

Blue Diamond Ventures, Inc. and Harvest 360 Technologies Finalize Partnership with Cannabis Industrial Marketplace B2B Expo and Seminar Series

Chicago, March.27th, 2019 -- Blue Diamond Ventures, Inc. (OTC Link: BLDV), an emerging Medical Cannabis BioTech player will become a permanent sponsor of the Cannabis Industrial Marketplace expos across the United States, in 2019 and beyond.

Harvest 360 Technologies LLC of Denver Colorado, a wholly owned subsidiary of BLDV will present their Medical Cannabis Technology Forum in conjunction with the Cannabis Industrial Marketplace (CIMP) series of expo's throughout the country. This forum highlights emerging technologies in the Cannabis space and provides a platform for discussing the future of medical applications in the industry, seamlessly blending with CIMP's expert seminar series.

"We are seeing that the business is attracting qualified professionals from multiple industries that are bringing solid skills and understanding of process / production on industrial scale into the cannabis space" say Josh Alper CEO of BLDV and GM of Harvest 360 Technologies LLC, "There are many people coming in with a good understanding of science that are interested in applying their skills in a new growing industry. Built from the ground up, CIMP is attracting newcomers in large numbers that are interested in breaking into this industry. MJ BizCon and CannaCon have been taking a top down approach, and are trying to use national brands to drive the expo, which doesn't resonant the same way with locals and business owners breaking into this market, nor does it provide the same type of opportunities. CIMP is really building a bridge to local communities and new support entities, this is critical in an industry with 50 different sets of regulations across the country."

The Medical Cannabis Technology Forum will run as a show inside the CIMP Expo's and will makes it's full debut in Chicago in September. However BLDV and H360 will provide featured speakers and exhibit at the CIMP expos in Oklahoma and Missouri, prior to the Chicago expo.

"The addition of Blue Diamond Ventures and Harvest 360 in our seminar lineup will add a layer of expertise and depth in the medical Cannabis space perfectly filling out the information sought by business owners and entrepreneurs at the CIMP expos, said " Jen Wynn, CIMP's Vice President of Expositions. " -- We are excited to have Joshua and his team join our expos and look forward to providing our attendees with the fullest possible level of business information."

Through this top shelf lineup of expert industry speakers solely focused on business within each expo; the Cannabis Industrial Marketplace is poised to be a major player in the industry, BLDV and H360 will use it as a launchpad to activity of all kinds.

About BLDV

Blue Diamond Ventures, Inc. seeks to partner with individuals and companies that share a common synergy, mission and vision to enable products/services that are produced ethically,

delivered and consumed responsibly, while utilizing fewer natural resources and providing a sustainable alternative to traditional methods in the market today. As a diversified customer, centric Management / Holding Company; Blue Diamond Ventures, Inc. seeks opportunities in Medical Cannabis markets and is driven by critical thinking and the scientific method.

About Cannabis Industrial Marketplace

The foundation of the Cannabis Industrial Marketplace, “The Business of Cannabis” is a free to use online sourcing tool of nearly 4,000 Cannabis friendly suppliers. The online resource is utilized by Cannabis cultivators and dispensaries to find new business partners. - Coupled with this online presence, CIMP also produces a series of expos and educational cannabis business seminars in emerging markets across the United States.

The Feb 2019 Michigan Cannabis Business Expo and Summit was the first in the series followed by annual expos in Oklahoma, Missouri, Chicago, Florida, and Arizona.

CIMP, LLC is a sister company of Strategic Market Solutions, LLC (SMS) and TotalWeb Partners (TWP) of Mt. Morris MI. SMS and TWP have been working in the B2B space for the past decade helping Midwest industrial companies secure highly qualified leads. CIMP is now implementing this proven B2B lead generation strategy within the Cannabis Business Marketplace.

About Harvest 360 Technologies LLC

Harvest 360 Tech grew out of the mission of CEO Todd Scattini to find a way to bring relief to persons suffering from acute and chronic conditions with Medical Cannabis. Harvest 360 Tech is built on that foundation and the commitment of propelling businesses into the most productive, efficient, and compliant positions by licensing patented innovations, and providing technology solutions, including management of implementation.
