Unique Pizza and Subs Corporation

Notes to Consolidated Financial Statements

For the Quarter Ended September 30, 2017

Note 1 - Organization

Unique Pizza and Subs Corporation (the “Company”) formerly Coastal Services Group, Inc. a Delaware corporation was incorporated November 20, 2003. The Company’s mission is to be a leading national franchiser. The Company has a store conversion strategy which targets existing pizza shops as potential franchisees. The Company will provide all franchisees with a customer call center, state-of-the-art point-of-sale system, economies of scale buying power and other services to potentially increase the new store’s profit margins. The Company also has a variable interest entity relationship with a California based restaurant and has wholly owned subsidiaries with Jose Madrid Salsa and PopsyCakes.

The Company was a party to a reverse merger on February 9, 2006. The reverse merger was between Unique Pizza and Subs Corporation (formerly known as Coastal Services Group, Inc.) and their wholly owned subsidiary Coastal Communications, Inc. As a result of the reverse merger, all existing assets of Coastal Communications, Inc. have been removed from the financial statements. In addition, all of the liabilities of Coastal Communications, Inc. were removed from the financial statements. As a result, the financial statements include the following: The balance sheet consists of the net remaining assets at historical cost after the reverse merger. The statement of operations includes only the income and expenses of Unique Pizza and Subs Corporation (formerly known as Coastal Services Group, Inc.) and none of the income and expenses of Coastal Communications, Inc. (the previously wholly owned subsidiary).

Note 2 – Summary of Significant Accounting Policies

Management’s Use of Estimates: The Company’s consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America. The preparation of these consolidated financial statements requires that the Company make estimates and judgments that affect the reported amounts of assets,

See Notes to Financial Statements

liabilities, revenue and expenses and related disclosures. On an ongoing basis, the Company evaluates its estimates, including those related to revenue recognition, the fair value and useful lives of intangible assets, property and equipment, income taxes, and contingencies, among others. Actual results could differ from those estimates.

Revenue Recognition: One of the Company's business model is to sell franchise agreements to customers. The revenue from these sales are recorded when the agreement to purchase the franchise is executed by the customer.

The Company also derives revenues from the sale of its food products consisting of salsa, pizza, restaurant food and candied pretzels.

For the Quarter Ended September 30, 2017

Note 2 – Summary of Significant Accounting Policies (Continued)

Revenue is recorded when all of the following have occurred: (1) persuasive evidence of an arrangement exists, (2) asset is transferred to the customer without further obligation, (3) the sales price to the customer is fixed or determinable, and (4) collectability is reasonably assured.

Cost of Sales: Cost of sales represents costs directly related to the production and third party manufacturing of the Company's products.

Products sold are typically sold directly to the customer at point of sale; costs associated with shipping and handling is shown as a component of cost of sales.

Basis of Presentation. The financial statements include the accounts of Unique Pizza and Subs Corporation and its wholly owned subsidiaries along with a variable interest entity in the California restaurant prepared in accordance with accounting principles generally accepted in the United States of America. The accrual basis is the basis of accounting used. All significant intercompany balances and transactions have been eliminated.

Risk and Uncertainties - The Company is subject to risks common to companies in the service industry, including, but not limited to, litigation, development of new technological innovations and dependence on key personnel.

Fair Value of Financial Assets and Financial Liabilities- The Company follows paragraph 825-10-50-10 of the FASB Accounting Standards Codification for disclosures about fair value of its financial instruments and paragraph 820-10-35-37 of the FASB Accounting Standards

See Notes to Financial Statements

Codification (“Paragraph 820-10-35-37”) to measure the fair value of its financial instruments. Paragraph 820-10-35-37 establishes a framework for measuring fair value in accounting principles generally accepted in the United States of America (U.S. GAAP), and expands disclosures about fair value measurements. To increase consistency and comparability in fair value measurements and related disclosures, Paragraph 820-10-35-37 establishes a fair value hierarchy which prioritizes the inputs to valuation techniques used to measure fair value into three broad levels. The fair value hierarchy gives the highest priority to quoted prices (unadjusted) in active markets for identical assets or liabilities and the lowest priority to unobservable inputs. The three levels of fair value hierarchy defined by Paragraph 820-10-35-37 are described below:

Unique Pizza and Subs Corporation

Notes to Consolidated Financial Statements

For the Quarter Ended September 30, 2017

Note 2 – Summary of Significant Accounting Policies (Continued)

Level 1	Quoted market prices available in active markets for identical assets or liabilities as of the reporting date.
----------------	---

Level 2	Pricing inputs other than quoted prices in active markets included in Level 1, which are either directly or indirectly observable as of the reporting date.
----------------	--

See Notes to Financial Statements

Level 3	Pricing inputs that are generally observable inputs and not corroborated by market data.
----------------	---

The carrying amounts of the Company's consolidated financial assets and liabilities, such as cash, accounts receivable, inventory, goodwill, accounts payable, accrued interest, derivative liabilities, notes payable and customer deposits approximate their fair values because of the short maturity of these instruments. The Company's bank note payable approximates the fair value of such instrument based upon management's best estimate of interest rates that would be available to the Company for similar consolidated financial arrangement at September 30, 2017.

The Company does not have any assets or liabilities measured at fair value on a recurring or a non-recurring basis, consequently, the Company did not have any fair value adjustments for assets and liabilities measured at fair value at September 30, 2017, nor gains or losses are reported in the statement of operations that are attributable to the change in unrealized gains or losses relating to those assets and liabilities still held at the reporting date for the quarter ended September 30, 2017.

Cash and Cash Equivalents - For purposes of the Consolidated Statements of Cash Flows, the Company considers highly liquid investments with an original maturity of three months or less to be cash equivalents.

