDDC", d.b.a. CannaBANK Inc.). HDDC is the majority shareholder and acts as the merger, acquisition, and due diligence arm for the Company. HDDC also provides working capital for the Company as needed, or can and has previously provided capital or its equity in MJNA to invest in and purchase companies, products, or services for MJNA. HDDC currently holds \$1,565,500 in free trading shares cash equivalent for the use of the Company.

Sale and Licensing of Certain Assets of PhytoSPHERE Systems, LLC

In December 2012, PhytoSPHERE entered into an agreement for the sale of assets with CannaVest Corporation, a Texas corporation ("CannaVest"), whereby the Company sold certain assets of PhytoSPHERE in exchange for an aggregate payment of \$35,000,000, payable in five (5) installments of either cash or common stock of CannaVest, at the sole discretion of CannaVest. Pursuant to the Agreement, PhytoSPHERE sold to CannaVest certain tangible assets, including equipment and inventory, all web domains of PhytoSPHERE, existing bank accounts with a total balance of \$50,774.55, phone numbers, e-mail addresses and postal addresses, vendor lists, permits, licenses and other approvals, and all existing and pending contracts. Notably, pursuant to the Purchase Agreement, PhytoSPHERE sold all of its rights, and surrendered all of its liabilities, and contracts with hemp production and processing facilities in three foreign countries, which allowed CannaVEST to secure raw product for the development and production of products. PhytoSPHERE also entered into an exclusive license of its brand name "PhytoSPHERE" and "PhytoSPHERE Systems" for use in the development and commercialization of hemp-based products.

The purchase agreement requires payment as follows: (a) \$4,500,000 on or before January 31, 2013; (b) \$6,000,000 on or before March 31, 2013; (c) \$8,000,000 on or before June 30, 2013; (d) \$10,000,000 on or before September 30, 2013; and \$6,500,000 on or before December 31, 2013. For any installments paid by the issuance of stock, the number of shares of stock issuable by the Company is determined by reference the closing price of the common stock on the day prior to issuance. The price is subject to a "collar," whereby in no event will the shares issuable pursuant to the Purchase Agreement be priced at more than \$6.00 per share, and in no event will the shares be priced at less than \$4.50 per share.

Note 3: Inventories

Inventories are comprised of hemp-based CanChew finished goods and raw materials. Inventory is valued at cost.

Note 4: Investments

The Company maintains a portfolio of equity securities.

Note 5: Receivable RDH

Red Dice Holdings (RDH) is a holding company that owns formulas, equipment, and extraction processes for cannabis-based products. RDH's revenue model is to continue to develop these products and license them to distributors throughout the world. The Company owns 60% of RDH. The Company has furnished RDH working capital for operations and inventory. As of June 30, 2013, it is estimated that RDH owes the Company \$1,734,084. This figure is based upon limited information supplied to the Company by RDH.

The Company has been unable to verify the wholesale sales, cost of goods sold, or any expenses. The actual amount owed to the Company by RDH cannot be determined until independent, audited financial information has been supplied to the Company.

On the listing of Supplemental Information, the Company has broken out sales by subsidiary. Under the heading "RDH", the schedule shows income from RDH of \$321,671. This amount is sales reported to the Company and verified through third parties. Expenses were not included in the Company's calculation of net income.

As part of the obligation under the RDH joint venture, the Company utilized \$1,450,000 of its securities portfolio as part of its financing strategy to satisfy equity requirements for the transaction. The Company and its management anticipate but have not concluded offsetting a portion, or the entire debt of RDH, by transferring all or a portion of the \$1,450,000 worth of securities in its possession.

Note 6: Red Dice Holdings

The Company purchased Red Dice Holdings in 2012. Red Dice Holdings (RDH) is a holding company, that owns the formulas, equipment, and extraction processes for cannabis based products. RDH's revenue model is to continue to develop these products and license them to distributors throughout the world. The Company owns 60% of RDH. RDH also has direct-to-consumer products on the market, such as Dixie Botanicals (a hemp CBD product line), and has a Colorado-based licensee that currently has products in over 500 retail outlets.

As part of the obligation under the RDH joint venture, the Company utilized \$1,450,000 of its securities portfolio as part of its financing strategy to satisfy equity requirements for

the transaction. The Company and its management anticipate but not have concluded offsetting a portion or the entire debt of RDH by transferring a portion of the \$1,450,000 worth of securities in its possession.

Note 7: CanChew Biotechnologies

The Company purchased CanChew Biotechnologies in 2012. CanChew Biotechnologies focuses on the treatment of pain and other medical disorders with the application of chewing gum based cannabis/cannabinoid medical products. The Company owns 50% of CanChew. CanChew Biotechnologies has developed an over-the-counter product called CanChew hemp CBD gum, and is also developing its medical product called MedChewRX. The company issued 47,000,000 shares or (\$4,700,000 as of date of issuance) to CanChew Biotechnologies for its use in the clinical development of MedChewRX and the launch of its over-the-counter CanChew gum. To date, none of these shares have been sold or collateralized.

Note 8: Research & Development

The Company incurred direct costs for developing their products and intellectual properties.

Note 9: Fixed Assets

Fixed assets are entirely comprised of office equipment. Fixed assets are shown net of depreciation.

Note 10: Stockholders' Equity

At June 30, 2013, the number of authorized and issued shares and the related par value:

Class A Common Stock Authorized:

950,000,000

Class A Common Stock Issued:

947,607,961

Par Value:

\$0.001

Note 11: Extraordinary Income

The Company sold certain assets of PhytoSPHERE Systems. The fourth installment payment of \$10,000, 000 as per the PhytoSPHERE asset purchase agreement was paid as follows: \$9,800,000 was received in stock and \$200,000 in cash was received. The Company will distribute the 20% of the installment payment at their discretion. The shares were issued to the Company on September 20, 2013.

The Company is obligated to distribute 20% of the installment payment to Hemp Deposit and Distribution Corp ("HDDC"). HDDC has agreed to allow the Company to hold the

distribution for one year. At that time, the Company will reassess their financial position and act in the best interest of the Company. Interest on the distribution will accrue at prime plus two percent per annum.

Note 12: Other Matters

On June 17, 2013, the Company received a letter from the Staff of the Division of Enforcement of the SEC informing the Company that it is conducting an informal inquiry and requesting that the Company provide certain documents and information relating to current and former management of the Company, communications between the Company and governmental agencies, operations of the Company and other matters referenced in the letter. The letter advised that the informal inquiry should not be construed as an indication by the SEC or its staff that any violations of law have occurred, or as an adverse reflection upon any person or security. The Company is fully cooperating with the SEC.

The Company also announced that after full compliance with all requested information, the Depository Trust Company (DTC) notified the Company that it lifted its "chill" as of August 21, 2013.

To the Board of Directors and Stockholders of Medical Marijuana, Inc.:

Report on the Financial Statements

We have audited the accompanying consolidated financial statements of Medical Marijuana, Inc., which comprise the balance sheet as of September 30, 2013, and the related statements of income, and cash flows for the period July 1, 2013 through September 30, 2013, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to previously present fairly, in all material respects, the financial position of Medical Marijuana, Inc. as of September 30, 2013, and the results of its operations and its cash flows for the period then ended in accordance with accounting principles generally accepted in the United States of America.

CannaBANK, Inc. (Hemp Deposit and Distribution Corporation)

Government Regulation

The effect of existing or probable government regulations on the business of the Company is not known at this time. Due to the nature of the business of the Company, it is anticipated that there may be increasing regulation upon the business of the Company and that may cause the company to have to take serious corrective actions, changes in business plan, or even close or stop its business practices and/or operations.

The Company presently has forty-six (46) team members—including parttime or contracted—within our corporate structure (including subsidiaries). Prior to new management and the issuance of shares to Hemp Deposit and Distribution, the Company was involved in the following:

(The company's management is continuing its evaluation of the following divisions, strategies, partnerships, business and operational plans for productivity, profitability, marketability and to make sure these fit into the Company's business strategies. The following excerpts were taken directly from prior management's annual reports.)

Medical Marijuana, Inc. was to provide institutional-level financial services to local, state and federal governments, testing and certification services, education programs, as well as consulting and turn-key solutions to all levels of government and the medical marijuana industry. A division, The Hemp Network, established in June 2010, sold hemp-based products to consumers through a network of home-based sales representatives.

