## **Grand River Bank Opens New Regional Office**

Grandville, MI, April 12, 2021 – Grand River Bank recently opened its newest full-service banking office at 50 Crahen Avenue, NW in Grand Rapids. The Bank partnered with Cascade-based BDR, Inc., developer of the project, to create the impressive and easily accessible facility at the intersection of Crahen Avenue, NE and Fulton Street East.

The new office will enhance the Bank’s growing presence in the Ada/Cascade area. A regional banking center, the office will house retail bankers, commercial and mortgage lenders, operations personnel and administrative staff. The Bank’s proprietary courier service, which provides safe, convenient in-person banking to businesses, nonprofits, and governmental entities will also operate from the new location.

“We’re pleased to have opened our new regional office,” said Liz Bracken, President, CFO, and COO. “Although the pandemic lengthened the construction timeline, it also created the opportunity to modify design elements and mechanical systems to create an exceptionally safe and welcoming environment.”

As public health conditions permit, the Bank plans a grand opening celebration later this year.
