

Global Links Acquires ‘MainStreetChamber’ National Business Networking Organization

LAS VEGAS, August 28, 2014 – Global Links Corp. (OTC: [GLCO](#)) today announced that the Company has acquired national business networking organization ‘MainStreetChamber’ (MSC).

MainStreetChamber develops and engages a wide network of business professionals in local marketplaces across the nation by offering free membership and networking events. MSC’s local groups are run by Chapter Presidents who serve to promote business in their area and the company offers a no-cost platform in order to reach more businesses and build a very strong national organization.

MSC will utilize the buying power of its member base to negotiate exclusive rebate and discount programs with national retail corporations whereby its members will receive specific rebates or discounts on their products and services. MSC will then generate revenue in the form of a monthly commission paid by these corporations based on the amount of business it generates from MSC’s members. The larger MSC’s membership base becomes, the stronger the discount rate and rebate programs can benefit the members as well as its organizational structure.

Global Links’ management also cites the acquisition as a strategic move that will strengthen the business of its subsidiary company, BXI Trade Exchange as well as MSC. Both companies are currently offering business opportunities by opening local offices.

Frank Dobrucki, President of Global Links, commented, “MainStreetChamber is a perfect fit for Global Links and will create a strong synergy with our subsidiary BXI Trade Exchange, which will offer MSC’s members with new ways of conducting business through its barter process. Both organizations will be able to refer members to each other which will simultaneously increase the value of both companies as each business’s strength is predicated on the size and strength of their member bases. This will in turn increase Global Links’ revenue and increase shareholder value.”

“As the size of MainStreetChamber grows and its purchasing power increases, Global Links expects to generate significant revenues by generating larger and larger commissions from national companies that we work with by establishing exclusive retail discount and rebate programs that benefit all parties involved,” added Mr. Dobrucki.