EDUCATIONAL SYMPOSIUM AND SEMINARS

The Company began its expanded seminars with its first education forum at the Los Angeles Convention Center on January 16-17, 2010. Shortly thereafter, the Company held its second seminar in April 2010 in San Diego at that city's convention center. The focus of these seminars was on educating entrepreneurs, existing industry operators, regulators, city officials, law enforcement officials and the general public on the benefits of a legitimate medical marijuana industry. Currently no symposium or seminars are planned pending evaluation of the business efficacy of this division.

FINANCIAL SOLUTIONS

Medical Marijuana Inc. had a provisional patent pending for a tax remittance card, which in the early part of 2010 was upgraded and expanded to a utility patent. This would have provided local, state, and federal governments with a closed loop financial accounting system to monitor compliance and collect tax revenues in a near real-time environment. The Company looked to provide an integrated business system for medical marijuana industry participants, from growers to distributors to dispensaries. The Company's patent pending product was to ensure compliance with local, state and federal regulations where it concerns operations and taxation. The Company is putting this product on hold for the time being to focus on other areas of the business.

UNDER NEW MANAGEMENT, FUTURE AREAS OF CONCENTRATION MAY INCLUDE BUT ARE NOT LIMITED TO THE FOLLOWING:

We are currently in discussions with multiple companies for testing, grading and general cannabinoid research.

<u>Co-Op/Collective Management</u> – As the market matures, we intend to provide outsourced management services to dispensaries under contract. We intend to standardize operations and product selection in its group of managed dispensaries.

<u>Hemp Products</u> – We are actively searching for a greatly expandable product line to increase network marketing production.

Medical Marijuana Inc. is currently developing the following divisions and subsidiaries:

1. The Hemp Network.

The Hemp Network's main objective is to educate the general population about the versatility and benefits of the hemp plant. By sharing the story of hemp with individuals across the country and around the world, the network strives to raise awareness and ultimately change public perception about industrial hemp. In changing public perception, we can help support changes in the laws associated with the cultivation of industrial hemp and the domestic production of hemp-related products and services.

Additional Notes: As of this date, the Company has evaluated expenses and overhead to proceed under this option and have elected to run all products through the well-established and nationally-branded HempMedsPX in order to reduce expenditures and maintain consistent control of processes.

2. MMI Nutraceuticals.

MMI Nutraceuticals (MMIN) is a division of the Company that deals with all nutraceutical products including CBD (cannabidiol) and THC-free brands and products. The MMIN team handles the development, research, contracting, patents and sales of these products.

Additional Notes: The CBD nutraceutical product line is expected to generate attention in the United States and abroad because of its purported beneficial properties for humans and animals. Currently we are not aware of any other direct competitors in this marketplace. The Company will look for distributors to sell the future nutraceutical products.

3. MMI Biotechnology

MMI Biotechnology is the division that will build and develop specialty equipment and technology for the medical, herbal, pharmaceutical and nutraceutical markets. The Company has put this focus on hold to concentrate its efforts on product launches and new product acquisitions with existing subsidiaries in the best interest of the Company.

4. CannaFuel

CannaFuel, is a division of the Company that oversees and coordinates the research and development of hemp-based and other biomass-based fuels. Currently the company has put this focus on hold to concentrate its efforts on product launches and new product acquisitions with existing subsidiaries in the best interest of the Company.

5. The Pet Hemp Emporium

Pet Hemp Emporium is a division of the Company that has developed everyday pet products, consisting of everything from hemp leashes to hemp beds and hemp-based bio plastics that are much more suitable for pet use than conventional products that are petroleum (oil)-based. These products are not available to consumers yet. Instead, the Company is anticipating expanding into wholesale distribution and direct distribution to pet stores before investigating marketing these products directly to consumers.

Additional Notes: Currently, the Company can only supply the products in bulk. The Company continues to evaluate the possibility of selling direct to consumer.

Subsidiaries

6. Wellness Managed Services, LLC

Wellness Managed Services provides management support and services to cooperatives, collectives, health and wellness facilities, and medical clinics. The services offered range from management to product distribution.

The Company continues to focus on the viability and structuring of this objective for several reasons:

- a. The accounts will provide, in most cases, an immediate cash flow;
- b. In most cases, the account has shelf space for our products;
- In most cases, the accounts provide direct sales access for our products to end-consumers and, most importantly, to the individuals who recommend specific products;
- d. Because the accounts, in most cases, are established businesses, our operating costs are much lower because we aggregate the operating costs in administration, legal, accounting and marketing, giving the company a strategic advantage.

 HempMedsPX (formerly HempMedsRX) (80% owned by the Company and 20% owned by Hemp Deposit and Distribution Corporation.)

HempMedsPX, LLC is the master distributor and contracted marketing company for the Medical Marijuana Inc. portfolio of hemp-based CBD products. This division is in the process of finalizing exclusive distribution agreements with internal subsidiaries as well as outside parties for a fixed percentage fee plus costs. At the present time, the distribution agreements are with CanChew Biotechnologies for CanChew gum and CannaVest for Real Scientific Hemp Oil (RSHO). Other entities are being considered for exclusive agreements with HempMedsPX. The name was changed upon advice of our counsel due to our products being plant-based (PX) and not pharmaceutical-based (RX).

The company is in the process of evaluating several potential employees or new hires to run and further develop HempMedsPX. We have recently hired internal legal and patent consultants, writers, marketing/sales managers, sales staff, distribution staff, a Director of Communications as well as various marketing, website management and product consultants.

8. Red Dice Holdings (60% owned by Medical Marijuana Inc.)

Red Dice Holdings, LLC owns the Dixie Botanical and Dixie Classic brands of consumable products. The Company utilizes PhytoSPHERE Systems to provide all of the necessary hemp-based CBD oil to Red Dice Holdings brands. Their products range from a topical salve to the Dixie Dew Drops. The products can be found at retail locations throughout Colorado. The company intends to further develop its sales through several key areas:

- 1. Wholesale
- 2. Affiliated Marketing Sales
- 3. Retail

Once brand awareness is further established through online presence and media presence, the company anticipates offers from national and international marketing and distribution companies, at which time the company may need to re-evaluate and modify its sales and marketing strategies to conform to a more typical sales and distribution organization.

9. PhytoSPHERE Systems

PhytoSPHERE Systems, LLC (80% owned by the Company and 20% owned by Hemp Deposit and Distribution Corporation ["HDDC"]) entered into an agreement in December, 2012 to grant CannaVest Corp. a license to PhytoSPHERE Systems to sell its inventory and supply contracts, as well as certain other assets to CannaVest Corp., a hemp-based agricultural company

specializing in the development and sales of hemp-based products. The terms of the Purchase Agreement require payment by CannaVest to PhytoSPHERE of \$35 million in cash and/or stock. CannaVest made its fourth payment consisting \$200,000 in cash and 1,633,333 shares of CannaVest common stock, of which (80%) is distributed to the Company.

NO OFFICER OR DIRECTOR OF MJNA HAS AN EQUITY INTEREST IN CANNAVEST.

This significant reduction of overhead and operational cost will enable the Company to focus on building its core business through the expansion of its branded products and acquisition of additional brands within our core competencies. In addition, the Company will continue to benefit from the solid supply chain relationships with CannaVest through partnering arrangements that are currently in discussion, with the goal of ensuring future purchases of high-value CBD hemp oil at a significant cost savings.

10. CanChew Biotechnologies

CanChew Biotechnologies focuses on the treatment of pain and other medical disorders with the application of chewing gum-based cannabis/cannabinoid medical products. The company is focused on the R&D and execution of their clinical development plan and the out-licensing of their technology. Clinical development focuses on the R&D of the formulation, production and the development of chewing gum-based products for the treatment of issues like pain, nausea and vomiting, anorexia, spasticity and various other medical issues.

Product Development

CanChew gum was brought to market first for over-the-counter use. MedChewRX is being developed for medical purposes, specifically pain treatment associated with a variety of long-term, chronic or degenerative diseases whereby cannabinoid therapy is finding increasing application in a global marketplace.

CanChew Advantage

The CanChew formulation offers a unique, socially acceptable, patientfriendly, taste-masked and convenient delivery format for delivery of cannabidiol (CBD) via the oral mucosal membranes.

Advantages of Oral-Mucosal Delivery System:

- Bypass of the gastrointestinal tract and hepatic portal system, increasing the bioavailability of orally-administered drugs that otherwise undergo hepatic first-pass metabolism.
- Drug is protected from degradation due to pH and digestive enzymes of the middle gastrointestinal tract.

