

Heesen Motor Yacht "OCTOPUSSY" Sold

MIAMI, FL - September 28th, 2021

Victory Marine Holdings (OTCPK.VMHG) is proud to announce the sale of "OCTOPUSSY"

The ultra-fast 43.58 meter [Heesen](#) motor yacht Octopussy, listed for sale by Chris Callahan from [Moran Yacht & Ship](#), has been sold with Orlando Hernandez at [Victory Yacht Sales](#) introducing the buyer.

Built in aluminum by Dutch yard Heesen to a design by Gerhard Gilgenast, she was commissioned by American entrepreneur [John Staluppi](#) with the aim of breaking

through the 50-knot barrier. Delivered in 1988, she top out at 53.17 knots, becoming the fastest superyacht in the world.

Octopussy was later refitted and lengthened to provide even more room for its guess and owner, Octopussy can now easily reach a cruising speed of 25 knots while holding the ability to reach a top speed of 32 knots. Power comes via triple 3,500hp MTU diesel engines linked to three [KaMeWa](#) water jets.

In her latest refit in 2015 a luxurious interior by Art-Line comfortably accommodates 10 guests in five cabins consisting of a master suite, VIP suite, two doubles and a twin, all with Samsung Smart television screens, entertainment center and full en-suite bathroom facilities.

A standout feature is her vast main saloon decorated in vibrant colours, seating on couches and occasional chairs, a bar and an entertainment centre including a 55-inch Samsung television screen. Forward is a formal dining area with seating for 12 guests. Floor to ceiling glass doors open fully to the main deck aft, offering all the facilities for al fresco dining in comfort.

She is a great charter platform, and I could not think of a better Bahamas boat. She has a shallow draft, so you can go right up to beach. With her speed, you can cover a lot of ground island hopping, getting there and back quickly.

Octopussy will be joining the charter market in the weeks to come, she will be based in Miami, FL to serve South Florida, Bahamas, and The Caribbean.

Octopussy was asking \$3,995,000.00