Impairment of Long-Lived Assets: The Company evaluates the recoverability of its fixed assets and other assets in accordance with section 360-10-15 of the FASB Accounting Standards Codification for disclosures about Impairment or Disposal of Long-Lived Assets. Disclosure requires recognition of impairment of long-lived assets in the event the net book value of such assets exceeds its expected cash flows. If so, it is considered to be impaired and is written down to fair value, which is determined based on either discounted future cash flows or appraised values. The Company adopted the statement on inception. No impairments of these types of assets were recognized during the quarter ended September 30, 2017.

See Notes to Financial Statements

For the Quarter Ended September 30, 2017

Note 2 – Summary of Significant Accounting Policies (Continued)

Income Taxes: The Company accounts for income taxes under Section 740-10-30 of the FASB Accounting Standards Codification. Deferred income tax assets and liabilities are determined based upon differences between the financial reporting and tax bases of assets and liabilities and are measured using the enacted tax rates and laws that will be in effect when the differences are expected to reverse. Deferred tax assets are reduced by a valuation allowance to the extent management concludes it is more likely than not that the assets will not be realized. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in the statements of operations in the period that includes the enactment date.

Fixed Assets: The Company's property and equipment consisting of building improvements, restaurant and office equipment, software, and furniture are stated at cost and depreciated over their estimated useful lives ranging from 5-7 years of the respective assets. Depreciation is computed using the straight line method. Book depreciation for the quarter ended September 30, 2017 is \$46,255. Expenditures for maintenance and repairs are charged to expense as incurred.

Property and equipment is reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable.

Upon sale or retirement of property and equipment, the related cost and accumulated depreciation are removed from the accounts and any gain or loss is reflected in the statements of operations.

See Notes to Financial Statements

Advertising Costs - Advertising costs are expensed as incurred. The Company does not incur any direct-response advertising costs.

Income(Loss) Per Share - Net income(loss) per common share is computed pursuant to section 260-10-45 of the FASB Accounting Standards Codification. Basic net income(loss) per share is computed by dividing net income(loss) by the weighted average number of shares of common stock outstanding during the period. Diluted net income(loss) per share is computed by dividing net loss by the weighted average number of shares of common stock and potentially outstanding shares of common stock during each period. There were no potentially dilutive shares outstanding as of September 30, 2017.

Inventory - Inventory, consisting of finished food products purchased, is located on the premises of our respective subsidiaries and is stated at the lower of cost or market using the first in first out method. No allowances were necessary at September 30, 2017. The Company periodically reviews historical sales activity to determine potentially obsolete items and also evaluates the impact of any anticipated changes in future demand.

Note 2 – Summary of Significant Accounting Policies (Continued)

Share-Based Payments - The Company acquires nonmonetary assets including goods for its common stock. The goods are recorded at the fair value of the nonmonetary asset exchanged or at an independent quoted market price for items exchanged.

The Company accounts for stock-based compensation using the fair value method following the guidance set forth in section 718-10 of the FASB Accounting Standards Codification for disclosure about Stock-Based Compensation. This section requires a public entity to measure the cost of employee services received in exchange for an award of equity instruments based on the grant-date fair value of the award (with limited exceptions). That cost will be recognized over the period during which an employee is required to provide service in exchange for the award- the requisite service period (usually the vesting period). No compensation cost is recognized for equity instruments for which employees do not render the requisite service.

Comprehensive Income (Loss) - The Company reports comprehensive income and its components following guidance set forth by section 220-10 of the FASB Accounting Standards Codification which establishes standards for the reporting and display of comprehensive income and its components in the consolidated financial statements. There were no items of comprehensive income (loss) applicable to the Company during the period covered in the consolidated financial statements.

Accounts Receivable and Allowance for Doubtful Accounts – We grant credit to customers based on an evaluation of their financial condition but most of our sales are immediately collected in cash at the point of sale. The estimate of the allowance for doubtful accounts, which is charged off to bad debt expense, is based on management’s assessment of current economic conditions and historical collections experience.

See Notes to Financial Statements

At September 30, 2017, the Company did not have an allowance for doubtful accounts.

For the quarter ended September 30, 2017, the Company had \$-0- in bad debt expense.

Related Parties -The Company follows subtopic 850-10 of the FASB Accounting Standards Codification for the identification of related parties and disclosure of related party transactions.

Non-Controlling Interest – The Company owns 50% of Credo Ventures, LLC, a variable interest entity.

Unique Pizza and Subs Corporation

Notes to Consolidated Financial Statements

For the Quarter Ended September 30, 2017

Note 2 – Summary of Significant Accounting Policies (Continued)

Pursuant to Section 850-10-20 the related parties include a. affiliates of the Company; b. Entities for which investments in their equity securities would be required, absent the election of the fair value option under the Fair Value Option Subsection of Section 825–10–15, to be accounted for by the equity method by the investing entity; c. trusts for the benefit of employees, such as pension and profit-sharing trusts that are managed by or under the trusteeship of management; d. principal owners of the Company; e. management of the Company; f. other parties with which the Company may deal if one party controls or can significantly influence the management or operating policies of the other to an extent that one of the transacting parties might be prevented from fully pursuing its own separate interests; and g. Other parties that can significantly influence the management or operating

See Notes to Financial Statements

policies of the transacting parties or that have an ownership interest in one of the transacting parties and can significantly influence the other to an extent that one or more of the transacting parties might be prevented from fully pursuing its own separate interests.