 Improved patient compliance due to the elimination of associated pain with injections.

Sustained drug delivery.

- A relatively rapid onset of action can be achieved relative to the oral route.
- Oral mucosal systems exhibit a faster initiation and decline of delivery than do transdermal patches.
- The large contact surface of the oral cavity contributes to rapid and extensive drug absorption.

The Company is currently seeking a GMP pharmaceutical manufacturer for its MedChewRX pharmaceutical drug, as well as a partner for clinical development and trials. The two require different GMP certifications. The pharmaceutical drug GMP certification is much more strenuous and is required for MedChewRX's clinical development.

The Company anticipates starting its MedChewRX clinical trials in Europe in late 2013, with the overall clinical development taking three to five years. The company has a significant strategic advantage to its product and the development of this business:

- The company has already developed an over-the-counter product (CanChew), which is available for sale currently. Most companies developing a pharmaceutical drug do not also have a product for sale on the over-the-counter market. This gives CanChew Biotech the ability to fuel its own growth and the growth of its pharmaceutical unit.
- Gum-based delivery has a much greater efficacy over traditional methods of consuming cannabinoid-based products.
- The safety profile of MedChewRX's APIs allows for more attractive sponsoring opportunities for research universities and doctors.

11. KannaLife Sciences

KannaLife Sciences ("KannaLife"), is a late-stage biopharmaceutical and phytomedical technology company. They were created to develop natural, phytomedical products to be used in health and wellness regimens. They are also involved in the research and development of novel new therapeutic agents to be used as transport carriers for other compounds seeking to break the blood/brain barrier. They are also developing their own compounds to be used for the treatment and prevention of oxidative and neurotoxic stresses borne from a variety of ailments and illnesses.

KannaLife's unique approach to drug development combines traditional and integrative healthcare practices with modern technology to create a pipeline of potential biopharmaceutical drug candidates for clinical development.

The KannaLife scientific team is comprised of dedicated professionals, clinicians, and biochemists who have a strong background in phytopharmaceutical, biological, and Ayurvedic sciences. This team brings a long track record of successfully developing drugs from plant sources that are complex in nature and structure. The team also has the requisite relationships with nationally-supported institutions of health as well as top academic food and science departments at several recognized universities in the United States.

KannaLife depends on the sustainability of plant life to create its products and practices environmentally-sound business practices. Their ultimate goal is to become a profitable and socially responsible company that seeks to improve the quality of life of the patients needing and using their products.

Medical Marijuana, Inc. is currently working with the following affiliates:

...

Hemp Deposit and Distribution Corporation (d.b.a. CannaBANK) performs mergers and acquisitions and acts as a conduit through which assets are transferred from Hemp Deposit and Distribution Corporation ("HDDC") to the Company pursuant to the agreement dated March 23, 2011. CannaBANK is also financing the acquisitions and development of certain approved purchases, acquisitions, and products. CannaBANK is at the forefront of hemp-based investments. Through liquidation of its equity and financial raises, in which CannaBANK guaranteed said funding, CannaBANK provided in excess of \$4 million in financing for the acquisition and development of several pending transactions, including the Dixie Elixirs Brand, PhytoSPHERE Systems, CanChew Biotechnologies, several cannabinoid-based hemp delivery systems, KannaLife Sciences, and several Wellness Managed Services accounts. CannaBANK is expanding its funding resources for the Company.

The nature of products or services offered:

Currently the entire Company's product and service portfolio is being evaluated by new management for marketability and profitability. The company has investments in other companies and brands which also have products and services.

7. DESCRIBE THE ISSUER'S FACILITIES

As of June 30, 2013, the Company relocated its corporate office to provide for expansion of personnel and to add warehouse/distribution capabilities. The new corporate office has approximately 7,000 square feet. The office has a call center, customer service center, shipping and receiving center and warehouse. The new corporate office is located at 4901 Morena Boulevard, Suite 701, San Diego, CA 92117.

8. OFFICERS, DIRECTORS AND CONTROL PERSONS Board of Directors

The Company's Board of Directors is comprised of highly qualified and industry professionals. The Board assists the Management team in making appropriated decisions and taking effective action. Currently there are three members on the board:

Chairman:

Michelle Sides

Director:

Michael D. Julian

The following individuals are no longer on the Company Board:

Gideon Wolf David Farrand

New Board Member(s):

The Company has and continues to search for qualified individuals that will provide guidance and leadership lending to the success of the business objectives. As such, the Company is proud and honored to have Michael Julian on its board. Mr. Julian has been a highly respected investigator for the State of California and is President/CEO of NBI Professional Investigative Services as well as MPS Security. Mr. Julian will provide assistance not only in business-related matters, but will also lend expertise in locating and vetting future executives, existing partnerships as well as future opportunities to ensure that we locate the most qualified individuals and partnerships that are viable and in line with Company objectives.

Mr. Julian's bio is as follows:

Michael Julian, CPI PPS CSP

Michael grew up working in the PI and security company his father founded in 1967 and began working full time in 1990, specializing in surveillance operations. He obtained his Private Investigators license in 1994 and majored in Administration of Justice in college where he was inducted into the Phi Theta Kappa International Scholastic Order for academic excellence.

After joining the California Association of Licensed Investigators (CALI) in 1995, he served as a District Governor, a member of the Legislation and Technology Committees, Education & Training Task Force, chaired the Bi-Laws Committee and held the Vice President of Administrative Services position for five terms before becoming president in 2012.

Michael regularly teaches continuing education courses offered by CALI, as well as industry-related classes for California State University Fullerton, and National Business Institutes on topics such as business, technology, personal locates, asset discovery, and basic, intermediate, and advanced surveillance techniques.

Michael is a 2003 Executive Protection Institute class 55 graduate and member of the Nine Lives Associates. He has personally provided executive and asset protection to corporate executives, celebrities, natural and man-made disaster victims, and persons at risk for over two decades. He also instructs on multiple executive protection topics at EP schools and industry conferences. Michael is one of less than 50 Certified Security Professionals (CSP) in California.

Mr. Julian owns shares of Medical Marijuana Inc.

The Company continues with its efforts to find additional Board Members and Advisor Board Committee Members.

Advisors to the Board

The Company has an informal Advisory Board that is available to provide business advice and counseling to the Management Team of the Company. The Advisory Board is appointed by the President and/or other key executive members, and does not involve itself in any matters involving corporate governance of the Company. There are currently three Advisors to the Board:

Dr. Philip A. Van Damme Dr. George Anastassov Lekhram Changoer

Management

Michelle Sides

Chairman of the Board, Chief Operating Officer 2665 Ariane Drive, Suite 207 San Diego, CA 92117

Prior to joining Medical Marijuana Inc., Ms. Sides was Chief Operating Officer for HDDC (d.b.a CannaBANK), located in San Diego, California. She earned her law degree from Nova Southeastern University. She is a member of the Florida State Bar Association. Ms. Sides holds a Bachelor of Science from Palm Beach Atlantic College, majoring in Business and Organizational Management. Michelle spent six years as Board of Director, Executive Vice President and General Counsel for EH Building Group II, LLC, which was nationally recognized as one of the fastest-growing developers in 2006-08, winning numerous awards for production, design, and marketing. Prior to EH, Michelle honed her legal expertise as Legal and Operations Manager for the Commonwealth Network Corporation, as well as the Director of Legal Affairs for Power Sports, Inc. Both of these positions focused mainly on corporate and real estate transactional law.

Ms. Sides is on the Board for Hemp Deposit and Distribution Corporation. Ms. Sides owns shares of Medical Marijuana, Inc.

Dr. Philip A. Van Damme

Dr. Anastassov owns shares of Medical Marijuana Inc.

Lekhram Changoer

Chief Technology Officer, CanChew Biotechnologies Kuyperstraat 5 3404 HL Ijsselstein, Netherlands

Lekhram Changoer was born in Surinam (South America). Lekhram holds a Bachelor Degree in Analytical/Organic Chemistry and Masters Degree in Organic Chemistry. He has over 20 years of experience in the area of Sales & Marketing, R&D, product development, and quality assurance of technical, consumer healthcare and pharmaceutical products – all servicing European and other international markets.

In 1992, Lekhram first joined IWC Chemical products BV where he was responsible for the development of functional coatings and corrosion inhibitors for the chemical industry: Yara, Kemira, and others. In his second corporate role, Lekhram joined Scott Specialty Gases BV where he was responsible for managing the R&D, QC and QA of functional calibration gases for the petrochemical and automotive Industry for companies such as Mercedes Benz, Rolls Royce, Dera, Shell, Exxon, and General Electric.

