

Rooshine wins big at the 2021 China Wine and Spirits Awards

ORMOND BEACH, Florida – August 31, 2021-- Rooshine, Inc. (OTC PINK: RSAU) (“Rooshine” or the “Company”), an importer, distributor, and seller of premium alcoholic spirits, is happy to announce the results of the 2021 China Wine and Spirits Awards. “CWSA is ‘the most influential wine and spirits competition in the world’ according to CNN, as the CWSA Judges are responsible for sales of 90 million bottles of wines and spirits per year.” This year’s CWSA competition was the largest on record in recent decades. Rooshine’s products were triple-blind tasted by 100 of Hong Kong and China’s top Importers, Distributors, Sommeliers and Hoteliers. From this highly competitive field of participants Rooshine’s First Mate Blended Whisky took home a Double Gold Medal, Mutiny Spiced Rum received a Silver Medal, and our newest product, Skyline Gin received a Gold Medal.

Max Gomez, Rooshine’s Chief Executive Officer said “As a team, we’ve always been confident in the quality of our products, and of our unique and proprietary oak aging process. That confidence has been further bolstered by the tremendous honor bestowed upon us by the CWSA Board against the finest and largest selection of brands in this year’s competition.”

About Rooshine, Inc.

The Company was formed under the laws of the State of Nevada in April 1998. The Company's business is the importation, distribution and sale of alcoholic spirits. Rooshine, Inc. was formed with the desire to produce high quality premium spirits infused with natural ingredients and no artificial additives. To that end, Rooshine, Inc. has partnered with International Spirits Vault, Ltd. to develop a patented proprietary method that leverages electromagnetic pulse technology to accelerate the aging process of the spirit while in the barrel. Unlike other accelerated maturation processes on the market, Rooshine, Inc does not denature the spirit through boiling or pressurization, but rather accelerates the natural aging process by expanding the surface area of the barrel through the use of electromagnetic pulses. Through the use of this process Rooshine is able to reduce the maturation process from years to a matter of days or weeks, while infusing the spirit with the essence of the barrel’s conditioning. As a result of the enhanced speed and the fact that the accelerated aging process can occur in the barrel, Rooshine is able to cycle a single spirit

through multiple barrel/wood combinations to develop unique flavors that would otherwise take decades or perhaps even centuries to produce.
