1. NATURE OF OPERATIONS AND GOING CONCERN

Winston Gold Corp. (the "Company") was incorporated in the Province of Manitoba on January 31, 2013 under the name of 6649930 Manitoba Ltd. On September 19, 2014, the Company changed its name to Winston Gold Mining Corp. On September 25, 2014, Winston Gold Mining USA Corp. was incorporated in the State of Montana, USA. Winston Gold Mining USA Corp. is a wholly owned subsidiary of the Company. On March 23, 2016, the common shares of the Company were approved for listing on the Canadian Securities Exchange (CSE) under the symbol WGC. The shares are deemed to be listed on March 22, 2016 and trading commenced on March 29, 2016. On October 4, 2016, the Company acquired 100% of the outstanding shares of Goldridge Holdings Limited ("Goldridge") and its subsidiary, Goldridge Holdings (USA) Limited ("Goldridge USA"). Both Goldridge and Goldridge USA are wholly-owned subsidiaries. Goldridge is incorporated in the Province of British Columbia, Canada, and Goldridge USA is incorporated in the State of Nevada, USA. On October 18, 2016, the Company was approved for listing on the OTCQB Marketplace under the symbol WGMCF. Effective August 24, 2017 the Company continued out of the Province of Manitoba into the jurisdiction of the Province of British Columbia and changed its name to Winston Gold Corp. Effective September 1, 2017, the Common Shares of the Company commenced trading on the Canadian Securities Exchange under the same stock symbol of WGC. The Company is in the process of exploring mining claims which are under lease and has not yet determined whether or not the leased properties will contain economically recoverable reserves.

The principal address of the Company is 919 Notre Dame Avenue, Suite 201, Winnipeg, Manitoba R3E 0M8.

The unaudited condensed interim consolidated financial statements of the Company were approved by the Board of Directors on November 23, 2017.

Going Concern of Operations

While these financial statements have been prepared in accordance with International Financial Reporting Standards ("IFRS") on a going concern basis that presumes the realization of assets and discharge of liabilities in the normal course of business, there are material uncertainties related to adverse conditions and events that cast significant doubt on the Company's ability to continue as a going concern. The Company has incurred losses since its inception and the ability of the Company to continue as a going concern depends on its ability to raise adequate financing and to develop profitable operations.

The Company is in the exploration stage and has not generated revenue from operations. During the nine months ended September 30, 2017, the Company incurred a net loss of \$2,801,220 (September 30, 2016 - \$899,851), and as of that date, the Company had a deficit of \$21,443,628 (December 31, 2016 - \$18,587,481), working capital deficiency of \$209,672 (December 31, 2016 – working capital of \$1,296,185) and negative cash flow from operations of \$2,238,139 (September 30, 2016 – negative \$547,246).

The Company's ability to continue as a going concern is dependent upon obtaining additional financing and eventually achieving profitable production and on being able to make payments required under the mining lease agreements and debenture agreements. The Company continues to evaluate various options in order to address its financing needs. There can be no assurance that the Company's financing activities will be successful or sufficient.

1. NATURE OF OPERATIONS AND GOING CONCERN (cont'd)

Going Concern of Operations (cont'd)

These unaudited condensed interim consolidated financial statements do not give effect to adjustments that would be necessary to the carrying values and classification of assets and liabilities should the going concern assumption not be appropriate. Such adjustments could be material.

2. BASIS OF PREPARATION

Statement of Compliance

These unaudited condensed interim consolidated financial statements of the Company present the Company's financial results of operations and financial position under IFRS as at and for the nine and three month periods ended September 30, 2017.

The unaudited condensed interim consolidated financial statements have been prepared in accordance with International Accounting Standard 34, "Interim Financial Reporting", as issued by the International Accounting Standards Board ("IASB") and the interpretations of the IFRS Interpretations Committee.