In the area of consumer healthcare products, Lekhram worked on the development of cosmetics and medical device products for various retail chains and consumer healthcare companies. At Codi International BV he was responsible for managing product development in the field of wet wipes and successfully developed products for companies such as Proctor & Gamble, Sara Lee, Henkel and Reckitt Benckiser. In 1999 Lekhram's career took him to Royal Sanders BV with the position of R&D & QC manager – here, he was responsible for the development of cosmetics, medical devices and other healthcare products for clients: Sara Lee, Colgate Palmolive, Virgin Cosmetics, Keune Cosmetics and private labels for various retail chains: Ahold, AC Watson, DM and Rossmann.

In 2002, Lekhram joined the Ardoz/NGen group of companies as a Managing Director. During his tenure his achievements included the filing new patents in the field of active oxygen therapy. This incorporated the accreditation of the products by the Dutch Skin Foundation and the British Dental Health Foundation. He developed new oral healthcare drug applications for periodontitis, peri-implantitis / bone repair and oral mucositis. The OTC products with active oxygen, amongst others also a new chewing gum application (for Perfetti van Melle in Italy), were successfully launched under his directorship in markets at: Boots, Ahold and El Corte Ingles Pharmacy retail and pharmacy chains under the cosmetic 76/768/EEC and medical device 93/42/EEC directive.

In 2010, Lekhram co-founded APeT BV (www.apetholding.com) which focuses on a first of its kind patented therapy for psychiatric diseases like ADHD and Autism as a replacement for methylphenidate and analogs. This therapy involves an in-house developed diagnostic and treatment with the human body's own internal compound(s). The impact on national healthcare has been so important that he has been able to get the largest Dutch insurance company to fund the clinical trial, after which it will most probably become the new standard of care. A new patented pharmacotherapy was filed, which will guarantee protection of the therapy as well as patient therapy loyalty.

In association with Prof. George E. Anastassov MD, DDS, FAC and Dr. Philip A. Van Damme, DMD, MD, PhD, the Sanammad Foundation (www.sanammad.com) was established in 2010 – the Sanammad Foundation holds internationally patent pending technology on chewing gum compositions comprising Cannabinoids.

Lekhram is also involved and co-founder in: CFM Pharma BV (www.cfmpharma.com) which holds patented technologies and focuses on the prevention of secondary injury in indications such as deep burn wounds, myocardial infarct and general trauma. GCP Dental BV (www.gcp-dental.com) has developed a 100% patented biocompatible material for restorative dental applications (where Glass Carbomer® Technology allows the tooth to heal itself) with a global market approach.

Mr. Changoer owns shares of Medical Marijuana Inc.

Tripp Keber

President, Red Dice Holdings

Tripp Keber is President of Left Bank, Inc., a Denver-based real estate investment firm with holdings in Aspen and Denver, Colorado, and Florida. Prior to Left Bank, Mr. Keber held several senior level positions in the telecommunications industry as General Manager of ICG Communications, Senior Vice President for Sales and Marketing at eLink Communications, Sales Director for National Accounts for Pathnet, and as Sales Manager for Winstar Telecommunications. ADDITIONAL UPDATES:

Depository Trust Company ("DTC") Chill - The Company is proud to announce that after full compliance with all requested information, the DTC notified the Company that it lifted the chill as of August 21, 2013.

2-Year Audit Status - As of September 30, 2013, the auditor has completed 12 of 24 months of audits. In the meantime, we are actively seeking an SEC auditing firm that will review all audited financials upon completion to move forward as part of the uplisting requirements. This option was the chosen course of action to save significant cost to the Company—to have all quarters audited and then submitted together to an SEC firm to finalize.

Office Move - As of June 30, 2013, we have officially moved our corporate office to a new location. This move allows for significant current and future growth capabilities. The Company will continually post updates on its website and through social media, and welcomes shareholders to visit these sites and post any comments and/or suggestions that may help us better keep you apprised of matters of interest.

Security Exchange Commission (SEC) Inquiry - On June 17, 2013, we received a letter from the Staff of the Division of Enforcement of the SEC informing the Company that it is conducting an informal inquiry and requesting that the Company provide certain documents and information relating to current and former management of the Company, communications between the Company and governmental agencies, operations of the Company, and other matters referenced in the letter. The letter advised that the informal inquiry should not be construed as an indication by the SEC or its staff that any violations of law have occurred, or as an adverse reflection upon any person or security.

The Company has fully cooperated with the SEC with requested information. To further show full disclosure, the Company has voluntarily elected to continue to provide information on a rolling basis.

Additional Departments Created and New Hires - As the Company grows, we will continue to add appropriate personnel to better market, sell, and distribute our products. As of June 30, 2013, the following departments were created:

Sales and Call Center - The staff for this department are comprised of trained sales professionals to implement sales strategies, follow-up calls, and customer/general public inquiries. The Sales and Call Center teams are supervised by the Director of Sales.

Marketing – In addition to hiring a VP of Communications to oversee all marketing and outreach initiatives, the new marketing staff currently includes graphic designers, copywriters, web developers, and other marketing professionals.

Social Media – This department is developing a complete social media presence for the Company and its subsidiaries. These team members report to the Director of Sales and the Director of Communications.

As more team members and departments are added, we will update shareholders and the general public via email and/or social media communications.

Charitable Objectives - The Company, through its subsidiary HempMedsPX, began "giving back" with the Run4Hope event in Texas as well as working with various epilepsy foundations to provide assistance to families in need. "This event, along with other similar future endeavors, is the reason why we took on this industry. There are so many individuals who can benefit from hemp CBD products, and our ability to make a difference is what everyone in this industry should strive to accomplish. As such, we are very proud of our ability to contribute and look forward to continuing these efforts," says Michelle Sides, Chairman/COO of Medical Marijuana Inc.

ISSUER CERTIFICATION. 10.

The issuer shall include certifications by the chief executive officer and chief financial officer of the issuer (or any other person with different titles, but having same responsibility).

The certification shall follow the format below.

I, Michelle L. Sides, Chairman and Chief Operating Officer, certify that:

I have reviewed this quarterly statement of Medical Marijuana Inc. 1.

Based on my knowledge, this disclosure statement does not contain any 2. untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this disclosure statement; and

Based on my knowledge, the financial statements, and other financial 3. information included or incorporated by reference in this disclosure statement, which have been prepared by the Company auditor, fairly present in all material respects the financial condition, results of operations and cash flows of the issuer as of, and for, the periods presented in this disclosure statement,

Date: November 13, 2013

Medical Marijuana Inc. Reviews State of the Hemp and Cannabis Industries

Previous Page

Significant Positive Developments Cited

SAN DIEGO, June 6, 2013 (GLOBE NEWSWIRE) - Medical

Marijuana Inc (OTC Pink MJNA) is pleased to inform shareholders and the general public about the state of the industrial hemp and cannabis industries. These are recent encouraging developments that could significantly impact company operations.

National Industrial Hemp News:

An amendment to the US Farm Bill would allow US farmers to grow industrial hemp. Senator Ron Wyden (D-Ore.) introduced the hill to Congress on Monday known as the "Industrial Hump Farming Act of 2013". The bill would exclude industrial hump from classification as "marihuana" in the Controlled Substances Act and allow for state-by-state regulation of industrial hump farming.

Wyden sold HuffPost he planned to talk to Sen. Debbie Stabenow (D-Mich.), who is floor-managing the farm bill, about the provision. "For me, what's important is that people see, particularly in our state, there's someone boying it at Costco in Oregon," Wyden said in a brief interview in the Capitol. "I adopted what I think is a modest position, which is if you can buy it at a store in Oregon, our farmers ought to be able to make some money growing it."

Article: http://www.buffinutmipost.com/2013/05/21/non-wyden-hemp-legalization_n_3314753.html

The amendment was corporated by Sen. Jeff Merkley (D-Ore.), Sen. Rand Paul (R-Ky.), and Senate Minority Leader Mitch McConnell (R-Ky.). "I firmly believe that American farmers should not be denied an opportunity to grow and sell a legitimate crop simply because it resembles an illugal one," Wyden wrote at the time. Article: http://www.wydon.astatement.on-hemp-antendment-to-the-form-bill.