The consolidated financial statements shall include disclosures of material related party transactions, other than compensation arrangements, expense allowances, and other similar items in the ordinary course of business. However, disclosure of transactions that are eliminated in the preparation of consolidated or combined financial statements is not required in those statements. The disclosures shall include: a. the nature of the relationship(s) involved; b. a description of the transactions, including transactions to which no amounts or nominal amounts were ascribed, for each of the periods for which income statements are presented, and such other information deemed necessary to an understanding of the effects of the transactions on the financial statements; c. the dollar amounts of transactions for each of the periods for which income statements are presented and the effects of any change in the method of establishing the terms from that used in the preceding period; and d. amounts due from or to related parties as of the date of each balance sheet presented and, if not otherwise apparent, the terms and manner of settlement.

Contingencies: The Company follows subtopic 450-20 of the FASB Accounting Standards Codification to report accounting for contingencies. Certain conditions may exist as of the date the consolidated financial statements are issued, which may result in a loss to the Company but which will only be resolved when one or more future events occur or fail to occur. The Company assesses such contingent liabilities, and such assessment inherently involves an exercise of judgment. In assessing loss contingencies related to legal proceedings that are pending against the Company or unasserted claims that may result in such proceedings, the Company evaluates the perceived merits of any legal proceedings or unasserted claims as well as the perceived merits of the amount of relief sought or expected to be sought therein.

Note 2 – Summary of Significant Accounting Policies (Continued)

Contingencies (Cont.): If the assessment of a contingency indicates that it is probable that a material loss has been incurred and the amount of the liability can be estimated, then the estimated liability would be accrued in the Company's financial statements. If the assessment indicates that a potentially material loss contingency is not probable but is reasonably possible, or is probable but cannot be estimated, then the nature of the contingent liability, and an estimate of the range of possible losses, if determinable and material, would be disclosed.

Loss contingencies considered remote are generally not disclosed unless they involve guarantees, in which case the guarantees would be disclosed. However, there is no assurance that such matters will not materially and adversely affect the Company's business, consolidated financial position, and consolidated results of operations or consolidated cash flows.

Principles of Consolidation – The consolidated financial statements include the accounts of Jose Madrid Salsa, PopsyCakes, Christopher Street (various products) and Unique Pizza Tap House, Credo Ventures (restaurant). All inter-company accounts and transactions have been eliminated in consolidation.

Recent Accounting Pronouncements - The Company has reviewed all recently issued, but not yet effective, accounting pronouncements and do not believe the future adoption of any such pronouncements may be expected to cause a material impact on its consolidated financial condition or the results of its operations.

FASB Accounting Standards Codification

In April 2015, the FASB issued Accounting Standards Update No. 2015-03, *Interest—Imputation of Interest (Topic 835-30): Simplifying the Presentation of Debt Issuance Costs* ("ASU 2015-03"). ASU 2015-03 requires that debt issuance costs related to a recognized debt liability be presented in the balance sheet as a direct deduction from the carrying amount of that debt liability, consistent with debt discounts. The recognition and

See Notes to Financial Statements

measurement guidance for debt issuance costs is not affected by ASU 2015-03. ASU 2015-03 is effective for financial statements issued for fiscal years beginning after December 15, 2015, and interim periods within those fiscal years. Early adoption is permitted. Upon adoption, the Company will reclassify debt issuance costs from prepaid expenses and other current assets and other assets as a reduction to debt in the condensed consolidated balance sheets. The Company is not planning to early adopt ASU 2015-03 and does not anticipate that the adoption of ASU 2015-03 will materially impact its consolidated financial statements.

Unique Pizza and Subs Corporation

Notes to Consolidated Financial Statements

For the Quarter Ended September 30, 2017

Note 2 – Summary of Significant Accounting Policies (Continued)

In July 2015, the Financial Accounting Standards Board (“FASB”) issued Accounting Standards Update No. 2015-11, *Inventory (Topic 330): Simplifying the Measurement of Inventory* (“ASU 2015-11”), which applies guidance on the subsequent measurement of inventory. ASU 2015-11 states that an entity should measure inventory at the lower of cost and net realizable value. Net realizable value is the estimated selling price in the ordinary course of business, less reasonable predictable costs of completion, disposal and transportation. The guidance excludes inventory measured using last-in, first-out or the retail inventory method. ASU 2015-11 is effective for interim and annual reporting periods beginning after December 15, 2016. Early adoption is permitted. The Company is not planning to early adopt ASU 2015-11 and is currently evaluating ASU 2015-11 to determine the potential impact to its consolidated financial statements and related disclosures.

Stock Compensation

In March 2016, the FASB issued ASU 2016-09, *Stock Compensation*, which is intended to simplify the accounting for share-based payment award transactions. The new standard will modify several aspects of the accounting and reporting for employee share-based payments and related tax accounting impacts, including the presentation in the statements of operations and cash flows of certain tax benefits or deficiencies and employee tax withholdings, as well as the accounting for award forfeitures over the vesting period. The guidance is effective for fiscal years beginning after December 15, 2016, including interim

See Notes to Financial Statements

periods within that year, and will be adopted by the Company in the first quarter of fiscal 2017. The Company anticipates the new standard will not result in an increase in the number of shares used in the calculation of diluted earnings per share and will not add volatility to the Company's effective tax rate and income tax expense due to its net operating loss carry forward. The magnitude of such impacts will depend in part on whether significant employee stock option exercises occur.