A summary of the Company's significant accounting policies under IFRS are consistent with those of the Company's consolidated financial statements for the year ended December 31, 2016. Refer to those consolidated financial statements for significant accounting policies and recent accounting pronouncements. These policies have been consistently applied to all periods presented.

Basis of Measurement

The unaudited condensed interim consolidated financial statements are presented in Canadian dollars which is also the Company's and Goldridge's functional currency. Winston USA's functional currency is the US dollar.

The unaudited condensed interim consolidated financial statements are prepared on the historical cost basis except for financial instruments classified at fair value through profit and loss ("FVTPL") which are stated at their fair value.

Basis of Consolidation

The unaudited condensed interim consolidated financial statements at September 30, 2017 include the accounts of the Company and its subsidiaries listed below. Under the guidance of IFRS 10 *Consolidated Financial Statements*, control is established by having power over the acquiree, exposure or rights to variable returns from its involvement with the acquiree, and the ability to use its power over the acquiree to affect the amount of the acquirer's returns. Subsidiaries are fully consolidated from the date on which control is acquired by the Company. They are de-consolidated from the date that control by the Company ceases.

All intercompany transactions and balances are eliminated on consolidation.

2. BASIS OF PREPARATION (cont'd)

Basis of Consolidation (cont'd)

As at September 30, 2017, the subsidiaries of the Company are as follows:

Company Name	Country of Incorporation	% of Interest
Winston Gold Mining (USA) Corp.	Montana, USA	100%
Goldridge Holdings Limited	British Columbia, Canada	100%
Goldridge Holdings (USA) Limited	Nevada, USA	100%

Deferred Share Issuance Costs

Deferred share issuance costs relate directly to the issuance of shares by the Company, as disclosed in Note 10. Upon successful completion of the initial public offering on March 23, 2016, the costs were charged against capital stock.

Significant Accounting Judgments and Estimates

The Company makes estimates, judgments and assumptions about the future that affect the reported amounts of assets and liabilities. Estimates and judgments are continually evaluated based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. In the future, actual results may differ from these estimates and assumptions.

Judgments

Information about critical judgments in applying accounting policies that have the most significant risk of causing material adjustment to the carrying amounts of assets and liabilities recognized in the financial statements within the next financial year are discussed below:

i) Title to mineral property interests

Although the Company has taken steps to verify title to mineral properties in which it has an interest, these procedures do not guarantee the Company's title. Such properties may be subject to prior agreements or transfers and title may be affected by undetected defects.

ii) Going Concern

The Company applies judgment in assessing whether material uncertainties exist that would cause doubt as to whether the Company could continue as a going concern.

2. BASIS OF PREPARATION (cont'd)

Significant Accounting Judgments and Estimates (cont'd)

Estimates

The effect of a change in an accounting estimate is recognized prospectively by including it in comprehensive loss in the year of the change, if the change affects that year only, or in the year of the change and future years, if the change affects both.

Estimates and judgements are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimates are revised and in any future periods affected.

Information regarding significant areas of estimation and uncertainty made in applying accounting policies that have the most significant effect on the amounts recognized in the consolidated financial statements are the following:

Share-based payments

Judgment is applied in determining the share price to be assigned to shares issued to enter into mining lease agreements.

Recovery of deferred tax assets

Judgment is required in determining whether deferred tax assets are recognized in the statement of financial position. Deferred tax assets, including those arising from unutilized tax losses, require management to assess the probability that the Company will generate taxable earnings in future periods, in order to utilize recognized deferred tax assets. Estimates of future taxable income are based on forecast cash flows from operations and the application of existing tax laws in each jurisdiction.

Additionally, future changes in tax laws in the jurisdictions in which the Company operates could limit the ability of the Company to obtain tax deductions in future periods.

Determination of functional currency

In accordance with IAS 21 *The Effects of Changes in Foreign Exchange Rates*, management determined that the functional currency of the Company and its subsidiary is the Canadian dollar.

Other significant accounting estimates include the amounts accrued for restoration liabilities.