I'm confident that if grassroots support continues to grow and Members of Congress continue to hear from voters then common sense hemp legislation can move through Congress in the near future," said Senator Wyden.

Eight states - Colorado, Maine, Montana, North Dakota, Oregon, Vermont, Washington, and West Virginia - have enacted statutory changes defining industrial home as distinct agricultural product and allowing for its regulated commercial production. Passage of this amendment would remove existing federal barriers and allow these states and others the authority to do so without running afoul of federal anti-drug laws.

Survey: 76 percent of doctors approve of medical marijuana use

A majority of doctors would approve the use of medical marijuanu, according to a new survey

We were surprised by the outcome of polling and comments, with 76 percent of all votes in favor of the use of managama for medicinal purposes -- even though marijuana use is illegal in most countries," the survey's authors wrote.

The results appeared in the New England Journal of Medicine on May 30. It included responses from 1,446 doctors from 72 different countries and 56 different states and provinces in North America. In addition, 118 doctors posted comments about their decision on the survey.

Celebrate Hemp History Week

This year, hemp history week is being celebrated June 3-9 and our companies both wish everyone join in the grand festivities. More information available

For centuries, hemp was grown on American soil. The viable, adaptable crop was essential to the growth of industry. Thomas Jefferson endorsed it, declaring, "Hemp is of first necessity to the wealth and protection of the country." During World War II, the U.S. government instituted a program to supply material for military equipment. by contracting with farmers to grow hemp. The "Hemp for Victory" effort made sense, but politically the timing was a bit perplexing, considering that a mere five years earlier. Congress had passed the Marijuana Tax Act.

Eight states have industrial hemp laws on their books, including Colorado, Kentucky, Maine, Montana, North Dakota, Oregon, Vermont and West Virginia. State policies include:

- · defining industrial bemp based on the percentage of tetrahydrocannabinol it contains
- · authorizing the growing and possessing of industrial hemp.
- · requiring state licensing of industrial bemp growers
- · promoting research and development of markets for industrial hemp.
- · excluding industrial hemp from the definition of controlled substances under state law.
- establishing a defense to criminal protecution under drug possession or cultivation.

New Study Shows Cannabinaids Improve Efficiency Of Mitochondria And Remove Damaged Brain Cells

A recent study conducted by Andras Biokei-Gorzo at the Institute of Molecular Psychiatry at the University of Bonn in Germany is suggesting that marijuanajor the activation of the brain's cannabinoid system) triggers the release of antioxidants, which act as a cleansing mechanism. This process is known to remove damaged cells and improve the efficiency of minochondria. Mitochondria is the energy source that powers cells. The study was published in Philosophical Transactions (I) The Royal Society, B.

These discoveries shed new insight on how natural marijuana cannalinoids hold the capacity to literally kill the brain inflammation responsible for causing cognitive decline, neural failure, and brain degeneration. By supplying these receptor sites with cannabinoids, patients may be able to overcome brain conditions like Alzheimer's disease, Parkinson's disease, Huntington's disease, and more, not to mention premature brain aging. The human brain contains an extensive network of special receptor sites that modulate nervous system function only when activated by the appropriate cannabinoid compounds, which are found in the marijuana plant. Article http://www.collactive-evolution.com/2013/05/20/new-study-shows-camadimosth improve officiency-of-mitochooding-and-remove-damaged-brain-cells/

Hemp/Marijuana Updates by State

Colorado Marijuana:

On Wednesday May 29th Colorado Governor John Hickentooper signed the first legislative bills in history to establish a legal and regulated marijuana market for adults. The measures established Colorado as the world's first logal, regulated and taxed manijuana market for adults.

Source: http://www.hulflingtorpost.com/2013/05/28/hickenfaeper-signs-colors_n_3346798.html

Jack Finlaw, Gov. Hickenlooper's chief legal counsel, said that although they were apposed to marijuana legalization, "the will of the voters needed to be implemented"

Meens I was discussed of communications for the Ministern Princip Prin

http://www.huffingtonport.com/2013/05/26/bickenfouper-signs-culary.n. 3346798 html

Colorado Hemp:

State officials have passed legislation legalizing the planting of industrial hemp within Colorado however the federal government has yet to signal its approval. Therefore Colorado State regulators are urging farmers to wait before planting a hemp crop.

On Wednesday May 29th Colorado Governor John Hickenlooper signed into faw an historic measure to establish Colorado as the world's first legal, regulated and taxed marijuana market for adults. Along with this measure, Governor Hickenlooper also signed into law a measure that would start the development of a regulatory framework for the cultivation, distribution and processing of industrial hemp. http://www.huffinetonpost.com/2011/05/28/hickenfineper-signs-nologa_n_314n/968 lated

In Colorado, a state set to be the first in the country to tax and regulate marijuants for recreational use however agriculture officials are asking anxious hemp farmers to be patient. There's still work to be done before hemp growers can register with the state's agriculture department. Link: http://www.kumc.org/post/want-grow-hemps colorado-officials-say-wall

- "A lot of folks believe that industrial hemp has considerable promise and so they're interested in when they can start," said Ron Carleton, deputy commissioner with the Colorado Department of Agriculture.
- "I think [farmers] would be well-advised to wait until the rules are in place and the tugistration program in place, because I can't really speak to what legal status they would be in," Carleton said.

Kentucky Hempt

Lawrenders in Kentucky have also recently set up a system for farmers to grow process and sell homp. Kentucky's senutors, Republicans Sen. Rand Paul and Sen. Mitch McConnell, have maded to include hemp legalization into the latest drafts of the farm billhttp://www.haffingsampost.com/2013/05/20/natich-inconnell-rand-paulhemp it 3204613 hand

Page 3 of 5

In all, nine US States http://www.vouchump.com/state.html have removed harriers to growing industrial hemp. About two dezon more have passed legislation to create hemp commissions, resolutions in support of hemp cultivation and directives to study hemp's potential economic impact. Select Language.

However, until Congress takes up the legality of hump, don't necessarily expect to drive down roads near you and see fields of (legal) green stuff. If Senators Paul and McConnell have their way - fields of legal green stuff may soon become a reality in the United States as it is for Canada, Australia and other European countries

Vermont Hemm:

Somewhat overshadowed by the passage of a bill to decriminalize marijuana possession in Vermont, a second bill that would modify Vermont's law permitting the growth of hemp by farmers was recently passed by both chambers of the State legislature. Once signed by Governor Peter Shumlin, Senate Bill 157 would modify the requirements for hemp production within Vermont, which was authorized back in 2008 but has not been implemented due to a federal ban on the cultivation of the crop.

The 2008 bill had language which states that Vermont farmers can grow hemp "when federal regulations permit". The new bill allows the Vermont Secretary of Agriculture to begin issuing licenses to grow hemp to qualified farmers - but would be required to inform them that hemp cultivation may be in violation of the federal Controlled Substances Act

Farmers would be required to be licensed by the State to grow hemp. More infu here http://www.thsdailychronic.net/2013/1790g/vennum-hamp-hill-puries-legislatureheadi-la-inverner

California Hemp:

In quiet proceedings, the California State Senate unanimously passed (39 - 0) hemp legislation under SB-566. Sponsored by Senator Mark Leno the California Industrial Hemp Farming Act now goes to a vote of the overall California legislature. According to Senator Leno's office this bill "is necessary to prepare California farmers to grow industrial hump immediately following federal approval. The bill will allow California farmers to take advantage of this economic opportunity and more quickly meet the demands of California businesses and manufacturers for a local source for raw hemp material."

