

Livewire Ergogenics Launches Online Sales Portal For Nationwide Estrella Product Offerings

Anaheim, CA, October 29, 2024 -- LiveWire Ergogenics Inc. (OTC: LVVV), a pioneering force in the cultivation, development, and marketing of high-quality, handcrafted cannabis products for medical and recreational use, announced today the opening of its “Sol Vida Wellness” Online Store, for the sale of its unique **SOL VIDA WELLNESS** Product line in select states across the US.

Over the last year, Livewire and its affiliate Estrella River Farms have developed a line of unique stand-out products, the “**SOL VIDA WELLNESS**” branded product line. The product line is focused on delivering unique, easy-to-use, high-quality cannabis products to our distribution partners for sale in California and throughout the US, depending on their configuration as THC or Hemp-derived THC/CBD products. SOL VIDA products are sold through distributors, dispensaries, delivery services, and the Estrella Online Store for nationwide hemp-derived THC products, reinforcing our commitment to broad availability for all consumers of quality cannabis and hemp products.

Bill Hodson, CEO of LiveWire, states, “We have spent the last year molding our multi-year Estrella Ranch cultivation and manufacturing experience into developing an exceptional product line that has already received rave reviews and feedback from our distribution partners and customer focus groups. In addition to marketing the products through traditional distribution and retail channels, we have created the **SOL VIDA Online Store** ([Estrella River Farms](#)) for easy online access, credit card payment, and delivery to select States where the hemp-derived product is legal to sell.”

SOL VIDA Calm Euphoria - This is our first entry in a wide selection of elixirs to come. Sol Vida Calm Euphoria combines nature's pure essence with an unflavored cannabinoid elixir spray designed for those who appreciate the subtlety of hemp-derived THC without any added flavors. Each spray delivers a precise dose of high-quality cannabinoids, harnessing the smooth, natural benefits of the hemp plant while maintaining an unadulterated profile.

Sol Vida’s formulation captures the gentle, earthy notes inherent in hemp, providing a smooth experience. This versatile elixir is perfect for micro-dosing and on-the-go use, allowing you to integrate the therapeutic properties of cannabinoids easily and discreetly into your daily routine.

Crafted by our team with care and precision, Sol Vida ensures you receive the full spectrum of hemp's benefits, promoting balance and wellness without distractions. Elevate your self-care ritual with the simplicity of Sol Vida, where nature meets convenience.

Sol Vida Euphoria – Buy Here

Meet the entire Product Line – Ready for Pre-Order

Our team of experienced cultivators and developers has applied years of cultivating experience to introduce the unique SOL VIDA retail product line using proprietary Estrella Ranch cultivation strategies. This includes selecting specialized living soil and liquid nutrients and applying a proprietary manufacturing process to produce the SOL VIDA sprays in different variations and bring them to the domestic cannabis and hemp market to satisfy the increasingly sophisticated customer demand for unique and high-end products. SOL VIDA Calm Euphoria is available for immediate purchase at the [Estrella Online Store](#), and customers will soon be able to purchase additional products on the site.