Subsequent Events

(Included in Accounting Standards Codification ("ASC") 855 "Subsequent Events", previously SFAS No. 165 "Subsequent Events")

SFAS No. 165 established general standards of accounting for and disclosure of events that occur after the balance sheet date, but before the consolidated financial statements are issued or available to be issued ("subsequent events"). An entity is required to disclose the date through which subsequent events have been evaluated and the basis for that date. For public entities, this is the date the consolidated financial statements are issued. SFAS No. 165 does not apply to subsequent events or transactions that are within the scope of other GAAP and did not result in significant changes in the subsequent events reported by the Company. SFAS No. 165 became effective for interim or annual periods ending after September 15, 2009 and did not impact the Company's consolidated financial statements. The Company evaluated for subsequent events through the issuance date of the Company's consolidated financial statements. No recognized or non-recognized subsequent events were noted.

As of February 19, 2006, pursuant to a unanimous consent of the sole director, the articles of incorporation were approved to be amended to increase the number of authorized shares from 700,000,000 to 4,000,000,000. Then, in May of 2010, pursuant to a unanimous consent of

See Notes to Financial Statements

the board of directors, the articles of incorporation were amended to reduce the authorized common shares to 300,000,000. Then again, in the third quarter of 2017, the Company increased the authorized to 900,000,000 shares of common.

For the quarterly ended September 30, the Company issued 68,978,156 shares of common stock for the conversion of \$29,353 and \$14,793 of convertible notes payables principal and related accrued interest thereto, respectively.

At September 30, 2017, there were 22,000,000 shares of preferred stock issued and outstanding to the Company's officer, director and majority shareholder. These are convertible into shares of common stock at a rate of one preferred share into twenty-five common shares. Therefore, there are potentially 550,000,000 additional shares of common stock that could be issued in the future upon conversion from preferred shares by this person. The Company effected a one for two hundred and fifty reverse stock split on March 6, 2014. The consolidated financial statements herein have been retroactively restated in compliance with US SEC staff accounting bulletin topic 4.C. The effects of these shares are non-dilutive at September 30, 2017 due to the net loss recorded.

Note 4 – Convertible Notes Payable

The Company had an unsecured note payable to an unrelated third party but this was paid in full during the second quarter of 2016 leaving a balance due at September 30, 2017 of \$-0- on the original principal amount of \$325,000. The note had an imputed interest rate of 6% per annum, the effects of which are included in the consolidated financial statements in the amount of \$5,010 including \$5,000 in late fees. The note had a conversion feature into common shares feature at \$.005 per share. The promissory note never converted into more than ten percent of the Company's shares pursuant to an agreement between the parties. The promissory note was not a derivative liability under EITF 00-19 due to its fixed floor conversion.

The Company has an unsecured convertible note payable to an unrelated third party at September 30, 2017 of \$189,900 representing cash advances made to the Company in the amounts of \$20,000 and \$25,000 in late 2014, \$99,100 in 2015 and 2016 and \$45,800 in the first two quarters ended September 30, 2017. The entire promissory note has a line of credit

The promissory note will not convert into more than ten percent of the Company's shares pursuant to an agreement between the parties. The promissory note is a derivative liability under EITF 00-19 due to its variable floor conversion option.

ASC Topic 815 ("ASC 815") requires that all derivative financial instruments be recorded on the balance sheet at fair value. Fair values for exchange traded securities and derivatives are based on quoted market prices. Where market prices are not readily available, fair values are determined using market based pricing models incorporating readily observable market data and requiring judgment and estimates.

The Company issued a convertible note as per above and has evaluated the terms and conditions of the conversion features contained in the notes and warrants to determine whether they represent embedded or freestanding derivative instruments under the provisions of ASC 815. The Company determined that the conversion features contained in the notes and warrants represent freestanding derivative instruments that meet the requirements for liability classification under ASC 815. As a result, the fair value of the derivative financial instruments in the notes and warrants is reflected in the Company's balance sheet as a liability. The fair value of the derivative financial instruments of the convertible notes and warrants was measured at the inception date of the notes and warrants and each subsequent balance sheet date. Any changes in the fair value of the derivative

See Notes to Financial Statements

financial instruments are recorded as non-operating, non-cash income or expense at each balance sheet date.

The Company valued the conversion features in its convertible notes using the Black-Scholes model. The Black-Scholes model values the embedded derivatives based on a risk-free rate of return ranging from 0.02% to 0.02%, grant dates at the beginning of the year, the term of convertible note, conversion prices is lesser of 1) \$0.015, or 2) 50% of stock bid price at date of note issuance, current stock prices on the measurement date ranging from \$0.005 to \$0.011, and the computed measure of the Company's stock volatility, ranging from 221.61% to 359.23%.

Included in the September 30, 2017 consolidated financial statements is a derivative liability in the amount of \$45,000 to account for this transaction. There were no balances in prior periods since this liability arose in late 2014. It will be revalued quarterly henceforth and adjusted as a gain or loss to the statements of operations depending on its value at that time.

Note 5 – Note Payable to a Related Party Individual

Pursuant to the Company's variable interest entity relationship with a California based restaurant, the Company incurred a promissory note in the amount of \$495,000. The amount payable to the individual, related through the variable interest entity relationship as the mother of the managing member of Credo Ventures, LLC who loaned the monies to Credo Ventures, LLC, at September 30, 2017 is \$495,000. The promissory note bears interest of 10% per annum, has equal monthly payments payable of \$10,517 over sixty months maturing on October 17, 2020 and the restaurant equipment is the collateral.

Note 6 – Income (Loss) Per Share

Income (loss) per share is computed by dividing the net income (loss) by the weighted average number of common shares outstanding during the period. Basic and diluted loss per share was the same for the quarter ended September 30, 2017.

Note 7 – Supplemental Cash Flow Information

Supplemental disclosures of cash flow information for the quarters ended September 30, 2017 and 2016 are summarized as follows:

Note 8 – Going Concern and Uncertainty

The Company has suffered recurring losses from operations since inception. In addition, the Company has yet to generate an internal cash flow from its business operations. These factors raise substantial doubt as to the ability of the Company to continue as a going concern.