The California bill

- 1. Defines "industrial hemp" as follows:
- a. An agricultural field crop limited to the non-psycho-active varieties of the plant Cannabis sativa i..., and the seeds produced therefrom:
- b. Industrial hemp shall have no more than 3/10 of 1% (0.3%) THC contained in the dry flowering tops;
- 4. C. Industrial hemp shall be cultivated and processed exclusively for the purpose of producing the mature stalks of the plant and by-products of the stalk and seed including nil or cake made from seeds and other preparations
- 5. 2. Redefines "murijuana" to exclude industrial hemp when cultivated or processed for defined purposes
- 6. 3. Defines "industrial hemp" to mean a non-psycho-active type of the plant Cannabis sativa L. that contains no more than 0.3% THC contained in the flowering. tops and cultivated and processed exclusively for the purpose of producing the mature stalks of the plant, fiber produced from the stalks, oil or cake made from the seeds of the plant, or for other defined purposes

Cannabis and Medicinal Cannabis Additional Updates

South Carolina:

Conservative South Carolina may soon distribute marijuana via SC Dept of Health and Environmental Control. SC minerity leader Todd Rutherford is preparing legislation that would include subsidies for SC farmers to potentially grow marijuana and establish a system for regulating distribution and collecting tax revenues. Article: http://www.fitsnews.com/2013/05/22/sc-unvernment-spreading-love-with-the-bad

Hillmin's:

Illinois close to becoming the 20th State to legalize medicinal cannabis. House and Senate both have passed legislation that now awaits Gov Quinn's signature to become law. The Illinois law will allow for the medical usage of cannabis for at least 40 debilitating conditions, such as multiple sclerosis. The Illinois bill would allow for 22 instate marijuana cultivators and 60 dispensaries within the State. Article http://news.modill.porthwestern.edu/chicago/hows.aspx/id-221771

A bid to become the third state to legalize marijuana is still alive in Maine. State Rep. Diane Russell (D-Portland) has sponsored "An Act in Tax and Regulate Marijuana" along with 35 other co-sponsors and the proposed legislation could still be called to a floor debate in the Maine State House and Senate this year. Last November voters in Colorado and Washington approved measures making marijuana legal for recreational purposes among adults 21 and older. Hills to regulate and tax marijuana like alcohol have been introduced in over a dozen States this year. Story: http://www.thmlailychimnic.net/2011/17918/maine-marijuanu-lenstration-hill-setheck-but-net-dead

New Hampshire:

A bill allowing seriously ill New Hampsture residents to use medicinal cannabis moved one step closer to becoming law on May 23 when the NH Senate voted 18 - 6 in favor of House Bill 573. New Hampshire Governor Maggie Hassan is requiring several changes to the Bill before earning her signature however. The Governor informed State Senators that they must remove the home cultivation provision, gut the affirmative action defense provisions and require written permission from property owners or tenants before patients may use cannabis on private property. More: http://www.nipp.org/states/new-hampshipp

In New York, the state Assembly passed a bill on Monday to legalize medical marijuana by a wide margin, with 95 lawmakers voting in favor of it vs. just 38 opposed. Just as impressively, the measure gained bi-partisan support and now heads to the Senate. Here, the New York State Senate has until the current session ends on June 20 to weigh in. If the bill passes, and receives the approval from Governor Andrew Cusmo, then dozens of dispensaries could open up across New York State.

The bill - sponsored by Assembly Health Committee Chairperson Richard N. Gottfried and Sen. Diane Savino - aims to head off the problems seen in other states with weak medical multiplana regulations by incorporating stringent rules on everything from dispensary applications to inventory tracking requirements. It also calls for an excise tax on marijuana manufacturing and sales, with a good chunk of the revenues going toward local municipalities.

"From Delaware to Maine, almost every state allows medical use of marquana," Assembly Health Committee Chair Gottfried said in a press release. "If the patient and physician agree that a severe debilitating or life-threatening condition should be treated with medical marijuana, the government should not stand in the way. It is cruel to deny treatment to patients who are suffering or turn them into criminals."

Source: http://mmpharinessilarly.com/2013/06/04/mmp-momentum-continues-no-neyado-new-vork-medical-cautable-bills-advance/

Nevada:

in Nevada, a bill to enhance the state's long-standing medical marijuana laws by allowing dispensaries to open cleared the Assagibly and appears headed for the governor's desk. Under the measure - Second Bull 374 - roughly two dozens dispensaries could open across the state. The Bill School Bull Six one center in each could pressure. although up to 10 dispensaties could operate in Clark County (which includes Las Vegas) and three in Washoe County (which includes Reno). Nevada Governor Brian Sandoval has previously mentioned supporting Dispensaries, so proponents are hopeful of his signature by mid-June on the Bill

Source: http://mmultourcevataily.com/2013/06/04/mmi-mumentum-criminum-as-neyada-new-curk-mudical-cannaba-bills-advance/

New Jersey:

A Union County New Jursey senator introduced a bill last week that would make it easier for sick children who qualify for New Jersey's medical marrjuana program to

The bill was inspired by the plight of 2-year-old Vivian Wilson of Scotch Plains, who is diagnosed with a rare and potentially deadly form of epilepsy called Dravet syndrome. Because traditional medications have been unable to control has seizures, her parents, Meghan and Brian Wilson, signed her up for the program. They say they have been encouraged by reports of Colorado children diagnosed with Dravet who have impested the drug made from a strain that is high in the active ingredient cannabidiol, but low in the psychoactive components that make a person feel high

"It was never our intent for the state's medical marijuana program to be so restrictive that a child who is suffering and in desperate need of relief from a debildating condition could not get access to care," said Sen. Nicholas Scutari (D-Union), who sponsored the original medical murijuana law, the Compassionate Use Medical Martiugna Act

Article (mp//www.nj.com/politics/index.ist/2013/05/state_senitor_introduces_fall_fatm)

Commentary

If all three measures pass [meaning Illinois, New York and Nevada) - and there's a chance they all could this month - the medical marijuana industry will grow by leaps and bounds in the coming years, leading to thousands of jobs and billions of dollars in additional revenues for industry participants. "There has been a significant shift in the industry over the past few months, as these new states legalize it creates more focus on our industry and a great opportunity für our firm to capture additional markets and market share. Stay tune, there is a lot more to come next week with our highly anticipated product launches." Stated Michelle Sides, Chairman and COO of Medical Marijuana Inc.

Medical Marijuana Inc Reports: France to Legalize Medicinal Cannabis

Previous Page

Major Worldwide Announcement to Create Waves Throughout Europe

SAN DEEGO, June 10, 2013 (GLOBE NEWSWIRE) --

Medical Marijuana Inc (OTC:MINA) is pleased to inform shareholders and the general public of an announcement made in France on Friday, June 7, 2013 where the

Europe in regard to cannabis, has just legalized the medicinal use of the substance! Before officially celebrating this historical event we will however have to wait for the sanctioned publication of this French decree.

On Friday 7th of June 2013, Decree nº 2013-473 of June 5th 2013 was published, modifying the dispositions of former article R. 5132-86 of the French Public Health Code related to the prohibition of operations linked to cannabis and its derivatives. Basically, the former article R: 5132-86 prohibited all non-industrial use of the cannabis plant. Exemptions to this needed to be granted by the General Director of the National Security Agency for Medicines and Health Products, which very rarely hangened.

The implementation of the law is left as the responsibility of the Minister of Social Affairs and Health: Marisol Touraine, who will be ratifying the decree in the coming weeks. It is therefore not yet possible to determine the exact consequences of this decree for French patients who could soon enjoy the benefits of legalized therapeutic cannabis.

Virilance is however required, due to the mention of necessary authorization before bringing a (cannabis) product onto the market so as not to be in violation of the existing law. This clause suggests that it will be difficult for organizations and patients themselves to produce their own medicinal cannabis despite the relatively low costs related to its cultivation and processing

Above all this represents a huge step forward for French patients already using cannalis to relieve the symptoms linked to their illnesses: to witness their medication of choice finally become legal in the eyes of the government.

Medical Marijuana Inc will insue a more detailed report - to follow when the execution of the decree is officially published - to better understand and explore the impact of its implementation.

The cannabis plant, removed from the official French Pharmacopeia in 1953, is making its official comeback, 60 years later.

More info here, http://senanseeds.com/en/blog/newaffasts-mediatral-use-of-cannalin-legalized-in-france-

About CanChew Gum

Can Chew Guny is a patented, all-natural CHO based gum product. The ingredients in Can Chew are of the highest purity and are steam-distilled—a meticulous process that preserves the integrity of the gum's ingredients better than typical extraction methods. Can Chewpasses rigorous "Whole Foods" standards and is safe for all ages. It offers the world's only and most advanced delivery method for cannabinoids in the form of chewing gum. Can Chew is available in the United States and is in negotiation for multiple international distribution points.

CanChese has a great-tasting "cool mint" flavor and is sweetened with xylitol, an all-natural low-cultoric sweetener which has been shown to flight denial cavities and plaque. Canthese is safe for diabetic consumers and is made without preservatives or artificial flavors. Each piece of CanChese is less than one caloric, which makes it an excellent way to help curb cravings when dieting.

About Cannabidiol (CBD)

Cannabidiol (CBD) is a cannabinioud derived from the hemp plant's stalk and seed. Cant here is a patented chewing guin containing naturally-occurring cannabidiol (CBD) from industrial hemp. Each piece of Cant here contains 50mg of CBD-rich hemp oil and up to 10mg of CBD.

