FOR IMMEDIATE RELEASE

PREDICTIV AI TERMINATES ITS SMRT LABS JOINT VENTURE

Toronto, Canada, November 16, 2021 – **Predictiv AI Inc.** (TSX-V: PAI; OTC: INOTF; FSE: 71TA) (“**Predictiv AI**” or the “**Company**”), www.predictiv.ai, a software and solutions provider in the artificial intelligence markets, today announces the termination of its joint venture by transferring its 51% interest in SMRT Labs Inc. (the “**joint venture**”) to its partner, Commersive Solutions Inc. The termination agreement released Predictiv AI from all current and future obligations and liabilities related to the joint venture.

SMRT Labs was the business unit that was tasked to bring the ThermalPass offering to market. While there was early sales traction for ThermalPass units, the joint venture was unable to meet its sale targets as a result of changing regulations and the market landscape for COVID-19 driven solutions. PAI was advancing its portion of required funds into SMRT Lab’s business, and it decided to terminate the joint venture and focus on its Weather Telematics business unit, which provides immediate business opportunities. Weather Telematics’ Data-As-A-Solution platform is gaining early traction in weather data science, a rapidly growing market in the area of predictive analytics.

About Predictiv AI Inc.

Predictiv AI Inc. www.predictiv.ai is a technology company which helps businesses and organizations make smarter decisions using advanced artificial intelligence, deep machine learning and data science techniques. Its Weather Telematics Inc. subsidiary uses patented air quality monitoring sensors to provide predictive weather risk information to the fleet management, logistics, insurance, and public safety sectors. The Company’s R&D division, AI Labs Inc., develops new products that solve real-world business problems.