Management's plans with regard to these matters encompass the following actions: 1) obtain funding from new investors to alleviate the Company's liquid working deficiency, and 2) implement a plan to generate sales. The Company's continued existence is dependent upon its ability to resolve its liquidity problems and increase profitability in its current business operations. However, the outcome of management's plans cannot be ascertained with any degree of certainty. The accompanying consolidated financial statements do not include any adjustments that might result from the outcome of these risks and uncertainties.

For the Quarter Ended September 30, 2017

Note 1 - Organization

Unique Pizza and Subs Corporation (the “Company”) formerly Coastal Services Group, Inc. a Delaware corporation was incorporated November 20, 2003. The Company’s mission is to be a leading national franchiser. The Company has a store conversion strategy which targets existing pizza shops as potential franchisees. The Company will provide all franchisees with a customer call center, state-of-the-art point-of-sale system, economies of scale buying power and other services to potentially increase the new store’s profit margins. The Company also has a variable interest entity relationship with a California based restaurant and has wholly owned subsidiaries with Jose Madrid Salsa and PopsyCakes.

The Company was a party to a reverse merger on February 9, 2006. The reverse merger was between Unique Pizza and Subs Corporation (formerly known as Coastal Services Group, Inc.) and their wholly owned subsidiary Coastal Communications, Inc. As a result of the reverse merger, all existing assets of Coastal Communications, Inc. have been removed from the financial statements. In addition, all of the liabilities of Coastal Communications, Inc. were removed from the financial statements. As a result, the financial statements include the following: The balance sheet consists of the net remaining assets at historical cost after the reverse merger. The statement of operations includes only the income and expenses of Unique Pizza and Subs Corporation (formerly known as Coastal Services Group, Inc.) and none of the income and expenses of Coastal Communications, Inc. (the previously wholly owned subsidiary).

Note 2 – Summary of Significant Accounting Policies

Management’s Use of Estimates: The Company’s consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America. The preparation of these consolidated financial statements requires that the Company make estimates and judgments that affect the reported amounts of assets, liabilities, revenue and expenses and related disclosures. On an ongoing basis, the Company evaluates its estimates, including those related to

See Notes to Financial Statements

revenue recognition, the fair value and useful lives of intangible assets, property and equipment, income taxes, and contingencies, among others. Actual results could differ from those estimates.

Revenue Recognition: One of the Company's business model is to sell franchise agreements to customers. The revenue from these sales are recorded when the agreement to purchase the franchise is executed by the customer.

The Company also derives revenues from the sale of its food products consisting of salsa, pizza, restaurant food and candied pretzels.

Revenue is recorded when all of the following have occurred: (1) persuasive evidence of an arrangement exists, (2) asset is transferred to the customer without further obligation, (3) the sales price to the customer is fixed or determinable, and (4) collectability is reasonably assured.

Cost of Sales: Cost of sales represents costs directly related to the production and third party manufacturing of the Company's products.

Products sold are typically sold directly to the customer at point of sale; costs associated with shipping and handling is shown as a component of cost of sales.

Basis of Presentation. The financial statements include the accounts of Unique Pizza and Subs Corporation and its wholly owned subsidiaries along with a variable interest entity in the California restaurant prepared in accordance with accounting principles generally accepted in the United States of America. The accrual basis is the basis of accounting used. All significant intercompany balances and transactions have been eliminated.

Risk and Uncertainties - The Company is subject to risks common to companies in the service industry, including, but not limited to, litigation, development of new technological innovations and dependence on key personnel.

Fair Value of Financial Assets and Financial Liabilities- The Company follows paragraph 825-10-50-10 of the FASB Accounting Standards Codification for disclosures about fair value of its financial instruments and paragraph 820-10-35-37 of the FASB Accounting Standards Codification ("Paragraph 820-10-35-37") to measure the fair value of its financial instruments. Paragraph 820-10-35-37 establishes a framework

See Notes to Financial Statements

for measuring fair value in accounting principles generally accepted in the United States of America (U.S. GAAP), and expands disclosures about fair value measurements. To increase consistency and comparability in fair value measurements and related disclosures, Paragraph 820-10-35-37 establishes a fair value hierarchy which prioritizes the inputs to valuation techniques used to measure fair value into three broad levels. The fair value hierarchy gives the highest priority to quoted prices (unadjusted) in active markets for identical assets or liabilities and the lowest priority to unobservable inputs. The three levels of fair value hierarchy defined by Paragraph 820-10-35-37 are described below:

The carrying amounts of the Company's consolidated financial assets and liabilities, such as cash, accounts receivable, inventory, goodwill, accounts payable, accrued interest, derivative liabilities, notes payable and customer deposits approximate their fair values because of the short maturity of these instruments. The Company's bank note payable approximates the fair value of such instrument based upon management's best estimate of interest rates that would be available to the Company for similar consolidated financial arrangement at September 30, 2017.

The Company does not have any assets or liabilities measured at fair value on a recurring or a non-recurring basis, consequently, the Company did not have any fair value adjustments for assets and liabilities measured at fair value at June 30, 2017, nor gains or losses are reported in the statement of operations that are attributable to the change in unrealized gains or losses relating to those assets and liabilities still held at the reporting date for the quarter ended June 30, 2017.

Cash and Cash Equivalents - For purposes of the Consolidated Statements of Cash Flows, the Company considers highly liquid investments with an original maturity of three months or less to be cash equivalents.