CanChew Biotechnologies has spent substantial time and effort to produce an all-natural, Whole Foods-compliant, great tasting gum that contains CBD-rich home oil. With the opening of the new warehouse, full-scale re-stocking of CanChew is at last complete and large-scale orders are now being accepted.

About CanChew Gum

CanChew gum is brought to you by CannaGum Marketing Group a wholly owned subsidiary of CanChew Biotechnologies. CanChew gum is the first CHD-based gum product on the market in the world. More information and online ordering is available at www.canchewgum.com

About CanChew Biotechnologies

CanChew Biotechnologies is a joint venture between Medical Marijuana Inc. and the Sonammad Foundation. The CanChew Biotechnologies is a United States-Notherlands-based organization that focuses on the treatment of pain and other medical disorders with the application of chewing gum-based cannabis/cannabinoids medical products through the development of MedChewRx. CanChew Biotechnology targets research and execution of their clinical development plan and subsequently out licensing or marketing and sales of its patented technology.

About PhytoSPHERE Systems

PhytoSPHERE Systems is a global phytocannabinoid biotechnology company based in San Diego, California with operations on several continents. The company utilizes advanced cultivation methods and state-of-the-art processing technology leading to development of pharmaceutical, nutraceutical and food products

PhytoSPHERE Systems, the manufacturer of the CBD-rich hemp oil used in CanChew gum, have developed special cultivars that produce hemp that is especially rich in CHD. PhytoSPHERE has done extensive research to identify specific genetic characteristics that make up these cultivars; the hemp is grown in special microclimates to allow for the highest concentration of CBD to come through in the plants. This process makes it possible for CanChew Biotechnologies to offer all-natural products with high concentrations of CBD.

Medical Marijuana Inc's PhytoSPHERE Systems Reports it Has Radically Increased Hemp Production in Expectation of World Wide Demand for 2013 & 2014

Previous Paue

Major New Worldwide Production to Add to Cannabinoid Reserves for Product Expansion of CBD, CBG and Host of Hemp Derived Terpenes; PhytoSPHERE Systems Announces Creation of US Hemp Oil Corp - Its Pet Product Line-Cibdex and Skin Care Line-Cibaderm- to be Introduced Later in the Year

SAN DIEGO, June 18, 2013 (GLOBE NEWSW(RE) -- Medical Marijuana Inc. (OTC:MINA) and PhytoSPHERE Systems are pleased to inform shareholders and the general public that the company has expanded hemp production significantly. With the expansion, the company has increased production of the industry's first natural pharmaceutical-grade CBD-rich oils and derivatives. The increased capacity to 6,000 tons of raw base material from 2,000 tons will make PhytoSPHERE Systems one of the largest hemp production companies in the world.

PhytoSPHERE Systems has recently created US Hemp Oil Corp, which is currently developing the Pet industries first CBD-based Pet Care product line. "Cibdes" as well as an exclusive CBO-cannabinoid 5kin Care Line aptly named "Cibaderm"

Increase of Hemp Production to an estimated 6,000 Tons for 2013 Harvest

PhytoSPHERE Systems has informed shareholders that the company has added 4,000 torm of raw hemp to the present production capabilities of 2,000 torm. The increase in hems based raw materials increases the company's production capabilities of CBD-rich oils as well as allows the company to increase its production of other cannabinated rich hemp oils such as Cannabigerol (CBG). Furthermore, this production increase is expected to add the equivalent of 450 tons of Cannabinoid-rich hempoil to overall reserves- an increase of 300 tons. With the recent licensing agreement with CannaVest Corp the apportunity was created for this increased production which in turn lowered the overall cost of the raw ingredients significantly. These costs savings will eventually lead to lower sales prices for finished goods for

PhytoSPHERE to Invest in Hemp Harvesting and Product Equipment

PhytoSPHERE Systems, in order to keep up with expanding worldwide hemp production, has announced the company will invest in a series of new hemp harvesting and production equipment. This will allow for the added in-ground production to be processed and handled in an efficient manner while keeping the integrity of the supply chain intact and increasing the quality of the production.

PhytoSPHERE to Expand Product Capabilities into Pharmacentical Market

PhytoSPHERE Systems has additionally announced that it will expand production of cannabidiotic acid (CHD-A) and various terpenoids in line with increased demand from pharmaceutical companies and research bodies. PhytoSPHIRE will also start to produce significant quantities of a second cannabinoid—cannabigorol (CBG). These simultaneous developments will enable the company to explore additional combinations of products within new and expanding product lines. Research has shown that combining various cannabinoids and terpenoids have increased the overall effects of a single component cannabinoid product. This effect has been coined the "Entourage Effect". The company is positioning itself to supply large quantities of naturally derived cannabinoids, terpencies terpenoids to the pharmaceutical industry as an additive enhancing ingredient to their current product portfolio's whereby making the products have the "Emourage Effect" or be more effective against the companies target demographic

PhytoSPHERE Systems US-Based Operations Expanding

PhytoSPHERE Systems expanded their US-based operations with the increase of its office, warehouse and laboratory operations with new leases in San Diego California and Law Vegas Nevada. The company is still actively recruiting and hiring new team members in customer services and sales.

PhytoSPHERE Announces the Creation of US Hemp Oil- as well as Fitness, Pet and Skin Care Lines

Select I	Language	-	Francis I	to Car gl	- Trumplet

PhytoSPHERE has formed a new entity US Hemp Oil Corp. US Hemp Oil is focused on the development and production of hemp based products, including hemp protein products, hemp seed oil, hemp hased omega products. The company also formed two additional business units Cibdex and Cibaderm. Cibdex is the world's first hump CBD-based Per product line and Cibaderm is exclusively focused on CBD and other Cannabinoid rich skin care products. The company expects to launch its full line of products over the course of 2013.

The industry is expanding quickly, research in the area of cannabinoids and terpenes are on the ferefront of an industry shift. By the expansion of hemp based raw materials for specialty hemp oil and compounds, the company continues to be an industry leader and innovator. We are extremely proud of the position of the company and look forward to seeing our businesses mature as the industry does. I would like to thank our shareholders for their continued support and the support of our dedicated team." Said Michelle Sides, Chairman and COO of Medical Marijuana Inc.

Medical Marijuana Inc.'s Portfolio Company HempMedsPX Expands Its Operations

Previous Page

Jul 23, 2013 (ACCESSWIRE via COMTEX) — HempMedsPX Will Manage Sales and Marketing for Portfolio Companies, Focus on Giobal Distribution for Cannabis Industry

SAN DEGO, CA, July 22, 2013 - (eTeligis via ACCESSWIRE) - Medical Marijuana Inc. (CTC Pink: MJNA) and HempMedsPX are pleased to inform shareholders and the general public that, in order to address the massive growth of the industry, their portfolio companies' online marketing and sales endeavors will be managed by HempMedsPX effective immediately. HempMedsPX, in conjunction with Wellness Managed Servicesalso a Medical Marijuana Inc. portfolio company will be the first company to introduce distribution standardization for the cannabis industry.

Due to overwhelming demand for cannabidiol (CBD) bemp products, HempMedsPX a Medical Marijuana Inc. portfolio company has brought on a sales team, marketing team, management and support staff including: call center personnel, graphic designers, fulfillment and logistics, as well as IT and web development. With over 2,300 websites under management to direct sales traffic, HempMedsPX is focused on the marketing, branding, sales, logistics, distribution and fulfillment of cannabis product orders.

HempMedsPX will be providing marketing, distribution and fulfillment for:

- Medical Marijuana Inc. (http://www.medicalmarijuanainc.com/)
- · CunnaVest Corp.
- Wellness Managed Services (wellnessmanagedservices.com)
- US Hemp Oil (http://www.uibempsiif.com/)
- PhytoSPHERE (http://www.phytosphotosystems.com/)
- · Other portfolio companies' products and services

The first of many products that HempMedsPX is marketing from our portfolio companies are: Real Scientific Hemp Oil (RSHO)tup //www.realscientifichempoil.com/from Canna Vest Corp.) and CanChew CBD gam (http://www.canchewgum.com/).

One standardized platform for the cannabis industry

The added benefit of the HempMedaPX plutform is the ability to provide a standardized system for the hemp and cannabis industries as a whole.