Foreign Currency Translation

Foreign currency transactions are initially recorded in the functional currency at the transaction date exchange rate. At the year-end date, monetary assets and monetary liabilities denominated in a foreign currency are translated into the functional currency at the year-end date exchange rate.

Non-monetary items measured at historical cost are translated using the historical exchange rate. Non-monetary items measured at fair value are translated using the exchange rates at the date when fair value was determined. These foreign currency adjustments are recognized in profit and loss.

2. BASIS OF PREPARATION (cont'd)

Foreign Currency Translation (cont'd)

On consolidation, the assets and liabilities of foreign operations are translated into Canadian dollars at the rate of exchange prevailing at the reporting date and their income statements are translated at the average exchange rates for the reporting period. The exchange differences arising on translation for consolidation are recognized in other comprehensive income or loss. On disposal of a foreign operation, the component of other comprehensive income or loss relating to that particular foreign operation is recognized in profit or loss.

3. CHANGE IN ACCOUNTING POLICY

During the year ended December 31, 2016, the Company retroactively changed its accounting policy for acquisition, exploration and evaluation expenditures. Under the previous accounting policy, the Company capitalized all costs relating to the acquisition of its interest in mineral properties excluding mining lease agreements.

Under the new policy, exploration and evaluation expenditures incurred prior to the establishment of technical feasibility and commercial viability will be charged to operations as incurred.

For all accounting periods up to and including the year ended December 31, 2016, all exploration activities were related to properties under lease and no amounts were capitalized as acquisition, exploration and evaluation assets, except for the Goldridge acquisition for which the acquisition cost was expensed in accordance with the policy; therefore, the consolidated statements of financial position do not require restatement as required by IAS8-Accounting Policies, Changes in Accounting Estimates and Errors.

Management considers this accounting policy change will provide more reliable and relevant information and more clearly represent the Company's activities.

4. RECENT ACCOUNTING POLICY

IAS 7 Statement of Cash Flows

The amendments require entities to provide disclosures about changes in their liabilities arising from financing activities, including both changes arising from cash flows and non-cash changes (such as foreign exchange gains or losses). The amendments are effective for annual periods beginning on or after January 1, 2017.

The following is a continuity of changes in liabilities arising from financing activities for the nine months ended September 30, 2017:

16. EXPLORATION AND EVALUATION EXPENSES (cont'd)

(a) Holmes Property:

On May 14, 2014, the Company entered into a five-year Mining Lease Agreement ("H Lease") with Marcus P. Holmes ("Holmes"), an arm's length party, whereby Holmes leased five (5) unpatented mining claims located in Broadwater County, Montana, USA to the Company for exploration. Per the terms of the agreement, the Company will keep the minerals extracted except oil and gas. To explore the property, the Company paid Holmes an advance royalty payment of \$11,191 (\$10,000US) and issued 1,000,000 common shares valued at \$100,000.

In addition to assuming all underlying payment obligations including governmental taxes, levies and fees, the Company will pay additional advance royalty payments of \$1,000US monthly from June 2014 to May 2019 [Paid - \$51,658 (41,000US) to September 30, 2017]. The H Lease is renewable for additional 5 year terms at \$20,000US per renewal with an advanced royalty payment of \$2,000US monthly.

The Company will pay Holmes a production royalty of 2% of Net Smelter Returns (NSR). Advance royalty payments are credited towards the 2% NSR payable on production. The Company has the option to purchase the 2% NSR from Holmes for a payment of \$2,500,000US.

The Company has the option to terminate the H Lease at any time by providing 30 days written notice to Holmes.

(b) Winston Property:

On July 15, 2014, the Company entered into a five-year Mining Lease Agreement ("W Lease") with Winston Realty L.L.C. ("Winston", a limited liability company), an arm's length party, whereby Winston leased sixteen (16) patented lode mining claims located in Broadwater County, Montana U.S.A. to the Company for exploration. Per the terms of the agreement, the Company will keep the minerals extracted except oil and gas. To explore the property the Company paid Winston an advance royalty payment of \$10,729 (\$10,000US) and issued 2,000,000 common shares in the Company valued at \$200,000.