Impairment of Long-Lived Assets: The Company evaluates the recoverability of its fixed assets and other assets in accordance with section 360-10-15 of the FASB Accounting Standards Codification for disclosures about Impairment or Disposal of Long-Lived Assets. Disclosure requires recognition of impairment of long-lived assets in the event the net book value of such assets exceeds its expected cash flows. If so, it is considered to be impaired and is written down to fair value, which is determined based on either discounted future cash flows or appraised values. The Company adopted the statement on inception. No impairments of these types of assets were recognized during the quarter ended September 30, 2017.

Note 2 – Summary of Significant Accounting Policies (Continued)

Income Taxes: The Company accounts for income taxes under Section 740-10-30 of the FASB Accounting Standards Codification. Deferred income tax assets and liabilities are determined based upon differences between the financial reporting and tax bases of assets and liabilities and are measured using the enacted tax rates and laws that will be in effect when the differences are expected to reverse. Deferred tax assets are reduced by a valuation allowance to the extent management concludes it is more likely than not that the assets will not be realized. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in the statements of operations in the period that includes the enactment date.

Fixed Assets: The Company's property and equipment consisting of building improvements, restaurant and office equipment, software, and furniture are stated at cost and depreciated over their estimated useful lives ranging from 5-7 years of the respective assets. Depreciation is computed using the straight line method. Book depreciation for the quarter ended September 30, 2017 is \$92,510. Expenditures for maintenance and repairs are charged to expense as incurred.

Property and equipment is reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable.

Upon sale or retirement of property and equipment, the related cost and accumulated depreciation are removed from the accounts and any gain or loss is reflected in the statements of operations.

Advertising Costs - Advertising costs are expensed as incurred. The Company does not incur any direct-response advertising costs.

See Notes to Financial Statements

Income (Loss) Per Share - Net income (loss) per common share is computed pursuant to section 260-10-45 of the FASB Accounting Standards Codification. Basic net income(loss) per share is computed by dividing net income(loss) by the weighted average number of shares of common stock outstanding during the period. Diluted net income(loss) per share is computed by dividing net loss by the weighted average number of shares of common stock and potentially outstanding shares of common stock during each period. There were no potentially dilutive shares outstanding as of June 30, 2017.

Inventory - Inventory, consisting of finished food products purchased, is located on the premises of our respective subsidiaries and is stated at the lower of cost or market using the first in first out method. No allowances were necessary at September 30, 2017.

The Company periodically reviews historical sales activity to determine potentially obsolete items and also evaluates the impact of any anticipated changes in future demand.

Note 2 – Summary of Significant Accounting Policies (Continued)

Share-Based Payments - The Company acquires nonmonetary assets including goods for its common stock. The goods are recorded at the fair value of the nonmonetary asset exchanged or at an independent quoted market price for items exchanged.

The Company accounts for stock-based compensation using the fair value method following the guidance set forth in section 718-10 of the FASB Accounting Standards Codification for disclosure about Stock-Based Compensation. This section requires a public entity to measure the cost of employee services received in exchange for an award of equity instruments based on the grant-date fair value of the award (with limited exceptions). That cost will be recognized over the period during which an employee is required to provide service in exchange for the award- the requisite service period (usually the vesting period). No compensation cost is recognized for equity instruments for which employees do not render the requisite service.

Comprehensive Income (Loss) - The Company reports comprehensive income and its components following guidance set forth by section 220-10 of the FASB Accounting Standards Codification which establishes standards for the reporting and display of comprehensive income and its components in the consolidated financial statements. There were no items of comprehensive income (loss) applicable to the Company during the period covered in the consolidated financial statements.

Accounts Receivable and Allowance for Doubtful Accounts – We grant credit to customers based on an evaluation of their financial condition but most of our sales are immediately collected in cash at the point of sale. The estimate of the allowance for doubtful accounts, which is charged off to bad debt expense, is based on management’s assessment of current economic conditions and historical collections experience.

See Notes to Financial Statements

At September 30, 2017, the Company did not have an allowance for doubtful accounts.

For the quarter ended September 30, 2017, the Company had \$-0- in bad debt expense.

Related Parties -The Company follows subtopic 850-10 of the FASB Accounting Standards Codification for the identification of related parties and disclosure of related party transactions.

Non-Controlling Interest – The Company owns 50% of Credo Ventures, LLC.

Pursuant to Section 850-10-20 the related parties include a. affiliates of the Company; b. Entities for which investments in their equity securities would be required, absent the election of the fair value option under the Fair Value Option Subsection of Section 825–10–15, to be accounted for by the equity method by the investing entity; c. trusts for the benefit of employees, such as pension and profit-sharing trusts that are managed by or under the trusteeship of management; d. principal owners of the Company; e. management of the Company; f. other parties with which the Company may deal if one

party controls or can significantly influence the management or operating policies of the other to an extent that one of the transacting parties might be prevented from fully pursuing its own separate interests; and g. Other parties that can significantly influence the management or operating policies of the transacting parties or that have an ownership interest in one of the transacting parties and can significantly influence the other to an extent that one or more of the transacting parties might be prevented from fully pursuing its own separate interests.

The consolidated financial statements shall include disclosures of material related party transactions, other than compensation arrangements, expense allowances, and other similar items in the ordinary course of business. However, disclosure of transactions that are eliminated in the preparation of consolidated or combined financial statements is not required in those statements. The disclosures shall include: a. the nature of the relationship(s) involved; b. a description of the transactions, including transactions to which no amounts or nominal amounts were ascribed, for each of the periods for which income statements are presented, and such other information deemed necessary to an understanding of the effects of the transactions on the financial statements; c. the dollar amounts of transactions for each of the periods for which income statements are presented and the effects of any change in the method of establishing the terms from that used in the preceding period; and d. amounts due from or to related parties as of the date of each balance sheet presented and, if not otherwise apparent, the terms and manner of settlement.

Contingencies: The Company follows subtopic 450-20 of the FASB Accounting Standards Codification to report accounting for contingencies. Certain conditions may exist as of the date the consolidated financial statements are issued, which may result in a loss to the Company but which will only be resolved when one or more future events occur or fail to occur. The Company assesses such contingent liabilities, and such assessment inherently involves an exercise of judgment. In assessing loss contingencies related to legal proceedings that are pending against the Company or unasserted claims that may result in such proceedings, the Company evaluates the perceived merits of any legal proceedings or unasserted claims as well as the perceived merits of the amount of relief sought or expected to be sought therein.

Contingencies (Cont.): If the assessment of a contingency indicates that it is probable that a material loss has been incurred and the amount of the liability can be estimated, then the estimated liability would be accrued in the Company's financial statements. If the assessment indicates that a potentially material loss contingency is not probable but is reasonably possible, or is probable but cannot be estimated, then the nature of the contingent liability, and an estimate of the range of possible losses, if determinable and material, would be disclosed.

Loss contingencies considered remote are generally not disclosed unless they involve guarantees, in which case the guarantees would be disclosed. However, there is no assurance that such matters will not materially and adversely affect the Company's business, consolidated financial position, and consolidated results of operations or consolidated cash flows.

Principles of Consolidation – The consolidated financial statements include the accounts of Jose Madrid Salsa, PopsyCakes, Christopher Street and Credo Ventures (restaurant). All inter-company accounts and transactions have been eliminated in consolidation.

Recent Accounting Pronouncements - The Company has reviewed all recently issued, but not yet effective, accounting pronouncements and do not believe the future adoption of any such pronouncements may be expected to cause a material impact on its consolidated financial condition or the results of its operations.

FASB Accounting Standards Codification

In April 2015, the FASB issued Accounting Standards Update No. 2015-03, *Interest—Imputation of Interest (Topic 835-30): Simplifying the Presentation of Debt Issuance Costs* ("ASU 2015-03"). ASU 2015-03 requires that debt issuance costs related to a recognized debt liability be presented in the balance sheet as a direct deduction from the carrying amount of that debt liability, consistent with debt discounts. The recognition and measurement guidance for debt issuance costs is not affected by ASU 2015-03. ASU 2015-03 is effective for financial statements issued for fiscal years beginning after December 15, 2015, and interim periods within those fiscal years. Early adoption is permitted. Upon adoption, the Company will reclassify debt issuance costs from prepaid expenses and other current

See Notes to Financial Statements

assets and other assets as a reduction to debt in the condensed consolidated balance sheets. The Company is not planning to early adopt ASU 2015-03 and does not anticipate that the adoption of ASU 2015-03 will materially impact its consolidated financial statements.

In July 2015, the Financial Accounting Standards Board (“FASB”) issued Accounting Standards Update No. 2015-11, *Inventory (Topic 330): Simplifying the Measurement of Inventory* (“ASU 2015-11”), which applies guidance on the subsequent measurement of inventory. ASU 2015-11 states that an entity should measure inventory at the lower of cost and net realizable value. Net realizable value is the estimated selling price in the ordinary course of business, less reasonable predictable costs of completion, disposal and transportation. The guidance excludes inventory measured using last-in, first-out or the retail inventory method. ASU 2015-11 is effective for interim and annual reporting periods beginning after December 15, 2016. Early adoption is permitted. The Company is not planning to early adopt ASU 2015-11 and is currently evaluating ASU 2015-11 to determine the potential impact to its consolidated financial statements and related disclosures.

Stock Compensation

In March 2016, the FASB issued ASU 2016-09, *Stock Compensation*, which is intended to simplify the accounting for share-based payment award transactions. The new standard will modify several aspects of the accounting and reporting for employee share-based payments and related tax accounting impacts, including the presentation in the statements of operations and cash flows of certain tax benefits or deficiencies and employee tax withholdings, as well as the accounting for award forfeitures over the vesting period. The guidance is effective for fiscal years beginning after December 15, 2016, including interim periods within that year, and will be adopted by the Company in the first quarter of fiscal 2017. The Company anticipates the new standard will not result in an increase in the number of shares used in the calculation of diluted earnings per share and will not add volatility to the Company’s effective tax rate and income tax expense due to its net operating loss carry forward. The magnitude of such impacts will depend in part on whether significant employee stock option exercises occur.

See Notes to Financial Statements

Subsequent Events

(Included in Accounting Standards Codification ("ASC") 855 "Subsequent Events", previously SFAS No. 165 "Subsequent Events")

SFAS No. 165 established general standards of accounting for and disclosure of events that occur after the balance sheet date, but before the consolidated financial statements are issued or available to be issued ("subsequent events"). An entity is required to disclose the date through which subsequent events have been evaluated and the basis for that date. For public entities, this is the date the consolidated financial statements are issued. SFAS No. 165 does not apply to subsequent events or transactions that are within the scope of other GAAP and did not result in significant changes in the subsequent events reported by the Company. SFAS No. 165 became effective for interim or annual periods ending after September 15, 2009 and did not impact the Company's consolidated financial statements. The Company evaluated for subsequent events through the issuance date of the Company's consolidated financial statements. No recognized or non-recognized subsequent events were noted.

As of February 19, 2006, pursuant to a unanimous consent of the sole director, the articles of incorporation were approved to be amended to increase the number of authorized shares from 700,000,000 to 4,000,000,000. Then, in May of 2010, pursuant to a unanimous consent of the board of directors, the articles of incorporation were amended to reduce the authorized common shares to 300,000,000.

For the quarterly ended June 30, the Company issued 94,109,614 shares of common stock for the conversion of \$71,851 convertible notes payables and accrued interest. And the Company planned to issued 11,125,000 shares of common stock, with a fair market value of \$18,910, for compensation.

See Notes to Financial Statements

At September 30, 2017, there were 22,000,000 shares of preferred stock issued and outstanding to the Company's officer, director and majority shareholder. These are convertible into shares of common stock at a rate of one preferred share into twenty-five common shares. Therefore, there are potentially 550,000,000 additional shares of common stock that could be issued in the future upon conversion from preferred shares by this person. The Company affected a one for two hundred and fifty reverse stock split on March 6, 2014. The consolidated financial statements herein have been retroactively restated in compliance with US SEC staff accounting bulletin topic 4.C. The effects of these shares are non-dilutive at September 30, 2017 due to the net loss recorded.

Note 4 – Convertible Notes Payable

The Company had an unsecured note payable to an unrelated third party but this was paid in full during the second quarter of 2016 leaving a balance due at June 30, 2017 of \$-0- on the original principal amount of \$325,000. The note had an imputed interest rate of 6% per annum, the effects of which are included in the consolidated financial statements in the amount of \$5,010 including \$5,000 in late fees. The note had a conversion feature into common shares feature at \$.005 per share. The promissory note never converted into more than ten percent of the Company's shares pursuant to an agreement between the parties. The promissory note was not a derivative liability under EITF 00-19 due to its fixed floor conversion.

The Company has an unsecured convertible note payable to an unrelated third party at September 30, 2017 of \$189,900 representing cash advances made to the Company in the amounts of \$20,000 and \$25,000 in late 2014, \$99,100 in 2015 and 2016 and \$45,800 in the first two quarters ended September 30, 2017. The entire promissory note has a line of credit in the amount of \$250,000 for the Company to draw upon. The interest rate is 10% per annum. The note is currently payable on demand, and has a conversion feature into common shares at \$.015 per share or 50% of the average closing bid price of the last five trading days upon receiving a conversion notice, whichever is lower. The promissory note will not convert into more than ten percent of the **Unique Pizza and Subs Corporation**

Company's shares pursuant to an agreement between the parties. The promissory note is a derivative liability under EITF 00-19 due to its variable floor conversion option.

ASC Topic 815 ("ASC 815") requires that all derivative financial instruments be recorded on the balance sheet at fair value. Fair values for exchange traded securities and derivatives are based on quoted market prices. Where market prices are not readily available, fair values are determined using market based pricing models incorporating readily observable market data and requiring judgment and estimates.

The Company issued a convertible note as per above and has evaluated the terms and conditions of the conversion features contained in the notes and warrants to determine whether they represent embedded or freestanding derivative instruments under the provisions of ASC 815. The Company determined that the conversion features contained in the notes and warrants represent freestanding derivative instruments that meet the requirements for liability classification under ASC 815. As a result, the fair value of the derivative financial instruments in the notes and warrants is reflected in the Company's balance sheet as a liability. The fair value of the derivative financial instruments of the convertible notes and warrants was measured at the inception date of the notes and warrants and each subsequent balance sheet date. Any changes in the fair value of the derivative financial instruments are recorded as non-operating, non-cash income or expense at each balance sheet date.

The Company valued the conversion features in its convertible notes using the Black-Scholes model. The Black-Scholes model values the embedded derivatives based on a risk-free rate of return ranging from 0.02% to 0.02%, grant dates at the beginning of the year, the term of convertible note, conversion prices is lesser of 1) \$0.015, or 2) 50% of stock bid price at date of note issuance, current stock prices on the measurement date ranging from \$0.005 to \$0.011, and the computed measure of the Company's stock volatility, ranging from 221.61% to 359.23%.

Included in the September 30, 2017 consolidated financial statements is a derivative liability in the amount of \$45,000 to account for this transaction. There were no balances in prior periods since this liability arose in late 2014. It will be revalued quarterly henceforth and adjusted as a gain or loss to the statements of operations depending on its value at that time.

See Notes to Financial Statements

At January 2016, the company issued a convertible notes with \$30,000 principal to a third party, with \$12,000 initial interest. The note has an interest rate of 8% per annum. 	<u>2017</u>	<u>2016</u>
Income Taxes	\$ --	\$ --
Interest	\$ --	\$ --

Note 8 – Going Concern and Uncertainty

The Company has suffered recurring losses from operations since inception. In addition, the Company has yet to generate an internal cash flow from its business operations. These factors raise substantial doubt as to the ability of the Company to continue as a going concern.

Management's plans with regard to these matters encompass the following actions: 1) obtain funding from new investors to alleviate the Company's liquid working deficiency, and 2) implement a plan to generate sales. The Company's continued existence is dependent upon its ability to resolve its liquidity problems and increase profitability in its current business operations. However, the outcome of

 - Stock Sales
- Three **Growth** propositions (both Franchised and Company owned)
 - 1) '*Organic*' – new store openings
 - 2) *Conversions* – existing independent stores
 - 3) *Acquisitions* -- both pizza/sub businesses as well as 'complimentary businesses' that could also become independent profit centers
- '**Brick and Mortar**' (buildings/structures) would **NOT** be important, but emphasis would be on product, building color scheme and 'look and feel,' Unique Pizza and Subs® signage, employee attire, etc.
- Store service option **Flexibility**, such as they can provide: (a) pick-up and delivery only, (b) sit-down and (a), (c) inclusion of wine, beer and/or liquor license
- Make a low '**Cost of Entry**' (franchise fee) and overall ongoing Affordability
 - Initial Franchise Fee established at \$20K