The marketing and distribution channels for the \$10 billion (at the low end of some estimates. http://www.cnbc.com/ub/36179677) cannabis industry are substantially fractured and product channels are largely inconsistent.

"There is currently no real standardization in any aspect of this industry," says Charles Vest, Director of Communications for HempMedsPX. "This is a hold step in the right direction."

The diverse product and service offerings are just a few of the many aspects of the industry that need to be addressed, and HempMedsPX is the first company providing a comprehensive solution.

HempMedsPX is the platform to take all cannabis products to retailers and health care providers.

Currently, HempMedsPX is focused on marketing and retailing federally-legal hemp-based products like CBD hemp oils, hemp-based food products and personal care products. To that end, the company has standardized distribution options for the underserved cannabis industry. This will pave the way for all future cannabis products to

be distributed via a standardized platform as legalization efforts continue worldwide. Our system will be ready to fully address the emerging opportunities of the global marijuana industry.

In the meantime, HempMedsPX is bringing mainstream marketing, sales, customer service, and logistics for health and wellness products that are cannabis-based. HempMedsPX is currently positioning itself to market to over 200,000 retail outlets nationwide, including over 6,000 dispensaries. 150,000 smoke shops, thousands of health and wellness facilities like clinics, doctors' offices, and other related facilities. In addition to sales and distribution, HempMedsPX will be the communication high for the Medical Marijuana line, portfolio of companies. Shareholders should look to receive special offers and additional news in the coming weeks.

For more information about CanChew gum, visit http://www.canchew.gum.com/. For more information about RSHO, please visithing//www.canchew.gum.com/.

Our terminology

According to the US government, every product derived from cannubis is categorized as marijuana including bemp. We, therefore, use the word "marijuana" as an all-encompassing term to cover cannabis, medical marijuana and homp. We believe that "cannabis" should be the standard term used for all medical products; as the industry matures, we will be phasing out the words "medical marijuana" from the company's vocabulary.

About HempMedsPX

HempMedsPX is the master distributor and contracted marketing company for the CannaVest Corp. and Medical Marijuana, Inc. (CTC Pink:MINA) portfolios of products, including their revolutionary hump CBD products. Our goal is to help heal the world through hemp-based innovations

CanChew Biotechnologies and Medical Marijuana Inc. Elects CEO, CMO and CTO

Previous Page

Medical Marijuana Inc. Holdings Announces Commencement of Clinical Trials for New Pharmaceutical Product

San Diego, CA (eTeligis via ACCESSWIRE) 7/30/2013 - Medical Marquana ing. (OTC PINK: MJNA) and Cant how Biotechnologies are pleased to inform stareholders and the general public that the Cantchew Biotechnologies Board of Directors elected three new executives with clearly defined rolesDr. George E. Anastassov, MD, DDS, Exec. MBA as Chief Executive Officer (CEO); Dr. Philip. A. Van Damme DMD, MD, PhD as Chief Medical Officer (CMO), and Lekhrani Changoer, MSc BSc as Chief Technology Officer (CTO)during their annual meeting last week at the Medical Marijuana log. offices in San Diego, California

"The Board of Directors unanimously agreed that it was important to have a medical doctor with a business background in a CEO role for CanChest.

Biotechnologies Dr. Amastassov will bring decades of medical and dental knowledge and clinical research in cramo-maxillofacial and base of the skull surgery experience to his role as Chief Executive Officer. With the inclusion of Dr. van Damme's oral & cramo-maxillofacial surgical background and Mr. Changoer's extensive product development, clinical research, and health care marketing experience, it's an exciting time to be an MJNA shareholder."

As Chief Technology Officer, Mr. Changoer will continue to oversee organizational and technical aspects of the clinical trials for <u>CanChew Biotechnologies</u> products, and Dr. van Damme will be spearheading the medical issues related to product developments for their patented CBD gam. <u>CanChew. HempMedsPX</u> will begin an aggressive marketing campaign alongside in-depth introductions to the <u>CanChew Histochnologies</u> team and their MINA counterparts.

In clinical and product development news: Canches Diotechnologies are moving forward with ModChewRX, a combination CBO/THC gum that will be sold and marketed as a pharmaceutical drug. It's anticipated to take approximately three years of clinical trials to get FDA (Food and Drug Administration) and EMA (European Medicines Agency) approval for MedChewRX. The board unanimously voted to proceed with clinical trials and possible eventual out-licensing, and resolved to accept full funding with a budget approved by the Board of Directors. At that time, Mr. Changoer will initiate MedChewRX gum production. The clinical indication for this THC/CBO gum will be for pain, as of this press release, MedChewRX will contain 5mg of CBO and 5mg of TBC.

Global market opportunities in the CBD/THC functional gum continue to expand. Canada has federal licensing for the production of cannabis and the important of cannabis, Israel and the Czech Republic are allowing importation, and Israel can export THC because of existing cannabis licensing. CanChew (liotechnologies) will aggressively seek appropriate licensing partners in these and other countries.

The new executive officers will be the contact points for interviews and clinical information about <u>CunChew and MedChewit X</u>. Full biographies of the new executive team may be found at <u>CunChewflistech.anm</u>

Our Terminology

According to the US government, every product derived from cannabis is categorized as marijuana including bemp. We, therefore, use the word "marijuana" as an all-encompassing term to cover cannabis, medical marijuana, murijuana and hemp. We believe that "cannabis" should be the standard term used for all medical products, as the industry matures, we will be phasing out the words "medical murijuana" and "marijuana" from the company's vocabulary.

About CanChew Biotechnologies

CanChew Biotechnologies focuses on the treatment of pain and other medical disorders with the application of chewing gum-based cannabis/cannabinoid medical products.

The company is focused on the R&D and execution of their chinical development plan and the out-licensing of their technology. Clinical development focuses on the R&D of the formulation, production and the development of chewing gum-based products for the treatment of issues like pain; has producting an oriental space. Campa Holdings (www.compaboldrum.com), has signed an exclusive worldwide distribution and marketing agreement with a prominent European-based pharmaceutical nutraceutical cosmetics company. Campa Holdings will manage the marketing and distribution of the European company's portfolio of over twenty hemp-based consumer products. The products will be added to the LempMedsPX plutform.

"Some of the products Caniga Holdings will be marketing and selling are approved for specific medical claims in parts of the European market," says Charles Vest, Director of Communications for <u>HempNicdaPN</u>, the marketing company for Medical Marijuana Inc. and all MJNA subsidiary companies: "We want to make clear, however, that these products will be marketed as consumer only in the United States and its territories."

In the largest transaction that the company has signed to date, Canipa Holdings has also acquired the exclusive online marketing and sales rights for this new portfolio of hemp-based products (excluding The Middle East, Potand, Czech Republic, Hungary, Slovakia, and Latvia). Finally, Canipa Holdings will be the exclusive retail store-brick-and-mortar distributor for these new hemp-based products in all United States and territories as well as Canada and Mexico. The company will neek to negotiate additional territories as markets become viable.

"Nothing like these products exist today," continues Vest. "The European Union (EU), through the European Medicines Agency, is already well aware of the potential health and wellness applications for hemp-based products, evidenced by the fact that this new product portfolio that Campa has acquired is marketed for specific aifments in parts of the EU."

"This acquisition was in the works long before Canipa's inception, and it today demonstrates <u>HempModel'N</u>'s and MINA's abilities to source and develop the right brands to add to its gyet crowing limit, of products. We look forward to bringing these amazing products to a store near youand onlinein the not-toxi-distant future."

The acquired contract of products are currently sold in over 2,000 pharmacies and over 1,000 retail stores in Europe. Campa Holdings will be making a product offering announcement shortly as it integrates the brands packaging and web presence to meet the US, Canada and Mexico's regulatory requirements.

Our Terminology

According to the US government, every product derived from cannabis is estagorized as marijuana including homp. We, therefore, one the word "marijuana" as an all-encompassing term to cover cannabis, medical marijuana, marijuana and homp. We believe that "cannabis" should be the standard term used for all medical products; as the industry matures, we will be plassing out the words "medical marijuana" and "marijuana" from the company's vocabulary.

About Canipa Holdings

Compa Holdings was formed to assist Medical Marijuana Inc.'s (OTC Pink: MJNA) expansion efforts in Europe, the Middle East and Asia. Campa Holdings focuses its efforts on obtaining product and marketing approvals as well as distribution partners for the entire line of Medical Marijuana Inc.'s portfolio of products. For more information, please visit the company's website: www.campanholdings.com:
