General Warranty Provisions

Note - See engine and machine warranty documents for specific provisions and exclusions. Except for expendable items such as fluids, filters, belts, wiper blades, bulbs etc. the 580CL is warranted for total machine coverage for 12 months from date of commissioning or 2000 hours – whichever comes first. Also included is a structural warranty of 24 months – 4000 hours, whichever comes first. Any parts replaced under warranty will be supplied free of charge, including freight. Customer to pay all taxes, duties, customs fees etc. Defective parts may need to be returned at C&C expense if requested. No warranty expense will be paid unless pre-authorized by C&C factory based service department representative. This warranty is void if payment in full is not made in accordance with the invoice terms.

Important Notes:

1. C&C will build machine in its standard configuration as if it was to be operated in USA/Canada with no additional certifications expressed or implied.
2. Unless otherwise agreed, the price basis for the machine is very strictly ex-works C&C factory Ottumwa, Iowa USA.
3. Unless otherwise agreed, prior to acceptance of an order to supply equipment a company in the local area where the machine will operate capable of performing maintenance and service work on the equipment must be identified and be acceptable to the C&C's Vice President of Service. C&C will provide training and documentation to the nominated company on C&C machines they will service.
4. Set-up and commissioning will be done at a mutually agreeable location and time.
5. Any parts required to support the machine will be shipped on an ex-works basis. (This does not include any parts shipped under warranty).
6. Cancellation: Any deposits on purchase price or proceeds thereof if sold may be retained by seller as liquidated damages for breach of contract if purchaser fails or refuses to take goods ordered when ready for delivery.
7. **Customer assumes the responsibility to always provide fuel and fluids for the machine that meet or exceed manufacturer's recommendations. Schedule for fluid changes must be strictly adhered to and properly documented as noted in operator manual. Any engine or machine damage caused by using contaminated fuel or fluids that do not meet manufacturer's specifications will not be covered under C&C and manufacturer's warranties. If machine is being operated in difficult environment it is recommended that service intervals be shortened.**