In addition to assuming all underlying payment obligations including governmental taxes, levies and fees, the Company will pay additional advance royalty payments of \$1,000US monthly from August to October 2014 [Paid \$3,300 (\$3,000US)] and \$2,500US monthly from November 2014 to July 2019 [Paid \$112,690 (\$87,500US) to September 30, 2017] based on minimum quarterly expenditures on the property of \$50,000US or \$200,000US annually [Paid \$2,089,352 (\$1,622,123US) Plus \$1,075,294 (\$814,075US) in Mine Labour to September 30, 2017]. The minimum expenditures are paid up to 2026.

The W Lease is renewable for additional 5 year terms at \$20,000US per renewal with an advanced royalty payment of \$5,000US monthly.

16. EXPLORATION AND EVALUATION EXPENSES (cont'd)

(b) Winston Property (cont'd):

On May 18, 2016, the Company amended the W Lease. The amendment extends the W Lease for an additional 10 years until July 15, 2034 with \$20,000US due at the end of each 5 year period and the continuation of advanced royalty payments of \$5,000US monthly. For consideration of 1,500,000 common shares in the Company valued at \$150,000 (Note 10), the amendment superseded the number of contiguous patented lode mining claims to thirteen (13) and the Company acquired the option to purchase the thirteen (13) Leased claims and the subsurface rights in the Leased property as well as 100 acres of the Company's choice out of 400 acres of land held by Winston for a purchase price of \$2,000,000US. Winston has the right to buy back all rights and terminate the W Lease for \$1US where there is a cessation of all mining, mineral exploration and mineral processing activities for a period of five (5) consecutive years.

The Company will pay Winston a production royalty of 3% NSR if the price of gold is \$2,000US or less and 4% NSR if the price of gold exceeds \$2,000US. Advance royalty payments are credited towards the 3% or 4% NSR payable on production.

The Company has the option to terminate the W Lease at any time by providing 30 days written notice to Winston.

(c) Golden Jubilee Property:

On October 27, 2016, the Company entered into a non-binding letter agreement with a related party, The Gunsinger Group ("Gunsinger") pursuant to which Gunsinger intended to assign to the Company all rights related to 22 unpatented mining claims located in Granite County, Montana (the "Golden Jubilee Property"), along with all equipment and assets situated on or used in connection with the exploration of such mining claims ("Assignment"). As consideration for the Assignment, the Company intended to pay \$500,000 USD and issue 11,000,000 common shares in the capital of the Company to Gunsinger. Completion of the Assignment is subject to obtaining all required regulatory approvals and written consent from the registered owner of the Golden Jubilee Property.

On March 1, 2017, the Company terminated its non-binding letter agreement with Gunsinger on the Golden Jubilee Property.

(d) Goldridge Property:

On February 14, 2014, Goldridge entered into an asset purchase and sale agreement (the "Agreement") with Pan American Fertilizer Corp. ("Pan American") whereby Goldridge purchased the Goldridge property from Pan American for \$100,000; \$60,000 was paid immediately, and \$40,000 was paid within 90 days of the execution of the Agreement.

The Goldridge property is located in north-central Cochise County in Arizona and is comprised of certain patented mining claims, 112 unpatented mining claims, and one leased group of 12 unpatented mining claims.

16. EXPLORATION AND EVALUATION EXPENSES (cont'd)

(d) Goldridge Property (cont'd):

With respect to the 12 leased unpatented mining claims, the Company is required to make advance royalty payments of USD \$8,800 annually. The life of the lease is for as long as the Company owns the rights to the Goldridge property. The lease for the 12 leased unpatented mining claims was originally entered into on June 3, 1993 with the first lessor and the lease was passed along to the Company on the acquisition of the Goldridge property on February 14, 2014. The Company will pay the lessor a production royalty of 3% of net smelter returns ("NSR"). The advance royalty payments are credited towards the 3% NSR payable on production. As the probability of production is currently remote, the advance royalty payment is currently expensed.

On August 1, 2016 (the "Effective Date"), Goldridge entered into a royalty agreement (the "Royalty Agreement") with 1051730 BC Ltd. (the "Royalty Holder"), an arm's length party to compensate the Royalty Holder for their assistance in acquiring the mining properties listed above. The Company agreed to grant a perpetual 1% net smelter return royalty (the "Royalty") on all ores, metals, minerals, mineral rights and other materials under or upon the surface or subsurface of the Goldridge property. The Company agreed to pay the Royalty Holder an annual advance royalty of USD \$25,000 (the "Advance Royalty") due on each anniversary of the Effective Date. The amount of the Advance Royalty shall be adjusted every year on January 1st to reflect changes in the Consumer Price Index (the "CPI"), as computed by Statistics Canada for Vancouver, British Columbia, using as the base for the adjustment the CPI on the Effective Date. The Company has the option, at any time until the date that is five years following the commencement of commercial production, to purchase the Royalty from the Royalty Holder for a purchase price of USD \$1,000,000 (the "Purchase Price"). The amount of the Purchase Price shall be adjusted every year on January 1st to reflect changes in the CPI, as computed by Statistics Canada for Vancouver, British Columbia, using as the base for the adjustment the CPI on the Effective Date. Any amount payable under the Royalty Agreement which is not paid on time shall be subject to interest at a rate of 15% per annum calculated from the due date until the date of the payment.

17. RELATED PARTY TRANSACTIONS

Transactions with related parties are incurred in the normal course of business. Related party transactions have been listed below, unless they have been disclosed elsewhere in the unaudited condensed interim consolidated financial statements. During the nine months ended September 30, 2017, the Company incurred the following charges with related parties that include officers, directors or companies with common directors of the Company:

Included in exploration and evaluation expenses is \$Nil (Jan-Jun, 2016 – \$1,953 [\$1,503 US]) of amounts paid or payable to a director of the Company.

Included in due to directors, current is \$3,744 [\$3,000 US] (December 31, 2016 - \$11,455 [\$8,000 US]) and \$175,000 (December 31, 2016 - \$Nil) due to directors of the Company. (See Note 7 for amounts due to directors).

17. RELATED PARTY TRANSACTIONS (cont'd)

During the nine months ended September 30, 2017, management fees to directors were \$200,000 (December 31, 2016 - \$20,000).

During the nine months ended September 30, 2017, the Company did not grant stock options to directors and officers. During the year ended December 31, 2016 the Company granted 1,600,000 stock options to directors and officers of the Company, resulting in share based payments of \$235,974.

18. CAPITAL RISK MANAGEMENT

The Company's objective when managing capital is to maintain its ability to continue as a going concern in order to provide returns for shareholders and benefits for other stakeholders.

The Company includes shareholders' equity, comprised of issued share capital, share purchase warrant and deficit, in the definition of capital.

The Company's primary objective with respect to its capital management is to ensure that it has sufficient cash resources to further exploration on its properties. To secure the additional capital necessary to pursue these plans, the Company will attempt to raise additional funds through the issuance of equity, debt or by securing strategic partners.

The Company is not subject to externally imposed capital requirements and there has been no change with respect to the overall capital risk management strategy during the nine months ended September 30, 2017.

19. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES

The Company is exposed to a variety of financial risks by virtue of its activities. In particular: market risk (composed of currency risk), liquidity risk, fair value risk and credit risk. The overall risk management program focuses on the unpredictability of financial markets and seeks to minimize potential adverse effects on financial performance.

Risk management is carried out by management under policies reviewed by the Board of Directors. Management is charged with the responsibility of establishing controls and procedures to ensure that financial risks are mitigated in accordance with the approved policies.

a) Market risk:

Currency risk:

Foreign exchange risk arises from purchase transactions as well as recognized financial assets and liabilities denominated in foreign currencies.

The Company is exposed to currency risk through the following financial assets and liabilities denoted in United States dollars:

19. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES (cont'd)

a) Market risk (cont'd):

Currency risk (cont'd):

	September 30, 2017	December 31, 2016
	\$	\$
Cash	173,890	43,890
Prepaid expenses and deposits	30,846	55,847
Accounts payable and accrued liabilities	109,770	128,531
Debenture principal & interest	668,215	-
Due to directors	3,000	-

The above balances were translated into US dollars at the period-end rate of \$1.2480 (December 31, 2016 - \$1.3427) Canadian dollars to every US dollar.

Based on the above net exposures as at September 30, 2017, assuming that all other variables remain constant, a +/- 5% change in the Canadian dollar against the United States dollar would result in an increase/decrease in net loss of approximately \$35,960 (2016 - \$3,880).

b) Liquidity risk:

Liquidity risk is the risk that the Company will not be able to meet its obligations as they fall due. The Company manages its liquidity risk by forecasting cash flows from operations and anticipated investing and financing activities. Senior management is also actively involved in the review and approval of planned expenditures.

As at September 30, 2017, the Company had a working capital deficit of \$209,672 (December 31, 2016 – working capital of \$1,296,185). As at September 30, 2017, the Company had cash of \$283,633 (December 31, 2016 - \$1,344,052) to settle current liabilities of \$541,801 (December 31, 2016 - \$269,716) that are considered short term and expected to be settled within 30 to 90 days.

As a result, the Company has liquidity risk at this time and is dependent on raising funds from external sources. Since the Company does yet earn revenue, it will be required to raise additional capital to fund exploration and operations.

19. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES (cont'd)

b) Fair value risk:

Fair value represents the amounts at which a financial instrument could be exchanged between willing parties, based on current markets for instruments with the same risk, principal and remaining maturity. Fair value estimates are based on quoted market values and other valuation methods.

The carrying values of cash, reclamation bonds, accounts payable and accrued liabilities and due to directors approximate fair values due to the relatively short term maturities of these instruments.

c) Credit risk:

Credit risk is the risk of an unexpected loss if a third party to a financial instrument fails to meet its contractual obligations. The Company is exposed to credit risk with respect to its cash, and reclamation bonds. The Company reduces its credit risk by maintaining its primary bank accounts at large financial institutions and its reclamation bonds with government agencies.

20. ACQUISITION OF GOLDRIDGE HOLDINGS LIMITED

On September 2, 2016, Winston entered into a share exchange agreement contemplating the acquisition of Goldridge whereby Winston acquired all of the issued and outstanding common shares in the capital of Goldridge (the "Arrangement"). Goldridge shareholders received one common share of Winston for each Goldridge share (the "Share Exchange Ratio") and certain shareholders of Goldridge received cash payments. The Arrangement closed on October 4, 2016.

The acquisition of Goldridge by Winston constitutes a "major acquisition" under the policies of the Canadian Securities Exchange. In accordance with IFRS 3, *Business Combinations*, the Agreement does not meet the definition of a business combination as the assets acquired are not an integrated set of activities with inputs, processes, and outputs.

The purchase price of \$13,906,577 was allocated to the assets acquired and the liabilities assumed with financial instruments recorded at fair value and other non-financial assets and liabilities recorded at their relative fair values. As per the Company's accounting policy, the amount allocated to the mineral property of \$13,935,578 was immediately expensed. The Company issued 27,250,000 Winston common shares in exchange for all of the issued and outstanding common shares of Goldridge and made cash payments totaling \$230,475 (USD \$175,000) to certain shareholders of Goldridge. After this issuance, the Company had 73,309,348 shares issued and outstanding, with former Goldridge shareholders holding approximately 37% on an undiluted basis.
