- When compared to the same period of last year, voice RGUs decreased $24 \%$ reaching 228,145 . Voice RGUs include residential voice, commercial voice and wholesale lines.

## Business Management: Revenues and Expenses

## Revenues

Revenues reported in 2Q17 amounted to Ps. 638 million, an increase of $9 \%$ compared to 2Q16. Total revenues for the six months ended on June 30, 2017 reached Ps.1,370 million, which represents an increase of $21 \%$ with respect to revenues of Ps.1,128 million recorded in the same period of 2016. This resulted mainly from higher revenues in the wholesale segment which more than offset the revenue decrease in the residential business unit. Sequentially, revenues registered a decrease of $13 \%$, due to lower revenues in the residential and wholesale business units.

## Residential

This segment represents $15 \%$ of total revenues generated during 2Q17, a lower figure than the percentage reported in 2Q16 and slightly above 1Q17. When compared to 2Q16, revenues in this business unit had a decrease of $48 \%$ or Ps. 88 million. For the six months ended June 30, 2017, revenues from the residential business totaled Ps. 199 million, a decrease of $46 \%$ compared to Ps. 369 million in 2016. This decrease in revenues is the result of the reduction in the customer base experienced during the year mainly explained by the sale of customers to Megacable at the end of 3Q16 and the strategically managed "wind-down" process of the residential business unit that started in late 2016. Sequentially, revenues from this business unit decreased Ps. 10 million.

It is worth mentioning that both the migration of customers to the Megacable network and the process of disincorporation of the residential business go according to plan. Both initiatives will allow the Company to focus on the lines of business that generate greater value.

Second Quarter 2017 Results

The average revenue per unit ("ARPU") for the residential business was Ps. 162 in 2Q17, 3\% higher than the ARPU of Ps. 158 reported in 2Q16 and 6\% below the Ps. 171 posted in 1Q17. The rate of RGUs per residential customer during this quarter was 2.0, remaining flat versus 2Q16 and 1Q17.

## Commercial

Revenues of the commercial segment accounted for $27 \%$ of total revenues during 2Q17, which is lower than the figure reported in 2Q16 and higher than the figure recorded in 1Q17. Revenues reached Ps. 173 million, an increase of 4\% when compared to Ps. 166 million registered during 2Q16. For the six months ended June 30, 2017, revenues from the commercial business amounted to Ps. 343 million, representing an increase of $5 \%$ in comparison with Ps. 328 million registered in the same period of 2016. A positive trend is maintained in the performance of this business unit as a result of services provided to new customers and additional services provided to existing customers. In a sequential basis, revenues increased Ps. 3 million.

Commercial business ARPU during 2Q17 was Ps.439, 2\% below the Ps. 447 recorded in 2Q16 and 2\% higher compared to the figure recorded in 1Q17. The rate of RGUs per commercial customer increased $28 \%$ to 69.1 RGUs per customer against 53.9 RGUs in 2Q16.

## Wholesale

In 2Q17, the wholesale business unit posted revenues of Ps. 371 million, an increase of $57 \%$ compared to the same period of 2016. For the six months ended June 30, 2017, revenues from the wholesale business recorded Ps. 828 million, an increase of $92 \%$ in comparison with the revenue of Ps. 431 million registered in the same period of 2016. The growth in this business unit was due to the increase of international traffic carried through our network. Sequentially, revenues decreased $19 \%$ due to lower operating volumes during April and June. The average monthly income at 2Q17 from this business unit was Ps. 138 million.

## Network Operation Cost

Network operation costs in 2Q17 increased $30 \%$ to reach Ps. 450 million, compared to the Ps. 345 million reported in 2Q16. For the six-month period, costs had an increase of $52 \%$, from Ps. 649 million to Ps. 985 million. These variations are mainly due to the increase in traffic termination of the wholesale business. The gross margin decreased from $41 \%$ in 2Q16 to $30 \%$ in 2Q17 and from $43 \%$ in the six-month period ended on June 302016 to $28 \%$ in the same period of 2017. This was mainly the result of a change in the revenue mix, where wholesale revenues, which have lower margins compared to the residential and commercial business units, had a higher share of the Company's total revenues.

## SG\&A

In 2Q17 the Company reported total SG\&A expenses of Ps. 116 million, 22\% lower than the Ps. 149 million in 2Q16. Almost half of this reduction is due to less payroll expenses. At 2 Q 17 Maxcom had 526 employees, a decrease of $49 \%$ when compared to 1,036 employees at 2T16. For the six-month period ended on June 30, 2017 SG\&A expenses decreased 24\%, from Ps. 303 million in 2016 a Ps. 230 million in 2017.

## EBITDA

EDITDA for 2 Q17 was Ps. 72 million, Ps. 18 million below the Ps. 91 million registered in the same period of 2016. EBITDA margin was $11 \%$ in 2Q17, lower than $15 \%$ reported in 2Q16. For the six-month period ended June 302017 an EBITDA of Ps. 155 million was reported, a decrease of $12 \%$ compared to Ps. 177 million posted in 2016, while the EBITDA margin was $11 \%$, below the $16 \%$ recorded in 2016. On a sequential basis, EBITDA was Ps. 11 million or $13 \%$ lower than the amount reported in the 1Q17.

If we exclude the effect of the wholesale operation, EBITDA for 2 Q17 was Ps. 42 million, lower than Ps. 69 million registered in the same period last year. The EBIDTA margin was $16 \%$ in 2Q17, below $20 \%$ reported in 2Q16. This reduction derives from the gradual disincorporation of the residential segment.

## Operating Income (Loss)

In 2Q17 the Company registered an operating loss of Ps. 24 million, slightly lower than the operating loss of Ps. 25 million reported in the same period of 2016. For the six months ended June 30, 2017 the Company reported an operating income of Ps. 7 million versus an operating loss of Ps. 39 million in 2016. The variation is explained by the decrease in SG\&A expenses, as well as by lower depreciation and amortization charges in the period, as a result of the impairment of assets related to the residential business unit recorded in 4Q16.

Second Quarter 2017 Results

## Comprehensive Financing Result

During 2Q17, the Company registered a net financing income of Ps. 97 million, an increase of Ps. 269 million when compared to the loss of Ps. 172 million recorded in the same period of 2016. This is mainly explained by the appreciation of the Mexican peso, that generated a significant exchange rate gain in the quarter, as well as by the profit recorded in the repurchase of Step-Up Senior Notes 2020 carried out in May. These effects were partially offset by the accelerated amortization of issuance expenses associated with the portion of Step-Up Senior Notes 2020 repurchased for a total amount of the USD $\$ 13.1$ million, as well as by the increase in interest paid in 2Q17.

For the six months ended June 30, 2017, the net financing income reached Ps. 243 million compared to the net loss of Ps. 256 million recorded in the same period of last year.

## Taxes

In the 2Q17 the Company recorded taxes of Ps. 0.6 million, while at the end of the same period of 2016 the Company recorded no taxes.

## Net Income (Loss)

During 2Q17 the Company posted a net income of Ps. 73 million, compared to a net loss of Ps. 197 million recorded in the same period of 2016 and a net income of Ps. 177 million posted in 1Q17. It is worth mentioning that the net income of the period derives mainly from the exchange rate gain and the profit from the repurchase of Step-Up Senior Notes 2020. For the six months ended June 30, 2017, the Company recorded a net income of Ps. 250 million compared to the net loss of Ps. 295 million recorded in the same period of 2016.
